1Driving: From Broadsure Direct / Subject access request – "Lorraine, as per telephone conversation today please find a screen print from the insurance company KGM confirming that vehicle reg CX52 JRZ should be showing on the database. I have today contacted the MIB and spoken to a young lady named Sam who has confirmed the vehicle in question IS showing as insured with KGM Insurance, there seems to be an issue with the ASK mid database but Sam has assured me that the Police National Computer accesses the MID direct and this should not cause a problem. If the police contacted the MIB regarding the vehicle they will confirm that the vehicle is insured under policy number MT3574694."

Mr. petal also never told the insurance company about the building being squatted he only said the building was broken into.

There was more said but the end part is really we help them they help us and Mr. Trevor Allaway said that we need to get Simon's solicitors to set a meeting with Nikki Diamond so a statement can be taken from Nikki Diamond about the claims. Do you have an email for Nikki Diamond and do they have an office in London?
I will need a statement from Nikki Diamond re the photographs to have them admitted as evidence.

Josephine

Hi Josey
As said on the phone to you we had a meeting with the insurance man Mr. Trevor Allaway today, the meeting went well for both of us in the fact that information was given on both side and the Trevor Allaway said this will help both of us. There is some fact he told us and confirmed that with Nikki Diamond while here on the phone as Nikki Diamond was the main person dealing with the insurance claim before I talked to her on the phone some time ago about the claim Mr. Patel & D Patel had put in. She then handed it over to Trevor Allaway. We have been told that the problem the insurance company had with the claim that was put in **Feb 2013** was that they did not believe them. When taking out insurance you have to state the conduction of the property, they believe he did not do this correctly as when the damage was reported and Nikki Diamond went to see the property the damage and conduction to the property did not look correct at all. He also said that he is not insured for the contents in the building. He only has insurance for the building. The insurance company also said that it is down to the owner to keep the building in a conduction of repair which was not the case when Nikki Diamond went to see it on the **28/03/2013** you could see there was damage that was
399,
being claimed for that was done a lot earlier. And the building was not kept to a good state. There are 3 cases that have been put in total in damage on the invoice that was put in was under one invoice as Mr. Petal told the insurance company, he could not see what damage had been done when this is why the case was joined together after he put the claim in on the **07/06/2013** the invoice was for a total cost of £40,000. The dates claims were made for are **16/02/2013** after the party **25/03/2013** a next claim was put in for the alarm. Which he was meant to have fixed but I sure he did not as there was a next break in on that date. Nikki Diamond then went to see the building for the 1st time on the **28/03/2013** she took pictures of all the damage at this time. Then they put a next claim in on the **07/06/2013**
Now when Nikki Diamond went to the building on the **28/03/2013** and took pictures of the damage, they are the same as the pictures the police took of inside the building in **May 2013,** nothing had been done to that building the mess was still there where the stock was, and the list of damage they have for the earlier case is all the damage the roof the brick walls the graffiti, the front fore door, the alarm, the staircase and more was listed. This damage to this building was there when Nikki Diamond went to see the building on the **28/03/2013** so how could Simon have done any of this damage. Mr. petal also never told the insurance company about the building being squatted he only said the building was broken into. There was more said but the end part is really we help them they help us and Mr. Trevor Allaway said that we need to get Simon's solicitors to set a meeting with Nikki Diamond so a statement can be taken from Nikki Diamond about the claims. I asked him will she do this and he replied yes, she will do a statement about the case for Simon. He also said he needs to go back and have a think about what to do with this claim as some of the things he was told by us. So, can you please set up a meeting with Nikki Diamond to take a statement from her for Simon Case.
Lorraine/Simon

Worthwhile is a must towards the way I must get left to feel after sending the correct fair responses for issues to be repaired to the Enfield Councils and the Enfield Homes complaints departments in collaboration with their policies, but as a client I am not made by the staff to continue on having this worthwhile positive feeling and find myself getting let down by them on stead!

2 An Email from my Solicitor: Gazebo Case - "Thank you for your email. As I advised you on Monday, I would arrange an appointment with Nikki this coming week for either myself or a colleague to take a statement. This is subject to her convenience. With regards to Third Party Disclosure, this now no longer applies as Nikki is willing, you say to disclose her file to us. If she is not then we rely on Third Party Disclosure again. The Section 8 application has been requested from Jemi and I am awaiting his response. I will update you again next week with a confirmed time for the appointment with Nikki. I have been tied up for three days at Snaresbrook Crown Court and will be again on Monday and Tuesday of this week. I have a client who is facing a lengthy / possibly discretionary life sentence and the client is vulnerable. This requires me to attend court on a regular basis on short notice. There are still disclosure issues in that case and I anticipate that the trial will start on Tuesday so I can turn my attention to all other outstanding cases. I hope this clarifies the above and I will of course confirm the date and time that we will be taking the statement from Nikki."

I have a client who is facing a lengthy / possibly discretionary life sentence and the client is vulnerable. This requires me to attend court on a regular basis on short notice. There are still disclosure issues in that case and I anticipate that the trial will start on Tuesday so I can turn my attention to all other outstanding cases. I hope this clarifies the above and I will of course confirm the date and time that we will be taking the statement from Nikki.

Thank you for your email. As I advised you on Monday, I would arrange an appointment with Nikki this coming week for either myself or a colleague to take a statement. This is subject to her convenience. With regards to Third Party Disclosure, this now no longer applies as Nikki is willing, you say to disclose her file to us. If she is not then we rely on Third Party Disclosure again. The Section 8 application has been requested from Jemi and I am awaiting his response. I will update you again next week with a confirmed time for the appointment with Nikki. This could not be done in this case as I was waiting confirmation of the dates and location of the restaurant, night club etc. The added difficulty is the attitude of the Court to previous bail applications and also to our defence case statement. There is reference to Monaco chairs. I have raised this issue with Jemi and I have asked him what he wishes to do tactically in relation to this matter. I state this for the following reason Mr. Patel will have to give evidence in the witness box regarding his claims to the insurance company. He will also have to give evidence in relation to the statement that he made to the police in relation to the Venice chairs he alleged in his section 9 statement that he recognized. At present he has not produced an invoice confirming that he was ever in possession of the Venice chair. He will be asked about this when he is giving evidence. We will be seeking stock movement also as the goods were delivered on 19th January **2012** and allegedly stolen in February **2013**, we will be seeking confirmation of the movement of stock from the premises. I will also be emailing the CPS to make arrangements for the original invoice for the purchase of the gazebo seized from your rear garden to be examined and agreed prior to the trial. Please confirm that you are still in possession of the original invoice in order that I can do an addendum to your defence case statement. I will be requesting that the CPS take a detailed statement from Mr. Patel together with invoices, delivery notes and stock movement from the premises at Unit 3 Horrison's Industrial Estate."1.

Hi Lorraine / Simon
Sorry to hear that you have been unwell.
The date of **30th April 2013** is not significant and does not add to the prosecution case. This is the date preferred by the prosecution. As you are aware the premises being checked and being secured by Mr. Patel will be open to rigorous cross - examination. The date used by me in my letter is the date specified int eh indictment that is before the court. I will amend my letter and specify that Simon was there to hire his equipment. It would be helpful if Simon can bring to the meeting on Friday a copy of the invoice confirming this and also any company accounts that he has kept since the start of his company to show that he is in business. The statement from Nikki Diamond will follow after the Insurance company discloses the claims made by Mr. Patel, whether voluntarily or by Third Party disclosure. I am in possession of the interview tape of Simon which you can listen to at my office. I will see if Anthony can burn a copy so

that Simon can bring it to you. I will update you once I receive confirmation from the insurance company.

The dates are wrong Mr. Patel left the building at 14.00 on the **01st May 2013** and then did not return till **8th May 2013** at 10.30 so he knew the building was ok until the **01st May 2013** not sure why the **30th of April 2013** has been put in. also Simon was charged with Burglary, and this is what we have told the insurance company he was charged with when we had the meeting. Our client has denied any involvement in the burglary matter but concedes that he was a DJ at a party hosted by persons who had established a legal squat at the commercial premises. Our client further contends that when he arrived at the premises in **May 2013** the wall had already been damaged and he also contends that this damage had been done at an earlier date back in **February 2013** when there was another private party. He was not a DJ at the party he was there due to Hiring his sound system out. Also, Simon still wants a statement from Nikki Diamond taken, as he feels if the statement was taken then this could help his case now in the fact if this was shown to the crown, they would have to look at this impact on the case, it would also help Simon case for her to stand up in court in front of the jury and say what went on within the claim that Mr. Patel made.

Disrepair!
I continue to stay overwhelmed by the circumstances that I get made to live in by the Enfield Council and the Enfield Homes department's months after they have gotten notified about my issues of concern and as a knock-on effect, I have no other option other than to suffer because of the staff's neglect towards my life!

1 **An Email from my Solicitor:** Gazebo Case / Simon Cordell application to transfer legal representation - "Simon Further to your telephone conversation with me today during which you have accused me of not representing you correctly and not defending your case properly you leave me with little choice but to list the case at Woolwich Crown Court in order that your legal representation order can be revoked. I am cancelling your 2pm conference with me for Tuesday 04th February **2014** I am not prepared to be subjected to threats about you blackening my name over Facebook. I work very hard for all my clients and my track record as a Criminal defense Solicitors attests to that. I have represented you since you were a juvenile to the best of my abilities, and I have never not defended a client properly or tried my best for my client. You stated that during the telephone conversation that the Judge asked you to change your solicitors at the last bail hearing on Christmas Eve. As you are aware, I was on annual leave from 23rd December **2013** I made the bail variation as requested and you were not happy as the court did not suspend your curfew. That is the simple fact of the matter here. You also stated that during a conference with Jemi, the barrister that I appointed for you that he also advised you that I was a poor solicitor and not acting in your best interests. You only raised this today and I will most certainly be taking this accusation up with Jemi and his clerks. I asked you to confirm this in writing and you have refused to do this. I again ask you to confirm this in writing as Jemi will have to respond to this allegation. I will be asking Jemi and his clerks to comment on the allegations that you have made. You will of course appreciate that if Jemi does not agree with your accusations that he will probably refuse to represent you. You are accusing him of slandering my reputation by saying that Jemi says I am not representing you properly and that he advised you to change your solicitors. With regards to your complaint in relation to the bail variation you were asked in a number of emails to provide full details of your plans, venues etc. and you did not do this, instead you shouted down the phone and refused to give specific instructions. When you eventually did give the requested information, it was too late to apply to have the bail position varied. I suspect you know what the court's attitude to the requested variation would be in any event. With regards to the request for the original receipt I have to provide this to the court in an addendum to your defense case statement and the police will then make their enquiries. I am sorry that this position has arisen, but you have left me little choice in the matter. I wish you good luck with your case and I will confirm the date that your case is listed for the revocation of legal aid. I will aim from Tuesday or Wednesday of this coming week. Can you please confirm by return email the advice that Jemi gave you at your conference at Isleworth Crown Court and also please confirm why it took you so long to raise it with me? You telephoned

me on a Sunday, reserved for emergency phone calls. You should have raised it back when you had the conference with Jemi. You have raised it now and I will deal with the accusations now. I await hearing from you by return email with regards to Jemi.

3 An Email from my Solicitor: Gazebo Case / Simon Cordell application to transfer legal representation - "It is 10.47pm. I do not have Simon's file at home with me. I will ask Jemi to respond to the allegations made by Simon re his conference on 13th December **2013**. At the same time, I will ask him and his clerks to respond to why the Christmas bail variation was not made on 19th December **2013**. As you are both aware, I was on annual leave until 06th January **2014**. Simon's case is listed for trial in June **2014**. There is enough time to secure the information but there is a process. With regards to the section 8 application Jemi has been on notice that this has been required since before Christmas. A detailed defense case statement was submitted and as a result of this document and the Crown's failure to disclose the requested items that the Third-Party Disclosure arise as did section 8 application. If the Insurance company believe Mr. Patel has committed a fraud, then it is their decision whether he is prosecuted. Nikki Diamond has to confirm her unwillingness to disclose the file before I can apply for Third Party Disclosure. I cannot take a statement from her as part of her statement will require her to disclose and exhibit as part of that statement the original insurance claims and she cannot do this as client confidentiality arises. Re Simon's most recent request to vary bail, he did not provide the information when requested. I have dealt with this point already as I have re the Third-Party Disclosure and the section 8 application. I am not prepared to have my professional judgement or integrity called into question. Simon threatened to blacken my name on Facebook Lorraine. I am reliant on instructions from my client re bail variations. I am reliant on Counsel drafting applications re section 8. I drafted Simon's original bail application and defense case statement well within the time limits. All

other requests to vary bail I have made. Due to the number of bail variations Simon is aware of the process and trying to get the variations agreed administratively. He is also aware of the attitude of the Court to his case and the issues regarding Simon's case when I am on leave, I have no control over. Simon himself caused problems in this case by **(a)** his behavior on arrest **(b)** his comments to police when the police were at his house re the number of items bought as a job lot. There was no evidence of this apart from what came from Simon himself. **(c)** The gazebo in his garden was easily dealt with as he had the original receipt **(d)** Simon ignoring legal advice in his interviews (e) Simon's inaccurate interpretation on the law on burglary and what squatters can and cannot do whilst squatting in a building. There is a risk that Simon will be convicted in this case and this is not through the fault of Michael Carroll & Co or my representation but through his own conduct on his arrest and at the police station. To try to blame other people for the position he finds himself in is very wrong. Simple questions to consider: **1.** Did the police know about or have any evidence re the job lot answer No until Simon himself revealed this **2.** Could Simon explain his DNA in a moveable object answer. Yes, and he would have achieved the same result as Naomi **3.** Could police prove the Venice chair came from warehouse no. Information on this again came from Simon **4.** Is Mohammed likely to be a witness as to sale of the items? No because he will have to be advised to obtain independent legal advice as he could incriminate himself. This was better left to cross examination at trial as too late than to produce invoices, but Simon obviously does not agree. This will be an example of Simon making a further tactical mistake as he did during the comments to police at his address and again in the interview. The Judge and prosecution will be influenced in making decisions in this case based on Simon's conduct before arrest, in interview and his previous convictions. The point that Simon is missing is that a prima facie case exists, and this case will go to trial. Simon should reread his interview and his attitude in his interview where he effectively suggests it serves the owner of the premises the right for having his premises burgled. If Simon had not made such foolish comments when he was arrested and instead followed sound legal advice at the police station then we could have made representations to review the case but based on his admissions at his address, coupled with his interview this was impossible. At the start of this case Simon was very much mistaken with regard to the law. Tactics and timing are important in cases. Simon does not want to allow Solicitors to make tactical decisions so the best of luck to him. Once I get an email back from Jemi re the conference and section 8 application, I will be listing this case to have the legal representation order revoked. During the telephone conversation today Simon again was abusive, he questioned my professional integrity, my ability to defend my clients and he threatened to slander my name. I heard him loud and clear Lorraine. All I can say is he has a very short memory. I know exactly how many times I have represented Simon and how many of those cases have resulted in a charge or a conviction. I am duty solicitor at court tomorrow and I will email Jemi in the morning. I will request an urgent response from him, and I will then let you know when the case will be listed."

Hi Josey
Simon has asked me to write this email, so I am just writing what has been asked and the facts he is saying. As you are aware Simon is not great with Emails or letters and replying to them due to his writing and spelling. Simon has said he is not treating you in anyway, yes, he did say he was going to put his papers on Facebook to ask people what they feel about his case. He would then be able to obtain feedback from the general public. He feels there have been many errors in his case, some of these errors he wants me to list below.
437,
His case was listed for the warn list for the **16/12/2013,** this could not happen due to issues with the crown not giving the information over. You at this time wanted it to go to trial and the morning the trail started wanted to list information that was needed for Simon case. When Simon went to see his Barrister on the **13/12/2013** the barrister new nothing about the case and asked Simon to explain what his case was about. While Simon was explaining his barrister told Simon not to rush, Simon showed the barrister the invoices for the case and the barrister said these invoices were here say, can he prove the items were even in the building at the time Simon was there. The Barrister asked where the disclosure, as what we showed him was rubbish. We had most of the case files with us that you had emailed to us. The Barrister asked has a section 8- and Third-Party Disclosure been put in, we told him no he said as soon as we get back get your solicitors to put a section 8- and Third-Party Disclosure in it should have been done already don't delay get it done today. Solicitors aren't doing the job properly get onto them. The Barrister asked when this in court is we said next week, to which he said I don't even know why you've been sent to me for this meeting as I'm on another case until Tuesday, Wednesday so won't be able to represent you. The barrister also told me to get a copy of my interview tapes and go over them and mark any part that is wrong on the crown's paperwork. Simon had about a 20 min with his barrister before the barrister had to go back into court. When an application for a Section 8- and Third-Party Disclosure was put into the court on the **19/12/2013** There was a time given that Simon solicitor had till the **16/01/2014** to submit the section 8 and the Third-Party Disclosure to the court. And that then the crown had until the **16/02/2014** to give the information that had been requested. If the crown failed to give the information the case would need to be relisted in court so this could be address. As of today's, date **02/02/2014** we still do not know if the section 8 and the Third-Party Disclosure has been given to the court. The last email from you on this subject

was dated the **27/01/2014** where you told us that Jemi has drafted the section 8 applications that require minor amendments before it can be served.
438,
As for the Third-Party Disclosure as of **29/01/2014** a letter to Nikki Diamond from the insurance company had just been sent over by yourself, I believe that this is the process that needs to happen before a Third-Party Disclosure application can be put in as you need it in writing that the insurance company is not willing to hand over the file without the Third-Party Disclosure. On the **13/12/2013**
a call was made to Cunningham Lindsey where we talked to someone about the case for the insurance part of the claim, we were told that Nikki Diamond was not due back into the office until the **16/12/2013.**
On the **16/12/2013** my mum called Cunningham Lindsey to talk to Nikki Diamond where we were told that Nikki Diamond was working from home that day and given Nikki Diamonds mobile number to call her. My mum then made a call to Nikki Diamond, and we chatted about the case telling her what had happened in Simon case and what we believed had gone on. Nikki Diamond was concerned about what we had told her over the phone, and at this told us she needs to put this to her manager, and could she take our phone number so that her or her manager could call us back. I give Nikki Diamond our contact information.
On the **17/12/2013** my mum took a call from Trevor Allaway Commercial Special Investigator for Cunningham Lindsey my mum and Trevor Allaway talked for some time over the phone about the case at which point in asked that could he have a meeting with Simon to take a statement from him, he also said he did not want to step on Simon solicitor feet and to please advise our solicitor as to what was going on and that he would like to have the meeting with Simon. After the called I Emailed you what had gone on and forwarded you a copy of the email Trevor Allaway had sent. You replied asking if the insurance company aware that Simon is awaiting trial for burglary. I replied yes; they were as I had disclosed this to them on the calls that were made. Nothing was done with this information so on the **08/01/2014** my mum made a call to Trevor Allaway to setup a meeting with him at my mum address this was set for the **13/01/2014** at 11am, when my mum spoke to Trevor Allaway, he told her that he will be being the complete file for the claim with him to the meeting. On the **13/01/2014** the meeting with Trevor Allaway went ahead. Where information was given by both parties. There was shock also on both sides about parts of information that was spoke about. Trevor Allaway even showed us pictures of which Nikki Diamond had taken on the **28/03/2014 and** was shocked to see the picture the police had taken for my case as they were the same pictures Mr. Patel & D Patel had done nothing to the building and now, I was paying the price due to this. Trevor Allaway also made a call to Nikki Diamond to get dates for claims etc and to make sure he had all the facts correct. Nikki Diamond gave the dates of
439,
17/02/2013 for the 1st claim **25/03/2013** for a 2nd claim **07/06/2013** for the 3rd claim.
We were shocked there was in fact a next claim we knew nothing for the **25/03/2013,** an also the date for the last claim of the **07/06/2013** when in fact Simon case was for the **04/05/2013**
We asked Trevor Allaway why the claim for **17/02/2013** and the **25/03/2013** was not paid out he said we did not believe the claim was real. He also said that when someone takes out insurance, they have to put down the condition of the property, and they also believed a lot of the damage to the building was from an earlier date. Trevor Allaway also said that to get out solicitors to go and get a statement from Nikki Diamond as she would be a creditable witness for Simon. All this was explained to you with an email that was sent to you on the **13/01/2014** by my mum and a phone call where I talked to you when you were on your way to the prison to see someone. I at this asked you also about his birthday and you said if Nikki Diamond could do a statement that said everything, I had said then there should be no

problem for my birthday. My mum did get a next email from you that day asking for Nikki Diamond information as when the 1st email had been sent to you my mum had forgot to put it, my mum replied with the information for Nikki Diamond being mobile number and office address she could not at this point find Nikki Diamonds email address, so this was not included. Emails was sent on the **15/01/2014** and the **18/01/2014** asking if a date had been setup for you to take the statement from Nikki Diamond and if the section 8 and the Third-Party Disclosure has been given to the court and for an update. You replied to this on the **18/01/2014.**
On the **21/01/2014** my mum emailed you about the application for my curfew for my birthday, you replied to this asking for his plains for his birthday so you could put the application into the court. On the **22/01/2014** when I went to mums, she showed me the email I was upset with this due to the fact I did not see why I needed to give the locations as to where I was going. You said you had to have this to put the application in. My mum emailed you the details as to where I was going. As we had not heard anything, I believed the application had been put in and that it should have been heard on the **24/01/2014** my mum late on the **24/01/2014** emailed you and texted you to get an update as to the application. There was no reply to this from you until the **27/01/2014** where you told us, the application could not be put in due the notice you need to give the court.
440,
You also in that email explained the process needed for the Third-Party Disclosure application. In which was the 1st time I knew a letter would be needed to be sent to the insurance company and they would need to refuse to hand over the files before you could go for the Third-Party Disclosure application through the court. And also give me an update as to the section 8 application that you could confirm that Jemi has drafted the section 8 application that requires minor amendments before it can be served. But you knew this was needed when the application was put into the court on the **19/12/2014** when the application was heard for the section 8- and Third-Party Disclosure. So why was this only being address on **27/01/2014** when this then had already passed the date of the **16/01/2014** to hand the application into the court.
I feel this delay will again make my case take longer as there is still going to be a time given by the court to the crown to reply to the applications. On the **29/01/2013** a reply was made by email from my mum. Explaining parts in the letter that you attached to the email you sent on the **27/01/2014** for Nikki Diamond about the discloser of the file was not correct and needed amended. She also wrote that I still wanted a statement taken from Nikki Diamond due to this helping my case. You replied to this email on the **29/01/2014** saying that the statement from Nikki Diamond will follow after the Insurance Company discloses the claims made by Mr. Patel, whether voluntarily or by Third Party disclosure. I do feel this statement is 100% needed sooner not later as once this is shown to the crown I sure they will rethink their case on me. As I feel at this time this is an unfair trail due to how Mr. Patel has used my case to be able to manipulate his insurance claim due to what has already been discussed with Trevor Allaway. And this is a clear beach in my human rights to have a fair trial. Also, on the **19/01/2013** when the application went into the court a bail application was meant to have been done at the same time for my bail conditions over the holidays that where upcoming. For some reason the bail application was not heard so you relisted this for **23/12/2013** to be heard by the court, you sent a text to my mum after you found out the outcome of this bail application in which you said I was on an electric tag to my mum address, and that the curfew was not lifted that Serco would come to my mums address to install the tag there. I got very upset with hearing this as I for one reason I was never on an electric tag for this case from the start of it. I did try and call you and I got no reply so I called the court explained to the court the issues I had and was advised to call my solicitor and ask them to relist the case for the

24/12/2013 this would need to be done within the next 20 mins. I then called the office and explained this to someone in the office and was told I would get a call back. I did not get a call back but at around 21.47 that evening you texted my mum saying that Simon needed to be at Woolwich crown court at 09.45 on the **24/12/2013.**
On the **24/12/2013** I went to court and my mum come with me, when we got there, we were told the case was not listed before 11am. So, we waited at the court at around 10.50 as a barrister had not turned up for me my mum texted for to ask the name of the barrister that would be coming that we were outside court 7 waiting,
441,
there was no reply to this text so at around 11.10 I made a call to the office and spoke to someone there that told me a barrister would not be attending, I was really upset with this but what could I say. I then saw the usher of the court and told her what was going on, she said why had the solicitors told me to come here and yet new there would not be a barrister and not tell me this beforehand, she told me she would talk to the crown who was in the court room and explain to him what was going on and then let me know what could be done. About 5 mins later she came out of the court room and told me that the crown was going to call it on and see what could be done. It was called into court and when the judge heard I did not have a barrister she asked the clerk of the court to call the office and see what was going on, which the clerk on the court did, when she got off the phone, she told the judge no one was coming to the court for me. I stood up and tried to explain to the judge what had gone on. My mum at this asked the judge if she could explain it and the judge said yes to come forward, she could hear what my mum was saying. My mum explained to the judge about the **19/12/2013** and the **23/12/2013** the judge was at loss of what could be done as the rule that had been made on the **23/01/2014** she could not change as this would be dealing with a judicial review and she could not hear that. The crown then asked if he could speak to the judge and said that due to new evidence, she could hear it on them grounds. The judge at that replied yes, she would like to hear this, but I did not have a barrister she then went on to ask the barristers in the court room would they be willing to represent me and told them that I had legal aid and that it would be marked on the file. One stood up and said yes, she would stand in. the judge then said to us to go outside with the barrister and speak to her and when ready it would go back into court. We went out explained to the barrister what was going on. She told us that even from what she had heard in court that I should really think about changing solicitors. It went back into court and the judge heard the case and my bail was varied on the **01/01/2014** my mum again texted you due to an issue where I got arrested, she had tried to call the office but there was no answer of a voice mail message to give a number to call. No one got back to my mum so when she got to court, she had to ask a solicitor that was on duty that day to help me. He said he was not meant to as I had legal aid for the case already, but he would go and speak to me, he did in fact represent me in court that day. On the **03/01/2014** I asked my mum sent you an email to ask if my case was too much for you as I knew you had a lot of work on. You told me you were still on annual leave, and I return to work on Monday. On the **31/01/2014** I was due to have a meeting in the office which you had to cancel as you were dealing with other cases. This was re booked for **04/01/2014** at 2pm. I have called you many times and it has just gone to voice mail, and you have not called me back. I have also called the office about things I feel are wrong and told someone would call me back which has not happened. I can prove this with statements from the phones that were used. There are emails that have been sent to you and no reply to them emails and what I have asked to have been.
given.
442,
There was a break down before in this case as you are aware and I dropped the complaint. Josey, I have used you as a solicitor for many years and don't just look at you as a solicitor

you are a friend of the families. All I want is for my case to be dealt with in a correct manner, which will lead me to have a speedy and fair trial, and I don't want to feel like I am being punished for a crime that I have not been convicted of. And I feel with the statement from Nikki Diamond that would show somewhat to Mr. Patel ways in how he has dealt with his insurance case in this matter that clearly is not correct all ready. Could you please email back at the points that have been included in this email, and if you feel I am wrong on any points or the way in which I am feeling.
Simon

Subject: Simon Cordell application
to transfer legal representation
Simon
Further to your telephone conversation with me today during which you have accused me of not representing you correctly and not defending your case properly you leave me with little choice but to list the case at Woolwich Crown Court in order that your legal representation order can be revoked.
I am cancelling your 2pm conference with me for Tuesday **04th February 2014.** I am not prepared to be subjected to threats about you blackening my name over Facebook. I work very hard for all my clients and my track record as a Criminal Defence Solicitors attests to that. I have represented you since you were a juvenile to the best of my abilities, and I have never not defended a client properly or tried my best for my client. You stated that during the telephone conversation that the Judge asked you to change your solicitors at the last bail hearing on Christmas Eve. As you are aware, I was on annual leave from **23rd December 2013**
I made the bail variation as requested and you were not happy as the court did not suspend your curfew. That is the simple fact of the matter here. You also stated that during a conference with Jemi, the barrister that I appointed for you that he also advised you that I was a
443,
poor solicitor and not acting in your best interests. You only raised this today and I will most certainly be taking this accusation up with Jemi and his clerks. I asked you to confirm this inwriting and you have refused to do this. I again ask you to confirm this in writing as Jemi will have to respond to this allegation. I will be asking Jemi and his clerks to comment on the allegations that you have made. You will of course appreciate that if Jemi does not agree with your accusations that he will probably refuse to represent you. You are accusing him of slandering my reputation by saying that Jemi says I am not representing you properly and that he advised you to change your solicitors. With regards to your complaint in relation to the bail variation you were asked in a number of emails to provide full details of your plans, venues etc and you did not do this instead you shouted down the phone and refused to give specific instructions. When you eventually did give the requested information, it was too late to apply to have the bail position varied. I suspect you know what the court's attitude to the requested variation would be in any event. With regards to the request for the original receipt I have to provide this to the court in an addendum to your defence case statement and the police will then make their enquiries. I am sorry that this position has arisen, but you have left me little choice in the matter. I wish you good luck with your case and I will confirm the date that your case is listed for the revocation of legal aid. I will aim from Tuesday or Wednesday of this coming week. Can you please confirm by return email the advice that

Jemi gave you at your conference at Isleworth Crown Court and also please confirm why it took you so long to raise it with me?
You telephoned me on a Sunday, reserved for emergency phone calls. You should have raised it back when you had the conference with Jemi. You have raised it now and I will deal with the accusations now. I await hearing from you by return email with regards to Jemi.
Regards
Josephine Ward

4 **An Email to my Solicitor:** Gazebo Case - "Hi Josey, Simon has asked me to write this email, so I am just writing what has been asked and the facts he is saying. As you are aware Simon is not great with emails or letters and replying to them due to his writing and spelling. Simon has said he is not treating you in any way, yes, he did say he was going to put his papers on Facebook to ask people what they feel about his case. He would then be able to obtain feedback from the general public. He feels there have been many errors in his case, some of these errors he wants me to list below. His case was listed for the warn list for the 16/12/**2013**, this could not happen due to issues with the crown not giving the information over. You at this time wanted it to go to trial and the morning the trial started wanted to list information that was needed for Simon case. When Simon went to see his Barrister on the 13/12/**2013** the barrister knew nothing about the case and asked Simon to explain what his case was about. While Simon was explaining his barrister told Simon not to rush, Simon showed the barrister the invoices for the case and the barrister said these invoices were here say, can he prove the items were even in the building at the time Simon was there. The Barrister asked where the disclosure was, as what we showed him was rubbish. We had most of the case files with us that you had emailed to us. The Barrister asked has a section 8- and Third-Party Disclosure been put in, we told him no he said as soon as we get back get your solicitors to put a section 8- and Third-Party Disclosure in it should have been done already don't delay get it done today. Solicitors aren't doing the job properly to get onto them. The Barrister asked when this in court is we said next week, to which he said I don't even know why you've been sent to me for this meeting as I'm on another case until Tuesday, Wednesday, so won't be able to represent you. The barrister also told me to get a copy of my interview tapes and go over them and mark any part that is wrong on the crown's paperwork. Simon had about 20 min with his barrister before the barrister had to go back into court. When an application for a Section 8- and Third-Party Disclosure was put into the court on the 19/12/**2013** There was a time given that Simon solicitor had till the 16/01/**2014** to submit the section 8 and the Third-Party Disclosure to the court. And that then the crown had until the 16/02/**2014** to give the information that had been requested. If the crown failed to give the information the case would need to be relisted in court so this could be addressed. As of today's, date 02/02/**2014** we still do not know if section 8 and the Third-Party Disclosure has been given to the court. The last email from you on this subject was dated the 27/01/**2014** where you told us that Jemi has drafted the section 8 applications that require minor amendments before it can be served. As for the Third-Party Disclosure as of 29/01/**2014** a letter to Nikki Diamond from the insurance company had just been sent over by yourself, I believe that this is the process that needs to happen before a Third-Party Disclosure application can be put in as you need it in writing that the insurance company is not willing to hand over the file without the Third-Party Disclosure. On the 13/12/**2013** a call was made to Cunningham Lindsey where we talked to someone about the case for the insurance part of the claim, we were told that Nikki Diamond was not due back into the office until the 16/12/**2013**. On the 16/12/**2013** my mum called Cunningham Lindsey to talk to Nikki Diamond where we were told that Nikki Diamond was working from home that day and

given Nikki Diamonds mobile number to call her. My mum then made a call to Nikki Diamond and we chatted about the case telling her what had happened in Simon case and what we believed had gone on. Nikki Diamond was concerned about what we had told her over the phone, and at this told us she needed to put this to her manager and could she take our phone number so that her or her manager could call us back. I give Nikki Diamond our contact information. On the 17/12/**2013** my mum took a call from Trevor Allaway Commercial Special Investigator for Cunningham Lindsey my mum and Trevor Allaway talked for some time over the phone about the case at which point in asked that could he have a meeting with Simon to take a statement from him, he also said he did not want to step on Simon solicitor feet and to please advise our solicitor as to what was going on and that he would like to have the meeting with Simon. After the called I Emailed you what had gone on and forwarded you a copy of the email Trevor Allaway had sent. You replied asking if the insurance company was aware that Simon is awaiting trial for burglary. I replied yes; they were as I had disclosed this to them on the calls that were made. Nothing was done with this information so on the 08/01/**2014** my mum made a call to Trevor Allaway to setup a meeting with him at my mum address this was set for the 13/01/**2014** at 11am, when my mum spoke to Trevor Allaway, he told her that he will be being the complete file for the claim with him to the meeting. On the 13/01/**2014** the meeting with Trevor Allaway went ahead. Where information was given by both parties. There was shock also on both sides about parts of the information that was spoke about. Trevor Allaway even showed us pictures of which Nikki Diamond had taken on the 28/03/**2014** and was shocked to see the picture the police had taken for my case as they were the same pictures Mr. Patel & D Patel had done nothing to the building and now, I was paying the price due to this. Trevor Allaway also made a call to Nikki Diamond to get dates for claims etc. and to make sure he had all the facts correct. Nikki Diamond gave the dates of 17/02/**2013** for the 1st claim 25/03/**2013** for a 2nd claim 07/06/**2013** for the 3rd claim We were shocked there was in fact a next claim we knew nothing for the 25/03/**2013**, and also, the date for the last claim of the 07/06/**2013** when in fact Simon case was for the 04/05/**2013** We asked Trevor Allaway why the claim for 17/02/**2013** and the 25/03/**2013** was not paid out he said we did not believe the claim was real. He also said that when someone takes out insurance, they have to put down the condition of the property, and they also believed a lot of the damage to the building was from an earlier date. Trevor Allaway also said that to get out solicitors to go and get a statement from Nikki Diamond as she would be a creditable witness for Simon. All this was explained to you in an email that was sent to you on the 13/01/**2014** by my mum and a phone call where I talked to you when you were on your way to the prison to see someone. I at this asked you also about his birthday and you said if Nikki Diamond could do a statement that said everything, I had said then there should be no problem for my birthday. My mum did get a next email from you that day asking for Nikki Diamond information as when the 1st email had been sent to you my mum had forgot to put it, my mum replied with the information for Nikki Diamond being mobile number and office address she could not at this point find Nikki Diamonds email address so this was not included. Emails was sent on the 15/01/**2014** and the 18/01/**2014** asking if a date had been set up for you to take the statement from Nikki Diamond and if the section 8 and the Third-Party Disclosure has been given to the court and for an update. You replied to this on the 18/01/**2014**. On the 21/01/**2014** my mum emailed you about the application for my curfew for my birthday, you replied to this asking for his plans for his birthday so you could put the application into the court. On the 22/01/**2014** when I went to mum's, she showed me the email I was upset with this due to the fact I did not see why I needed to give the locations as to where I was going. You said you had to have this to put the application in. My mum emailed you the details as to where I was going. As we had not heard anything, I believed the application had been put in and that it should have been

heard on the 24/01/**2014** my mum late on the 24/01/**2014** emailed you and texted you to get an update as to the application. There was no reply to this from you until the 27/01/**2014** where you told us the application could not be put in due the notice you need to give the court. You also in that email explained the process needed for the Third-Party Disclosure application. In which was the 1st time I knew a letter would be needed to be sent to the insurance company and they would need to refuse to hand over the files before you could go for the Third-Party Disclosure application through the court. And also give me an update as to the section 8 application that you could confirm that Jemi has drafted the section 8 application that requires minor amendments before it can be served. But you knew this was needed when the application was put into the court on the 19/12/**2014** when the application was heard for the section 8- and Third-Party Disclosure. So why was this only being address on 27/01/**2014** when this then had already passed the date of the 16/01/**2014** to hand the application into the court. I feel this delay will again make my case take longer as there is still going to be time given by the court to the crown to reply to the applications. On the 29/01/**2013** a reply was made by email from my mum. Explaining parts in the letter that you attached to the email you sent on the 27/01/**2014** for Nikki Diamond about the discloser of the file was not correct and needed amended. She also wrote that I still wanted a statement taken from Nikki Diamond due to this helping my case. You replied to this email on the 29/01/**2014** saying that the statement from Nikki Diamond will follow after the Insurance Company discloses the claims made by Mr. Patel, whether voluntarily or by Third Party disclosure. I do feel this statement is 100% needed sooner not later as once this is shown to the crown I am sure they will rethink their case on me. As I feel at this time this is an unfair trail due to how Mr. Patel has used my case to be able to manipulate his insurance claim due to what has already been discussed with Trevor Allaway. And this is a clear beach in my human rights to have a fair trial. Also, on the 19/01/**2013** when the application went into the court a bail application was meant to have been done at the same time for my bail conditions over the holidays that were upcoming. For some reason the bail application was not heard so you relisted this for 23/12/**2013** to be heard by the court, you sent a text to my mum after you found out the outcome of this bail application in which you said I was on an electric tag to my mum address, and that the curfew was not lifted that Serco would come to my mums address to install the tag there. I got very upset with hearing this as I for one reason I was never on an electric tag for this case from the start of it. I did try and call you and I got no reply so I called the court to explain to the court the issues I had and was advised to call my solicitor and ask them to relist the case for the 24/12/**2013** this would need to be done within the next 20 mins. I then called the office and explained this to someone in the office and was told I would get a call back. I did not get a call back but at around 21.47 that evening you texted my mum saying that Simon needed to be at Woolwich crown court at 09.45 on the 24/12/**2013**. On the 24/12/**2013** I went to court and my mum come with me. When we got there, we were told the case was not listed before 11am. So, we waited at the court at around 10.50 as a barrister had not turned up for me my mum texted for to ask the name of the barrister that would be coming that we were outside court 7 waiting, there was no reply to this text so at around 11.10 I made a call to the office and spoke to someone there that told me a barrister would not be attending, I was really upset with this but what could I say. My mum at this asked the judge if she could explain it and the judge said yes to come forward, she could hear what my mum was saying. My mum explained to the judge about the 19/12/**2013** and the 23/12/**2013** the judge was at loss of what could be done as the rule that had been made on the 23/01/**2014** she could not change as this would be dealing with a judicial review and she could not hear that. Subject: RE: Simon Cordell application to transfer legal representation.

Hi Josey

Simon has asked me to write this email, so I am just writing what has been asked and the facts he is saying. As you are aware Simon is not great with emails or letters and replying to them due to his writing and spelling. Simon has said he is not treating you in anyway, yes, he

did say he was going to put his papers on Facebook ton ask people what they feel about his case. He would then be able to obtain feedback from the general public. He feels there have been many errors in his case, some of these errors he wants me to list below. His case was listed for the warn list for the **16/12/2013,** this could not happen due to issues with the crown not giving the information over. You at this time wanted it to go to trial and the morning the trail started wanted to list information that was needed for Simon case. When Simon went to see his Barrister on the **13/12/2013** the barrister new nothing about the case and asked Simon to explain what his case was about. While Simon was explaining his barrister told Simon not to rush, Simon showed the barrister the invoices for the case and the barrister said these invoices were here say, can he prove the items were even in the building at the time Simon was there. The Barrister asked where the disclosure, as what we showed him was rubbish. We had most of the case files with us that you had emailed to us. The Barrister asked has a section 8- and Third-Party Disclosure been put in, we told him no he said as soon as we get back get Your solicitors to put a section 8- and Third-Party Disclosure in it should have been done already don't delay get it done today. Solicitors aren't doing the job properly get onto them. The Barrister asked when this in court is we said next week, to which he said I don't even know why you've been sent to me for this meeting as I'm on another case until Tuesday, Wednesday so won't be able to represent you. The barrister also told me to get a copy of my interview tapes and go over them and mark any part that is wrong on the crown's paperwork. Simon had about a 20 min with his barrister before the barrister had to go back into court. When an application for a Section 8- and Third-Party Disclosure was put into the court on the **19/12/2013.**

There was a time given that Simon solicitor had till the **16/01/2014** to submit the section 8 and the Third-Party Disclosure to the court. And that then the crown had until the **16/02/2014** to give the information that had been requested. If the crown failed to give the information the case would need to be relisted in court so this could be address. As of today's, date **02/02/2014** we still do not know if the section 8 and the Third-Party Disclosure has been given to the court. The last email from you on this subject was dated the **27/01/2014** where you told us that Jemi has drafted the section 8 applications that require minor amendments before it can be served. As for the Third-Party Disclosure as of **29/01/2014** a letter to Nikki Diamond from the insurance company had just been sent over by yourself, I believe that this is the process that needs to happen before a Third-Party Disclosure application can be put in as you need it in writing that the insurance company is not willing to hand over the file without the Third-Party Disclosure. On the **13/12/2013** a call was made to Cunningham Lindsey where we talked to someone about the case for the insurance part of the claim, we were told that Nikki Diamond was not due back into the office until the **16/12/2013.**

On the **16/12/2013** my mum called Cunningham Lindsey to talk to Nikki Diamond where we were told that Nikki Diamond was working from home that day and given Nikki Diamonds mobile number to call her.

445,

My mum then made a call to Nikki Diamond, and we chatted about the case telling her what had happened in Simon case and what we believed had gone on. Nikki Diamond was concerned about what we had told her over the phone, and at this told us she needs to put this to her manager, and could she take our phone number so that her or her manager could call us back. I give Nikki Diamond our contact information. On the **17/12/2013** my mum took a call from Trevor Allaway Commercial Special Investigator for Cunningham Lindsey my mum and Trevor Allaway talked for some time over the phone about the case at which point in asked that could he have a meeting with Simon to take a statement from him, he also said he did not want to step on Simon solicitor feet and to please advise our solicitor as to what was going on and that he would like to have the meeting with Simon. After the called I Emailed

you what had gone on and forwarded you a copy of the email Trevor Allaway had sent. You replied asking if the insurance company aware that Simon is awaiting trial for burglary. I replied yes; they were as I had disclosed this to them on the calls that were made. Nothing was done with this information so on the **08/01/2014** my mum made a call to Trevor Allaway to setup a meeting with him at my mum address this was set for the **13/01/2014** at 11am, when my mum spoke to Trevor Allaway, he told her that he will be being the complete file for the claim with him to the meeting. On the **13/01/2014** the meeting with Trevor Allaway went ahead. Where information was given by both parties. There was shock also on both sides about parts of information that was spoke about. Trevor Allaway even showed us pictures of which Nikki Diamond had taken on the **28/03/2014** and was shocked to see the picture the police had taken for my case as they were the same pictures Mr. Patel & D Patel had done nothing to the building and now, I was paying the price due to this. Trevor Allaway also made a call to Nikki Diamond to get dates for claims etc and to make sure he had all the facts correct. Nikki Diamond gave the dates of **17/02/2013** for the 1st claim **25/03/2013** for a 2nd claim **07/06/2013** for the 3rd claim.
We were shocked there was in fact a next claim we knew nothing for the **25/03/2013,** and also, the date for the last claim of the **07/06/2013** when in fact Simon case was for the **04/05/2013** We asked Trevor Allaway why the claim for **17/02/2013** and the **25/03/2013** was not paid out he said we did not believe the claim was real. He also said that when someone takes out insurance, they have to put down the condition of the property, and they also believed a lot of the damage to the building was from an earlier date. Trevor Allaway also said that to get out solicitors to go and get a statement from Nikki Diamond as she would be a creditable witness for Simon. All this was explained to you with an email that was sent to you on the **13/01/2014** by my mum and a phone call where I talked to you when you were on your way to the prison to see someone. I at this asked you also about his birthday and you said if Nikki Diamond could do a statement that said everything, I had said then there should be no problem for my birthday. My mum did get a next email from you that day asking for Nikki Diamond information as when the 1st email had been sent to you my mum had forgot to put it, my mum replied with the information for Nikki Diamond being mobile number and office address she could not at this point find Nikki Diamonds email address, so this was not included. Emails was sent on the **15/01/2014** and the **18/01/2014** asking if a date had been setup for you to take the statement from Nikki Diamond and if the section 8 and the Third-Party Disclosure has been given to the court and for an update. You replied to this on the **18/01/2014.**
On the **21/01/2014** my mum emailed you about the application for my curfew for my birthday, you replied to this asking for his plains for his birthday so you could put the application into the court. On the **22/01/2014** when I went to mums, she showed me the email I was upset with this due to the fact I did not see why I needed to give the locations as to where I was going. You said you had to have this to put the application in. My mum emailed you the details as to where I was going. As we had not heard anything, I believed the application had been put in and that it should have been heard on the **24/01/2014** my mum late on the **24/01/2014** emailed you and texted you to get an update as to the
446,
application. There was no reply to this from you until the **27/01/2014** where you told us, the application could not be put in due the notice you need to give the court. You also in that email explained the process needed for the Third-Party Disclosure application. In which was the 1st time I knew a letter would be needed to be sent to the insurance company and they would need to refuse to hand over the files before you could go for the Third-Party Disclosure application through the court. And also give me an update as to the section 8 application that you could confirm that Jemi has drafted the section 8 application that requires

minor amendments before it can be served. But you knew this was needed when the application was put into the court on the **19/12/2014** when the application was heard for the section 8- and Third-Party Disclosure. So why was this only being address on **27/01/2014,** when this then had already passed the date of the **16/01/2014** to hand the application into the court. I feel this delay will again make my case take longer as there is still going to be a time given by the court to the crown to reply to the applications. On the **29/01/2013** a reply was made by email from my mum. Explaining parts in the letter that you attached to the email you sent on the **27/01/2014** for Nikki Diamond about the discloser of the file was not correct and needed amended. She also wrote that I still wanted a statement taken from Nikki Diamond due to this helping my case. You replied to this email on the **29/01/2014** saying that the statement from Nikki Diamond will follow after the Insurance Company discloses the claims made by Mr. Patel, whether voluntarily or by Third Party disclosure. I do feel this statement is 100% needed sooner not later as once this is shown to the crown I sure they will rethink their case on me. As I feel at this time this is an unfair trail due to how Mr. Patel has used my case to be able to manipulate his insurance claim due to what has already been discussed with Trevor Allaway. And this is a clear beach in my human rights to have a fair trial. Also, on the **19/01/2013** when the application went into the court a bail application was meant to have been done at the same time for my bail conditions over the holidays that where upcoming. For some reason the bail application was not heard so you relisted this for **23/12/2013** to be heard by the court, you sent a text to my mum after you found out the outcome of this bail application in which you said I was on an electric tag to my mum address, and that the curfew was not lifted that Serco would come to my mums address to install the tag there. I got very upset with hearing this as I for one reason I was never on an electric tag for this case from the start of it. I did try and call you and I got no reply so I called the court explained to the court the issues I had and was advised to call my solicitor and ask them to relist the case for the **24/12/2013** this would need to be done within the next 20 mins. I then called the office and explained this to someone in the office and was told I would get a call back. I did not get a call back but at around 21.47 that evening you texted my mum saying that Simon needed to be at Woolwich crown court at 09.45 on the **24/12/2013.**

On the **24/12/2013**

I went to court and my mum come with me, when we got there, we were told the case was not listed before 11am. So, we waited at the court at around 10.50 as a barrister had not turned up for me my mum texted for to ask the name of the barrister that would be coming that we were outside court 7 waiting, there was no reply to this text so at around 11.10 I made a call to the office and spoke to someone there that told me a barrister would not be attending, I was really upset with this but what could I say. I then saw the usher of the court and told her what was going on, she said why had the solicitors told me to come here and yet new there would not be a barrister and not tell me this beforehand, she told me she would talk to the crown who was in the court room and explain to him what was going on and then let me know what could be done. About 5 mins later she came out of the court room and told me that the crown was going to call it on and see what could be done. It was called into court and when the judge heard I did not have a barrister she asked the clerk of the court to call the office and see what was going on, which the clerk on the court did, when she got off the phone, she told the judge no one was coming to the court for me. I stood up and tried to explain to the judge what had gone on. My mum at this asked the judge if she could explain it and the judge said yes to come forward, she could hear what my mum was saying. My mum explained to the judge about the **19/12/2013** and the **23/12.2013** the judge was at loss of what could be done as the rule that had been made on the **23/01/2014** she could not change as this would be dealing with a judicial review and she could not hear that. The crown then asked if he could speak to the judge and said that due to new evidence, she could hear it on them grounds. The judge at

that replied yes, she would like to hear this, but I did not have a barrister she then went on to ask the
447,
barristers in the court room would they be willing to represent me and told them that I had legal aid and that it would be marked on the file. One stood up and said yes, she would stand in. the judge then said to us to go outside with the barrister and speak to her and when ready it would go back into court. We went out explained to the barrister what was going on. She told us that even from what she had heard in court that I should really think about changing solicitors. It went back into court and the judge heard the case and my bail was varied on the **01/01/2014** my mum again texted you due to an issue where I got arrested, she had tried to call the office but there was no answer of a voice mail message to give a number to call. No one got back to my mum so when she got to court, she had to ask a solicitor that was on duty that day to help me. He said he was not meant to as I had legal aid for the case already, but he would go and speak to me, he did in fact represent me in court that day. On the **03/01/2014** I asked my mum sent you an email to ask if my case was too much for you as I knew you had a lot of work on. You told me you were still on annual leave, and I return to work on Monday. On the **31/01/2014** I was due to have a meeting in the office which you had to cancel as you were dealing with other cases. This was re booked for **04/01/2014** at 2pm. I have called you many times and it has just gone to voice mail, and you have not called me back. I have also called the office about things I feel are wrong and told someone would call me back which has not happened. I can prove this with statements from the phones that were used. There are emails that have been sent to you and no reply to them emails and what I have asked to have been given. There was a break down before in this case as you are aware and I dropped the complaint. Josey, I have used you as a solicitor for many years and don't just look at you as a solicitor you are a friend of the families. All I want is for my case to be dealt with in a correct manner, which will lead me to have a speedy and fair trial, and I don't want to feel like I am being punished for a crime that I have not been convicted of. And I feel with the statement from Nikki Diamond that would show somewhat to Mr. Patel ways in how he has dealt with his insurance case in this matter that clearly is not correct all ready. Could you please email back at the points that have been included in this email, and if you feel I am wrong on any points or the way in which I am feeling.

to transfer legal representation
Simon
Further to your telephone conversation with me today during which you have accused me of not representing you correctly and not defending your case properly you leave me with little choice but to list the case at Woolwich Crown Court in order that your legal representation order can be revoked. I am cancelling your 2pm conference with me for Tuesday **04th February 2014.**
I am not prepared to be subjected to threats about you blackening my name over Facebook. I work very hard for all my clients and my track record as a Criminal Defence Solicitors attests to that.
I have represented you since you were a juvenile to the best of my abilities, and I have never not defended a client properly or tried my best for my client. You stated that during the telephone conversation that the Judge asked you to change your solicitors at

448,
the last bail hearing on Christmas Eve. As you are aware, I was on annual leave from **23rd December 2013.**
I made the bail variation as requested and you were not happy as the court did not suspend your curfew. That is the simple fact of the matter here. You also stated that during a conference with Jemi, the barrister that I appointed for you that he also advised you that I was a poor solicitor and not acting in your best interests. You only raised this today and I will most certainly be taking this accusation up with Jemi and his clerks. I asked you to confirm this in writing and you have refused to do this. I again ask you to confirm this in writing as Jemi will have to respond to this allegation. I will be asking Jemi and his clerks to comment on the allegations that you have made. You will of course appreciate that if Jemi does not agree with your accusations that he will probably refuse to represent you. You are accusing him of slandering my reputation by saying that Jemi says I am not representing you properly and that he advised you to change your solicitors. With regards to your complaint in relation to the bail variation you were asked in a number of emails to provide full details of your plans, venues etc and you did not do this instead you shouted down the phone and refused to give specific instructions. When you eventually did give the requested information, it was too late to apply to have the bail position varied. I suspect you know what the court's attitude to the requested variation would be in any event. With regards to the request for the original receipt I have to provide this to the court in an addendum to your defence case statement and the police will then make their enquiries. I am sorry that this position has arisen, but you have left me little choice in the matter. I wish you good luck with your case and I will confirm the date that your case is listed for the revocation of legal aid. I will aim from Tuesday or Wednesday of this coming week. Can you please confirm by return email the advice that Jemi gave you at your conference at Isleworth Crown Court and also please confirm why it took you so long to raise it with me?
You telephoned me on a Sunday, reserved for emergency phone calls. You should have raised it back when you had the conference with Jemi. You have raised it now and I will deal with the accusations now. I await hearing from you by return email with regards to Jemi.
Regards
Josephine Ward

1 An Email from my Solicitor: Gazebo Case - "Lorraine as a matter of respect to you I have responded to the most recent email now that I have some time. My replies to Simon are in bold. I accept that Simon believes his comments before being arrested are not damaging to his case and he believes that his interview is well thought out and legally reasoned. Unfortunately, I do not agree with Simon's belief that his comments and interview are not damaging to the case - they are what made the difference in this case. Thank you for the reply to Simon's email, Simon has asked me to write this email for him. The section of my email that was sent to you yesterday that address Jemi and the meeting we had come from my friend Katie who did attend the meeting with Jemi with me, so new what was said and I used her words as to what she heard at the meeting as to what Jemi said to me. If needed Katie could confirm this so can my mum as she was the one writing the email for me that was sent yesterday. Could you also please send me a copy as to what you have sent over to Jemi by email and his reply to your email? **(a)** Simon / Lorraine I have emailed the email I sent to Jemi and his response. This was based on the conversation and accusations made by Simon on the telephone on Sunday 2nd February **2014**. With regards to Jemi's non-availability. Jemi was booked into Simon's case and his jury was out and at risk of over running. You were advised of this fact at the time. What does happen sometimes is that once speeches are done in a case the barrister can get an alternative barrister to baby sit the case. Also, Simon's case was on the warned list, not given a fixture so there was no guarantee that the case would be listed. The case Jemi was dealing with at the time should have been a five-day case but it over ran, I agree the case is now listed for the warned list for the week commencing 30th June **2014**. As you are aware on the 19/12/**2013** when my mum got the email from you about my case about the application that was put to the court that day, when my mum got the email,

she was very worried due to the date for the listing for the new trial date, so she herself called you before she had even showed me the email. She knew the new trial date would cause a delay in my case by 6 months or more. She asked you some things on the phone on the 19/01/**2014** one being if we got the information from the crown could the date of the 30/06/**2014** be taken sooner. You replied once we get the information form the crown and Third-Party Disclosure it could be listed back in court and there maybe was a chance to being the date forward for the hearing, this is the information she told me. **(b)** Yes, Simon, I agree I did say this to your mother. I said there was a chance and I did not put it any higher than that. It is this that is upsetting me so much as the longer it takes to put the applications into the court the longer it will take to get the information that is needed in my case. As you know I am on bail conditions that have stopped me doing anything for my business that I have been setting up for many years now. In fact, I have lost a lot of business due to the bail conditions I am on. I do not think it is right that a judge to say to me that I can sub contract my business out, I am not talking here a small amount of money for my sound system or any of my equipment, if it was lost or damaged it could take a long time in which to recover the costs. This is why when my equipment is hired, I also go with it due to me being able to look after it and make sure they don't redline my equipment or it is damage or taken, I myself take care of it. And I do feel my human rights are being violated by the court and crown by not allowing me to do my work. The longer it takes this case to go to court for trial is the longer my business cannot run this is why I am so upset that things are not being put in on time to the court. I have spent many years getting to where I am today within my business and due to this case, my business is has suffered. **(c)** I have no control over Crown Court Judge's decisions re bail. They apply the Bail Act and the objections under this legislation in determining whether an individual should be given bail. You were originally refused bail due to fears that you would commit further offences and fail to surrender. I secured you bail, and I made this application out of office hours so you did not spend any longer in custody that what was necessary. I have made all requested bail variations with the exception of the one for your birthday as you did not feel you needed to provide me with the specifics of the variation and instead chose to argue with me about the rights of the Crown Court to require this information. Yes, I agree my case is in the warned list for the week of the 30/06/**2014** but would like the information well before this date so that maybe the trial can be taken forward. I would also like it sooner than later so the facts as to how Mr. Patel has done this can be shown to the crown. **(d)** As stated to your mother when the information from the insurance company is disclosed whether voluntarily or by Third Party Disclosure the Crown Prosecution Service would have been invited to review the evidence. I do not have this information. I did request this information in my defense case statement as it is information in Mr. Patel's possession and the prosecution could have asked him for this. Likewise, the first burglary this should have been disclosed to us under normal disclosure rules, but the court has insisted on a section 8 application for this. As for what I said at my home and at police station is not the issue here I knows what I said and was being honest as I did not think I had done anything wrong. I did buy the items from Mohammed in good faith. (I asked you for details of Mohammed with a view to taking a witness statement. I also advised you that he would have to be advised to seek independent legal representation to avoid self in crimination. Never provided) For it to have been a job lot of 5 of each or just 1 gazebo, and 1 chair which was found at my address I think the police would have taken the same said outcome to this case. They wanted someone for this case, and I was that person. This can be shown by any information we have asked for not being given they still have not even given the CAD reports for that day in truth that there were other police at the scene and let me in the building knowing I was there to hire my sound system for a private party that night as I explained this to them when I got there. Let alone how many times they attended the building

on that evening even down to the council attending with the police due to noise. There is also the case as to when I turned up at the building and the police was already there, how is it when they did their checks, they did not see that a Burglary had happened on that building on the 16/02/**2013** and let us enter the building knowing this as really, they would have got that report back on their checks that evening Which in my eyes does show a cover up as where are the reports as it is to do directly with my case. The DC dealing with my case also dealt with the other case on 16/02/**2013** so, would also been aware of the condition of the building after the 16/02/**2013** pictures were taken for the case of the 16/02/**2013**, so, he would have been well aware the pictures taken for my case was the same so how could he then charge me with all the damage to the building? Where is the information that the police should have asked Mr. Patel as to him securing the building after the? 16/02/**2013**? **(e)** This is a matter for cross examination and the officer in witness box where he does not have any room to maneuver. Yes, I am upset as I do feel I have been setup by the police and they by doing this have allowed Mr. Patel to use my case to make his claim to the insurance company go ahead was this planned from the start and yes, I have asked this to myself many times and others I have spoken to have said the same said thing. **(f)** Simon based on the forensic evidence recovered at the scene the police had reasonable grounds to arrest you for this offence. So yes, I want my trail sooner than later as I want to get on with my life and my business and yes, I do understand I could be found guilty for this case but until I do, I should be able to run my business. And I don't think I am asking too much here. I believe also that it could be taken to the high court for a judicial review about my bail condition, but I was never made aware of this. Seeing as the crown court attitude in this case has never been good as you have put it. And that the court is unwilling to see that I need to work or face losing my business. **(g)** The bail conditions imposed by the Court are not unreasonable. They are imposed to prevent the commission of further offences and failure to surrender. I have never tried to blame other people for the position I find myself in, what I am saying is I don't feel as if things are being done in a timely manner. If you just look at the Third-Party Disclosure, if you knew that you had to write to Nikki Diamond and get her to say in writing her unwillingness to disclose the file before you could then apply for the Third-Party Disclosure, why did you not write the letter back in Dec **2013** after the application was put into the court on the 19/12/**2013** or after you come back from annual leave, due to knowing that you needed this before the 16/01/**2014** that the judge had said. **(h)** The information that forms part of Third-Party Disclosure was originally requested in your defense case statement. Your trial is now scheduled for June **2014** and yes, in an ideal world I should have sent a letter to Nikki Diamond and the insurance company. Nikki Diamond has to refuse to give the information first of all before the Court will even entertain an application for Third Party Disclosure and then the Court could direct the information to be brought to court for the trial. This is what happens in Social Services cases by way of example. We would request paper copies, failing that then a statement from Nikki Diamond. If the insurance file is served, then Nikki Diamond is not required as a witness as the insurance claims and reports can be introduced under the hearsay rules. I do understand you were waiting for Jemi to do the write up for the section 8 and that was out of your control. But the Third-Party Disclosure was not. Also why was it when we told you about getting a statement from Nikki Diamond did you not say then you had to wait until the Third-Party Disclosure was given as she would not be able to do a statement without client confidentiality arising which would have caused issues. You told me on the phone that if you got the statement from Nikki Diamond then the bail condition would change, I wanted for my birthday should not be a problem. **(I)** I said it was worth a try. I did not put it any higher than this. I do not recall saying it would not be a problem but words to the effect that it would be worth a try. We are covering old ground here as I was also reliant on specific information that you refused to give as you felt the court had no right to know your

movements. Can you also keep me updated as to the date for court so I can attend? **(j)** No problem I am hoping to resolve this matter once I speak to Michael Carroll tomorrow in the afternoon so I will be asking for a hearing on either Thursday or Friday of this week."

Hi Josey
Lorraine as a matter of respect to you I have responded to the most recent email now that I have some time. My replies to Simon are in bold. I accept that Simon believes his comments before being arrested are not damaging to his case and he believes that his interview is well thought out and legally reasoned. Unfortunately, I do not agree with Simon's belief that his comments and interview are not damaging to the case - they are what made the difference in this case. Thank you for the reply to Simon's email, Simon has asked me to write this email for him. The section of my email that was sent to you yesterday that address Jemi and the meeting we had come from my friend Katie who did attend the meeting with Jemi with me, so new what was said and I used her words as to what she heard at the meeting as to what Jemi said to me. If needed Katie could confirm this so can my mum as she was the one writing the email for me that was sent yesterday. Could you also please send me a copy as to what you have sent over to Jemi by email and his reply to your email?
(a) Simon / Lorraine I have emailed the email I sent to Jemi and his response. This was based on the conversation and accusations made by Simon on the telephone
Sunday 2nd February 2014.
With regards to Jemi's non-availability. Jemi was booked for Simon's case and his jury was out and at risk of over running. You were advised of this fact at the time. What does happen sometimes is that once speeches are done in a case the barrister can get an alternative barrister to baby sit the case. Also, Simon's case was in the warned list, not given a fixture so there was no guarantee that the case would be listed. The case Jemi was dealing with at the time should have been a five-day case but it over ran, I agree the case is now listed for the warned list for the week commencing **30th June 2014**
As you are aware on the **19/12/2013** when my mum got the email from you about my case about the application that was put to the court that day, when my mum got the email, she was very worried due to the date for the listing for the new trial date, so she herself called you before she had even showed me the email. She knew the new trial date would cause a delay in my case by 6 months or more. she asked you some things on the phone on the **19/01/2014** one being if we got the information from the crown could the date of the **30/06/2014** be taken sooner. You replied once we get the information form the crown and Third-Party Disclosure it could be listed back in court and there maybe was a chance to being the date forward for the hearing, this is the information she told me.
(b) Yes, Simon I agree I did say this to your mother. I said there was a chance and I did not put it any higher than that. It is this that is upsetting me so much as the longer it takes to put the applications into the court the longer it will take to get the information that is needed in my case. As you know I am on bail conditions that have stopped me doing anything for my business that I have been setting up for many years now. In fact, I have lost a lot of business due to the bail conditions I am on. I do not think it is right that a judge to say to me that I can sub contract my business out, I am not talking here a small amount of money for my sound

system or any of my equipment, if it was lost or damaged it could take a long time in which to recover the costs. This is why when my equipment is hired, I also go with it due to me being able to look after it and make sure they don't redline my equipment or it is damage or taken, I myself take care of it. And I do feel my human rights are being violated by the court and crown not allowing me to do my work. The longer it takes this case to go to court for trial is the longer my business cannot run this is why I am so upset that things are not being put in on time to the court. I have spent many years getting to where I am today
450,
within my business and due to this case, my business is has suffered.
(c) I have no control over Crown Court Judge's decisions re bail. They apply the Bail Act and the objections under this legislation in determining whether an individual should be given bail. You were originally refused bail due to fears that you would commit further offences and fail to surrender. I secured you bail, and I made this application out of office hours so you did not spend any longer in custody that what was necessary. I have made all requested bail variations with the exception of the one for your birthday as you did not feel you needed to provide me with the specifics of the variation and instead chose to argue with me about the rights of the Crown Court to require this information. Yes, I agree my case is in the warned list for the week of the **30/06/2014** but would like the information well before this date so that maybe the trial can be taken forward. I would also like it sooner than later so the facts as to how Mr. Patel has done this can be shown to the crown.
(d) As stated to your mother when the information from the insurance company is disclosed whether voluntarily or by Third Party Disclosure the Crown Prosecution Service would have been invited to review the evidence. I do not have this information. I did request this information in my defence case statement as it is information in Mr. Patel's possession and the prosecution could have asked him for this. Likewise, the first burglary this should have been disclosed to us under normal disclosure rules, but the court has insisted on a section 8 application for this. As for what I said at my home and at police station is not the issue here I knows what I said and was being honest as I did not think I had done anything wrong. I did buy the items from Mohammed in good faith. (I asked you for details of Mohammed with a view to taking a witness statement. I also advised you that he would have to be advised to seek independent legal representation to avoid self in crimination. Never provided) For it to have been a job lot of 5 of each or just 1 gazebo, and 1 chair which was found at my address I think the police would have taken the same said outcome to this case. They wanted someone for this case, and I was that person. This can be shown by any information we have asked for not being given they still have not even given the CAD reports for that day in truth that there were other police at the scene and let me in the building knowing I was there to hire my sound system for a private party that night as I explained this to them when I got there. Let alone how many times they attended the building on that evening even down to the council attending with the police due to noise. There is also the case as to when I turned up at the building and the police was already there, how is it when they did their checks, they did not see that a Burglary had happened on that building on the **16/02/2013** and let us enter the building knowing this as really, they would have got that report back on their checks that evening Which in my eyes does show a cover up as where are the reports as it is to do directly with my case. The DC dealing with my case also dealt with the other case on **16/02/2013** so, would also been aware of the condition of the building after the **16/02/2013** pictures were taken for the case of the **16/02/2013,** so, he would have been well aware the pictures taken for my case was the same so how could he then charge me with all the damage to the building?
Where is the information that the police should have asked Mr. Patel as to him securing the building after the? **16/02/2013?**

(e) This is a matter for cross examination and the officer in witness box where he does not have any room to manoeuvre. Yes, I am upset as I do feel I have been setup by the police and they by doing this have allowed Mr. Patel to use my case to make his claim to the insurance company go ahead was this planned from the start and yes, I have asked this to myself many times and others I have spoken to have said the same said thing.
(f) Simon based on the forensic evidence recovered at the scene the police had reasonable grounds to arrest you for this offence. So yes, I want my trail sooner than later as I want to get on with my life and my business and yes, I do understand I could be found guilty for this case but until I do, I should be able to run my business. And I don't think I am asking too much here.
451
I believe also that it could be taken to the high court for a judicial review about my bail condition, but I was never made aware of this. Seeing as the crown court attitude in this case has never been good as you have put it. And that the court is unwilling to see that I need to work or face losing my business.

Subject: RE: Simon Cordell application
to transfer legal representation
Hi Lorraine
It is 10.47pm. I do not have Simon's file at home with me. I will ask Jemi to respond to the allegations made by Simon re his conference on **13th December 2013**
At the same time, I will ask him and his clerks to respond to why the Christmas bail variation was not made on **19th December 2013.**
As you are both aware, I was on annual leave until **06th January 2014**
Simon's case is listed for trial in **June 2014**
There is enough time to secure the information but there is a process.
453,
With regards to the section 8 application Jemi has been on notice that this has been required since before Christmas. A detailed defence case statement was submitted and as a result of this document and the Crown's failure to disclose the requested items that the Third-Party Disclosure arise as did the section 8 application. If the Insurance company believe Mr. Patel has committed a fraud, then it is their decision whether he is prosecuted. Nikki Diamond has to confirm her unwillingness to disclose the file before I can apply for Third Party Disclosure. I cannot take a statement from her as part of her statement will require her to disclose and exhibit as part of that statement the original insurance claims and she cannot do this as client confidentiality arises. Re Simon's most recent request to vary bail he did not provide the information when requested. I have dealt with this point already as I have re the Third-Party Disclosure and the section 8 application. I am not prepared to have my professional judgement or integrity called into question. Simon threatened to blacken my name on Facebook Lorraine. I am reliant on instructions from my client re bail variations. I am reliant on Counsel drafting applications re section 8. I drafted Simon's original bail application and defence case statement well within the time limits. All other requests to vary bail I have made. Due to the number of bail variations Simon is aware of the process and trying to get the variations agreed administratively. He is also aware of the attitude if the Court to his case

the issues regarding Simon's case when I am on leave, I have no control over. Simon himself caused problems in this case by
(a) his behaviour on arrest
(b) his comments to police when the police were at his house re the number of items bought as a job lot. There was no evidence of this apart from what came from Simon himself.
(c) The gazebo in his garden was easily dealt with as he had the original receipt
(d) Simon ignoring legal advice in his interviews
(e) Simon's inaccurate interpretation on the law on burglary and what squatters can and cannot do whilst squatting in a building. There is a risk that Simon will be convicted in this case and this is not through the fault of **Michael Carroll & Co** or my representation but through his own conduct on his arrest and at the police station. To try to blame other people for the position he finds himself in is very wrong. Simple questions to consider:
1. Did the police know about or have any evidence re the job lot answer No until Simon himself revealed this
2. Could Simon explain his DNA in a moveable object answer. Yes, and he would have achieved the same result as Naomi
3. Could police prove the Venice chair came from warehouse no.
Information on this again came from Simon
4. Is Mohammed likely to be a witness as to sale of the items?
No because he will have to be advised to obtain independent legal advice as he could incriminate himself This was better left to cross examination at trial as too late then to produce invoices, but Simon obviously does not agree. This will be an example of Simon making a further tactical mistake as he did during the comments to police at his address and again in interview. The Judge and prosecution will be influenced in making decisions in this case based on Simon's conduct before arrest, in interview and his previous convictions. The point that Simon is missing is that a prima facie case exists, and this case will go to trial. Simon should reread his interview and his attitude in his interview where he effectively suggests it serves the owner of the premises right for having his premises burgled.
454,
If Simon had not made such foolish comments when he was arrested and instead followed sound legal advice at the police station then we could have made representations to review the case but based on his admissions at his address, coupled with his interview this was impossible. At the start of this case Simon was very much mistaken with regards to the law. Tactics and timing are important in cases. Simon does not want to allow Solicitors to make tactical decisions so the best of luck to him. Once I get an email back from Jemi re the conference and section 8 application I will be listing this case to have the legal representation order revoked. During the telephone conversation today Simon again was abusive, he questioned my professional integrity, my ability to defend my clients and he threatened to slander my name. I heard him loud and clear Lorraine. All I can say is he has a very short memory. I know exactly how many times I have represented Simon and how many of those cases have resulted in a charge or a conviction. I am duty solicitor at court tomorrow and I will email Jemi in the morning. I will request an urgent response from him, and I will then let you know when the case will be listed.
Kind regards
Josephine

Hi Josey
Simon has asked me to write this email, so I am just writing what has been asked and the facts he is saying. As you are aware Simon is not great with Emails or letters and replying to them due to his writing and spelling. Simon has said he is not treating you in anyway, yes, he

did say he was going to put his papers on Facebook to ask people what they feel about his case. He would then be able to obtain feedback from the general public. He feels there have been many errors in his case, some of these errors he wants me to list below. His case was listed for the warn list for the **16/12/2013** this could not happen due to issues with the crown not giving the information over. You at this time wanted it to go to trial and the morning the trail started wanted to list information that was needed for Simon case. When Simon went to see his Barrister on the **13/12/2013** the barrister new nothing about the case and asked Simon to explain what his case was about. While Simon was explaining his barrister told Simon not to rush, Simon showed the barrister the invoices for the case and the barrister said these invoices were here say, can he prove the items were even in the building at the time Simon was there. The Barrister asked where the disclosure, as what we showed him was rubbish. We had most of the case files with us that you had emailed to us. The Barrister asked has a section 8- and Third-Party Disclosure been put in, we told him no he said as soon as we get back get your solicitors to put a section 8- and Third-Party Disclosure in it should have been done already don't delay get it done today. Solicitors aren't doing the job properly get onto them. The Barrister asked when is this in court we said next week, to which he said I don't even know why you've been sent to me for this meeting as I'm on another case until Tuesday, Wednesday so won't be able to represent you. The barrister also told me to get a copy of my interview tapes and go over them and mark any part that is wrong on the crown's paperwork. Simon had about a 20 min with his barrister before the barrister had to go back into court.

455,

When an application for a Section 8- and Third-Party Disclosure was put into the court on the 19/**12/2013** there was a time given that Simon solicitor had till the **16/01/2014** to submit the section 8 and the Third-Party Disclosure to the court. And that then the crown had until the **16/02/2014** to give the information that had been requested. If the crown failed to give the information the case would need to be relisted in court so this could be address. As of today's, date **02/02/2014** we still do not know if the section 8 and the Third-Party Disclosure has been given to the court. The last email from you on this subject was dated the **27/01/2014** where you told us that Jemi has drafted the section 8 applications that require minor amendments before it can be served. As for the Third-Party Disclosure as of **29/01/2014** a letter to Nikki Diamond from the insurance company had just been sent over by yourself, I believe that this is the process that needs to happen before a Third-Party Disclosure application can be put in as you need it in writing that the insurance company is not willing to hand over the file without the Third-Party Disclosure. On the **13/12/2013** a call was made to Cunningham Lindsey where we talked to someone about the case for the insurance part of the claim, we were told that Nikki Diamond was not due back into the office until the **16/12/2013.**

On the **16/12/2013** my mum called Cunningham Lindsey to talk to Nikki Diamond where we were told that Nikki Diamond was working from home that day and given Nikki Diamonds mobile number to call her. My mum then made a call to Nikki Diamond and we chatted about the case telling her what had happened in Simon case and what we believed had gone on. Nikki Diamond was concerned about what we had told her over the phone, and at this told us she needs to put this to her manager and could she take our phone number so that her or her manager could call us back. I give Nikki Diamond our contact information.

On the **17/12/2013** my mum took a call from Trevor Allaway Commercial Special Investigator for Cunningham Lindsey my mum and Trevor Allaway talked for some time over the phone about the case at which point in asked that could he have a meeting with Simon to take a statement from him, he also said he did not want to step on Simon solicitor feet and to please advise our solicitor as to what was going on and that he would like to have the meeting with Simon. After the called I Emailed you what had gone on and forwarded you

a copy of the email Trevor Allaway had sent. You replied asking if the insurance company aware that Simon is awaiting trial for burglary. I replied yes; they were as I had disclosed this to them on the calls that were made. Nothing was done with this information so on the **08/01/2014** my mum made a call to Trevor Allaway to setup a meeting with him at my mum address this was set for the **13/01/2014** at 11am, when my mum spoke to Trevor Allaway, he told her that he will be being the complete file for the claim with him to the meeting. On the **13/01/2014** the meeting with Trevor Allaway went ahead. Where information was given by both parties. There was shock also on both sides about parts of information that was spoke about. Trevor Allaway even showed us pictures of which Nikki Diamond had taken on the **28/03/2014** and was shocked to see the picture the police had taken for my case as they were the same pictures Mr. Patel & D Patel had done nothing to the building and now, I was paying the price due to this. Trevor Allaway also made a call to Nikki Diamond to get dates for claims etc and to make sure he had all the facts correct. Nikki Diamond gave the dates of **17/02/2013** for the 1st claim **25/03/2013** for a 2nd claim **07/06/2013** for the 3rd claim. We were shocked there was in fact a next claim we knew nothing for the 25/03/**2013**, and also the date for the last claim of the **07/06/2013** when in fact Simon case was for the **04/05/2013**
We asked Trevor Allaway why the claim for **17/02/2013** and the **25/03/2013** was not paid out he said we did not believe the claim was real.

456,

He also said that when someone takes out insurance, they have to put down the condition of the property, and they also believed a lot of the damage to the building was from an earlier date. Trevor Allaway also said that to get out solicitors to go and get a statement from Nikki Diamond as she would be a creditable witness for Simon. All this was explained to you with an email that was sent to you on the **13/01/2014** by my mum and a phone call where I talked to you when you were on your way to the prison to see someone. I at this asked you also about his birthday and you said if Nikki Diamond could do a statement that said everything, I had said then there should be no problem for my birthday. My mum did get a next email from you that day asking for Nikki Diamond information as when the 1st email had been sent to you my mum had forgot to put it, my mum replied with the information for Nikki Diamond being mobile number and office address she could not at this point find Nikki Diamonds email address so this was not included. Emails was sent on the **15/01/2014** and the **18/01/2014** asking if a date had been setup for you to take the statement from Nikki Diamond and if the section 8 and the Third-Party Disclosure has been given to the court and for an update. You replied to this on the **18/01/2014.**
On the **21/01/2014** my mum emailed you about the application for my curfew for my birthday, you replied to this asking for his plains for his birthday so you could put the application into the court. On the **22/01/2014** when I went to mums, she showed me the email I was upset with this due to the fact I did not see why I needed to give the locations as to where I was going. You said you had to have this to put the application in. My mum emailed you the details as to where I was going. As we had not heard anything, I believed the application had been put in and that it should have been heard on the **24/01/2014** my mum late on the **24/01/2014** emailed you and texted you to get an update as to the application. There was no reply to this from you until the **27/01/2014** where you told us, the application could not be put in due the notice you need to give the court.
You also in that email explained the process needed for the Third-Party Disclosure application. In which was the 1st time I knew a letter would be needed to be sent to the insurance company and they would need to refuse to hand over the files before you could go for the Third-Party Disclosure application through the court. And also give me an update as to the section 8 application that you could confirm that Jemi has drafted the section 8

application that requires minor amendments before it can be served. But you knew this was needed when the application was put into the court on the n**19/12/2014**
when the application was heard for the section 8- and Third-Party Disclosure. So why was this only being address on **27/01/2014** when this then had already passed the date of the **16/01/2014** to hand the application into the court?
I feel this delay will again make my case take longer as there is still going to be a time given by the court to the crown to reply to the applications. On the **29/01/2013** a reply was made by email from my mum. Explaining parts in the letter that you attached to the email you sent on the **27/01/2014** for Nikki Diamond about the discloser of the file was not correct and needed amended. She also wrote that I still wanted a statement taken from Nikki Diamond due to this helping my case.
You replied to this email on the **29/01/2014** saying that, the statement from Nikki Diamond will follow after the Insurance Company discloses the claims made by Mr. Patel, whether voluntarily or by Third Party disclosure. I do feel this statement is 100% needed sooner not later as once this is shown to the crown I sure they will rethink their case on me. As I feel at this time this is an unfair trail due to how Mr. Patel has used my case to be able to manipulate his insurance claim due to what has already been discussed with Trevor Allaway. And this is a clear beach in my human rights to have a fair trial. Also, on the **19/01/2013** when the application went into the court a bail application was meant to have been done at the same time for my bail conditions over the holidays that where upcoming. For some reason the bail application was not heard so you relisted this for **23/12/2013** to be heard by the court, you sent a text to my mum after you found out the outcome of this bail application in which you said I was on an electric tag to my mum address, and that the curfew was not lifted that Serco would come to my mums address to install the tag there. I got very upset with hearing this as I for one reason I was never on an electric tag for this case from the start of it. I did try and call you and I got no reply so I called the court explained to the court the issues I had and was **457,**
advised to call my solicitor and ask them to relist the case for the **24/12/2013** this would need to be done within the next 20 mins. I then called the office and explained this to someone in the office and was told I would get a call back. I did not get a call back but at around 21.47 that evening you texted my mum saying that Simon needed to be at Woolwich crown court at 09.45 on the **24/12/2013**
On the **24/12/2013** I went to court and my mum come with me, when we got there, we were told the case was not listed before 11am. So, we waited at the court at around 10.50 as a barrister had not turned up for me my mum texted for to ask the name of the barrister that would be coming that we were outside court 7 waiting, there was no reply to this text so at around 11.10 I made a call to the office and spoke to someone there that told me a barrister would not be attending, I was really upset with this but what could I say. I then saw the usher of the court and told her what was going on, she said why had the solicitors told me to come here and yet new there would not be a barrister and not tell me this beforehand, she told me she would talk to the crown who was in the court room and explain to him what was going on and then let me know what could be done. About 5 mins later she came out of the court room and told me that the crown was going to call it on and see what could be done. It was called into court and when the judge heard I did not have a barrister she asked the clerk of the court to call the office and see what was going on, which the clerk on the court did, when she got off the phone, she told the judge no one was coming to the court for me. I stood up and tried to explain to the judge what had gone on. My mum at this asked the judge if she could explain it and the judge said yes to come forward, she could hear what my mum was saying. My mum explained to the judge about the **19/12/2013** and the **23/12/2013** the judge was at lose of what could be done as the rule that had been made on the **23/01/2014** she could not

change as this would be dealing with a judicial review and she could not hear that. The crown then asked if he could speak to the judge and said that due to new evidence, she could hear it on them grounds. The judge at that replied yes, she would like to hear this but I did not have a barrister she then went on to ask the barristers in the court room would they be willing to represent me and told them that I had legal aid and that it would be marked on the file. One stood up and said yes, she would stand in. the judge then said to us to go outside with the barrister and speak to her and when ready it would go back into court. We went out explained to the barrister what was going on. She told us that even from what she had heard in court that I should really think about changing solicitors. It went back into court and the judge heard the case and my bail was varied on the **01/01/2014** my mum again texted you due to an issue where I got arrested, she had tried to call the office but there was no answer of a voice mail message to give a number to call. No one got back to my mum so when she got to court, she had to ask a solicitor that was on duty that day to help me. He said he was not meant to as I had legal aid for the case already, but he would go and speak to me, he did in fact represent me in court that day. On the **03/01/2014** I asked my mum sent you an email to ask if my case was too much for you as I knew you had a lot of work on. You told me you were still on annual leave and I return to work on Monday. On the **31/01/2014** I was due to have a meeting in the office which you had to cancel as you were dealing with other cases. This was re booked for **04/01/2014** at 2pm. I have called you many times and it has just gone to voice mail and you have not called me back. I have also called the office about things I feel are wrong and told someone would call me back which has not happened. I can prove this with statements from the phones that were used. There are emails that have been sent to you and no reply to them emails and what I have asked to have been given. There was a break down before in this case as you are aware and I dropped the complaint. Josey, I have used you as a solicitor for many years and don't just look at you as a solicitor you are a friend of the families. All I want is for my case to be dealt with in a correct manner, which will lead me to have a speedy and fair trial, and I don't want to feel like I am being punished for a crime that I have not been convicted of. And I feel with the statement from Nikki Diamond that would show somewhat to Mr. Patel ways in how he has dealt with his insurance case in this matter that clearly is not correct all ready. Could you please email back at the points that have been included in this email, and if you feel I am wrong on

458,

any points or the way in which I am feeling.

to transfer legal representation
Simon
Further to your telephone conversation with me today during which you have accused me of not representing you correctly and not defending your case properly you leave me with little choice but to list the case at Woolwich Crown Court in order that your legal representation order can be revoked. I am cancelling your 2pm conference with me for Tuesday **04th February 2014.**
I am not prepared to be subjected to threats about you blackening my name over Facebook. I work very hard for all my clients and my track record as a Criminal Defence Solicitors attests to that. I have represented you since you were a juvenile to the best of my abilities, and I have never not defended a client properly or tried my best for my client. You stated that during the

telephone conversation that the Judge asked you to change your solicitors at the last bail hearing on Christmas Eve. As you are aware, I was on annual leave from **23rd December 2013** I made the bail variation as requested and you were not happy as the court did not suspend your curfew. That is the simple fact of the matter here. You also stated that during a conference with Jemi, the barrister that I appointed for you that he also advised you that I was a poor solicitor and not acting in your best interests. You only raised this today and I will most certainly be taking this accusation up with Jemi and his clerks. I asked you to confirm this in writing and you have refused to do this. I again ask you to confirm this in writing as Jemi will have to respond to this allegation. I will be asking Jemi and his clerks to comment on the allegations that you have made. You will of course appreciate that if Jemi does not agree with your accusations that he will probably refuse to represent you. You are accusing him of slandering my reputation by saying that Jemi says I am not representing you properly and that he advised you to change your solicitors. With regards to your complaint in relation to the bail variation you were asked in a number of emails to provide full details of your plans, venues etc and you did not do this instead you shouted down the phone and refused to give specific instructions. When you eventually did give the requested information, it was too late to apply to have the bail position varied. I suspect you know what the court's attitude to the requested variation would be in any event. With regards to the request for the original receipt I have to provide this to the court in an addendum to your defence case statement and the police will then make their enquiries. I am sorry that this position has arisen, but you have left me little choice in the matter. I wish you good luck with your case and I will confirm the date that your case is listed for the revocation of legal aid. I will aim from Tuesday or Wednesday of this coming week. Can you please confirm by return email the advice that Jemi gave you at your conference at Isleworth Crown Court and also please confirm why it took you so long to raise it with me?
You telephoned me on a Sunday, reserved for emergency phone calls. You should have raised it back when you had the conference with Jemi. You have raised it now and I will deal with the
459,
accusations now. I await hearing from you by return email with regards to Jemi.

I am forwarding below Jemi's reply. I received this at 1.11pm. I am hoping to speak to Michael Carroll tomorrow afternoon in order to get his authorisation to apply to apply to court to get the legal representation order revoked. I will of course confirm the listing in due course.

Josephine

Utter nonsense, in every particular save that I could not do his case as then listed. Josie you know Simon has ADHDO and can get particularly anxious. I know that makes hard work, but I seem to be able to cooperate with him. If you wish, I'll call him and see if we can extend that cooperation and respect to all his representatives.

3 **An Email from my Solicitor:** Gazebo Case - "Simon was very clear in what he said on the phone re his meeting with Jemi. I did not misinterpret or misquote what he said. He also told me I was a bad solicitor and he did make the threat to publicise how I was dealing with him on Facebook because I clearly heard you tell him "No you are not". My interpretation of your saying this is that you knew he had gone too far by the threats he had issued. "All that he wants is to be dealt with in a timely and professional manner" really Lorraine, but you state Simon is not casting aspersions on my professional integrity. Re the timely manner, Simon's main complaint is that his bail was not varied again specific instructions not provided when requested and Third-Party Disclosure. The trial is in June. Both the Third-Party Disclosure and section 8 application would be dealt with at the same time. I started dealing with Simon when he was 16. I observed Michael when Simon was accused of committing a robbery in the lifts at Edmonton Green. Simon was wearing a yellow coat and you a navy and cream ski-type coat. A care worker was in the interview with him also. Units I think so nothing wrong with my recollection. Identification parades took place. I recall the police sending him a birthday card shortly after that to mark the occasion of his 17th birthday so he would not require an appropriate adult. Simon has been represented by Michael Carroll & Co and me personally always to a high standard. My track record as a criminal defence solicitor attest to this. In 15 years, I have successfully defended a number of very serious cases. I know how to make correct tactical decisions for clients. I should not have to defend my reputation to either Simon or you as you both know very well from past experiences how hard I try for people I am perfectly within my rights to ask for legal representation to be revoked in this case but because of the length of time I have known both you and Simon I will suggest to the court a transfer of legal representation on the ground of breakdown in relationship and the client alleging breakdown in trust and confidence in solicitor. I am at HMP BELMARSH this morning and I will try to speak to Michael Carroll on the phone so he can authorise this. Best

of luck to both you and Simon. You have all the case papers already. Anything you do not have copies of email me in a list. Please confirm details of the solicitor who you wish to transfer the case over to at your earliest convenience."

Hi Josey

Simon has asked me to email you and ask if his legal aid is to be revoked can it be transferred to a new solicitor rather then you revoke it. Simon has asked me to say he has stayed with Michael Carroll & Co since he was 14 years old and feels also that due this case being dealt with emails for the 1st time it has highlighted some of the problems that have been sent in the emails before, such as things not being put in time as said by the judge.

464,
And all he has asked is for his case to be death with in a timely and professional manner. At no time did he say anything about your professional integrity and made slanderous threats towards you as a person. As for what has been said from yourself to Jemi and Jemi reply I feel you have taken my words out of context and not used what you asked me for which was an email with a statement of what was said.
Simon.

As the days and night continue to hurry and go bye to the next day and night, I realise how irresponsible the Enfield Councils and the Enfield Homes treat their clientele, because I continue to express that I am ready and able to book a date in my diary to give their staff

there rights towards their duties of contract the needed access to my property to complete the urgently needed repairs, so for them to get completed, with efficiency, but to my disadvantage I get left helpless by no correct follow ups!

You have always said not to worry about this on his PNC, yet they are using this so to impose more bail conditions on this case due to failure to surrender. I am going to try and get this sorted as they are holding this against Simon and have done so more than once so I do feel this does need addressing and not left any longer.

If they are going to do so I will send over later today the information. Also, I am contacting the City of London Magistrates court today due to the failure to surrender for his bail, as you are aware that this should not be on Simon PNC and I have spoken to you before about this many

times, and the court a long while back and they said they was going to put it right and have not done so. You have always said not to worry about this on his PNC, yet they are using this so to impose more bail conditions on this case due to failure to surrender. I am going to try and get this sorted as they are holding this against Simon and have done so more than once so I do feel this does needs addressing and not left any longer.

I have lost all my telephone contacts as my smart phone has died. Can you please email me your telephone number and Tyrone's please?
I remember your old number 07961 833 021 but cannot remember the other one or your house number. I will hopefully list the case next week. Can you confirm the new Solicitor details at your earliest convenience? I have also asked Jemi he can still do the case, but you will probably have to tell the new solicitors that he is your preferred barrister. If you give them my contact details, I can email over all the information etc.

2 An Email from my Solicitor: Gazebo Case / SECTION 8 APPLICATION.pdf / Regina v. Simon Cordell for mention at Woolwich Crown Court - "Trevor Allaway has indicated that he will view section 35 request favorably. If he agrees that we satisfy the criteria of section 35 then we will not have to resort to Third Party Disclosure as he should disclose. We may still have to do Third Party disclosure if he redacts information that may be relevant. A decision cannot be made on this until we receive either **(a)** the file from the insurance company or **(b)** the insurance company is unwilling to disclose in which case Third party

Disclosure kicks in again. The section 8 application was sent off today. I had asked Jemi to amend it and he had not, so I amended it and sent it off. Lorraine as Simon's case is in the warned list there is no guarantee that he will get Jemi to do the trial. He is still booked to do the case, but this is dependent on other cases not over running or him being instructed in a weeklong case. Simon's conference with Jemi in December was a classic example of this. He was dealing with a child neglect case which was overran and had Simon's case been listed then Jemi would not have been able to do the case. Jemi or his Chambers may be willing to do the case. The court can direct that legal representation stay in place for the purposes of Counsel conducting Simon's trial and possibly for a pretrial conference, but their diaries change, and this affects their availability. I hope this clarifies."

Dear Simon / Lorraine
Please note that your case is listed for mention at Woolwich Crown Court on **18th February 2014** the listing indicates that you must attend. Can you please confirm the details of your new solicitors in order that I can email the court and confirm that we do not object to the proposed transfer of legal representation?
If you cannot locate a Solicitor to take over the case then we can apply on this date to have legal representation revoked so that you can represent yourself, as you have indicated you wish to. I stress that legal representation still covers Counsel and in a case like this it is better to at least have representation from a barrister. The majority of the work has been done on this case and the only outstanding issues are as follows:
1. Disclosure from Insurance company
2. Disclosure requests in the defence case statement
3. Bad character skeleton argument to oppose Jemi will draft this as he will be arguing to exclude the bad character. In relation to 1 and 2 above the items disclosed will assist with cross examining witnesses. I have forwarded emails sent to the CPS, Woolwich Crown Court and also to Mr. Trevor Allaway. If you have any further questions, then please do not hesitate to email me. I will still assist you with the preparation of the defence until legal representation is revoked or transferred.

Hi Lorraine
Trevor Allaway has indicated that he will view a section 35 request favourably. If he agrees that we satisfy the criteria of section 35 then we will not have to resort to Third Party Disclosure as he should disclose. We may still have to do Third Party disclosure if he redacts information that may be relevant. A decision cannot be made on this until we receive either.
(a) the file from the insurance company or
(b) the insurance company is unwilling to disclose in which case Third party Disclosure kicks in again.
The section 8 application was sent off today. I had asked Jemi to amend, and he had not, so I amended it and sent it off. Lorraine as Simon's case is in the warned list there is no guarantee that he will get Jemi to do the trial. He is still booked to do the case, but this is dependent on other cases not over running or him being instructed in a weeklong case. Simon's conference with Jemi in December was a classic example of this. He was dealing with a child neglect case which over ran and had Simon's case been listed then Jemi would not have been able to do the case. Jemi or his Chambers may be willing to do the case. The court can direct that legal representation stay in place for the purposes of Counsel conducting Simon's trial and

possibly for a pretrial conference, but their diaries change, and this affects their availability. I hope this clarifies.

Dear Simon / Lorraine
Please note that your case is listed for mention at Woolwich Crown Court on **18th February 2014.** The listing indicates that you must attend. Can you please confirm the details of your new solicitors in order that I can email the court and confirm that we do not object to the proposed transfer of legal representation?
If you cannot locate a Solicitor to take over the case then we can apply on this date to have legal representation revoked so that you can represent yourself, as you have indicated you wish to. I stress that legal representation still covers Counsel and in a case like this it is better to at least have representation from a barrister. The majority of the work has been done on this case and the only outstanding issues are as follows:
1. Disclosure from Insurance company
2. Disclosure requests in the defence case statement
3. Bad character skeleton argument to oppose Jemi will draft this as he will be arguing to exclude the bad character. In relation to 1 and 2 above the items disclosed will assist with cross examining witnesses. I have forwarded emails sent to the CPS, Woolwich Crown Court and also to Mr. Trevor Allaway. If you have any further questions, then please do not hesitate to email me. I will still assist you with the preparation of the defence until legal representation is revoked or transferred.

I was told to write this email including as much information as I could to get this updated. I have contacted you a few times before about this Error on my PCN and was told that you would get it updated but as of now this has never been done. I was told on the 10/02/**2014** when I called due to the date that it would be down to the police to update this. You would have only forwarded the information to the police to get this updated. The Error is for a case that was heard on the 03/03/2008 at the City of London Magistrate Court, for failing to surrender to custody at appointed time, on the 25/01/08. The error is that I did not go to go but my mum called the court and a sick note was handed to the court and the case was dismissed, so should not be on my record. This has

caused me problems with bail on a few times and this is why calls have been made before to the court, at this time it has been causing me problems again with a case I am at Woolwich Crown court for. I have attached the page for the PNC print out the police did for the case at Woolwich crown court that I am on bail now for. This print out was done by the police on or around the 26 June **2013** for the Woolwich case. I do feel this is causing me problems with my bail and I am therefore asking for this to be dealt with as fast as possible in order that I can show the court this should in fact not be on my record. I was told on the 10/02/**2014** when I called that if I ask for a court transcript that this could be done faster than updating the PNC records and I would be able to show the Judge at Woolwich crown court the court transcript for the case that is on my file in error and that should be enough to prove that it should not be on my record. I am there for asking for the court transcript to be sent to me if there are costs for this, please email me back with the cost for this to be sent to me and I will get this paid to the court. Please see attached file for the page in my PNC record which is there in error I have highlighted the case. If this can be done as a matter of urgency due to the impact this is having on my life."

14 **An Email from my Solicitor:** Gazebo Case - "Please see forwarded email that I sent to Mr. Trevor Allaway. / Dear Mr. Allaway, Thank you for your email. This case is listed for mention at Woolwich Crown Court on 18th February **2014**. It is my understanding that you have been contacted directly by Mr. Simon Cordell and Miss Lorraine Cordell in relation to ongoing legal proceedings. Thank you for the indication that an application under section 35 of the Data Protection Act 1998 would be viewed favorably. We make this application under section 35 of the Data Protection Act 1998 to request details of all insurance claims submitted by Mr. Rakesh Patel in relation to a burglary committed at Unit 3 HORRISONS Industrial Estate. Mr. Patel alleged in a section 9 statement to the Metropolitan Police that a burglary was committed between 01st May **2013** And 08th May **2013** He alleges that goods to the value of £8220 were stolen and damage to the walls estimated to be between £8,000 £10,000. Our client disputes involvement in the burglary but states that he did hire out his sound equipment in order for a private party to place arranged by persons legally squatting at the premises. Mr. Cordell was forensically linked to the premises by DNA on a can of drink. Mr. Cordell gave an explanation for this in that he stated that he oversaw the persons using his equipment. Mr. Cordell has stated that when he arrived damage had already been caused and he has produced Facebook pictures purporting to be of the alleged premises. It is our understanding that you are in possession of photographs from previous burglaries at the same premises and the damage cited by Mr. Patel in his statement to the police actually relates to damage already caused during a previous burglary and not May **2013** as Mr. Patel alleges. We rely on paragraph **section 35 (2)** / **(a)** and **(b)** which states: Personal data are exempt from the nondisclosure provisions where the disclosure is necessary **(a)** for the purposes of, or in connection with, any legal proceedings (including prospective legal proceedings), or **(b)** for the purpose of obtaining legal advice, or is otherwise necessary for the purposes of establishing, exercising or defending legal rights. Mr. Cordell faces a trial at Woolwich Crown Court in respect of an allegation of burglary. Mr. Cordell contests this and alleges that he is being singled out and blamed for offences committed on earlier dates. He also denies

causing the damage and alleges that this was caused on an earlier date. It is crucial to Mr. Cordell's defence that any evidence that supports the fact that previous burglaries were committed, and extensive damage caused be disclosed in order that Mr. Cordell can defend his legal rights. Any claims for stolen stock and any invoices submitted are also requested as old invoices have been submitted as part of these proceedings to support the value of the goods stolen. We would be grateful if the above could be disclosed as a matter of urgency. If you cannot disclose this information, then please confirm this in order that we can apply to the Court for a Third-Party Disclosure summons. We thank you in advance for your assistance in this matter. **PS:** We attach a copy of the statements made by Mr. Patel in these proceedings and also a copy of the indictment which confirms the charge against Mr. Cordell."

Thank you for your email.
This case is listed for mention at Woolwich Crown Court on **18th February 2014**
It is my understanding that you have been contacted directly by Mr. Simon Cordell and Miss Lorraine Cordell in relation to ongoing legal proceedings. Thank you for the indication that an application under section 35 of the Data Protection Act 1998 would be viewed favourably. We make this application under section 35 of the Data Protection Act 1998 to request details of all insurance claims submitted by Mr. Rakesh Patel in relation to a burglary committed at Unit 3 HORRISONS Industrial Estate. Mr. Patel alleged in a section 9 statement to the Metropolitan Police that a burglary was committed between 01**st May 2013** And **08th May 2013** He alleges that goods to the value of **£8220** were stolen and damage to the walls estimated to be between £8,000 £10,000. Our client disputes involvement in the burglary but states that he did hire out his sound equipment in order for a private party to place arranged by persons legally squatting at the premises. Mr. Cordell was forensically linked to the premises by DNA on a can of drink. Mr. Cordell gave an explanation for this in that he stated that he oversaw the persons using his equipment. Mr. Cordell has stated that when he arrived damage had already been caused and he has produced Facebook pictures purporting to be of the alleged premises. It is our understanding that you are in possession of photographs from

previous burglaries at the same premises and the damage cited by Mr. Patel in his statement to the police actually relates to damage already caused during a previous burglary and not **May 2013** as Mr. Patel alleges. We rely on paragraph section 35 (2)
(a) and
(b) which states:
Personal data are exempt from the nondisclosure provisions where the disclosure is necessary
(a) for the purposes of, or in connection with, any legal proceedings (including prospective legal proceedings), or
74,
(b) for the purpose of obtaining legal advice, or is otherwise necessary for the purposes of establishing, exercising or defending legal rights. Mr. Cordell faces a trial at Woolwich Crown Court in respect of an allegation of burglary. Mr. Cordell contests this and alleges that he is being singled out and blamed for offences committed on earlier dates. He also denies causing the damage and alleges that this was caused on an earlier date. It is crucial to Mr. Cordell's defence that any evidence that supports the fact that previous burglaries were committed, and extensive damage caused be disclosed in order that Mr. Cordell can defend his legal rights. Any claims for stolen stock and any invoices submitted are also requested as old invoices have been submitted as part of these proceedings to support the value of the goods stolen. We would be grateful if the above could be disclosed as a matter of urgency. If you cannot disclose this information, then please confirm this in order that we can apply to the Court for a Third-Party Disclosure summons. We thank you in advance for your assistance in this matter.
Yours faithfully
MICHAEL CARROLL & CO
PS: We attach a copy of the statements made by Mr. Patel in these proceedings and also a copy of the indictment which confirms the charge against Mr. Cordell.

Disrepair!

I received unreliable promises of agreements of my landlords, causing me a breach of trust in relation to the problems that are to do with the damp not getting fixed in the needed efficient fair and timely manner as required by their company's stationary duties, at my loss of life and cash expenses!

The disrepair issues remain unhurried from getting resolved in due process with concern for my health and safety after Enfield Council and Enfield homes as an add-on towards my dissatisfaction of their services!

Disrepair!
I made the relevant phone calls today to the Enfield homes and Enfield Council complaints department so to receive an efficient service regarding my damp heating ventilation and the sound issues of disrepair that I face on a daily basis within my rented home but ended up

receiving a service from the staff that caused me intentional infliction of emotional distress from their reckless disregard of lack of concern in addressing the damp issues another disrepair problem within my flat!

Disrepair!

Today my friends visited my home and see me shivering cold without no heating I found this unamusing because it's of no fault of my own and I feel as if when I should get supported by the Enfield Council and then four times within their statutory duties in rectifying the disrepair issues within my home such as the non-existing heating!

To Whom It May Concern:

I am writing this email after a call that was made to the City of London Magistrate Court on the **10/02/2014** about a list that is on my PNC that is incorrect. I was told to write this email including as much information as I could to get this updated. I have contacted you a few times before about this Error on my PCN and was told that you would get it updated but as of now this has never been done.
I was told on the **10/02/2014** when I called due to the date that it would be down to the police to update this. You would have only forwarded the information to the police to get this updated. The Error is for a case that was heard on the **03/03/2008** at the City of London Magistrate Court, for failing to surrender to custody at appointed time, on the **25/01/2008.** The error is that I did not go to go but my mum called the court and a sick note was handed to the court and the case was dismissed, so should not be on my record, this has caused me problems with bail on a few times and this is why calls have been made before to the court, at this time it has been causing me problems again with a case I am at Woolwich Crown court for. I have attached the page for the PNC print out the police did for the case at Woolwich crown court that I am on bail now for. This print out was done by the police on or around the **26 June 2013** for the Woolwich case. I do feel this is causing me problems with my bail and I am therefore asking for this to be dealt with as fast as possible in order that I can show the court this should in fact not be on my record. I was told on the **10/02/2014** when I called that if I ask for a court transcript that this could be done faster than updating the PNC records and I would be able to show the Judge at Woolwich crown court
503,
the court transcript for the case that is on my file in error and that should be enough to prove that it should not be on my record. I am there for asking for the court transcript to be sent to me if there are costs for this please email me back with the cost for this to be sent to me and I will get this paid to the court. Please see attached file for the page in my PNC record which is there in error I have highlighted the case. If this can be done as a matter of urgency due to the impact this is having on my life.
Many Thanks
Mr. Simon Cordell

3 An Email to my Solicitor: Errors on my PNC Record / Outcome for fail to surrender - "I just been emailed from the court the outcome of the city of London case fail to surrender as you will see from attached copy that has been sent over to me today from the court this case was dismissed. I had to pay £5.00 to get this from the court so I will email you the copy of the receipt also and the email I sent to court to get this dealt with I will send this over so you have copies of it. So, on Simon bail for this case there should be no fail to surrender, as he has never failed to surrender to the police or the court. Also, there are some other things on the PNC that I want to look into as there are some other errors, I am sure, but I wanted to get this one dealt with 1st as this was causing a problem. Also, Simon has looked over the section 8 and there are some errors with the dates Jemi put March and not May in 2 places also he put in section 2, 21. arrested win connections I think that should have been with and not win. Not sure if you corrected this with the one you sent over to the court. Also is it 9.30am Simon needs to be at court tomorrow can you let me know please."

4 An Email from my Solicitor: Gazebo Case / Outcome for fail to surrender - "Thank you for the information. I have forwarded this to the barrister, Andy Locke who is covering the hearing tomorrow. I asked for the case to be removed from the list for two weeks as I have yet to hear back from the Insurance company and the prosecution, but the court went ahead and listed it. Simon must attend by 11am. His case is fourth on so if he arrives at court for 10.30am he will be in plenty of time. I will send a chaser email to the Trevor Allaway this evening. He is in court 7. If the insurance file and the disclosure from the police comes back favorably then coupled with the confirmation that Simon has no convictions for failing to surrender, I will try again to get his bail conditions relaxed but I stress I can only do this once

I am in receipt of the disclosure and this will be dependent on what the disclosure reveals. I can then compile all the case papers for the defence and assess whether we can make a request for the prosecution to review the prosecution against Simon. I think that they will proceed regardless but I will try once I am in receipt of all the information and if this information assists the defence and undermines the prosecution. I will arrange an appointment with Simon for this weekend / early next week and I hope to have some disclosure before the. Any questions please do not hesitate to come back to me."

2 **An Email from my Solicitor: To** J.B. AKINOLUGBADE + All Gazebo Case / for mention on 4th March **2014** at Woolwich Crown Court - "I refer to the above matter. Please see attached a copy of the insurance file. I will require the police disclosure before tackling the issue of bail again and I hope to be in possession of this before the 04th March **2014** I will email a copy of the insurance file to the CPS also to further bolster the argument about disclosure of all police files in relation to the earlier two break in / burglaries. You will all not doubt note the insurance quotes and the names of the company providing the quotes, the amounts quoted and the damage being caused before May **2013** I do not see any evidence of any money paid out to repair the wall and I will ask the insurance company if Mr. Patel has provided any that this was done or the cost. It is referred to in email but no quote is attached or indeed the date the work was undertaken. The photographs provided by the insurance company do not assist as they do not show the damage to the internal walls but the police files for the first two offences may well confirm that the damage is identical. This and the links from Facebook. As you are aware of, I do not receive the police disclosure by the04th March **2014** then I will have to make a further application for the case to be listed for lack of disclosure. / **Page Numbers:** 537,
From: JOSEPHINE WARD [josephinewardsolicitor@gmail.com]
Sent: 21 February **2014** 13:14
To: too smooth; Lorraine Cordell; J.B. AKINOLUGBADE
Subject: Regina v. Simon Cordell for mention on 4th March **2014** at Woolwich Crown Court
Attachments: INSURANCE FILE.pdf
Dear Simon / Lorraine / Jemi
I refer to the above matter.
Please see attached a copy of the insurance file. I will require the police disclosure before tackling the issue of bail again and I hope to be in possession of this before the **04th March 2014** I will email a copy of the insurance file to the CPS also to further bolster the argument about disclosure of all police files in relation to the earlier two break in / burglaries. You will all not doubt note the insurance quotes and the names of the company providing the quotes, the amounts quoted and the damage being caused before **May 2013** I do not see any evidence of any money paid out to repair the wall and I will ask the insurance company if Mr. Patel has provided any that this was done or the cost. It is referred to in email but no quote is attached or indeed the date the work was undertaken. The photographs provided by the insurance company do not assist as they do not show the damage to the internal walls but the police files for the first two offences may well confirm that the damage is identical. This and the links from Facebook. As you are aware of, I do not receive the police disclosure by the**04th March 2014** then I will have to make a further application for the case to be listed for lack of disclosure.
Should you have any questions re the documents forwarded then please do not hesitate to contact me.
Regards
Josephine

Living in such dreadful conditions on humane the flat would be nice if it was correct and kept up to the spare ISO standards but this simple upkeep gets this minute by the Enfield Council and the Enfield homes relevant departments of concern in reference towards the damp heating air ventilation and sound issues of disrepair!

Disrepair!

When I first moved into this property and never understood the problems of disrepair, I was contempt and therefore happy while I enjoy the enjoyment out of the rented premises but since I noticed the issues, I raise of concern to the Enfield Council in Enfield homes correct

departments and received no correct follow-ups I feel further if satisfied and disheartened in believing that the problems will ever get a dress in their responses time!

1 Driving: To Broadsure Direct – "Here is the logbook for CX52JRZ please see attached. I did call DVLA after I got the letter from them which showed the spelling of the last name wrong as it was spelled Cardell and not Cordell, they told me I had to wait until the logbook come in the post and then to fill in section 6 to get it corrected. Which I will be doing. Also, I have also noticed today when the logbook came in the post and I am not sure why they have put the new keepers date as 15/02/**2014** as the green slip section 10 was sent to them, so the date of the 10/11/**2013** was on it so I will be writing a letter to ask why this was done, along with the section 6 to correct the last name. Could you please update us as to when this can be sorted with KGM as to the claim that is against Simon so he can sort his insurance out. Also, about the claim for 09 Dec **2013** we still have not heard from KGM as to when someone will be sent out to take a report from Simon could this be looked into? And also, I know there was some confusion as to the number that was called to report this on the 09 Dec **2013**, please see the below information from my phone bill Mon 09 Dec 13:28 SPEC SERV 08444126412 22:00 The call was made to 08444126412 at 13:28 and lasted 22 min this is when Simon called to report what had happened on the 09/12/**2013** and give all the information which the person noted. I know there is some issue as to the lady who witnessed this information being missing but it was all given on this call. If it can be possible can someone get the tape for this call and get the information to the witness so KGM can contact her about what she saw and who was at fault."

2 **Driving: To** Broadsure Direct – "Can you please give an update as to what is going on, please with my insurance? I do not think it is right that KGM are doing this with my no claims, KGM has made one phone call to me about a claim on the 14/09/**2013** where I told them, I would send the invoice for the van, since this time I have not had one single letter to say they did not get the invoice, or any letters about this so-called claim for the 14/09/**2013** and this is nearly 6 months old now. How can it be I have not had one single letter yet now my insurance is due to be renewed they bring up this and this is nearly 6 months down the line and I have heard nothing about this claim since I talked to someone from KGM on the phone back in Sep **2013**? I have still not had any letters about the subject access request under the data protect act 1998, and the letter I emailed yourself to send over to KGM on the 26/11/**2013** at 15.46 and will now be taking this up with the ICO. I have never had so many problems with an insurance company in my life then what I have had in the past year with KGM, and will be taking this up with the insurance ombudsman I have already spoken to them and they are very shocked at what I have told them and that is not all of it, they have asked me to write it all down and send it to them by email which I will be doing. There should be only one thing that is outstanding and that is the issue for the 09/12/**2013**, I have made 3 calls to the claim line to inform them what happened and yes there is a claim which was not my fault being addressed. I am at this time waiting for someone to contract me about this matter as this is what I was told the last time I made a call about it. Could this be looked

into also so I know that it is being addressed in the correct way and I am not just waiting for someone to contact me and this does not happen as I would like to get this addressed as soon as possible so that KGM will see this claim was not my fault. I would like to get insured yet for the past days have not been able to do so as I am waiting for information on a quote and also to hear back about what KGM is doing with my 10 years no claims which was protected. I have been with Broadsure for a few years now and have never had any problems with you."

Disrepair!
I stay calm even when I see the damage to my personal property that the damp is causing and this neglect breaks my heart in knowing that if the Enfield Council and Enfield homes where efficient within their timescales that I would not have to go through such sacrilege of my memorabilia and electrical belongings getting damaged even more than ever necessarily I am not sure what it is more painful to me this all adds to the demotion of my health and the additional average daily routine stress unrightfully!

  Thank you for seeing this 33-year-old Afro-Caribbean man. He gives a history of symptoms of anxiety and depression, which have been on-going for a few months. His symptoms have progressively got worse and he has been having some suicidal thoughts, although he has not made any concrete plans to do anything. He says that the only reason he has not acted on these suicidal thoughts is because of his ex- patient and family. He is currently involved with the criminal justice system and is -currently - on probation. He is under curfew and there have been imposed- restrictions on his movements.

Dear Martin
Here is the logbook for CX52JRZ please see attached. I did call DVLA after I got the letter from them which showed the spelling of the last name wrong as it was spelled Cardell and not Cordell, they told me I had to wait until the logbook come in the post and then to fill in section 6 to get it corrected. Which I will be doing. Also, I have also noticed today when the logbook came in the post and I am not sure why they have put the new keepers date as **15/02/2014** as the green slip section 10 was sent to them, so the date of the **10/11/2013** was on it so I will be writing a letter to ask why this was done, along with the section 6 to correct the last name. Could you please update us as to when this can be sorted with KGM as to the claim that is against Simon so he can sort his insurance out. Also, about the claim for **09 Dec 2013** we still have not heard from KGM as to when someone will be sent out to take a report from Simon could this be looked into?
And also, I know there was some confusion as to the number that was called to report this on the **09 Dec 2013,** please see the below information from my phone bill Mon **09 Dec** 13:28 SPEC SERV 08444126412 22:00
The call was made to 08444126412 at 13:28 and lasted 22 min this is when Simon called to report what had happened on the **09/12/2013** and give all the information which the person noted. I know there is some issue as to the lady who witnessed this information being, but it

was all given on this call. If it can be possible can someone get the tape for this call and get the information to the witness so KGM can contact her about what she saw and who was at fault.

Disrepair!

The HHSRS and the housing Act 1985 inclusive of many other rights of mine and many other people's rights mean that these problems of disrepair must not get left by the Enfield Council and the Enfield Homes teams to carry on the way is does as it is causing me to have no enjoyment out of my flat and emotional distress!

I know the CPS asked for more time and said they would have the information over to you by the end of business day on the 14/04/**2014** this did not happen and again they asked for more time which has again passed and they have not given the information over, is the judge going to be made aware of this as they had enough time already to give over the information that was asked for. They have now not done what the judge asked 4 times, and you have also given them 2 more extensions and still nothing. And I do think the judge needs to be made aware of this fact. Can we have an update as to what is going on, I know when I last talked to you on the 24/04/**2014** you said you was going to put into the court on the 29/04/**2014** so, I was thinking it should have already been listed for yesterday or today but have not heard anything."

Threats and intimidation (General)
Home visit to Ms Deborah Andrews flat. Attendees Dawn Allen TMO and CPN Bola Quadri
Home visit to Ms Andrews advised that her neighbour at number 109 has for the past few months harassed, intimidated, stalked her and made a life a complete misery. He continuously plays loud music, bangs on her ceiling and door alleging that she is monitoring his movements in his flat. She feels petrified by his presence and as a result refused to leave her flat for fear bumping into him on her way out. She has missed a few appointments with her social worker as a result, she has now been subjected to making home appointments pending the time this matter is resolved. She explained that they use to be acquaintances before the relationship went sour. She believes the whole problem started when he claimed the decoration in his flat was damaged as a result of a leak coming from her flat. She confirmed that she had a leak from her overflow a few months ago which has since been repaired but, the damage alleged had occurred.

taken seriously as they assumed, she was drunk at the time of the call. She advised that she wasn't in the list drunk but, just the way she spoke due to her condition. She still wasn't taken seriously and had to abandon the call. She found this very frustrating and advised that it was not the first time this would happen to her. Her CPN also confirmed her statement and expressed her dissatisfaction at the way she was treated. Ms Andrews felt completely let down by the police and became frightful for her safety especially, as she knows the perpetrators has shells in his flat. I observed in her flat that her floors were very creaky, I was made aware by Dawn that most of the flats in the block are like that. Unfortunately, the creakiness exacerbates the noise level in the flats and cause more problems than usual. I advised that I will contact the police to make further enquiries. I will also contact MHT to enquire if Mr. Cordell is known to them. At some point the perpetrator will need to be interviewed and a warning letter issued on him. I will contact the repairs team and try to arrange a surveyor to visit her flat and see what assistance can be offered I further advised that her case will be investigated and an officer will get back to her to discuss further with her. Hi Dolly,
Nick and I attended 113a while ago and spoke to the lady a while ago when she originally called Police. At the time she didn't want us to speak to her neighbour as things had got better. The lady handed us a letter about what had happened but none of it made any sense. We believe she was suffering from mental health issues. On another occasion we popped round to see her and she wouldn't come and speak to us so instead she spoke through her

letterbox to us. The male at 109 - Simon Cordell who is causing the problems is very well known to Police and is also very anti Police. I know some Officers went around and spoke to him and things seemed to get better. After that we have had no further calls from the lady at 118.
We will try and get around to see her when were back on duty on Monday.
Kind Regards

Good afternoon Mark,
Could you kindly assist with this query please. Following reports of ASB by the above tenant, my colleague and I visited her this morning and were alarmed by the nature of her complaints. She has in the past few months being constantly harassed, intimidated, bullied, stalked and threatened to kill by her neighbour at 109.
As a result of his behaviour, she has become too scared to leave her flat for fear of what may happen to her. She is a vulnerable tenant who requires support from services. However, the unsettling behaviour exhibited by number 109, has hindered her from attending her appointments and exacerbated her condition. At the moment, she feels very disorientated / agitated and will like the harassment to stop.
She advised that she had reported this to the police a few times but, wasn't taken seriously.
I will appreciate if you could stop over at 113 to reassure her that the matter is being dealt with and also to stop by 109 and advise him that you are aware of what is going on and the repercussions should it continue.
Thank you for your support and assistance

Good afternoon Louise,

Sorry I missed your call; I was at a meeting at the time. Called and left a message on your voice mail.
Ms Andrews suffers from a history of mental health; she is currently being supported by Bola Quadri Care-coordinator / CPN / Nurse Prescriber Psychosis Service Line
Barnet, Enfield & Haringey Mental Health NHS Trust / 58-60 Silver Street, Enfield EN1 3EP
She made complains about her neighbour at number 109, harassing, verbally abusing her, intimidating, shouting threatening to kill her. The mean concern here is that the perpetrator in question also suffers from mental health and is known to be very aggressive, violet and anti-police. He has on a few occasions threatened to kill her and petrified the life out of her. It was on this basis that a decision was made to move her out immediately.
Hope the above information is useful.
Thank you

Hi Louise,
Thanks for this - I'm pleased to hear you think Deborah is being properly supported and that she sounded better - she was in a right state when we spoke to her last.
Good news that it looks like she might be able to get help to move.
For the camera, we are very happy to come along for a visit. I've spoken to our Sgt and as we understand it the ideal course of action is to advise him to remove it in our presence, then if he refuses, I believe you can take it down and that should be fine so long as the camera itself is returned to Cordell. Let me know when your best days for it would be and I'll see when we can manage best.
Best wishes,
James

Hi James,
I spoke with Deborah Andrews this morning; the leak issue was sorted over the weekend this was from the flat above.
I do not know anything about Mr. Cordell moving in two weeks' time, unless she is getting confused with his threat that he will get her in two weeks' time? Overall, I am concerned that Deborah is not managing and appears to be getting more confused the last few times I have spoken to her last week and today, she is also feeling that she needs further support by way of supported accommodation. I do agree with her as the level of support that St John of God provide is high and the dependency with other agencies is also constant and not something that housing or myself could provide long term.
Deborah was much calmer this morning and I reassured he that if she has any concerns to contact me.
With regard to the camera not he is not allowed it to be train on anything else other that his front door. Probably means I will need to visit him to get this sorted. I may request your assistance with this I don't really fancy

seeing him on my own!! (sorry)

Hi Louise,
I hope you are well.
Since **15/01/2016** we have had further calls from Debra Andrew relating to the issues she has been having with Simon Cordell.
Given the nature of the calls, we visited Debra yesterday for a reassurance visit. She said that there has been a leak in the building causing 'flooding' in both her flat and Cordell's flat, and Cordell has been making accusations relating to it. She said that she believes Cordell is leaving his flat in two weeks, which I hadn't heard, but said I would look into it - do you know if that's true by any chance?
Debra said that if Cordell does not leave, she wants to leave her flat and move somewhere else herself.
While at the address we also noticed that Cordell has now installed a CCTV camera which is placed at the top of the internal communal door leading to flats 109 and 111, facing towards the main door of the block. I am unsure as to whether he's allowed to do this and shall look into it, but just wanted to let you know!
Best wishes,
James

Mr. Cordell called this afternoon requesting to speak with yourselves in regard to his case against his neighbour.
I am sure you know the details however; he did say that his neighbour is making noise when he undresses. He did go on to mention an incident that resulted in both himself and his neighbour in an awkward position when he attempted to help her move her bed.
Mr. Cordell is expecting a call back this afternoon.

Dear Sarah,
Thank you for your email and updated information. This incident yesterday J am assuming that this is a different incident from 15/1/16 where Mr. Cordell approached Ms De Polla? Please can you confirm if this was reported to the police, and if this was not why? This is harassment and can be treated and reported as a criminal offence. Yes, this is a separate incident to 15.01.**2016**. The police were not called as a crime had not been committed and Barbara was able to walk away without Mr. Cordell trying to prevent her or following her. In relation to Deborah please can you confirm if your concerns for her welfare are being reported back to the Mental health team prior to this email (I do appreciate that Bola has been on leave for a few weeks) Yvonne has copied Bola into the same communication as yourself and expressed concerns. Debbie has also contacted Bola. I am receiving if not daily calls from Deborah or every other day, with her explaining to me that she feels she is not coping at all, she is looking to me for reassurance. Deborah has expressed that she is not managing independent living and would like to go back into supported accommodation. Supported living is something Bola would need to arrange. Can you confirm that you have reported your concerns for Debbie's welfare to the mental health team?
Please can you confirm if she has expressed this to staff at St John of god? Also, please can you confirm if you feel that Deborah is not coping at present. If so, has this been reported to the mental health team?
As you are aware, Debbie has said that she is not coping and I understand that you are in the process of providing a report in order to facilitate Debbie to move. Can you confirm that this has been completed and if so, what the next step of the process is and how long this is likely to take?
Also given the current hours that currently allocated to Deborah if this is suitable in this situation for her need? If I recall this was expressed at a SOVA meeting that this should be extended as her needs are becoming greater? We are requested and funded to provide 6 hours support per week (3 hours twice a week for shopping). Bola is responsible for increasing the care package if Debbie is assessed as needing more support. With regard to the Safe guarding plan, I do feel that a mental health strategy meeting needs to take place as issues beyond our control will also have a direct impact on the wellbeing of Deborah. I am

raising this directly with George Benyure Bolas manger. My understanding was that Bola had already raised a safeguarding alert?

Hi Louise
I am extremely concerned about Debbie Andrewes neighbour and the increased risk to the support workers and indeed Debbie, who, as you are aware is unable to leave her own home unescorted.
Yesterday it was reported to me that the neighbour approached Barbara de Polla as she entered the communal door, he was very aggressive and began shouting at her saying, you should not be coming here, she is an alcoholic, you shouldn't take her out anywhere etc."
Barbara said that she did not want to talk about it and walked away from him, luckily, he did not follow her.
In relation to Debbie is safety, I strongly feel that it is only a matter of time before something serious or even fatal happens to her. As you are aware, the neighbour has a dog, which appears to be a Staffordshire bull terrier which

he allows to roam free in the communal area which is highly intimidating and potentially very dangerous.
Please can you clarify the interim safeguarding protection plan and timescale as to when Debbie will be moved to a place of safety.
I have completed an internal incident form and unfortunately, if another incident occurs, I will have no other option but to temporarily withdraw our service, which will put Debbie in a situation where she is even more at risk.

I look forward to hearing from you at your earliest convenience.

Dear George & Bola,
Thank you for your email, I have only copied you both as there is other information on Mr. Cordell that urgently needs to be considered.
I received an email informing me that a mental health warrant had been granted for Mr. Cordell. This will cause a greater issue especially if he is released back into the community. My fear is that this will indirectly cause further distress for Deborah. A plan needs to be put in place with full considerations.
Please can an urgent mental health strategy meeting be held regarding Deborah Andrews, given the above information and the urgent need for full consideration in this case due to the complex needs and issues with both clients, who are known to your services and tenants of Enfield Council.
Deborah is contacting me if not daily every other day these calls are coming through at all different days and times. She is informing me that she is not coping with everything and wants to go back into supported accommodation, she feels extremely frightened and vulnerable. I must confirm that its Deborah stating that she is not coping as I am not in a

position to make these decisions. When I speak with Deborah asking if she is attending her appointments, she states that" it is a quick jab, in and out no one speaks with you.
With regards to the management transfer this is still being prepared and waiting to be heard by panel, I am waiting to hear the next available date for this. It was explained when I suggested this action may be a route forward that this is not a quick process, and all elements need to be considered. It is not necessary for Ms Andrews to currently go into emergency accommodation either. This case will be assisted by moving Ms Andrews; however, this may not resolve all of the concerns or the overall future welfare of Ms Andrews.
Transferring Ms Andrews into another independent accommodation without fully assessing her current needs and the full support required should be considered before this happens. As moving her may not solve all of Deborah Andrews concerns. She is only going out when SJOG are visiting, however they are only allocated 3 hours per week. More recommendations need to be put forward to provide a comprehensive package to support

Dear Simon / Lorraine
I have requested that the case be listed for mention for nondisclosure as Jemi is available on this date.
I will confirm the listing tomorrow. If Simon can obtain a letter from the Doctor as to his anxiety levels being affected as a result of the curfew, we could make a further application but would require medical evidence in support.

As I said in my 1st email when asking for the information, I have a case that is at Woolwich crown court and I am having problems with my bail due to the records on my PNC, I am due in court maybe tomorrow or this week as my solicitor is putting into court to have a hearing and I wanted to have any errors on the PNC addressed at court.

I am shocked at what the CPS has sent over. They have known all along people was arrested at the party in Feb **2013** with items from the building, saw the damage to the warehouse and still NFA these people they even had the police watching the building seeing people take lots of things out the building in Feb **2013**. So really had them red-handed and still done nothing. And NFA the people they did arrest. Josey, they know Simon did not do this so why charge him and put this all on him, this is why they are covering up and don't want to give the information. Again, they have withheld so much information like the pictures from Feb **2013**. Again, they have not given any of the officer names that were there before the party started in May **2013** and let the party carry on knowing all this information. This is clearly a setup. Can Simon bail be address with this information?

1 An Email to my Solicitor: Gazebo Case / Regina v. Simon Cordell - "If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for? Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward? If the conditions of bail could be changed there would not be so much of a problem waiting till July **2014** for it to go to trial, but I don't think Simon or I can take this till July **2014** if the bail is not addressed. There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed, will they look more of the case of just what the CPS says? I don't think Simon can take it till the 17/02/**2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to. If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself you would see this. The other day I had 4 police officer in my home due to this while I am trying to stop him thinking the way he is for hours. The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building? How can they hide that he comes along with TSG more than once? And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their van due to him hitting a girl which a 999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the Feb **2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address? As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done."

If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?

As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done.

2 An Email to Insurance company: Nikki Diamond / Gazebo Case / Regina v. Simon Cordell - "I am writing this letter to you after Trevor Allaway sent us the file for Mr. Patel, due to my son Simon Cordell being charged by the police. When looking at the Pictures which were sent with the file I was wondering if you had any other pictures then the 3 that was sent to us. Maybe ones that show the damage to the wall, and maybe ones that are in color if at all possible. From the Pictures we got from the police re the case of my son there does not seem to be any that show the damage to a wall. The problem is my son never went into that part of the warehouse so from the picture the police have given it is not clear at all. And the 3 pictures that Trevor Allaway sent in the file he cannot see any damage to any walls. In 2 of the pictures the police have sent there is what the police have said is a concealed passageway which they think is how the warehouse was accessed. But to me there seems to be no way access could have been gotten this way. Please see IMG3853 and IMG3854 I know you have been in the warehouse yourself and noted the layout of the warehouse that was included with the file that has been sent over to us. Is there any way if you do not have any more pictures you can mark on your layout where the wall was damaged inside the warehouse? I know this is asking a lot but if you could help at all I would be most grateful."

1 An Email from my Solicitor: Gazebo Case / Regina v. Simon Cordell - "An update to the email below. The police called here late last night I was thinking they had come to tell me Simon was dead. The police have put Simon on their vulnerable list due to how bad he has got, he is even beaching his skin because he thinks the police are doing this due to his color, he has been doing this for the last weeks but it only come out this weekend. He has started over the last weeks locking himself away, not letting anyone see him, which is really not a good thing. Saturday he even told Katie not to come any more, which really is the last person he lets in. This really has to be listed for court this week as he is getting worse. I want to write a letter to the judge about what is going on. Would he read this as a bail application and not let it be read out in court as there will be very private things in it. Can you give me an update to the below email and this one as to what can be done, I am trying to keep him as claim as I can till, he has to see the psychiatrist but it is very hard and this is making things worse on my heath which you know already is not good. I would also like to put a complaint in about this and how the police have handled this whole case."

Hi Josey
If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?
Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward?
If the conditions of bail could be changed there would not be so much of a problem waiting till July **2014** for it to go to trial, but I don't think Simon or I can take this till July **2014** if the bail is not addressed. There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed will they look more of the case of just what the CPS says?
I don't think Simon can take it till the 17/02/**2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to. If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself, you would see this.
The other day I had 4 police officer in my home due to this while I am trying to stop him thinking the way he is for hours.
629,

The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building?
How can they hide that he comes along with TSG more than once?
And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their van due to him hitting a girl which a 999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the Feb **2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address?
As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. I am shocked at what the CPS has sent over. They have known all along people was arrested at the party in Feb
630,
2013 with items from the building, saw the damage to the warehouse and still NFA these people they even had the police watching the building seeing people take lots of things out the building in **Feb 2013** So really had them red-handed and still done nothing. And NFA the people they did arrest. Josey, they know Simon did not do this so why charge him and put this all on him, this is why they are covering up and don't want to give the information.
Again, they have withheld so much information like the pictures from **Feb 2013.**

Again, they have not given any of the officer names that were there before the party started in **May 2013** and let the party carry on knowing all this information. This is clearly a setup. Can Simon bail be address with this information?

Subject: RE: Simon Cordell Errors on Cases.
To Whom It May Concern:
After your email dated the 21/02/**2014** I was thinking that you would be searching for the data from the week of the 24/02/**2014** as this is what it said in the email. As I said in my 1st email when asking for the information, I have a case that is at Woolwich crown court and I am having problems with my bail due to the records on my PNC, I am due in court maybe tomorrow or this week as my solicitor is putting into court to have a hearing and I wanted to have any errors on the PNC addressed at court.

75,
Dear Mr. Cordell,

Further to the conversation between Mr. S Cordell and a member of staff yesterday, please specify which dates and offences you wish us to check. Almost all the offences are archived and not immediately accessible using the computer; specific dates and offences would help reduce the delay in providing this information.

Mr. Simon Paul Cordell 109 Burncroft Road Enfield Middlesex EN3 7JQ 18/02/**2014**
To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**.
I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case.
I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know
76,

some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates.

If this can be done as a matter of urgency due to the impact this is having on my life with the case that is on going at Woolwich Crown Court and my bail and other issues.

If the information could be emailed to me I would be grateful as I am next in court on March 2014 and would like this information of any errors so I can show the judge.

Please see below the lists of cases I would like information on.

2 **NHS:** Dr Gareth Jarvis Medical / Enfield Triage Team 58-60 Silver Street - "**one. If** Mr. Cordell would like to try the medication Sertraline starting at 50 mg for one week, then increasing up to 100 mg would be a good choice. **2.** Crisis plan agreed with Mr. Cordell if he feels like acting on his suicidal thoughts (call crisis team, or Samaritans or an ambulance). **3.** Discuss with team at MDT for advice around sources of support **4.** Mr. Cordell to consider psychotherapy to address problems from the past. Thank you for referring this 33-year-old man with low mood, suicidal thoughts, and anxiety. He attended an appointment at the Silver Street Clinic 11.03.14 with his mother Lorraine. Mr. Cordell explained to me that he is under a lot of stress at the moment due to a pending court case. He told me he is accused of burglary, but that he had been wrongly accused and the police had falsified items on his criminal record. He said that the record had led to the judge placing restrictive bail conditions including being at home in his flat after 8 pm. This has meant Mr. Cordell has not been able to work for the last nine months (as he normally works as a DJ and party host with most work going on beyond that time). The bail conditions have just been extended for a further six months. Mr. Cordell feels that these restrictive conditions have made him feel like "a prisoner" in his own home. Mr. Cordell describes feeling anxious most days. He says he has a poor appetite and has lost "3 stone" in weight over the last 9 months. He says he often finds his thoughts are overactive and will not give him any rest. Mr. Cordell says he finds it difficult to get off to sleep, sometimes not until 5am, but then will stay in bed until midday. His mother says she has noticed him become "more aggressive" and trying to isolate himself from others. Mr. Cordell says he frequently has suicidal thoughts and that he has been researching ways to kill himself "on YouTube". These have included "poisoning, over-dose, hanging". He said that he has tried to kill himself by hanging in the past. He says he has all the materials at home ready to act on his thoughts and has done so for the last nine months. He says what stops him from acting on these thoughts is a desire for justice, wanting to be proved innocent at trial. He says the police are very worried about him, saying "they know they have messed up and now I am on their most vulnerable list, I call 101 regularly, I had

police officers out to my flat twice last week to check on my safety". Mr. Cordell says he feels angry with the police, that he has been victimised by them because of the color of his skin and that he will continue to be victimised by them. **Past Psychiatric History** Mr. Cordell tried to hang himself at the age of 16 when in a young offender's institution; he says her 1st consciousness and needed to be resuscitated. He was moved to a high security hospital and kept in seclusion on a number of occasions, but he says he would destroy the padded cell with his teeth. He says he was seen regularly by a psychiatrist called Dr Caplin from "the safe project". He says there was a second occasion where he tried to hang himself when in a cell after he was sentenced. He has not had contact with mental health services for the last 15 years. **Past Medical History:** Nil, **Personal History:** Mr. Cordell was born at North Middlesex University Hospital. He has a younger brother and sister. Mr. Cordell says he knows his maternal grandmother attempted suicide on a number of occasions and had had psychiatric hospital admissions. Mr. Cordell's father worked as a union representative and his mother ran her own computer company. Mr. Cordell says he did not get on well with his father who was a violent man. He was violent towards Mr. Cordell, Mr. Cordell's mother, and siblings. Mr. Cordell left home at the age of fifteen and was homeless for a while. He was placed in to care after stealing a pint of milk. He was placed in a series of children's care homes around the UK but says that each time he would steal a car and drive back to London. Mr. Cordell said he was pushed hard to achieve at school by his father and that he was "an A-star student" for most of the time. He says he was intelligent and would do the work at other times and as a result would often just "mess about" in class. He went on to college and studied engine mechanics, completing a city & guilds qualification. After leaving school, he went on to get jobs in the construction industry. Mr. Cordell says he has tried to build himself up a business of providing party entertainment. At the moment he says he is not able to earn from this due to the restrictions of his bail. Mr. Cordell has had one long-term relationship which he describes as "my first true love". This is with a woman called Diana who is currently studying physiotherapy. They were together thirteen years but he says she has moved back out of his flat in recent months. Mr. Cordell thinks this is secondary to the repeated involvement of the police in their lives and the stress this has caused. Mr. Cordell lives in a one-bedroom council flat. He says things have been financially difficult in recent months as his benefits were stopped and he has had to borrow from friends and relatives. His benefits have been restarted now. Mr. Cordell says he does not smoke tobacco and does not drink alcohol. He says he does occasionally smoke "skunk". **Forensic History:** Mr. Cordell was put in a Young Offender's Institution at the age of 16 after repeated driving offences (driving without a license) Mr. Cordell says he has not been in trouble with the police for a number of years. He had stolen some trainers at a festival in 2009 and prior to that had not been in trouble since 2005. He denied any violent offences. Mr. Cordell currently stands accused of burglary. He has a solicitor and the case will not be heard until July at the earliest. **Mental State Examination:** Mr. Cordell presented as a tall mixed-race man with short dark hair and beard, dressed appropriately in trousers and coat. He sat in a relaxed manner throughout our interview making good eye contact. His speech was a little rapid, but normal in rhythm and tone. His mood was described as "anxious", objectively it was a little low with a reactive effect. There was no evidence of formal thought disorder; content focused around the problems caused by his bail conditions. He described suicidal thoughts but said he had no plan to act on the thoughts due to wanting justice first. Mr. Cordell denied abnormal perceptions and was obviously not responding to any. Cognition was not formally assessed but appeared grossly intact. Mr. Cordell could see that most of his problems flowed from the very difficult set of circumstances he finds himself in and that he did not think he is "crazy". **Opinion:** Mr. Cordell is a 33-year-old man presenting with anxiety and suicidal thoughts over the last nine months in the context of having a pending court case with no clear date or

outcome yet. I would agree with Mr. Cordell's own assessment that he does not have a major mental disorder. He has symptoms of anxiety in keeping with the stressful circumstances he finds himself in. He also displays a number of maladaptive psychological coping mechanisms, which likely flow from his difficult childhood with a violent father. His suicidal thoughts and acts have been a long running feature, becoming particularly acute at times of involvement with the criminal justice system. **Management:** We agreed on a crisis plan today should Mr. Cordell feel inclined to act on his suicidal thoughts. We agreed he would either call the Crisis Team (0208 702 5060) or the Samaritans (08457 90 90 90). If these sources of support did not work out, I said he could always call an ambulance in an emergency. We agreed that he could try an antidepressant medication if he chose to, although he remained ambivalent about this at consultation. Sertraline 50 mg OD increasing to 100 mg OD after one week, continuing as long as necessary would be appropriate. I also discussed psychotherapy with Mr. Cordell today. He was not sure about this at present. If Mr. Cordell would like psychotherapy the IAPT (Improving Access to Psychological Therapies) service would seem like an appropriate place to get this. We have not made plans to follow Mr. Cordell up. If you have any questions or concerns, please do not hesitate to contact us."

Hi Josey
An update to the email below.
The police called here late last night I was thinking they had come to tell me Simon was dead. The police have put Simon on their vulnerable list due to how bad he has got, he is even beaching his skin because he thinks the police are doing this due to his colour, he has been doing this for the last weeks but it only come out this weekend. He has started over the last weeks locking himself away not letting anyone see him which is really not a good thing. Saturday he even told Katie not to come any more which really is the last person he lets in.

This really has to be listed for court this week as he is getting worse. I want to write a letter to the judge about what is going on would he read this at a bail application and not let it be read out in court as there will be very private things in it. Can you give me an update to the below email and this one as to what can be done, I am trying to keep him as claim as I can till he has to see the psychiatrist but it is very hard and this is making things worse on my heath which you know already is not good. I would also like to put a complaint in about this and how the police have handled this whole case.

Hi Josey
655,
If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?
Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward?
If the conditions of bail could be changed there would not be so much of a problem waiting till July **2014** for it to go to trial, but I don't think Simon or I can take this till July **2014** if the bail is not addressed. There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed will they look more of the case of just what the CPS says?
I don't think Simon can take it till the 17/02/**2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to. If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself, you would see this. The other day I had 4 police officer in my home due to this while I am trying to stop him thinking the way he is for hours. The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building?
How can they hide that he comes along with TSG more than once?
And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their van due to him hitting a girl which a 999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the Feb **2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address?

As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done.

Jemi will be attending himself. The case is listed at 2pm in court 12, I think. Simon is more than
welcome to attend.

Hi Josey
Simon knows about court tomorrow and he wants to attend. Can you let me know the time for court tomorrow and who will be attending will it be Jemi?
I am shocked at what the CPS has sent over. They have known all along people was arrested at the party in Feb **2013** with items from the building, saw the damage to the warehouse and still NFA these people they even had the police watching the building seeing people take lots of things out the building in Feb **2013**. So really had them red-handed and still done nothing. And NFA the people they did arrest. Josey, they know Simon did not do this so why charge him and put this all on him, this is why they are covering up and don't want to give the information. Again, they have withheld so much information like the pictures from Feb **2013**. Again, they have not given any of the officer names that were there before the party started in May **2013** and let the party carry on knowing all this information. This is clearly a setup. Can Simon bail be address with this information?

Dear Mr. Cordell,
Further to the conversation between Mr. S Cordell and a member of staff yesterday, please specify which dates and offences you wish us to check. Almost all the offences are archived and not immediately accessible using the computer; specific dates and offences would help reduce the delay in providing this information.

Mr. Simon Paul Cordell 109 Burncroft Road Enfield Middlesex EN3 7JQ 18/02/**2014**
To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**.
I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case.
I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates.
If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues.

If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge.
Please see below the lists of cases I would like information on.

1 **Si Note:** Errors on my PNC Record / There were six different records that were not in the court registry - "The day was the 13/03/**2014** and my mother helped me at my request and did so and in return she attended to the Enfield Magistrates Court for me to pick up information about my criminal record being in error, as got requested of me by the courthouse from my previous request. When my mother arrived, she got told that there were six different records were not in the court registry and contained on my criminal record, it also got explained by the court employee that if the six dates on my record were not in the court registry, as they were not, then they were never herded before in court. The lady working in the court continued to tell my mother she had seen nothing like this before and said it got worrying, I am still trying to address this, but no one seems to be able to help. I questioned to others; how can there be six different records on my PNC, yet they have never been to court?"

To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**. I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case. I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates. If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues. If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge. Please see below' the lists of cases I would like information on.

To Whom It May Concern:
I am writing this email after a call that was made to the City of London Magistrate Court on the 10/02/**2014** about a list that is on my PNC that is incorrect.
I was told to write this email including as much information as I could to get this updated.
I have contacted you a few times before about this Error on my PCN and was told that you would get it updated but as of now this has never been done.
I was told on the 10/02/**2014** when I called due to the date that it would be down to the police to update this. You would have only forwarded the information to the police to get this updated.
The Error is for a case that was heard on the 03/03/2008 at the City of London Magistrate Court, for failing to surrender to custody at appointed time, on the 25/01/08.
The error is that I did not go to go but my mum called the court and a sick note was handed to the court and the case was dismissed, so should not be on my record
This has caused me problems with bail on a few times and this is why calls have been made before to the court, at this time it has been causing me problems again with a case I am at Woolwich Crown court for.
I have attached the page for the PNC print out the police did for the case at Woolwich crown court that I am on bail now for. This print out was done by the police on or around the 26 June **2013** for the Woolwich case.
I do feel this is causing me problems with my bail and I am therefore asking for this to be dealt with as fast as possible in order that I can show the court this should in fact not be on my record.
407,
I was told on the 10/02/**2014** when I called that if I ask for a court transcript that this could be done faster than updating the PNC records and I would be able to show the Judge at Woolwich crown court
the court transcript for the case that is on my file in error and that should be enough to prove that it should not be on my record. I am there for asking for the court transcript to be sent to me if there are costs
for this please email me back with the cost for this to be sent to me and I will get this paid to the court.
Please see attached file for the page in my PNC record which is there in error I have highlighted the case.
If this can be done as a matter of urgency due to the impact this is having on my life.
Many Thanks Mr. Simon Cordell DOB 26/01/1981

Hi Josey
Simon date has been moved forward to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP to tomorrow morning at 9.30am Also can you please give us an update to the below emails as Simon would like to fully understand what went on in court last week as to the discloser and if any more discloser has been asked for, he wants to know if you will be trying to get the discloser from the pictures to the **Feb 2013** case and if you will be trying to get the information as to what inspector went to the building before the party started and more times on the night, and the invoices as to what stock was there before **Feb 2013** After **Feb 2013** and before **May 2013** as he really is not 100% sure what he is being charged with as to what damage and the amount of stock he was meant to have taken and also to know what can be done with his bail conditions if he cannot get a letter from the DR right away, he is scared as it a new Dr they may not give him a letter right away until they have had more sessions?

Hi Josey
An update to the email below. The police called here late last night I was thinking they had come to tell me Simon was dead. The police have put Simon on their vulnerable list due to how bad he has got, he is even beaching his skin because he thinks the police are doing this due to his colour, he has been doing this for the last weeks but it only come out this weekend He has started over the last weeks locking himself away not letting anyone see him which is really not a good thing. Saturday he even told Katie not to come any more which really is the last person he lets in. This really has to be listed for court this week as he is getting worse. I want to write a letter to the judge about what is going on would he read this at a bail application and not let it be read out in court as there will be very private things in it. Can you give me an update to the below email and this one as to what can be done, I am trying to keep him as claim as I can till, he has to see the psychiatrist but it is very hard and this is making things worse on my heath
760,
which you know already is not good. I would also like to put a complaint in about this and how the police have handled this whole case.

Hi Josey
If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?

Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward? If the conditions of bail could be changed there would not be so much of a problem waiting till **July 2014** for it to go to trial, but I don't think Simon, or I can take this till **July 2014** if the bail is not addressed. There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed will they look more of the case of just what the CPS says?
I don't think Simon can take it till the **17/02/2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to. If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself, you will see this. The other day I had 4 police officer in my home due to this while I am trying to stop him thinking the way he is for hours. The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building?
How can they hide that he comes along with TSG more than once?
And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their van due to him hitting a girl which a 999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the **Feb 2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address?
As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names.
761,
Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done.

Mr. Simon Paul Cordell 109 Burncroft Road Enfield Middlesex EN3 7JQ 18/02/**2014**
To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**.
I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case.
I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates.
If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues.
If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge.
Please see below the lists of cases I would like information on.

I am writing this to see if there is any news as to the data I asked for. I was hoping to have got an email yesterday with some information due to the email you sent me on the 10/02/**2014** but I did not. I understand that the court is only open Tuesday to Thursday which only give till tomorrow as you are aware I am back in court on the 18/03/**2014** which if I do not get anything by tomorrow, I will have to go into court then with nothing as the court would be closed. Could you therefore let me know if the data I have asked for will be available by tomorrow?

Dear Mr. Cordell,
Further to the conversation between Mr. S Cordell and a member of staff yesterday, please specify which dates and offences you wish us to check. Almost all the offences are archived and not immediately accessible using the computer; specific dates and offences would help reduce the delay in providing this information.

Mr. Simon Paul Cordell 109 Burncroft Road Enfield Middlesex EN3 7JQ 18/02/**2014**
To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**.
I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case.
I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates.
If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues.
If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge.
Please see below the lists of cases I would like information on.

I am writing this to see if there is any news as to the data I asked for. I was hoping to have got an email yesterday with some information due to the email you sent me on the 10/02/**2014** but I did not. I understand that the court is only open Tuesday to Thursday which only give till tomorrow as you are aware I am back in court on the 18/03/**2014** which if I do not get anything by tomorrow, I will have to go into court then with nothing as the court would be closed. Could you therefore let me know if the data I have asked for will be available by tomorrow?

As I said in my 1st email when asking for the information, I have a case that is at Woolwich crown court and I am having problems with my bail due to the records on my PNC, I am due in court maybe tomorrow or this week as my solicitor is putting into court to have a hearing and I wanted to have any errors on the PNC addressed at court.

Subject: RE: Simon Cordell Errors on Cases.
Dear Mr. Cordell,
Further to the conversation between Mr. S Cordell and a member of staff yesterday, please specify which dates and offences you wish us to check. Almost all the offences are archived and not immediately accessible using the computer; specific dates and offences would help reduce the delay in providing this information.

Subject: Re: Simon Cordell Errors on Cases.
Mr. Simon Paul Cordell 109 Burncroft Road Enfield Middlesex EN3 7JQ 18/02/**2014**
To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/**2013**.

I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case.
I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates.
If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues.
If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge.
Please see below the lists of cases I would like information on.
133,

Disrepair!
I get frustrated when I see my property getting damaged beyond disrepair because of the damp and mould in my rented home I continue to complain in the hope that the correct decisions get made by the Enfield Homes and the Enfield Council's teams but without any change in my living circumstances, I continue to take photo pitches of the damage cause to the property and make this report as told to do so by the Councils staff!

2 **An Email to my Solicitor:** Gazebo Case / Regina v. Simon - "Would it be possible for Simon to get an update as to what will go on in court tomorrow, and who will be attending for him will it be Jemi? Also, will the court be hearing a bail application tomorrow and if not, can it be put in for it to be heard tomorrow? Update to Simon cases for Enfield Court which is on his PNC I have the list from Enfield Court which has took them 3 weeks to do as there were so many cases on the PNC. I have tried to call you many times and sent a few texts since I got the list from the court last Thursday so that I could go over the records, but I have not heard from you. From looking at the list there are 5 cases that need to come off Simon record for the Enfield cases. There is also an issue I have with one case which will need looking into but I think I have to get my records form that date and see if it is the same case which I think it was as I can only remember one case that was ever at St. Alfred's Church right next to my house. When Simon, Tyrone, and me was arrested also at the church by me. If you remember you took Tyrone case away from mine and Simon due to Tyrone age and his case was heard on its own and Simon and mine was heard together Tyrone went to prison for this case and me and Simon got a not Guilty. There are also 2 other records that they missed out of the list I put in so I need to address this also. So, with the other case for City of London for failing to surrender that will be 6 cases that are not correct on his PNC record. And that is without the one I have an issue with for St. Alfred's Church by me, and the other 2 cases they forgot to check. It's not that the records are wrong it is the case that the court does not have any records at all for these cases, and the lady at the court showed me what she had to look at to get the records which is very large books with each court listing within them for every case heard at court so how is it so many cases do not have any records at the court yet they are on Simon PNC record I just do not understand. 2 are in fact Burglary's, 2 are for class B drugs, 1 is for Taking motor vehicle, Update for DR Jervis psychiatrist after him seeing Simon on the 11/03/**2014** he has said he will be writing a report to Simon GP and a letter for Simon so he can give it to you, I have spoken to him today but due to a backlog the report has not gone out yet so we will not have that for tomorrow at court I do not think but Simon still wants a bail application for tomorrow if that is possible. Simon has also said he does still want the 999 calls that was made on the day of the party he hires his sound system out to; he does still want the name of the Inspector and any others police officers that attended the building on 04/05/**2013** 05/05/**2013** The picture that the police took of the damaged wall and showed him that picture in interview. And the pictures for the 16/02/**2013** that the police took. If there is any reason that you or Jemi feel that this information is not needed, can you, please update us

to the reason as Simon does not understand why these would not be needed for his case. Also, Simon has asked did you put the letter into the council as you said you would do for the person that attended the building on the 16/02/**2013** 17/02/**2013** and the 04/05/**2013** 05/05/**2013** as I said to you, I have put a freedom of information act into them, they did reply they did not have any information but I have written back to them saying there has to be a record and I am waiting a reply from them. Can you also please let us know what time Simon has to be in court tomorrow?"

Hi Josey
Simon date has been moved forward to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP to tomorrow morning at 9.30am Also can you please give us an update to the below emails as Simon would like to fully understand what went on in court last week as to the discloser and if any more discloser has been asked for, he wants to know if you will be trying to get the discloser from the pictures to the **Feb 2013** case and if you will be trying to get the information as to what inspector went to the building before the party started and more times on the night, and the invoices as to what stock was there before **Feb 2013** After **Feb 2013** and before **May 2013** as he really is not 100% sure what he is being charged with as to what damage and the amount of stock he was meant to have taken and also to know what can be done with his bail conditions if he cannot get a letter from the DR right away, he is scared as it a new Dr they may not give him a letter right away until they have had more sessions?

Hi Josey

An update to the email below. The police called here late last night I was thinking they had come to tell me Simon was dead. The police have put Simon on their vulnerable list due to how bad he has got, he is even beaching his skin because he thinks the police are doing this due to his colour, he has been doing this for the last weeks but it only come out this weekend, he has started over the last weeks locking himself away not letting anyone see him which is really not a good thing. Saturday he even told Katie not to come any more which really is the last person he lets in. This really has to be listed for court this week as he is getting worse. I want to write a letter to the judge about what is going on would he read this at a bail application and not let it be read out in court as there will be very private things in it. Can you give me an update to the below email and this one as to what can be done I am trying to keep him as claim as I can till he has to see the psychiatrist but it is very hard and this is making things worse on my heath which you know already is not good. I would also like to put a complaint in about this and how the police have handled this whole case.

Hi Josey
If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?
Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward? If the conditions of bail could be changed there would not be so much of a problem waiting till **July 2014** for it to go to trial, but I don't think Simon, or I can take this till **July 2014** if the bail is not addressed. There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed will they look more of the case of just what the CPS says?
I don't think Simon can take it till the **17/02/2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to. If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself, you will see this. The other day I had 4 police officer in my home due to this while I am trying to stop him thinking the way he is for hours. The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building?
How can they hide that he comes along with TSG more than once?
And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their

van due to him hitting a girl which a 999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the **Feb 2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address?
As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done.

1. **If** Mr. Cordell would like to try medication Sertraline starting at 50mg for one week then increasing up to 100mg would be a good choice.
2. Crisis plan agreed with Mr. Cordell if he feels like acting on his suicidal thoughts (call Crisis Team, or Samaritans or an ambulance).
3. Discuss with team at MDT for advice around sources of support.
4. Mr. Cordell to consider psychotherapy to address problems from the past.

Thank you for referring this 33-year-old man with low mood, suicidal thoughts, and anxiety. He attended an appointment at the Silver Street Clinic 11.03.14 with his mother Lorraine. Mr. Cordell explained to me that he is under a lot of stress at the moment due to a pending court case. He told me he is accused of burglary, but that he had been wrongly accused and the police had falsified items on his criminal record. He said that the record had led to the judge placing restrictive bail conditions including being at home in his flat after 8 pm. This has meant Mr. Cordell has not been able to work for the last nine months (as he normally works as a DJ and party host with most work going on beyond that time). The bail conditions have just been extended for a further six months. Mr. Cordell feels that these restrictive conditions have made him feel "a prisoner" in his own home.
Mr. Cordell describes feeling anxious most days. He says he has a poor appetite and has lost "3 stone" in weight over the last 9 months. He says he often finds his thoughts are overactive and will not give him any rest. Mr. Cordell says he finds it difficult to get off to sleep, sometimes not until 5am, but then will stay in bed until midday. His mother says she has noticed him become "more aggressive" and trying to isolate himself from others.

Thank you for seeing this 33-year-old Afro-Caribbean man. He gives a history of symptoms of anxiety and depression. which have been on-going for a few months. His symptoms have progressively got worse and he has been having some suicidal thoughts. although he has not made any concrete plans to do anything. He says that the only reason he has not acted on these suicidal thoughts is because of his ex- patient and family.
He is currently involved with the criminal justice system and is -currently - on probation. He is under curfew and there have been imposed- restrictions on his movements. He says he is finding it very difficult to cope with the conditions of his - sentence. mainly the confinement t. his home. He says that his relationship with is partner appears to have broken down because of what he describes as the tough - conditions of his probation. He continues to feel very low and anxious when he is confined- to his home. - He is having difficulty sleeping.
He has had problems with depression in the past and was referred to the psychiatric services in 20I 1s. He has agreed to commence anti-depressant medication today in the form of Sertraline 50mg once daily. He requested some sleeping tablets and I have given him 10 tablets! of Zopiclone 3.75mg 1-2 tabs nocte to be used Infrequently.

To Whom It May Concern:
I am writing this email due to the below email which says you do not have any information for the dates given. I know on the **16/02/2013, 17/02/2013** a Noise and Nuisance Team come to a warehouse where a rave was taking place at Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, the police was there and around 500 party goers was within a warehouse I also know that a noise abatement order was put in place on the warehouse on this date.
It is also fact that on the **04/05/2013**, **05/05/2013** a next party took place in the same warehouse again I know as fact that a Noise and Nuisance Team attended on this party and walked fully around the building with a person that had hire their sound system out for this party the Noise and Nuisance Team told him that a noise abatement order was put in place in the **Feb 2013** due to noise and that they could legally take the sound system due to this. The person that Hires their sound system for that party walked around the whole warehouse and took noise levels and said that if the noise was kept with a limited, he had said the party could carry on, the police was also there the noise officer left the warehouse to go on to a next place and told the person
770,
who had hired their sound system out there was be back throughout the night to check if they had kept the sound to the limited that was set?
Therefore, I cannot understand why you do not have any information as to these dates. I there for ask if you have any information on any dates about Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, and noise could you please forward any information as to reports, noise abatement orders, and any calls and police IDs and Noise and Nuisance Team

officer attending could you please forward this information to me. I know this as fast as I have been arrested by police for the party that took place in the **May 2013** and I am the one that walked around the building with the Noise and Nuisance Team officer as I am the one that Hire my sound system for this night. If it is that you do have information and cannot give it to me can you please inform me of this, then if it would be easier, I could put a section 35 DPA request for the information.

Hi Josey
Would it be possible for Simon to get an update as to what will go on in court tomorrow, and who will be attending for him will it be Jemi?
Also, will the court be hearing a bail application tomorrow and if not, can it be put in for it to be heard tomorrow?
Update to Simon cases for Enfield Court which is on his PNC I have the list from Enfield Court which has took them 3 weeks to do as there were so many cases on the PNC. I have tried to call you many times and sent a few texts since I got the list from the court last Thursday so that I could go over the records, but I have not heard from you. From looking at the list there are 5 cases that need to come off Simon record for the Enfield cases. There is also an issue I have with one case which will need looking into but I think I have to get my records for that date and see if it is the same case which I think it was as I can only remember one case that was ever at St. Alfred's Church right next to my house. When Simon, Tyrone, and me was arrested also at the church by me. If you remember you took Tyrone case away from mine and Simon due to Tyrone age and his case was heard on its own and Simon and mine was heard together Tyrone went to prison for this case and me and Simon got a not Guilty. There are also 2 other records that they missed out of the list I put in, so I need to address this also. So, with the other case for City of London for failing to surrender that will be 6 cases that are not correct on his PNC record. And that is without the one I have an issue with for St. Alfred's Church by me, and the other 2 cases they forgot to check. It's not that the records are wrong it is the case that the court does not have any records at all for these cases, and the lady at the court showed me what she had to look at to get the records which is

very large books with each court listing within them for every case heard at court so how is it so many cases do not have any records at the court yet they are on Simon PNC record I just do not understand. 2 are in fact Burglary's, 2 are for class B drugs, 1 is for Taking motor vehicle, Update for DR Jervis psychiatrist after him seeing Simon on the 11/03/**2014** he has said he will be writing a report to Simon GP and a letter for Simon so he can give it to you, I have spoken to him today but due to a backlog the report has not gone out yet so we will not have that for tomorrow at court I do not think but Simon still wants a bail application for tomorrow if that is possible. Simon has also said he does still want the 999 calls that was made on the day of the party he hires his sound system out to; he does still want the name of the Inspector and any others police officers that attended the building on **04/05/2013, 05/05/2013** The picture that the police took of the damaged wall and showed him that picture in interview. And the pictures for the **16/02/2013** that the police took. If there is any reason that you or Jemi feel that this information is not needed can you please update us to the reason as Simon does not understand why these would not be needed for his case.
774,
Also, Simon has asked did you put the letter into the council as you said you would do for the person that attended the building on the **16/02/2013, 17/02/2013** and the **04/05/2013**, **05/05/2013** as I said to you, I have put a freedom of information act into them, they did reply they did not have any information but I have written back to them saying there has to be a record and I am waiting a reply from them. Can you also please let us know what time Simon has to be in court tomorrow?

Hi Josey
Simon date has been moved forward to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP to tomorrow morning at 9.30am
Also, can you please give us an update to the below emails as Simon would like to fully understand what went on in court last week as to the discloser and if any more discloser has been asked for, he wants to know if you will be trying to get the discloser from the pictures to the **Feb 2013** case and if you will be trying to get the information as to what inspector went to the building before the party started and more times on the night, and the invoices as to what stock was there before **Feb 2013** After **Feb 2013** and before **May 2013** as he really is not 100% sure what he is being charged with as to what damage and the amount of stock he was meant to have taken. And also, to know what can be done with his bail conditions if he

cannot get a letter from the DR right away, he is scared as it a new Dr they may not give him a letter right away until they have had more sessions?

Hi Josey
An update to the email below. The police called here late last night I was thinking they had come to tell me Simon was dead. The police have put Simon on their vulnerable list due to how bad he has got, he is even beaching his skin because he thinks the police are doing this due to his colour, he has been doing this for the last weeks but it only come out
775,
this weekend He has started over the last weeks locking himself away not letting anyone see him which is really not a good thing. Saturday he even told Katie not to come any more which really is the last person he lets in. This really has to be listed for court this week as he is getting worse. I want to write a letter to the judge about what is going on would he read this at a bail application and not let it be read out in court as there will be very private things in it. Can you give me an update to the below email and this one as to what can be done I am trying to keep him as claim as I can till he has to see the psychiatrist but it is very hard and this is making things worse on my heath which you know already is not good. I would also like to put a complaint in about this and how the police have handled this whole case.

Hi Josey
If at all possible, can you confirm what happened in court today by email. Is it the case now that no more discloser will be asked for?
Also, if no more discloser is needed can you list it for court to see if the judge will bring the trial date forward? If the conditions of bail could be changed there would not be so much of a problem waiting till **July 2014** for it to go to trial, but I don't think Simon, or I can take this till **July 2014** if the bail is not addressed.
There are still some issues I do see one being is part of Simon bail conditions is for failing to surrender which should not be the case as there is no failing to surrender on his record now and this has been proved. There is also the case you said before once you got all the discloser you needed from the insurance and CPS you said you would put an application in for his bail to be addressed; now it all seems to be on a letter from the doctors which was not the case before. If we take this to the high court for his bail to be addressed will they look more of the case of just what the CPS says?
I don't think Simon can take it till the **17/02/2014** to see DR Jervis psychiatrist at Barnet Enfield and Haringey Mental Health Trust 58 to 60 sliver street, EN1 3EP, nor do I think I can take any more of the worry that he will just end his life as that is what it has come to.
If you just look at my phone bills and see all the 101 calls to the police over the last months with Simon telling them he wants to kill himself, you will see this. The other day I had 4

police officer in my home due to this while I am trying to stop him thinking the way he is for hours. The stress this is having not only on Simon but me and the people around him trying to help him. The judge has got to hear what is going on here to this family due to all this and the lies by the police and the cover ups in this case. How can they call this burglary they are still hiding the information as to the inspector that was there before the party started that let the party go on, and went into the building before Simon had even gone in there and saw the damage to the building?
How can they hide that he comes along with TSG more than once?
And also, on one time came with the council due to noise how they can lose all this data. As this would prove Simon did not break into the building and in fact show that there were people living there. They also took a guy Simon knows called Martin Carl in the back of their van due to him hitting a girl which a
776,
999 call was made. The police stayed there for around 1 hour this time as they were trying to get the guy's shoes to be able to take him away. Simon is not sure if they took him to the station but if the police took him away there should be a record of this. The CPS is saying there have given all the discloser yet where are the pictures from the **Feb 2013** case where are all the statements for this case. Are they hiding information as we are not asking for the information to the right address?
As if you look in the information, we got yesterday from the CPS the address is Bianca Road which as we have said before that's the road, we said the party was on. The case for Simon the police is saying HAYMERLE Road. Which as we showed you when you on Google maps both streets are right around the building as it is covered by 2 street names. Josey Simon cannot take no more his bail needs to be address ASAP I am scared I going to get the police here saying he has taken his life something does need to be done.

Disrepair!
Every morning I wake up and stay motivated I'm trying my best to keep the flat to a fair level of upkeep but the damped continues to establish itself to add to the disrepair the main floor in the bedroom as you enter the door has a 2 by 2-foot hole in it were the floor got so rotted from the damp, this is more than dangers, it's a hazarded to my safety, I have called the complaints department at Enfield Council and Enfield home and another date has got set for it to looked at by a survivor!

I know this is a fact, as I have been arrested by police for the party that took place in the **May 2013** and I am the one that walked around the building with the Noise and Nuisance Team officer as I am the one that Hire my sound system for this night. If it is that you do have information and cannot give it to me can you please inform me of this, then if it would be easier, I could put a section 35 DPA request for the information. The information that you requested is below on your original Freedom of Information request ref 375981, a search was made on the address you gave as Unit 3, 4 HORRISONS Industrial Estate, HAYMERLE Road Se15 6SD for the dates **16 -17 February 2013.** I can confirm that no records were recorded under that particular address. This request has requested 'Bianca Road' as a search criterion, and in addition to the **16-17 February 2013,** also gives new dates of 4-**5 May 2013.** All Calls (Service Requests) received**16-17 February 2013** Our records show 3 service requests were received regarding noise from 'the street' Bianca Road on the **17th February 2013** at: 05:37hrs, 07:50hrs, 07:53hrs
The first service request was received outside of our operational hours. With regards to the other two service requests, the officers rang the clients at 08:15hrs and 08:25hrs respectively. The first client informed the Officer that the music was no longer bothering them, however, the other client asked for the officers to visit. Two officers visited the client at 08:45hrs and assessed the level of noise received at the client's premises. No nuisance was witnessed; however, they advised the client to call back should the level rise. No further calls were received, and no Abatement Notice was served
783,
on that date. All Calls (Service Requests) received 45 **May 2013**
According to our records no service requests were received regarding this premises on these dates. Noise Abatement Notice On **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013.** In response officers visited the site on **01 May 2013** and established that the 'old sausage factory' in Bianca Road was being squatted. Officers spoke to the squatters who were

residing there, and whilst they did not substantiate the claim, they did not deny it either. Officers felt that should the rave go ahead it would likely cause a nuisance to nearby residents. In a proactive attempt to address this, on **03 May 2013**
Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. In addition to the above, Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment. Actions on the **4-5 May 2013**
The Noise Team made several visits at the following times: 01:37hrs 2 officers noted that the rave had started; they contacted Southwark Police to enquire whether there were sufficient resources to shut it down (should a nuisance be witnessed), and were informed that this would be unlikely. They also spoke to the organisers of the rave and reminded them that the Notice was in place. The organisers reduced the volume to a low level. 03:50hrs The Noise team Unit Manager also visited the site along with the Police who were attached to the Council's Night-time Economy Team. She also spoke to the organisers, who stated that they would reduce the volume further on request. No Police ID numbers were taken or recorded. 11:47hrs 2 officers visited the premises, but no nuisance witnessed. 16:53hrs Same 2 offices visited with nothing being witnessed.

I know on the **16/02/2013, 17/02/2013** a Noise and Nuisance Team come to a warehouse where a rave was taking place at Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, the police was there and around 500 party goers was within a warehouse I also know that a noise abatement order was put in place on the warehouse on this date. It is also fact that on the **04/05/2013, 05/05/2013** a next party took place in the same warehouse again I know as fact that a Noise and Nuisance Team attended on this party and walked fully around the building with a person that had hire their sound system out for this party the Noise and Nuisance Team told him that a noise abatement order was put in place in the **Feb 2013** due to noise and that they could legally take the sound system due to this. The person that Hires their sound system for that party walked around the whole warehouse and took noise levels and said that if the noise was kept with a limited, he

had said the party could carry on, the police was also there the noise officer left the warehouse to go on to a next place and told the person who had hire their sound system out there was be back throughout the night to check if they had kept the sound to the limited that was set. Therefore, I cannot understand why you do not have any information as to these dates. I there for ask if you have any information on any dates about Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, and noise could you please forward any information as to reports, noise abatement orders, and any calls and police IDs and Noise and Nuisance Team officer attending could you please forward this information to me. I know this as fast as I have been arrested by police for the party that took place in the **May 2013** and I am the one that walked around the building with the Noise and Nuisance Team officer as I am the one that Hire my sound system for this night. If it is that you do have information and cannot give it to me can you please inform me of this, then if it would be easier, I could put a section 35 DPA request for the information. The information that you requested is below on your original Freedom of Information request ref 375981, a search was made on the
778,
address you gave as Unit 3, 4 HORRISONS Industrial Estate, HAYMERLE Road Se15 6SD for the
dates **16-17 February 2013** I can confirm that no records were recorded under that particular address. This request has requested 'Bianca Road' as a search criterion, and in addition to the **16-17 February 2013** also gives new dates of **4-5 May 2013.** All Calls (Service Requests) received **16-17 February 2013** Our records show 3 service requests were received regarding noise from 'the street' Bianca Road on the 17th February **2013** at: 05:37hrs, 07:50hrs, 07:53hrs.
The first service request was received outside of our operational hours. With regards to the other two service requests, the officers rang the clients at 08:15hrs and 08:25hrs respectively. The first client informed the Officer that the music was no longer bothering them, however, the other client asked for the officers to visit. Two officers visited the client at 08:45hrs and assessed the level of noise received at the client's premises. No nuisance was witnessed; however, they advised the client to call back should the level rise. No further calls were received, and no Abatement Notice was served on that date. All Calls (Service Requests) received 45 **May 2013**
According to our records no service requests were received regarding this premises on these dates. Noise Abatement Notice On **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013.**
In response officers visited the site on **01 May 2013** and established that the 'old sausage factory' in Bianca Road was being squatted. Officers spoke to the squatters who were residing there, and whilst they did not substantiate the claim, they did not deny it either. Officers felt that should the rave go ahead it would likely cause a nuisance to nearby residents. In a proactive attempt to address this, on **03 May 2013**
Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. In addition to the above, Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment.
Actions on the **4-5 May 2013**
The Noise Team made several visits at the following times: 01:37hrs 2 officers noted that the rave had started; they contacted Southwark Police to
779,

enquire whether there were sufficient resources to shut it down (should a nuisance be witnessed) and were informed that this would be unlikely. They also spoke to the organisers of the rave and reminded them that the Notice was in place. The organisers reduced the volume to a low level. 03:50hrs The Noise team Unit Manager also visited the site along with the Police who were attached to the Council's Night-time Economy Team. She also spoke to the organisers, who stated that they would reduce the volume further on request. No Police ID numbers were taken or recorded. 11:47hrs 2 officers visited the premises, but no nuisance witnessed. 16:53hrs Same 2 offices visited with nothing being witnessed. Reports Written No reports were written on the events for both dates. Hi Josey
Please see the email I got for Southwark council. It seems they even they had problems due to the address but after I give them the updated email for my request for Bianca Road, SE15.6SJ they found the information it also seems they knew about the party for **04/05/2013**, **05/05/2014** before it had even happened as they got information on the **01/05/2013** that a party was going to take place on the **04/05/2013** so, they went to the building on the **01/05/2013** and spoke to the squatters on this date which proves it was already being squatted before Simon went to the building on the **04/05/2013.**
Simon always through the council told him that the Noise Abatement Notice was put on the building in the **Feb 2013** but as you can see it was put in place on the **03/05/2013**
But I wonder who give the council the information on the **01/05/2013**
about the party for the **04/05/2013**, **05/05/2014** it must have been someone that the council would have believed could it have been the police?
It also does show the police was there but that the council did not take their IDs which does not help but it does show the police was there. Also is there any update from Jemi about the **18/03/2014**
for court as to what was said, and the bail application?

1 <u>An Email to Access Info at Southwark</u>: Community Safety Enforcement Team <u>Gazebo Case</u> - “Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that “on 01 May **2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the 04 May **2013**.” Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received? Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the 04 May **2013** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team? Can you also tell us if it was not the police that gave the above information did the Noise and Nuisance Team contact the police with the information as to a potential rave which would allegedly be held on the night of the 04 May **2013** and if so, what was the police officers’ details? On the 01st May **2013** when Noise and Nuisance Team went and spoke to the squatters who were residing there, did

the police attend at this time if so, could we have the police officers' details? On the 03rd May **2013** Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. Could we please have a copy of the section 80 abatement Notice that was served, and also any police officers' details that attended to serve the said notice? Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment, could we also have a copy of the warning letter that was issued regarding unlicensed entertainment, and the police officers' details that attended to serve this letter regarding unlicensed entertainment? If this information can be done under the same freedom information act, I would be grateful, if you would need a section 35 DPA I can forward this to you. Could you please update me as to this request?"

Dear John Page

Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that "on **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013."**

Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received?

Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the **04 May 2013** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team?

Can you also tell us if it was not the police that gave the above information did the Noise and Nuisance Team contact the police with the information as to a potential rave which would allegedly be held on the night of the **04 May 2013** and if so, what was the police officers' details?

On the **01st May 2013** when Noise and Nuisance Team went and spoke to the squatters who were residing there, did the police attend at this time if so, could we have the police officers' details?

On the **03rd May 2013**

Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. Could we please have a copy of the section 80 abatement Notice that was served, and also any police officers' details that attended to serve the said notice? Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment, could we also have a copy of the warning letter that was issued regarding unlicensed entertainment, and the police officers' details that attended to serve this letter regarding unlicensed entertainment?

If this information can be done under the same freedom information act, I would be grateful, if you would need a section 35 DPA I can forward this to you. Could you please update me as to this request?

I got made to feel infuriated by the Enfield Councils and the Enfield Homes dissertated practice towards their Statutory Duty of conduct towards their clients, because it makes me sufferer every day and night by their staff's negligence after their intentional infliction of emotional distress that I gets inflicted upon me, in the staff understanding the urgency of me having heating in my home and not correcting the issues of the Damp, Soundproofing and one existence of the Heating!

Dear Martin
Here is the logbook for CX52JRZ please see attached. I did call DVLA after I got the letter from them which showed the spelling of the last name wrong as it was spelled Cardell and not Cordell, they told me I had to wait until the logbook come in the post and then to fill in section 6 to get it corrected. Which I will be doing. Also, I have also noticed today when the logbook came in the post and I am not sure why they have put the new keepers date as **15/02/2014** as the green slip section 10 was sent to them, so the date of the **10/11/2013** was on it so I will be writing a letter to ask why this was done, along with the section 6 to correct the last name. Could you please update us as to when this can be sorted with KGM as

to the claim that is against Simon so he can sort his insurance out. Also, about the claim for **09 Dec 2013** we still have not heard from KGM as to when someone will be sent out to take a report from Simon could this be looked into?
And also, I know there was some confusion as to the number that was called to report this on the **09 Dec 2013,** please see the below information from my phone bill Mon 09 Dec13:28 SPEC SERV 08444126412 22:00 The call was made to 08444126412 at 13:28 and lasted 22 min this is when Simon called to report what had happened on the **09/12/2013** and give all the information which the person noted. I know there is some issue as to the lady who witnessed this information being missing but it was all given on this call. If it can be possible can someone get the tape for this call and get the information to the witness so KGM can contact her about what she saw and who was at fault.

Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that "on **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013."**
Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received?
Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the **04 May 2013,** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team?
Can you also tell us if it was not the police that gave the above information did the Noise and Nuisance Team contact the police with the information as to a potential rave which would allegedly be held on the night of the **04 May 2013,** and if so, what was the police officers' details?
On the **1st May 2013** when Noise and Nuisance Team went and spoke to the squatters who were residing there, did the police attend at this time if so, could we have the police officers' details?
On the **03rd May 2013** Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the
799,
Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. Could we please have a copy of the section 80 abatement Notice that was served, and also any police officers' details that attended to serve the said notice?
Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment, could we also have a copy of the warning letter that was issued regarding unlicensed entertainment, and the police officers' details that attended to serve this letter regarding unlicensed entertainment?
If this information can be done under the same freedom information act, I would be grateful, if you would need a section 35 DPA I can forward this to you. Could you please update me as to this request?

Your request is being dealt with under the Freedom of Information Act 2000 and you will receive a response within 20 working days of the date that we received your request. Disrepair!
The level of service provided by the Enfield Council and the Enfield Homes teams staff is truly inadequate to the sufficient need services required, for an example when the staff are using the available granted money that comes from the community repair chest budget that gets granted for repairs they do no manage maintain and distribute the selfless cash within the relevant emergency sectors of highest priorities to a reasonable standard and in a practical time scale, as my rented council flats conditions are of the highest priorities but still continues to suffer alongside myself, once I had applied for the staff to initialize the capital and reasonable persons to rectify the repairs need, so to fix my home in a relevant time period and to a professional standard!

1 An Email from my Solicitor: Gazebo Case / Regina v. Simon "The previous conviction discrepancies will be highlighted counsel to counsel between the prosecution and the defence. Tactically we have to withhold certain information in particular the email from the council. I have referred to the noise abatement officer attending and alluded to police also being in attendance. The CPS is the organisation that makes the decision on continuing the prosecution and it the police are failing to investigate and we provide written representations

with evidence in support then the prosecution may review on the grounds that there is no realistic prospect of conviction. This is the most sensible approach. As advised earlier once my headache clears, I will be drafting detailed representations with a view to the CPS reviewing the prosecution in this case."

And are we showing the court the email from the council which does show the police was aware of the party before **04/05/2013** and that it was being squatted before Simon had even attended the building?
I was thinking that all this information would have been needed to show the judge how bad this case really is. Will it be Jemi that will attend court tomorrow?

Dear Sir or Madam
We refer to the above matter. This case was last mentioned in court on 18th March **2014** and on that occasion the Learned Judge made a number of directions. Statements and invoices regarding the repair of the wall to be served by **21st March 2014** Not Served Statements from council to be served by **29th March 2014** Not served We attach a copy of the insurance file that we received from Mr. Patel's insurance company and note will no doubt be taken of the dates of the previous break ins and the damage caused on previous dates prior to **May 2013** You will also no doubt note that there were no invoices submitted for any repairs during that period of time and also the delay in the Patel's responding to the insurance claim. It has always been our client's case that the damage caused to the wall and inside the building had already been committed before he hired out his sound system for the private party. Our client has always disputed causing the damage or having any knowledge as to how this damage was caused. We further raise that other suspects forensically linked to the earlier offences were released with no further action been taken against them. Mr. Cordell has always maintained that police officers attended with the noise abatement officers but we are yet to be provided with the officer's contact details or indeed the reason for their attendance. Clearly the issue is why did the Police allow a party to go ahead if persons present were damaging a wall and removing property. Mr. Cordell feels like he is being singled out and made a scapegoat in this case. He denies involvement in the burglary and this allegation is having an adverse effect not only on his business but also on his mental health. We attach a copy of a letter confirming his medical diagnosis from his GP.
805,
We respectfully request that the curfew condition be removed in its entirety as the curfew of having an adverse effect on Mr. Cordell's mental wellbeing. We request that the bail variation be addressed tomorrow at the pretrial review hearing. Please confirm the listing at your earliest convenience.
Yours faithfully

Which he does have bail condition set for failing to surrender. And can the issues about his PNC be given in court tomorrow without it being in the bail application as I do feel the judge should be told about these errors on Simon record as there is also more than one error and these did have a deciding factor towards his bail condition in this case. And are we showing the court the email from the council which does show the police was aware of the party before **04/05/2013** and that it was being squatted before Simon had even attended the building?
I was thinking that all this information would have been needed to show the judge how bad this case really is. Will it be Jemi that will attend court tomorrow?

Dear Sir or Madam
We refer to the above matter. This case was last mentioned in court on **18th March 2014** and on that occasion the Learned Judge made a number of directions. Statements and invoices

regarding the repair of the wall to be served by **21st March 2014** not served Statements from council to be served by **29th March 2014**
Not served. We attach a copy of the insurance file that we received from Mr. Patel's insurance company and note will no doubt be taken of the dates of the previous break ins and the damage caused on previous dates prior to **May 2013**
You will also no doubt note that there were no invoices submitted for any repairs during that period of time and also the delay in the Patel's responding to the insurance claim. It has always been our client's case that the damage caused to the wall and inside the building had already been committed before he hired out his sound system for the private party. Our client has always disputed causing the damage or having any knowledge as to how this damage was caused. We further raise that other suspects forensically linked to the earlier offences were released with no further action been taken against them. Mr. Cordell has always maintained that police officers attended with the noise abatement officers, but we are yet to be provided with the officer's contact details or indeed the reason for their attendance. Clearly the issue is why did the Police allow a party to go ahead if persons present were damaging a wall and removing property. Mr. Cordell feels like he is being singled out and made a scapegoat in this case. He denies involvement in the burglary and this allegation is having an adverse effect not only on his business but also on his mental health. We attach a copy of a letter confirming his medical diagnosis from his GP. We respectfully request that the curfew condition be removed in its entirety as the curfew of having an adverse effect on Mr. Cordell's mental wellbeing.
We request that the bail variation be addressed tomorrow at the pretrial review hearing.
Please confirm the listing at your earliest convenience.
Yours faithfully

1 **Driving: To** Broadsure Direct / Simon Cordell Logbook – "After the call I made to you today and what we spoke about please see the email that you asked me to write. As said on the phone today and as you are well aware Simon did not think any Vehicles was on the database and had to carry his policy around from the start of his policy with KGM as each time he was pulled by police nothing showed as him being insured, so as you are aware the police and Simon had to call you many times when Simon was pulled by police to confirm with the police that he was in fact insured. So as to what the claims department are saying about the Vehicle being on the database how was Simon have meant to know about this to have called to take off any Vehicles? Simon did not know there was an error on the database due to it being inputted wrong on the database form, so it was showing up on the insurance database but not he mid database due to this error, so how was he meant to be aware of this fact. He was only made aware of this in late November **2013** when some issues came up that Kelly Tiller of KGM was dealing with. It was at this point his car started showing up on the mid so KGM had fixed this, but no other Vehicles, was showing up on the mid database until it was corrected in Jan **2013** by KGM. I do believe now it was something to do with a space being placed within the numbers of the reg of the Vehicles, the insurance database accepts this, but the mid database does not. But this is documented well in emails. Also why has KGM never sent me any letters of this claim being held against me there was a call from KGM about the Sep **2013** but I told the person who called I did not own the Van at that time I was asked to send in the bill of sale and I did, after this I did not hear anything else about this so was thinking everything was ok until it was time for my renewal it was only at this point I was told about this claim being on my insurance, It is also well known you have my mums phone number which is on file which is 007 and there is always someone at home so if there was any issues why no phone calls or any letters about this? But also, I am sure there should have been a letter sent about this claim and there have never been any letters sent. There are some more issues and that is the claim for Dec **2013** when Simon was taking my car to service it. As you are aware KGM even said Simon was not covered by his trade policy and you had to call them and sort this issue out. But that still does not cover the fact Simon has made many calls and also sent emails about this claim. Which we still have not heard anything back about also there has been no letters sent about this claim also. The last time he

called he was told that someone would be sent out to take a report for this claim yet again there have been no phone calls or letters to set this up so a report can be taken. There is also a problem that on the 09/12/**2013** when he called to report this, he gave over a witness information IE Name and her phone number which on the last call that was made they did not seem to have any information as to the witness information I have checked my phone bill and the call was made please see below. **Mon 09 Dec 13:28 SPEC SERV** 08444126412 22:00. The call was made to 08444126412 at 13:28 and lasted 22 min this is when Simon called to report what had happened on the 09/12/**2013** and give all the information which the person noted. I have asked for the recoding of the phone call be pulled out and heard so that the information as to the witness can be put on this claim and contacted yet I have heard nothing also. I have asked and emailed many times about this claim and it seems nothing has been done but yet KGM wants to hold this claim also against my insurance. There is also the fact on the 26/11/**2013** an email was sent to Kelly Tiller at KGM about a subject access request under the data protection act 1998 again I have heard nothing about this, and more emails have been sent over about this. Please can these issued be addressed I paid for my insurance and it seems that nothing gets done it does not matter how many times calls are made or emails are sent KGM are just leaving everything. How long should it take to sort out a claim? Should I have had at least a letter? Why has nothing been addressed? As at this time due to these claims I cannot work and this is costing me money every day I am not insured."

Good afternoon
Many thanks for the V5 now received, however the details therein do not tally with the insurance nor the sales and purchase receipts submitted by the policyholder as such we are at this time unable to close the file. We will however pass the evidence to hand onto the third

party and request confirmation that they will redirect their claim, failing which we will insist that they obtain judgement on the driver of the vehicle at the time of the alleged incident. As the vehicle was never removed from the policy and the DVLA history does not tie in with the purchase/sales history submitted we are left with a possible involvement as the RTA Insurer which remains a contentious issue, as the V5 shows the owner from **06/02/2012** To **15/02/2014** as Adam Harris, with the inception of this insurance policy being **23/02/2013** for the vehicle and our mutual client/policyholder.

1 **An Email from my Solicitor:** Gazebo Case / Regina v. Simon for trial at Woolwich Crown Court warned list "I have flagged up all the issues that are relevant. I will wait for a response from the insurance company. The invoices do look dodgy, but the insurance company can put pressure on Mr. Patel. I am trying tactically to flag up the issues. Once Mr. Allaway confirms never received the invoices he will undoubtedly dig further and hopefully this will bear fruit.

The point you raise about paying invoices is not relevant and does not take us any further. The point to be made is **(a)** how many estimates obtained **(b)** when were they submitted. The missing invoice number will also be picked up by the insurance company but the main point we have to establish is when submitted. They appear to be backdated as not in original insurance file but I need insurance company to verify this before taking the matter any further. You know the old saying about giving a person enough rope. You have to wait, bide your time. I aim to do representations to CPS hopefully before weekend. As stated previously if no statement from noise abatement officer, then I will get the case listed again with DC Mayhew to attend. He can explain why all statements with Mr. Patel telephone statements. I am also going to ask for statement from manager of warehouse as to damage and also the so-called missing crime report."

Hi Josey
I have noted things also can you also ask how Mr. Patel paid these invoices?
Not sure if that can be done and when I last spoke with Mr. Allaway, he had been trying to get a face-to-face meeting with Mr. Patel each time he called to try and sort it someone picked the phone up and said Mr. Patel was on holiday. He also did not believe this and also and also said that the invoiced that had been sent in was not real ones he knew they were

fishy. Also due to the x3 claims Nikki went to the warehouse on the **28/03/2013** after the 2nd breaking on the **25/03/2013** and from the file Mr. Patel did not even tell her that he had fixed the wall and paid for it on the **21/03/2014** and he must have known already that on the **29/03/2013**
the same company was coming to fix the wall again. Nikki was there on the **28/03/2013** taking pictures. So why did he not tell her this then?
Also, he said he had to leave the warehouse as the insurance company wanted to take pictures. Yet Nikki I am sure only went to the warehouse once and that was after the 2nd breaking on the **25/03/2013**
Also looking at the invoices they don't even have an invoice number. There no costing for anything on them. I would like the invoices checked and I mean really checked the right person could tell when these invoices were printed. It's also very funny that the same said part of the wall was damaged 3 times if they had fixed it correctly it would have been much harder as it was new why was the same said part of the wall now done 3 times. And yet also in the file for the March claim Mr. Patel only told the insurance company about the alarm there was no wall said about in the March claim. I have not had time yet to look at all the statements, but I will most likely have more to say and so will Simon. Also £600.00 to fix the said wall and yet he is saying to the police **£8000 to £10,000** for the damage to the building? **816,**
And Mr. Patel did not do stock take from **Feb 2013** case none was also done in **March 2013** nor **May 2013** yet for the **May 2013** case he can come up with a cost of around £8220.
I will read over the rest of this later I only just really looked at it a very little did not even read Mr. Patel statement fully and I have seen this.

Subject: Regina v. Simon Cordell for trial at Woolwich Crown Court warned list
Dear Simon / Lorraine
I refer to the above matter. I can confirm that Counsel has written on his court note that Simon is now subject to a condition of residence only. I will still request the bail sheet and forward it to you from the Crown Court to avoid any confusion. I attach a copy of a Notice of Additional Evidence dated **08th April 2014**
You will no doubt note the discrepancies in the statement of DC Mayhew dated **03rd April 2014** for clarification if there is no statement from the noise abatement officer by **10th April 2014,** I will be listing the case for mention. The statement of DC Mayhew referring to the Inspector who attended on the date of the scene the day of the illegal rave is inaccurate. Inspector Mc Millen's statement refers to attending the scene of a reported burglary and he notes that there were no squatters signs up. I will therefore need Simon to deal with this in his proof exhibiting extracts of his Facebook page which shows the notices etc. I will be asking for the statements of the officers who attended with the noise abatement officers and all updates on the CAD system. I am asking for a copy of the CD of photographs from the SOCO from February **2013** referred to in the statement of Paul Whittaker.
In relation to the invoices served also dated **01st March 2013** And **29th March 2013** these were absent from the insurer's file of papers and reference was made to the second break in, in the report of Nikki Diamond. I will email Trevor Allaway to request confirmation as to whether the two invoices were ever sent to the insurance company and if so when. The bottom of the invoice also refers to an optional extra and there is no proof that Mr. Patel ever paid for the damage to be repaired. The other point is that it seems a very long way for a

West London builder to travel for **£500** worth of work. I am going to ask whether the Patel's from Hounslow are related whether by family or business or whether Rakesh Patel or Deven Patel have any interests in this company. I will ask the insurance company if they have any knowledge of any connection between the Patel insurance clients and Patel the builders. I will also ask the CPS to ask Mr. Patel for copies of any alternative quotes and a similar question will be posed to the insurance company. If you have any questions re the above can you please email me as I am in and out of the office quite a
lot this week.
Regards
Josephine
PS I will CC you in on the email to Trevor All-day from the insurance company.

If no invoices were provided last year, can you, please confirm whether you know of any connection between your client and the Building Company Patel Construction. The invoices refer to optional extras amounting to £4500 plus VAT but no invoice has been provided to confirm that this work was ever carried out which begs the question as to whether the premises were ever actually secured and whether the damage was ever remedied as claimed. We are very concerned as to how did the damage jumped from £600 with an optional extra to £4,500 plus VAT and finally to a claim in the region of £40,000 from an estimate sent to the insurance company in September **2013** Mr. Rakesh Patel in his statement dated 10th March **2014** (telephone statement) refers to his Manager reporting the second break into police but not having a crime reference number. We will be asking for a statement from the manager to be obtained via the police as this would undoubtedly list the damage caused etc. We would be grateful if the above could be confirmed. I can confirm that Counsel has written on his court note that Simon is now subject to a condition of residence only. I will still request the bail sheet and forward it to you from the Crown Court to avoid any confusion. I attach a copy of a Notice of Additional Evidence dated 08th April **2014** You will no doubt note the discrepancies in the statement of DC Mayhew dated 03rd April **2014**. For clarification if there is no statement from the noise abatement officer by 10th April **2014**, I will be listing the case for mention. The statement of DC Mayhew referring to the Inspector who attended on the date of the scene the day of the illegal rave is inaccurate. Inspector Mc Millen's statement refers to attending the scene of a reported burglary and he notes that there were no squatters signs up. I will therefore need Simon to deal with this in his proof exhibiting extracts of his Facebook page which shows the notices etc. I will be asking for the statements of the officers who attended with the noise abatement officers and all updates on the CAD system. I am asking for a copy of the CD of photographs from the SOCO from February **2013** referred to in the statement of Paul Whittaker. In relation to the invoices served also dated 01st March **2013** and 29th March **2013** these were absent from the insurer's file of papers and reference was made to the second break in, in the report of Nikki Diamond. I will email Trevor

Allaway to request confirmation as to whether the two invoices were ever sent to the insurance company and if so when. The bottom of the invoice also refers to an optional extra and there is no proof that Mr. Patel ever paid for the damage to be repaired. The other point is that it seems a very long way for a West London builder to travel for £500 worth of work. I am going to ask whether the Patel's from Hounslow are related whether by family or business or whether Rakesh Patel or Deven Patel have any interests in this company. I will ask the insurance company if they have any knowledge of any connection between the Patel insurance clients and Patel the builders. I will also ask the CPS to ask Mr. Patel for copies of any alternative quotes and a similar question will be posed to the insurance company. If you have any questions re the above, can you please email me as I am in and out of the office quite a lot this week. **PS** I will CC you in on the email to Trevor All-day from the insurance company."

Not sure if that can be done and when I last spoke with Mr. Allaway, he had been trying to get a face-to-face meeting with Mr. Patel each time he called to try and sort it someone picked the phone up and said Mr. Patel was on holiday. He also did not believe this and also and also said that the invoiced that had been sent in was not real ones he knew they were fishy. Also due to the x3 claims Nikki went to the warehouse on the 28/03/**2013** after the 2nd breaking on the 25/03/**2013**and from the file Mr. Patel did not even tell her that he had fixed the wall and paid for it on the 21/03/**2014** and he must have known already that on the 29/03/**2013** the same company was coming to fix the wall again. Nikki was there on the 28/03/**2013** taking pictures. So why did he not tell her this then? Also, he said he had to leave the warehouse as the insurance company wanted to take pictures. Yet Nikki I am sure only went to the warehouse once and that was after the 2nd breaking on the 25/03/**2013** Also looking at the invoices they don't even have an invoice number. There no costing for anything on them. I would like the invoices checked and I mean really checked the right person could tell when these invoices were printed. It's also very funny that the same said part of the wall was damaged 3 times if they had fixed it correctly it would have been much harder as it was new why was the same said part of the wall now done 3 times. And yet also in the file for the March claim Mr. Patel only told the insurance company about the alarm there was no wall said about in the March claim. I have not had time yet to look at all the statements, but I will most likely have more to say and so will Simon. Also £600.00 to fix the said wall and yet he is saying to the police £8000 to £10,000 for the damage to the building? And Mr. Patel did not do stock take from Feb **2013** case none was also done in March **2013** nor May **2013** yet for the May **2013** case he can come up with a cost of around £8220. I will read over the rest of this later I only just really looked at it a very little did not even read Mr. Patel statement fully and I have seen this."

Dear Mr. Allaway
I refer to my previous emails. I am attaching copies of two invoices received from the CPS in relation to the case against our client. You kindly provided me with a copy of your insurance file pursuant to a section 35 application and in that disclosure, there were no invoices dated **01st March 2013** or **29th March 2013.**
Can you please confirm by return email whether you were provided with a copy of the invoices in **2013** and if so on what date? Please also confirm whether you were provided with

alternative quotations from any other companies in relation to the damage in **February 2013** and **March 2013**
If you were not, then please confirming this also. If no invoices were provided last year can you, please confirm whether you know of any connection between your client and the Building Company Patel Construction. The invoices refer to optional extras amounting to £4500 plus VAT but no invoice has been provided to confirm that this work we ever carried out which begs the question as to whether the premises were ever actually secured and whether the damage was ever remedied as claimed. We are very concerned as to how did the damage jumped from £600 with an optional extra to £4,500 plus VAT and finally to a claim in the region of £40,000 from an estimate sent to the insurance company in **September 2013** Mr. Rakesh Patel in his statement dated **10th March 2014** (telephone statement) refers to his manager reporting the second break into police but not having a crime reference number. We will be asking for a statement from the manager to be obtained via the police as this would undoubtedly list the damage caused etc
825,
We would be grateful if the above could be confirmed. Our client is facing a charge of burglary based on damage caused. The case is listed in the warned list for trial in **June 2014**
We thank you in advance for your assistance in this matter.
Yours sincerely
Josephine Ward

I have checked my file and there are no copies or mention of these invoices. I have spoken to Nikki Diamond and she has no recollection of ever having seen the documents which I described to her.
I hope this helps.

Dear Mr. Allaway
I refer to my previous emails. I am attaching copies of two invoices received from the CPS in relation to the case against our client. You kindly provided me with a copy of your insurance file pursuant to a section 35 application and in that disclosure, there were no invoices dated **01st March 2013** Or **29th**
827,
March 2013. Can you please confirm by return email whether you were provided with a copy of the invoices in **2013** and if so on what date? Please also confirm whether you were provided with alternative quotations from any other companies in relation to the damage in **February 2013** and **March 2013** If you were not, then please confirming this also. If no invoices were provided last year can you, please confirm whether you know of any connection between your client and the Building Company Patel Construction. The invoices refer to optional extras amounting to £4500 plus VAT but no invoice has been provided to confirm that this work was ever carried out which begs the question as to whether the premises were ever actually secured and whether the damage was ever remedied as claimed. We are very concerned as to how did the damage jumped from £600 with an optional extra to £4,500 plus VAT and finally to a claim in the region of £40,000 from an estimate sent to the insurance company in **September 2013** Mr. Rakesh Patel in his statement dated **10th March 2014**

Dear Ms Cordell
Re: Your request for information: 385573
Thank you for your request for information that was received on **27 March 2014** in which you requested: Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that "on **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013."**
Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received?
Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the **04 May 2013** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team?
831,
Can you also tell us if it was not the police that gave the above information did the Noise and Nuisance Team contact the police with the information as to a potential rave which would allegedly be held on the night of the **04 May 2013** and if so, what was the police officers' details?
On the **01st May 2013** when Noise and Nuisance Team went and spoke to the squatters who were residing there, did the police attend at this time if so, could we have the police officers' details?
On the **03rd May 2013** Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. Could we please have a copy of the section 80 abatement Notice that was served, and also any police officers' details that attended to serve the said notice?
Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment, could we also have a copy of the warning letter that was issued regarding unlicensed entertainment, and the police officers' details that attended to serve this letter regarding unlicensed entertainment?

If this information can be done under the same freedom information act, I would be grateful, if you would need a section 35 DPA I can forward this to you. Could you please update me as to this request?

To Whom It May Concern:
After the information I got on the **24/03/2014** ref number 380680 I asked for some more information to the data that had been given, you put this under a new ref number of 385573 I was wondering if there was any update. And also worried that was all of the email sent over so they could track which information was given so they knew what I was asking about.

Dear John Page
Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that "on **01/05/ 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04/05/2013."**
Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received?
Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the **04/05/2013** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team?
Can you also tell us if it was not the police that gave the above information did the Noise and Nuisance Team contact the police with the information as to a potential rave which would allegedly be held on the night of the **04/05/2013** and if so, what was the police officers' details?
On the **01/05/2013** when Noise and Nuisance Team went and spoke to the squatters who were residing there, did the police attend at this time if so, could we have the police officers' details?
On the **03/05/2013** Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. Could we please have a copy of the section 80 abatement Notice that was served, and also any police officers' details that attended to serve the said notice?
Council Licensing officers also visited the site with Police and a warning letter was issued regarding unlicensed entertainment, could we also have a copy of the warning letter that was issued regarding unlicensed entertainment, and the police officers' details that attended to serve this letter regarding unlicensed entertainment?
If this information can be done under the same freedom information act, I would be grateful, if you would need a
838,
section 35 DPA I can forward this to you. Could you please update me as to this request?

Simon Cordell

Our **reference:** 380680
Dear Mr. Cordell

Re: Your request for information: 380680
Thank you for your request for information that was received on **13 March 2014** in which you requested: I am writing this email due to the below email which says you do not have any information for the dates given. I know on the **16/02/2013**, **17/02/2013** a Noise and Nuisance Team come to a warehouse where a rave was taking place at Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, the police was there and around 500 party goers was within a warehouse I also know that a noise abatement order was put in place on the warehouse on this date.
It is also fact that on the **04/05/2013**, **05/05/2013** a next party took place in the same warehouse again I know as fact that a Noise and Nuisance Team attended on this party and walked fully around the building with a person that had hire their sound system out for this party the Noise and Nuisance Team told him that a noise abatement order was put in place in the **Feb 2013** due to noise and that they could legally take the sound system due to this. The person that Hires their sound system for that party walked around the whole warehouse and took noise levels and said that if the noise was kept with a limited, he had said the party could carry on, the police was also there the noise officer left the warehouse to go on to a next place and told the person who had hire their sound system out there was be back throughout the night to check if they had kept the sound to the limited that was set. Therefore, I cannot understand why you do not have any information as to these dates. I there for ask if you have any information on any dates about Bianca Road, SE15.6SJ / HAYMERLE Road, SE15 6SD, and noise could you please forward any information as to reports, noise abatement orders, and any calls and police IDs and Noise and Nuisance Team officer attending could you please forward this information to me. I know this is a fact, as I have been arrested by police for the party that took place in the **May 2013** and I am the one that walked around the building with the Noise and Nuisance Team officer as I am the one that Hire my sound system for this night.
839,
If it is that you do have information and cannot give it to me can you please inform me of this, then if it would be easier, I could put a section 35 DPA request for the information. The information that you requested is below on your original Freedom of Information request ref 375981, a search was made on the address you gave as Unit 3, 4 HORRISONS Industrial Estate, HAYMERLE Road Se15 6SD for the dates **16 - 17 /02/2013**
I can confirm that no records were recorded under that particular address. This request has requested 'Bianca Road' as a search criterion, and in addition to the **16 - 17/02/2013** also gives new dates of **04 - 05/05/2013**
All Calls (Service Requests) received **16-17/02/2013**
Our records show 3 service requests were received regarding noise from 'the street' Bianca Road on the **17/02/2013** at: **05:37hrs**, **07:50hrs 07:53hrs.**
The first service request was received outside of our operational hours. With regards to the other two service requests, the officers rang the clients at 08:15hrs and 08:25hrs respectively. The first client informed the Officer that the music was no longer bothering them, however, the other client asked for the officers to visit. Two officers visited the client at 08:45hrs and assessed the level of noise received at the client's premises. No nuisance was witnessed; however, they advised the client to call back should the level rise. No further calls were received, and no Abatement Notice was served on that date. All Calls (Service Requests) received **4-5 May 2013**
According to our records no service requests were received regarding this premises on these dates. Noise Abatement Notice On **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013**

In response officers visited the site on **01 May 2013** and established that the 'old sausage factory' in Bianca Road was being squatted. Officers spoke to the squatters who were residing there, and whilst they did not substantiate the claim, they did not deny it either. Officers felt that should the rave go ahead it would likely cause a nuisance to nearby residents. In a proactive attempt to address this, on **03 May 2013** Officers served a section 80 abatement Notice for 'likelihood of nuisance' which effectively prohibited the nuisance from occurring or recurring. Whilst the Notice prohibited the occurrence or recurrence of nuisance from the rave, it could not prevent the rave from taking place. In addition to the above, Council Licensing officers also visited the site with Police and a
840,
warning letter was issued regarding unlicensed entertainment. Actions on the **4-5 May 2013** The Noise Team made several visits at the following times: 01:37hrs 2 officers noted that the rave had started; they contacted Southwark Police to enquire whether there were sufficient resources to shut it down (should a nuisance be witnessed), and were informed that this would be unlikely. They also spoke to the organisers of the rave and reminded them that the Notice was in place. The organisers reduced the volume to a low level. 03:50hrs The Noise team Unit Manager also visited the site along with the Police who were attached to the Council's Night-time Economy Team. She also spoke to the organisers, who stated that they would reduce the volume further on request. No Police ID numbers were taken or recorded. 11:47hrs 2 officers visited the premises, but no nuisance witnessed. 16:53hrs Same 2 offices visited with nothing being witnessed. Reports Written No reports were written on the events for both dates. 3 **Asbo Si Note:** I met a New Partner - "After I headed back outside, I met a new partner who already has a younger sibling, this young child was with another man and for that time we were together, we were very much happy I believe. We knew each other for some time, but never got to know each other better. The day got panned by me so I would work; the date was the 20/04/**2014** and I was to be supplying power and a sound system equipment to an event which got known as Cannabis 420 days. Police said that I was not due to attend at the event with equipment, when I drove up to the entrance, which I understood not to be true, as I got asked to power the event and sound by a company who messaged me a few weeks in advance of the date. I still have the emails to prove this, from people who managed the event; I left the site after what transpired to happen after the police officers said what they said. After leaving, I got a phone call explaining that I let the person down who hired me for the event, as a consequence, I drove back home and put the equipment away, I later got a phone call from a friend who said that he had a party going on and asked if I would like to attend. I did this and with no equipment while there I was having a good time when I came across a beautiful lady. She came up to me after her friend ended up banging her head after dropping from taking a balloon and together, we looked after her. While looking after this lady with a saw head, I and the beautiful lady had been trying to find cold drink but there seemed to have none left. I can remember the room being hot and this being the first time that I went out to have fun as for the bail conditions that I got placed on since breaking up with my first partner. Thought

the night I continued to chat with this lady, and we got along well. She made me smile when she popped up with a few cold bottles of fizzy Lucozade for us all and I asked her was where she had managed to get them from. When she replied to me, from the shop; I tried to think of where the closest shops were to where we were and knew them to be far away. Me, being me, I never would expect a woman to puts her hands into her own pockets, to pull out her money, so to pay for something, but on this occasion she in fact made me feel welcome, to take the drink from her. It got explained by her that she saw the police on her way back in, and she thought that it would be best to take her back home so that we were both safe and that is what I did I found my new partner.

I am writing further to your request for information dated **27 March 2014** to advise you that we have now completed our search for the information you requested: Thank you for the below email with the data I asked for in a freedom information act. I can see there is information for the request I put in but was wondering if there was any way I could get some more information to some of the data you have sent me. You say in the information that "on **01 May 2013** the Noise & Nuisance Team received information regarding a potential rave which would allegedly be held on the night of the **04 May 2013."**
Is there any way we could get the information as to the person or persons that give the information regarding a potential rave and what time this information was received?
Was it the police that informed you of this information of the potential rave which would allegedly be held on the night of the? **04 May 2013,** if it was could we get the name of the police officers who passed this information to the Noise and Nuisance Team?
Can you also tell us if it was not the police that gave the above information did the Noise and?

Disrepair!

The Enfield Council and Enfield home should always stay open-minded towards their mandatory duties of care towards their client such as myself rather than members of the staff avoiding to deal with emergency problems of disrepair, as keeps happening every day that goes past without the correct follow ups getting insulated so for the needed work that must get completed within my rented home finally taking place and then getting finished!

Time Spent Building.

In the background of everything going on I finished working on Creating a new up to date INCIDENT MANAGEMENT PLAN and I continued to Study and finish at the Time Start: 07:00 Am and Time End: 03:30 Pm!
My mother also continues to work on building my company website for me with others at the Time Start: 09:00 and Time End: 14:00!

5

Working at Home doing Court Case Defence Work!

I spent time and resources costing expenditure with my mother also building my defence case, against the allegations getting put against me at the Time Start: 12:00 Am and Time End: 06:00 Am!

Living in such dreadful conditions is not humane and my flat would be nice if it was veridical and kept up to the right ISO standards but this simple upkeep gets pushed aside by the Enfield Council and the Enfield homes pertinent departments of concern in reference towards the damp heating air ventilation and also the sound issues of disrepair that are unreasonable!

The HHSRS and the housing Act 1985 inclusive of many other rights of mine and many other people's rights designate that these quandaries of disrepair must not get left by the Enfield Council and the Enfield Homes teams to carry on the way they do, as it is causing me to have no delectation out of my flat and causes me a negative emotional distress!

Disrepair!
A full investigation is supposed to have taken place within the first stages of my complaints and once the Enfield Councils and the Enfield Homes got put in receipt of the emergency issues I raise with them about the disrepair issues within my rented home, but do not persist to established disciplinary action against their staff in a fair and equal manner, the staff representing my cases should have taken my safety and health into account and have not in regards to the disrepair is consequential!

Disrepair!
The Enfield Council and the Enfield homes have left the disrepair of the damp and heating issues for so long that the damp dihydrogen monoxide shows on the electrical wiring systems and sometime causes them to overloaded making the electrical sockets perils and causing further damage to my personal property, such as my TV that additionally has mould growing over it, as much as I endeavour my best to keep it clean and well ventilated!

  1 **An Email from my Solicitor: To** Croydon Kingston & Woolwich Crown CPS Gov / Gazebo Case / Regina v. Simon - "We continue to act on behalf of Mr. Simon Cordell in relation to an allegation of burglary. As you are aware this case was in court on 08th April **2014** for a mention hearing before his Honor Judge Shorrock. On that occasion the Learned Judge made directions as to the service of crime scene photographs from February **2014** (as referred to in the statement of Paul Michael Whittaker dated 25th March **2014**). There are 14 photographs referred to in the statement, but we have not been provided with an album containing the pictures of indeed a photograph. In addition, we have not been served with the statement from the Council regarding the noise abatement. We will forward under separate cover copies of a section 80 noise abatement notice and a notice prohibiting the sale of alcohol at the planned party in Bianca Road that Mr. Cordell's mother secured from the Council under a section 35 application. It appears as though there is confusion as to the venue address and indeed the venue referred to in the noise abatement notice (Bianca Road) and the alleged burgled premises appear to be one and the same albeit the burglary is charged under the address of Unit 34 HAYMERLE Road, Peckham, London, SE15 6SA as opposed to Bianca Road. We also request that the prosecution clarify specifically what the particulars of the charge is against Mr. Cordell as in the advance information he was charged with loss of stock to the value of £8220. Mr. Patel in his statement dated 08th May **2013** refers to loss and also damage. The damage is estimated at £8,000 £10,000. In the case papers there is reference to a burglary and the items being stolen being a gazebo and also a chair. With regards to the gazebo Mr. Cordell will bring to court a copy of an invoice that he has confirming that he purchased this item and therefore this could not have come from any burglary. In addition, the invoices provided in the case papers do not have listed the chair seized from Mr. Cordell's home address. The chair listed on the invoices provided by Mr. Patel refer to Monaco multi position chairs whereas the chair removed from Mr. Cordell's' address is a Venice chair. The photograph provided is of a Venice chair and not a Monaco chair. We seek clarification as to the particulars of the burglary charge as if the charge is to be amended to damage caused. There have to date been three burglaries at the premises, one in February **2013**, one in March **2013** and one in May **2013**. We know from the insurance

documents that Nikki Diamond visited the site on 28th February **2013** and updated the broker on 02nd April **2013** damage being described as access holes being knocked through in the walls to gain access and an additional two access points were discovered. reference is made to damage to the rook also. There is also a comment made that there is no way to differentiate which damage was caused when. We know that there are crime scene photographs in relation to the February **2013** offence and these need to be compared to the crime scene photographs in relation to the May **2013** offence. We also request that the officer in the case clarify the position with regards to the invoices and the date when they were obtained from Mr. Patel. The invoices that we are specifically making reference to are the ones dated 1st March **2013** and 29th March **2013** which itemise identical damage. The optional extras recommended are identical also. Mr. Trevor Allaway from the Insurance company confirmed that he never received the invoices / estimates from Mr. Patel and he checked with Nikki Diamond whether she had seen the invoices and she stated that they had not been provided to the insurance company. Indeed, from the insurance file there is an email from Simone Sail man requesting repair quotations from Deven Patel (dated 24th April **2013**) but the invoices provided by Mr. Patel to the police are clearly dated 01st March **2013** And 29th March **2013** Our query is why were these not provided to the insurance company? We request the date that these invoices were provided to the police. The estimate itemising the damage dated 05th September **2013** appears to correspond to damage itemised in a telephone call to the insurance broker by Nicola Diamond on 02nd April **2013** at 15:04:00 with additions. The estimate for this damage is £39420.00. Mr. Patel in his statement dated 08th May **2013** estimates the damage as being between £8,000 £ 10,000. Yet the invoice dated 05th September **2013** substantially increases the estimate by some £30,000. The invoices dated in March only refer top rebricking one wall at a cost of £600 yet Nicola Diamond refers to at least three entry points. The statement of Mr. Rakesh Patel dated 10th March **2014** gives us cause for concern as he has produced two invoices that never appear to have been provided to his insurance company. He also makes reference to his manager reporting the burglary but not been given a crime reference. We request that a statement be taken from this Manager and in particular that the Manager confirms the damage that was caused and the value of the stock stolen and how this amount was reconciled to stock in the warehouse. We are also concerned as police attended on the night of the raves in May **2013** and the damage to the wall would have been apparent to the police. In addition, we find it bizarre that there were no additional police patrols in the area on the night of a rave. Our client is adamant that police officers attended on the night in question and were powerless to stop the rave / private party from taking place because there were people squatting inside the premises and notices on the walls clearly stating that the premises were being used as legal squats. The police officers who attended on the night of the rave / private party can confirm that there was damage already in existence and also that the premises were a legal squat. This would contradict the statement of Inspector Mc Millan dated 31st March **2014** who stated that there were no obvious notices / signs indicating squatters' rights? We therefore request that the officer in the case make enquiries in relation to the Bianca Road address as referred to in the section 80 notices. We request that this case be listed for mention on Wednesday 21st May **2014** in order that the above can be clarified and also that our client's bail conditions are clarified, in particular our client seeks the return of his passport. We await the confirmation of the listing in due course."

3 Driving: To Broadsure Direct / KGM Policy Simon Cordell – "For the last 3 days Simon and myself have been trying to sort these 2 claims out with KGM. Many phone calls have been made and all sorts of things said. Claim dated 14/09/**2014** information below Today I got a call back for the claim dated 14/09/**2013** where I asked the lady, I spoke to for the information for the insurance company that were making the claim, I was also shocked to hear that they had only today again sent an email to Accident exchange to get them to redirect the claim, the information is below. **Company:** Accident exchange. **Ref:** LR4030501. **Phone Number:** 08700116720. Simon called and spoke to a Mr. Chris Garvin at around 11.50am on the 22/05/**2014** Simon was told that they were no longer looking at his insurance and had not been for some time. That they had redirect there claim to Mr. Harris and all they were waiting for was for proof of the sale of the index incident vehicle, CX52 JRZ from KGM and had been waiting for this for some months to close that part of the claim down for Simon. Simon asked Mr. Chris Garvin if he could email himself this and also email this again to KGM I will attach the email from Mr. Chris Garvin with this email for you to see Again it does seem as if

KGM are not doing their job as from what I heard today this claim should have been taken of my insurance from months ago. Simon again called KGM about this and getting KGM to send Mr. Chris Garvin the proof of sale and was shocked to hear it would take KGM 5 days to send this over so that this claim can be closed down. I at this time think KGM has had long enough already to deal with this matter and due to how long this has taken has messed Simon insurance up enough already due to KGM not doing their job. This should have been cleared up months ago but KGM is just holding on to it. Claim dated the 09/12/**2013** information below Also today we have been trying again to sort the claim dated 09/12/**2013**, where Simon was driving my car to service it the Rover Reg Y311 FVV. We have been told that the last few weeks they would send us a form out to fill in to Simon email address re_wired@ymail.com which should be on file when he took the insurance policy out with KGM. But not getting the form again we called and asked why. They seemed to have had the wrong email so re took it and said they would send they out yesterday still not having got the email by today we asked them why we had not got this again they had the wrong email so again they had to take it. We do now have the form which is a joke in itself to fill in so I made a call to KGM to get some help as most of the information also KGM already have, but within the call I was not happy with what Mr. C Clancy said to me on the phone. They do seem to have the witness information now to the claim which was given on the phone to KGM on the 09/12/**2013** which they in the pass told me they did not have. Mr. C Clancy had to in the end go and get the file out as there was so much mess on their system, he needed to see what had been done in the file. They did call Miss Hue who is the witness and got her email address and they sent her an email on the 05/02/**2014**, but since this time, they have not heard from her. I said to Mr. C Clancy with the mess up with Simon email address and not taking down the correct email does it not seem something is wrong if Miss Hue was willing to give you her email, then why would she not have filled in the information to ask her for. Why has nothing been following up by calling Miss Hue and asking. He could not understand why this had not been done. He then went on to try and help me with the form they had sent over and when he heard I was insured on Y311 FVV he said could I give him a while for him to read the full file. He came back on the phone and said but why is this claim not going through my insurance I said why should it as I was not driving it on the 09/12/**2013** it was covered under Simon Trade insurance as he was taking it to be serviced. At this he said that Simon was not covered to drive my car to service it under his trade insurance, I told him what the reason was for having this trade insurance if Simon was not insured. I then went on to say about some months back when I myself talked to the claim hander Miss Alana Foster and she said this also. And that you had contracted the underwriters and sorted this out and Simon was in fact insured. He said he was going to have to contract the underwriters and conform this. At this I was really not happy and told him does your teams do their work correctly as to me there is no communication between KGM departments. I told him on the phone I was going to again contract you and again sort this mess out as if there still saying Simon was not insured then they sold him the wrong insurance policy. At this he said to me don't do that just wait till I get back to you today or tomorrow. There is a lot more that has been said but this is just a little outline. Sorry Martin there is such a mess with KGM they don't seem to know what they are doing and this is having a great effect on Simon life and more costs due to his insurance costs, and the fact now he has to go to court around 6 times for no insurance when he was in fact insurance and his insurance was paid for. Can you please try to deal with this mess and take a look at the email that I have attached for the claim of 14/09/**2014** I don't see why Simon no claims are being withheld due to KGM not doing their job and also having the new insurance closed due to this fact and you having to open a new one this is really looking bad on Simon and he has done nothing wrong here. Also, can I ask something about Simon

New insurance does it cover him for his window screen on his car? Can you please give us an update for all this and sorry for the long email?"

I will email Woolwich Crown Court to request clarification of the bail conditions imposed in April **2014**. The statement from the noise abatement officer has still not yet arrived, nor has the color photographs I asked for them to be sent in the DX yesterday so Tuesday will be the next day that I can check. 1 **Asbo Si Note:** A Friend's Place - "I got asked to attend a friend's place of residence, to say hello and to drop off money for food: - On the 25/05/**2014**, some friends called me and said they were living at Unit 5 Georges Industrial Estate White Hart Lane Tottenham, London, N17, I understood that this was their home as they were homeless and if it were not for this place for residents. I got asked to attend to say hello and so to drop off money for food and other living essentials to them. In the end, I drove in my van and when I arrived at the area's location; I pulled over and stop on the way to my friends. The place I stopped at was a local pizza shop and I ordered food for us all, I asked for the food to get delivered to the same address to where I would be. I arrived at my destination I noticed that there were no police present. The occupiers allowed me entry into their legal home, and I drove my van inside. We took a seat together after they showed me around. Once we sat down, we started the normal general chat about what each other's, lives had gotten up to, since we last saw each other. The pizzas soon, therefore after arrived as I ordered them to and we all indulged in eating the food and after some time, while me and my friends lengthened our conversations. I got startled; I could make out the sound of an alarm bell going off inside of the building, I noticed a lot of activity from within the premises and overheard a person shouting at another person. On listening even closer, to what they were shouting about, I can remember their discussion being that of: somebody else had got into a section of the premises and opened a fire door that did never got opened before, soon after, the door had got sealed and opened the alarm went straight back off to how it originally was before hand: silent! In the cool down period of what just posited to proceed; what I would claim to be about minute the police arrived and as a regular event they chose to talk to me once they realised my presence. The police done their cheeks and asked to look inside of my van on doing so; I granted them permission to do so after the police officers checks they were happy that I had no true sound equipment on me other than two old speaker boxes without speaker drivers in them, that I left in the van due to not being able to move them into my storage room due to space. The police said it would be OK for me to leave and go so this is what I did. A few months later the police added this day into the ASBO Proceedings. On the day I never got arrested for any criminal offences. When I arrived to the premises in my van, the building already got occupied under a section 144 LASPO notice and I merely attended, just to bring food to some friends and spend time with them all. I had empty speaker boxes in my van, but they did not contain the drivers that would have got required to make sound neither did I have any other equipment that would constituent towards a full sound system. I also did not have any, intentions of setting up a rave as is being stated by PC Steve Hoodless. What did in fact happen is that after the incident the attending police officers add this inelegance into the police National computer system and months letter a Steve Elsmore got told to create an ASBO, so he and other official people edited them police cad's and this can get seen in the official Anti-Social Behaviour paperwork and then them officers of the law adduced the information into the application for their own self gain in victimising me?"

In the end, I drove in my van and when I arrived at the area's location; I pulled over and stop on the way to my friends. The place I stopped at was a local pizza shop and I ordered food for us all, I asked for the food to get delivered to the same address to where I would be. I arrived at my destination I noticed that there were no police present. The occupiers allowed me entry into their legal home, and I drove my van inside. We took a seat together after they showed me around. Once we sat down, we started the normal general chat about what each other's, lives had gotten up to, since we last saw each other. The pizzas soon, therefore after arrived as I ordered them to and we all indulged in eating the food and after some time, while me and my friends lengthened our conversations. I got startled; I could make out the sound of an alarm bell going off inside of the building, I noticed a lot of activity from within the premises and overheard a person shouting at another person. On listening even closer, to what they were shouting about, I can remember their discussion being that of: somebody else had got into a section of the premises and opened a fire door that did never got opened before, soon after, the door had got sealed and opened the alarm went straight back off to how it originally was before hand: silent! In the cool down period of what just posited to proceed; what I would claim to be about minute the police arrived and as a regular event they chose to talk to me once they realised my presence. The police done their cheeks and asked to look inside of my van on doing so; I granted them permission to do so after the police officers checks they were happy that I had no true sound equipment on me other than two old speaker boxes without speaker drivers in them, that I left in the van due to not being able to move them into my storage room due to space. The police said it would be OK for me to leave and go so this is what I did. A few months later the police added this day into the ASBO Proceedings. On the day I never got arrested for any criminal offences. When I arrived to the premises in my van, the building already got occupied under a section 144 LASPO notice and I merely attended, just to bring food to some friends and spend time with them all. I had empty speaker boxes in my van, but they did not contain the drivers that would have got required to make sound neither did I have any other equipment that would constituent towards a full sound system. I also did not have any, intentions of setting up a rave as is being stated by PC Steve Hoodless. What did in fact happen is that after the incident the attending police officers add this inelegance into the police National computer system and months letter a Steve Elsmore got told to create an ASBO, so he and other official people edited them police cad's and this can get seen in the official Anti-Social Behaviour paperwork and then them officers of the law adduced the information into the application for their own self gain in victimising me?

On 25/05/**2014** at 23:21 hrs Police were called to UNIT 5 ST GEORGE'S INDUSTRIAL ESTATE WHITE HART LANE N17 by the security guard at the venue stating suspects; were on premises.
Police attended the venue and a large group of approx. 20 young males and females, between 18-35 years of age and of mixed origins ran out the rear of the industrial estate through an alleyway leading to THETFORD CLOSE N13. Several males were still inside the premises claiming to be squatters. The remote viewing CCTV at the venue was contacted and stated that the alarms had just been activated and it had footage of several suspects causing damage to the security cameras and door locks at the venue upon entering the premises.
After several minutes and upon hearing Police organising entry to the premises in order to search for the suspects concerned in Criminal Damage the remaining occupants ran out of the rear doors to the venue. The front shutter then opened and a WHITE FORD TRANSIT VEHICLE VRM CX52JPZ attempted to exit the premises. The driver an IC3 Male gave the particulars of Simon CORDELL DOB 26/01/1981 of 109 BURNCROFT AVENUE EN3. PNCID 97/99378V. CORDELL stated he had just attended the venue to give his friends some food as they were squatting. Hi Josey
I called the OIC today and told him where Simon Passport was, so he sent an email over to them to release the passport. Simon has collected it now, so he has it back. So, it's now just to confirm the signing on each Sunday and not to go into Southwark council left to confirm which as far as the judge said he is not meant to be doing this. Can you also give me an update as to if you had anything from the DX yet?
As the OIC also said there is a statement from Nikki Diamond that was handed over at court last week, on the phone today. But I sure Nikki Diamond was meant to be Simon witness along with Trevor Allaway.

Hi Simon / Lorraine
I am forwarding Counsel's back sheet from the mention hearing. The bail position is wrong as it would be as per the conditions imposed by the Judge on the last occasion when Simon appeared, and he lifted the curfew. I will seek clarification of this point. I will email Woolwich Crown Court to request clarification of the bail conditions imposed in **April 2014. 876,**
The statement from the noise abatement officer has still not yet arrived, nor has the colour photographs I asked for them to be sent in the DX yesterday so Tuesday will be the next day that I can check. Any queries between now and then please do not hesitate to contact me at my office by email or text.
Kind regards
Josephine

1. I am still waiting for the documents and photographs served on Counsel at the hearing.
2. There is no property in a witness so police can take statements from Nike Diamond and Trevor Allaway.
3. I am still waiting CPS to confirm if burglary charge damage based or items stolen value
4. Is Simon available to attend office week commencing 9th June **2014** as I am now on annual leave (but still contactable by email / text)
5. CPS reviewing lawyer wrote and asked if only witness DC Mayhew. Will be clarifying that this is not the case by fax as waiting noise abatement and police who attended Bianca Road. I will forward a copy of fax to you by email.

I called the OIC today and told him where Simon Passport was, so he sent an email over to them to release the passport. Simon has collected it now, so he has it back. So, it's now just to confirm the signing on each Sunday and not to go into Southwark council left to confirm which as far as the judge said he is not meant to be doing this. Can you also give me an update as to if you had anything from the DX yet?
As the OIC also said there is a statement from Nikki Diamond that was handed over at court last week, on the phone today. But I sure Nikki Diamond was meant to be Simon witness along with Trevor Allaway.

Disrepair!
I get frustrated when I optically discern my property getting damaged beyond disrepair because of the damp and mould in my rented home I perpetuate to repine in the hope that the correct decisions get made by the Enfield Homes and the Enfield Council's teams but without any transmutation in my living circumstances, I perpetuate to take photo pitches of the

damage cause to the property and make this report as authoritatively mandated to do so by the Councils staff!

Whilst waiting to gain access Joshua HOLLY-FIELD popped his head over the boarding j to the premises and climbed over on police request.
He was detained and searched with nothing found on his person. When asked why he was in the ground of the premises he stated, 'Squatters rights, I haven't done anything wrong, you can speak to my lawyer who is with your colleagues round the front'.
This lawyer turned out to be Simon CORDELL
Whilst officers checked for signs of a break-in it was established through HOLLY-FIELD I that they were looking for a place to set up a rave over the bank holiday period.

On 24/05/**2013** at about 2030 hours police responded to reports of a suspects on at the old Ponders End' Police Station CAD 8306 refers.
On arrival police contained the area. Simon CORDELL was seen exiting an alleyway to the side of the police station at the rear of the kinder garden centre. In the car park to the rear of the premises was a Silver Ford Focus VRM MA57LDY.
Whilst waiting to gain access Joshua HOLLY-FIELD popped his head over the boarding to the premises and climbed over on police request.
He was detained and searched with nothing found on his person. When asked why he was in the ground of the premises he stated, 'Squatters rights, I haven't done anything wrong, you can speak to my lawyer who is with your colleagues round the front'.
This lawyer turned out to be Simon CORDELL,
Whilst officers checked for signs of a break-in it was established through HOLLY-FIELD that they were looking for a place to set up a rave over the bank holiday period.
The Ford Focus was searched in the presence of CORDELL as it smelt strongly of cannabis with a negative result.
CORDELL stated that when he sets up raves, he attracts in excess of 5000 people over a 3-day period.
CORDELL is planning to set up a rave and actively looking for premises to complete this.

6 Driving: To Broadsure Direct – "Can you tell me if the claim for the 14/09/**2013** has been taken off by KGM they have had notice to do this and it was due to be done last week? If it has does Simon no claims come into force now? Also, can you tell me the payments for his new insurance as Simon has not had anything from them yet in the post or from yourselves? Also, what date the next payment is due to be paid. The total cost of the insurance and the monthly instalment costs please. And if KMG has closed down the claim for the 14/09/**2013** and Simon no claims come back into force what is the total payment for the new insurance. Also, as I said on the phone before |Simon has to go to court for no insurance for Nov **2013** when the police said Simon had tools in his van would it please be possible to get an email which shows fully what happened as to Simon insurance going to be closed down due to what the police said and that the only reason it was not was due to Simon having to go to the compound and speak to the manager who then called Kelly Tiller at KGM and told her there was no tools when the police took the Van into the compound therefore KGM said he was in fact insurance the day he was stopped by the police and that the van should not have been sized, also explained that you yourself talked to the police by phone on that day and told them he was insured. This would really help so it can be shown to the judge."

Disrepair!
Every morning I arouse and stay incentivized I'm endeavouring my best to keep the flat to a fair level of upkeep but the damped perpetuates to establish itself to integrate to the disrepair the main floor in the bedroom as you enter the door has a 2 by 2 foot aperture in it were the floor got so rotted from the damp, this is more than perils, it's a hazarded to my safety, I have called the complaints department at Enfield Council and Enfield home and another date has got set for it to optically canvassed by a survivor!

1 Asbo Si Note: Asbo Case Progress Way - "A month passed, and the date turned into the 06/06/**2014**. my mother had been looking after my Nan as she was not too well at all, so my mother took my Nan from her own home to hers. My Nan stayed at my mums and lay in her bed and this seemed like it was to be her last days with us all, so regarding the 6th June **2014**, I did not attend at an occupied Warehouse at Progress Way, Enfield, as the police claim I did; I do not accept that I was present at this warehouse on that date. I prior stayed with friends in between my house and my mother's. In the following day off the 07/06/**2014** well after my Nan arrived at my mother's house, for her to live for a little while. I remember that the day had got arranged to be my cousin's leaving party, as he planned a worldwide holiday to go on. The leavening party got planned to take place at a Club and the day started with me in doors as normal, because of the threat of more police reapers ails, of the brutality that I get faced with. I had not been in contact with many of my friends for months prior to this date, due to the police and court bail conditions that I got placed under. Later in the day I travelled to my cousins leaving party when I received a phone call from a friend who said there was to be a party on and it got cancelled by police from taking place in Essex outside in open air. In continuing to speak to my friend; he explained that the private party got moved to a prior squatted building in Progress Way next to where I live. He asked me if I would attend and I said yes to his invitation, so regarding the 07th June **2014** at a Warehouse on Progress Way in Enfield; I had been having a family drink in the pub/hall with my cousin Dwayne Edwards his leaving party continued on from the 07/06/**2014**, till the early hours on the 08/06/**2014**, I also while on the phone to my friend agreed to drop a set of keys of, as this friend would be at

the same location, I left the pub/hall to visit my friend who was living at Progress Way. Straight after I parked my van that I travelled in, along the Great Cambridge Road, in the petrol station. I crossed the Road and directly in front of me, was a fair amount of people, entering an alleyway. I accept that I also entered the alleyway with them leading me and found that this lead up to the gates of Progress Way as soon as I done this I got approached by members of the police and local council. A policeman asked me my name and my personal details, and I did not reply to him, the reason I did not answer his question is that I felt like I was getting entrapped by his line of questioning. He asked me to follow him back to where I had just come from, which was where my car got parked along the Great Cambridge Road, so I did what he asked of me to do, I felt straight away like the police officer, had made his mind up and therefore accused me of organising a so called rave to him, or to other people "a private party," to which I had not done, as soon as I finished being addressed by the governing officials, I then left them and waited in the petrol station across the road for my friend, this was so that I could give him his keys back. When speaking to my mate in the petrol station while waiting in my van I describe what had just developed. We continued chatting, and he asked me to hire out a power generator to the occupation, so I asked for my terms of hire to get signed and this happened. I then left and headed back home and waited for him to collect the equipment as agreed. The private party started on the 06th June **2013** and had got prior arranged months in advance, while I was being detained under police house arrest, I never got to the first location and I now understand other information that I did not think, for instance; A police dispersal notice got issued to other persons in Essex when an inspector landed in his police helicopter; he also had news reporters with him. In checking for the newspaper articles, you can see another; person identifications and those people are not me. I never attended until the early hours of the 08th June **2013**, so, I did not get involved in organising any event at a Warehouse on Progress Way and for truth at no point did I cause any anti-social behavior, as seems to get started by the police officers and not by any members of the public. Soon after I left and headed back home for this day to get added into the Anti-Social Behaviour Order, there is more about this case latter."

party continued on from the **07/06/2014,** till the early hours on the **08/06/2014,** I also while on the phone to my friend agreed to drop a set of keys of, as this friend would be at the same location, I left the pub/hall to visit my friend who was living at Progress Way. Straight after I parked my van that I travelled in, along the Great Cambridge Road, in the petrol station. I crossed the Road and directly in front of me, was a fair amount of people, entering an alleyway. I accept that I also entered the alleyway with them leading me and found that this lead up to the gates of Progress Way as soon as I done this I got approached by members of the police and local council. A policeman asked me my name and my personal details, and I did not reply to him, the reason I did not answer his question is that I felt like I was getting entrapped by his line of questioning. He asked me to follow him back to where I had just come from, which was where my car got parked along the Great Cambridge Road, so I did what he asked of me to do, I felt straight away like the police officer, had made his mind up and therefore accused me of organising a so called rave to him, or to other people "a private party," to which I had not done, as soon as I finished being addressed by the governing officials, I then left them and waited in the petrol station across the road for my friend, this was so that I could give him his keys back. When speaking to my mate in the petrol station while waiting in my van I describe what had just developed. We continued chatting, and he asked me to hire out a power generator to the occupation, so I asked for my terms of hire to get signed and this happened. I then left and headed back home and waited for him to collect the equipment as agreed. The private party started on the 06**th June 2013** and had got prior arranged months in advance, while I was being detained under police house arrest, I never got to the first location and I now understand other information that I did not think, for instance; A police dispersal notice got issued to other persons in Essex when an inspector landed in his police helicopter; he also had news reporters with him. In checking for the newspaper articles, you can see another; person identifications and those people are not me. I never attended until the early hours of the **08th June 2013,** so, I did not get involved in organising any event at a Warehouse on Progress Way and for truth at no point did I cause any anti-social behaviour, as seems to get started by the police officers and not by any members of the public. Soon after I left and headed back home for this day to get added into the Anti-Social Behaviour Order, there is more about this case latter.

Subject: RE: Simon Cordell
Hi Martin
Can you tell me if the claim for the **14/09/2013** has been taken off by KGM they have had notice to do this and it was due to be done last week? If it has does Simon no claims come into force now?
Also, can you tell me the payments for his new insurance as Simon has not had anything from them yet in the post or from yourselves?
Also, what date the next payment is due to be paid. The total cost of the insurance and the monthly instalment costs please. And if KMG has closed down the claim for the **14/09/2013** and Simon no claims come back into force what is the total payment for the new insurance.
Also, as I said on the phone before |Simon has to go to court for no insurance for **Nov 2013** when the police said Simon had tools in his van would it please be possible to get an email which shows fully what happened as to Simon insurance going to be closed down due to what the police said and that the only reason it was not was due to Simon having to go to the compound and speak to the manager who then called Kelly Tiller at KGM and told her there was no tools when the police took the Van into the compound therefore KGM said he was in fact insurance the day he was stopped by the police and that the van should not have been sized, also explained that you yourself talked to the police by phone on that day and told them he was insured. This would really help so it can be shown to the judge.
Regards
Lorraine

The CPS have still not confirmed whether the burglary is based on damage or loss. If loss, then Simon is covered in terms of the receipts. If damage then Mr. Patel, Nikki Diamond etc. will all have to attend court as will the warehouse manager. I do not have a car at the moment as I had an accident in May so my ability to do late visits is significantly impacted. Is Simon likely to be available

Hi Lorraine
I am now in possession of the crime scene photographs which appear to show a much tidier warehouse. The CPS have still not confirmed whether the burglary is based on damage or loss. If loss, then Simon is covered in terms of the receipts. If damage then Mr. Patel, Nikki Diamond etc will all have to attend court as will the warehouse manager. I do not have a car at the moment as I had an accident in May so my ability to do late visits is significantly impacted.
896,
Is Simon likely to be available Friday afternoon. I am at Milton Keynes in the morning and should be back in London for 2pm or alternatively what about Saturday. Please let me know which is the more convenient.

901,
Hi Martin
Can you tell me if the claim for the?
14/09/2013
has been taken off by KGM they have had notice to do this and it was due to be done last week. If it has does Simon no claims come into force now?
Also, can you tell me the payments for his new insurance as Simon has not had anything from them yet in the post or from yourselves?

Also, what date the next payment is due to be paid. The total cost of the insurance and the monthly instalment costs please. And if KMG has closed down the claim for the **14/09/2013** and Simon no claims come back into force what is the total payment for the new insurance. Also, as I said on the phone before |Simon has to go to court for no insurance for **Nov 2013** when the police said Simon had tools in his van would it please be possible to get an email which shows fully what happened as to Simon insurance going to be closed down due to what the police said and that the only reason it was not was due to Simon having to go to the compound and speak to the manager who then called Kelly Tiller at KGM and told her there was no tools when the police took the Van into the compound therefore KGM said he was in fact insurance the day he was stopped by the police and that the van should not have been sized, also explained that you yourself talked to the police by phone on that day and told them he was insured. This would really help so it can be shown to the judge.
Regards
Lorraine

Information
On 25/05/**2014** at 23:21 hrs. Police were called to UNIT 5 ST GEORGE'S INDUSTRIAL ESTATE WHITE HART LANE N17 by the security guard at the venue stating suspects; were on premises.
Police attended the venue and a large group of approx. 20 young males and females, between 18-35 years of age and of mixed origins ran out the rear of the industrial estate through an alleyway leading to THETFORD CLOSE N13. Several males were still inside the premises claiming to be squatters. The remote viewing CCTV at the venue was contacted and stated that the alarms had just been activated and it had footage of several suspects causing damage to the security cameras and door locks at the venue upon entering the premises.
After several minutes and upon hearing Police organising entry to the premises in order to search for the suspects concerned in Criminal Damage the remaining occupants ran out of the rear doors to the venue. The front shutter then opened and a WHITE FORD TRANSIT VEHICLE VRM CX52JPZ attempted to exit the premises. The driver an IC3 Male gave the particulars of Simon CORDELL DOB 26/01/1981 of 109 BURNCROFT AVENUE EN3. PNCID 97/99378V. CORDELL stated he had just attended the venue to give his friends some food as they were squatting. The rear of the TRANSIT VAN contained a set of large speakers and music equipment, but CORDELL insisted he used the equipment for festival work and was not setting up for a 'Rave'. CORDELL produced insurance documents but due to the day/hour officers were unable to verify details. CORDELL did not match the description of the IC1 Male suspects and was advised to leave the venue.
Security guards remained at the premises in order to secure them. Several young males and females continued to arrive at the venue dressed in 'suitable evening attire' for a: Rave and then promptly left upon seeing Police.

1 Asbo Si Note: 1 Falcon Park, Neasden Lane; NW10 - "On the 20th June **2014** it got alleged by members of the police that I got involved in the organisation of and/or supplied equipment for and/or attended an illegal rave at 1 Falcon Park, Neasden Lane, NW10. This is not accurate information as the truth is that I had got contacted by way of mobile phone by a client, and he asked me if I would hire a sound system out for a gentleman's, birthday party. After our conversation I agreed to do so, and a sound system and a van got hired out to that person and then later collected from outside of my home address. My terms and conditions got signed, and a deposit got given to me, by the client. Once the client left me, I continued with my day and then went back to my home. When at my home, I ended up receiving a phone call at 1:00 hours in the morning by the same client who said that the police were in attendance, and they were seizing the sound system. I remember getting up from what I had prior gotten occupied with and leaving my home address at around 1am hours, so to attend to the private party location, which took place indoors. Then soon after I arrived at the client's destination, at around the time of; 2:00 hours, I would claim that I took one hour and ten

minutes to attend to, as I drove outside of the address that I had to be at so to park my car I can remember there being lots of different members of the police who were already present. When I approached to the address front door on my two feet, to which address I got given by the client, the police were there blocking any persons entrance, so I spoke to the police officers and explained to them by circumstances, this meant that I showed them a copy of the higher invoice and a copy of my terms and conditions of hire, I got allowed entry by the police officers who were present to pack the sound system away and once I finished doing this, I asked to get released with the equipment, it then got explained that the equipment was to get confiscated. After a lengthy, debate, I had no option but to allow the police officers to seize the equipment, I got allowed to collect the sound system from the police at a later date, without being arrested or any charges being brought into motion. This meant; that I never returned the sound system to the same client ever again as he breached my terms and conditions and at no time did, I knowingly supply equipment for an illegal party. A few months' later this date got added to the Anti-Social Behaviour Order against me, even low I caused no problems."

Simon has never changed his address on his of Driving License or his passport they have always been in my address, if you would need one in his address then we would need to send off to DVLA and get it changed which he has never wanted to do as he feels safer that they always come to my addressee as he sometimes does not get his mail to his address. 1 **Asbo Si Note:** On 19th July 2014 it got alleged by police that? - "I got involved in the organisation of and/or supplied equipment for and/or attended an illegal rave at the 198 Great Cambridge Road, Enfield Town, EN1 1UJ. This road is between my home and my mother's house. It is the route that I drive down when I am going to stop at a twenty-four hours McDonald's in my local area. The GMT time zone was around 3:00 hours on a Sunday morning. When on this morning I was passing in my car, what got known as the old Carpetright, 198 Great Cambridge Road, what escalated to proceed next is that I saw a man who I know to be homeless, got detained by police officers, along the roadside, when I noticed them all together, I was taking a right turn out of Lincoln Road and in respect of this I continued to travel on the opposite side of the Great Cambridge Road, to where the police had been? I turned around at the closest traffic lights, which at the time I understood to be next to the Odeon Cinema. Once I turned my car around to head back towards my friend, I noticed a car park a few premises before 198 Great Cambridge Road, what is a general car park open to the public and belongings to a company named Magnet, I parked there as I could see that the police officer's blocked access to the car park belonging to 198 Great Cambridge Road. In stopping my car, I locked my vehicle and walked up to where the police were detaining the person that I knew. On doing this, a police officer approached me and told me I was under arrest, for a possible breach of the peace, to my surprise. I later got released from police custody and this got achieved with no further action being taken, to be honest, I do not believe I got booked into custody; In that time at the police station, I did not get to speak on the phone or in person with a solicitor and I did not have an interview take place. In the early hours of the morning at around 8:00 hours the police de-arrested me and realised I from the Edmonton police station with being the truth is that I never got involved in the organisation of any event on this day at 198 Great Cambridge Road, nor did I supply any equipment, neither did I cause any acts of Anti-Social Behaviour on this date. I got super shocked when months later this day got used in the Anti-Social Behaviour Order against me, so I took a look into the folder after copying the person's Facebook profile whose birthday party had supposed to of taken place. Then I contacted the Hirer of the sound system present at the incident who then supplied me with a headed letter from their company stating that I had not been working for them on this date, I soon after passed the letter to the police and prosecution teams. When taking a finer look into the case paperwork I noticed a few of the following problems; **1.** **2**. **3."**

URN	YERT00376024	**GPMS**	RESTRICTED
Information CAD 10635/19 July refers, At 2205hrs police were called to the Carpet Right show room on the A10 GREAT CAMBRIDGE ROAD ENFIELD regarding a possible rave in the empty premises. There j			

was about 20 people inside the premises with sound equipment which they were about to set up. When officers arrived, they blocked the front of the venue to stop anyone else j getting in. The main organiser was spoken to by police.
This male was Simon CORDELL 26/01/1983 of 109 BURNCROFT AVENUE ENFIELD EN3.
He admitted to organising the party and said he was expecting several hundred people. Whilst dealing with CORDELL police were told that crowds were gathering outside SOUTHBURY ROAD train station waiting to be told where the rave was. After a long conversation with CORDELL, he was arrested to prevent a breach of the peace a take to EDMONTON POLICE STATION C/N 01YE3597/14 refers.
As a result of his arrest the people inside the venue all left. The music system was I loaded into a white van VRM PE52UHW. The owner and driver of this vehicle was Elliot [LAIDLER of 32 GRANTHAN ROAD E12. He stated it was the first time he had worked for CORDELL. The van could not leave the car park as the key for the padlocked gates could not be found. However, after two hours the vehicle was able to leave by driving over the pavement.
Two other vehicles were also able to leave. VRM LD530KB which has a KIA registered I to The Floor Sanding Company 5 WARWICK ROAD EDMONTON N18 and VRM R659YEX a fiesta registered to Bradley DAVIS 79 MEADOW ROAD BARKING.
CORDELL was released at 0400hrs as a breach of the peace was no longer likely to take place. Clearly CORDELL makes a living by organising raves in NORTH LONDON.
Of note is when officers searched the car park after everyone had left, they found a set of keys by the electronic steel shutters. These keys opened the shutters to the premises and on the key fob attached to the keys was a PIN number for the alarm system. This is how youths gained entry to the premises. These looked official keys to the venue. It is a I mystery how they came into the possession of the youths. It is possible that CORDELL has obtained them via the security company or an ex-employee. They have been booking into the 66 at YE under the reference **~~"Blocked Out"~~**

Information
CAD 10635/19 July refers,
At 2205hrs police were called to the Carpet Right show room on the A10 GREAT CAMBRIDGE ROAD ENFIELD regarding a possible rave in the empty premises. There j was about 20 people inside the premises with sound equipment which they were about to set up. When officers arrived, they blocked the front of the venue to stop anyone else j getting in. The main organiser was spoken to by police.
This male was Simon CORDELL 26/01/1983 of 109 BURNCROFT AVENUE ENFIELD EN3.
He admitted to organising the party and said he was expecting several hundred people. Whilst dealing with CORDELL police were told that crowds were gathering outside SOUTHBURY ROAD train station waiting to be told where the rave was. After a long conversation with CORDELL, he was arrested to prevent a breach of the peace a take to EDMONTON POLICE STATION C/N 01YE3597/14 refers.
As a result of his arrest the people inside the venue all left. The music system was I loaded into a white van VRM PE52UHW. The owner and driver of this vehicle was Elliot [LAIDLER of 32 GRANTHAN ROAD E12. He stated it was the first time he had worked for CORDELL. The van could not leave the car park as the key for the padlocked gates could not be found. However, after two hours the vehicle was able to leave by driving over the pavement.
Two other vehicles were also able to leave. VRM LD530KB which has a KIA registered I to The Floor Sanding Company 5 WARWICK ROAD EDMONTON N18 and VRM R659YEX a fiesta registered to Bradley DAVIS 79 MEADOW ROAD BARKING.
CORDELL was released at 0400hrs as a breach of the peace was no longer likely to take place. Clearly CORDELL makes a living by organising raves in NORTH LONDON.
Of note is when officers searched the car park after everyone had left, they found a set of keys by the electronic steel shutters. These keys opened the shutters to the premises and on the key fob attached to the keys was a PIN number for the alarm system. This is how youths gained entry to the premises. These looked official keys to the venue. It is a I mystery how they came into the possession of the youths. It is possible that CORDELL has obtained

them via the security company or an ex-employee. They have been booking into the 66 at YE under the reference

CAD 10635/19 July refers,
At 2205hrs police were called to the Carpet Right show room on the A10 GREAT CAMBRIDGE ROAD ENFIELD regarding a possible rave in the empty premises. There j was about 20 people inside the premises with sound equipment which they were about to set up. When officers arrived, they blocked the front of the venue to stop anyone else j getting in. The main organiser was spoken to by police.
This male was Simon CORDELL 26/01/1983 of 109 BURNCROFT AVENUE ENFIELD EN3.
He admitted to organising the party and said he was expecting several hundred people. Whilst dealing with CORDELL police were told that crowds were gathering outside SOUTHBURY ROAD train station waiting to be told where the rave was. After a long conversation with CORDELL, he was arrested to prevent a breach of the peace a take to EDMONTON POLICE STATION C/N 01YE3597/14 refers.
As a result of his arrest the people inside the venue all left. The music system was I loaded into a white van VRM PE52UHW. The owner and driver of this vehicle was Elliot [LAIDLER of 32 GRANTHAN ROAD E12. He stated it was the first time he had worked for CORDELL. The van could not leave the car park as the key for the padlocked gates could not be found. However, after two hours the vehicle was able to leave by driving over the pavement.
Two other vehicles were also able to leave. VRM LD530KB which has a KIA registered I to The Floor Sanding Company 5 WARWICK ROAD EDMONTON N18 and VRM R659YEX a fiesta registered to Bradley DAVIS 79 MEADOW ROAD BARKING.
CORDELL was released at 0400hrs as a breach of the peace was no longer likely to take place. Clearly CORDELL makes a living by organising raves in NORTH LONDON.
Of note is when officers searched the car park after everyone had left, they found a set of keys by the electronic steel shutters. These keys opened the shutters to the premises and on the key fob attached to the keys was a PIN number for the alarm system. This is how youths gained entry to the premises. These looked official keys to the venue. It is a I mystery how they came into the possession of the youths. It is possible that CORDELL has obtained them via the security company or an ex-employee. They have been booking into the 66 at YE under the reference **~~"Blocked Out"~~**

3 **Asbo Si Note:** I was driving down Alma Road - "This day was a Thursday and at 16:30 hours and on the 24th of July 2014. I personally got alleged to have admitted to policing officers that I organized illegal raves and this is too far from a distance away from any prospect of a reality for there to be any truth in. What really took place is that on this evening at about 16:30 hours, I was driving down Alma Road. I use this road to travel between my mother's house and my flat as it is the shortest and fastest route on most days. My Nan used to live off Alma Road just before 2014, so this method of a chosen route means that I would drive or pass by her house, before she stayed at my mother's house. I was travelling from my mother's home on the 24th July 204: a little while after visiting my Nan and my mother due to my Nan's illness and to also say hello to them and others. The police pulled me over on my travels back to my home, I used Alma Road as a route and not managed to travel less than half of the way to my destination when I noticed an unmarked police car as it was showing to take a right turn, the opposite way from which I was travelling. It took a right turn out of Durant's Road when I realized it was an unmarked police car, I noticed this as I had seen the driver on active duty in the local area beforehand, as I drove past the unmarked police car it changed its sign to the way I was heading, it showed left. The car followed me and then put on its blue lights, so I pulled over to the left-hand side of the road, opposite the BMW repair center along Alma Road ajar to the football field or rugby field that is on the other side of the road to the plan of field next to the high semi high rise of Masonite flats. When I stopped, I pulled over my car that I had driven on the left-hand side of the pavement that leads to the back entrance of Durant's Park. I took note to the male officer who got out of the passenger side of their undercover car and approached my driver's door. In understanding what they had been like to me, so I decided that the best thing for me to do to aid in their request without my solicitor or no witness being present was to opened my car window to the man just the slightest little, bit and asked politely why I got pulled over. The police officer said he was not sure why, but explained his colleague instructed him to do so. It got easy to think to myself a thought like; all these coppers have gone mad, the police officer told me that he did not know why, he pulled me over, I had questions for him as I asked him more questions; He then hurried and back to his unmarked police car. He soon after re-approached me while I stayed safe locked in my car, but this time he came with the driver his college. I waited for them to approach and then as they arrived and bent down to the gap in my window, I asked again why I got pulled over, this time the driver of the police car pulled out his truncheon and said I had to get out of my car, and that if I declined my window would get smashed. Stunned is how I felt, amazingly stunned, I noticed that he really meant what he said and did not want to pay

for a window, so I got out of my vehicle as I had nothing to hide, I could not have been any, surer of anything other than that I did not commit any offence, in fact I committed no offence whatsoever, and I definitely was not showing up as wanted by the police. It got finally explained to me by the police that I got pulled over because I drove too close to the car in-front of me. This car referred to did not get stopped by the officers and had not gotten stopped by the driver of that vehicle. I then got accused of having drugs, and I continued to get searched, and my vehicle also went through the same procedure of a full custom search and nothing got found as I had nothing illegal on me. It then got asked by the police officers what I had recently got up to, so I said to them both; that I was setting up my company catalogue and that catalogue I was building with a friend, this included talk about my company website; I explained to the police officers that I almost finished completing it, I also said to them that I was trying to achieve positive effects within today's society with my business that I am building a brand for. Once the police checked everything, they needed to get parted after I shook hands with them both and said goodbye. Then I made my way home, and I surely did not cause any Anti-Social Behaviour on the 24th July 2014. Shortly after the police added this day also into the Anti-Social Behaviour Order and now, I have got the following problems with the case file paperwork and governing laws representing the case."

Information

On arrival at MILLMARSH Lane there were numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs Factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation.

Simon Cordell was at the gate and immediately shut it on police arrival. Eventually, Mr Cordell agreed to let me and APS Ames onto the property to confirm there was no damage or theft offences being committed.
Simon Cordell's car a silver ford focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably regulate it.
There was about 30 people in so in discussion Mr Cordell was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr Cordell began to pack away his equipment stating it was a birthday party only, but he was going.
Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating, they were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with police started.
The group then completely moved off but returned about twenty minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards police, luckily dogs were on hand and the crowd was dispersed after numerous missiles were thrown at police and a number of arrests were made. The group then hung around and got on trains only to try and enter Progress Way and the

The net result was at least 4 arrests for various public order
and one officer injured who previous rave site. It was only large numbers of TSG that prevented the group forcing their way in. Again, Simon Cordell and his silver Focus were present.

may require a stitch or two to his arm.
Simon Cordell's attitude is that he is a modern-day businessman and the actions of the group had nothing to do with him. It was fortunate more officers were not injured.

Information On arrival at MILLMARSH Lane there were numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs			

Factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation.
Simon Cordell was at the gate and immediately shut it on police arrival. Eventually, Mr Cordell agreed to let me and APS Ames onto the property to confirm there was no damage or theft offences being committed.
Simon Cordell's car a silver ford focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably regulate it.
There was about 30 people in so in discussion Mr Cordell was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr Cordell began to pack away his equipment stating it was a birthday party only but he was going.
Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating, they were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with police started.
The group then completely moved off but returned about twenty minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards police, luckily dogs were on hand and the crowd was; dispersed after numerous missiles were thrown at police and a number of arrests were made. The group then hung around and got on trains only to try and enter Progress Way and the

The net result was at least 4 arrests for various public order and one officer injured who previous rave site. It was only large numbers of TSG that prevented the group forcing their way in. Again, Simon Cordell and his silver Focus were present.

Simon Cordell's attitude is that he is a modern-day businessman and the actions of the group had nothing to do with him. It was fortunate more officers were not injured.

7 **Asbo Si Note:** A friend asked me to attend at Mill marsh Lane - "The night got dark and stormy, making it so that I could not fall to sleep, I could hear a metal gate getting blown open and closed as it made a creaking sound from not being greased and oiled the sun coming through the curtains meant that it had turned into the following date of the 27th July 2014 and I planned to stay indoors, right up and till when I received a phone call, this phone call was of a friend asking me to attend at Mill marsh Lane as there was private land with a warehouse being occupied by friends at the rear, so I agreed to meet them all. I had never been there in the first place beforehand, so I brought my coat. Along in my route to my destination I stopped and pick up some MacDonald's for me to eat and when doing this I ordered a few extras; cheeseburgers for everyone else to eat who I met. When soon after, I finally arrived and therefore had attended at Mill marsh Lane I started too relaxed with my friends for that time given to us. In all honesty, I never knew of any event taking place on this day at first, right up and till my friend received a phone call asking him if another one of his friend's birthday parties can take place at where he lived. I understood that an agreement took place between them both, at no part of my own. For a long time, I continued not to understand too much until a convoy of a group of different people arrived and I spoke to some of them who were then present. In talking to the others, they explained that the police kicked them out of

another occupied place of residents, while having a private birthday party for a member of the occupation. Then I watched a sound system being set up and other people moving their belongings into the occupied building; the reason being is that I like sound systems. Members of the local police force soon after arrived and were talking to people at the gate, so I took a nosey wander over to see everything going on. It meant to me, that in me doings so, I noticed that the police officers accepted that the occupants had placed LASPO notices on the premises and were treating as their home, even low this got accepted the police officers still got given entry to the premises as an equal to other occupiers. In this being granted they took the opportunity and forcibly kicked every person out of their home. The sound system then got ordered to get removed or would get seized by the attending police officers. I got invited as a visitor but still understand that the sound system had too then get moved at the request of police, so I aided in their help, the true owners of the PA equipment were the occupier's friends and I did not have any hand in this and as a continuation off the events I headed home. On this day I owned none of the sound equipment, and I did not rent or lend any sound equipment to anyone in respect of this occasion or take part in the organisation of anything other than going to see friends. I did not cause any acts of Anti-Social Behaviour on the 27th July 2014 as the police latter stated that I did."

CORDELL was obstructive as usual, refusing to get out of his vehicle etc. He stated that his solicitor has a big case going where all his criminal records will be wiped as police, I have unlawfully picked on him for years etc
Of interest, he stated that he has 4 brand new speaker systems at home which he is I happy to loan people for raves etc, and that he is inundated with requests to run raves. On note is that he claims Occupy London, **Black Block,** and other anarchist groups have been asking him to organise one for Notting Hill Carnival so that they can cause carnage and mayhem".

On SATURDAY the 7th of JUNE **2014** I was on duty in full uniform, working as YE3N section Supervisor.
At 0203Hrs approximately I attended a disused warehouse at Progress Way EN1, where an illegal rave was being held. I attended with Inspector Hamill YE1N and representatives from the Environmental Health Office at Enfield Council, approaching the gates and asking to 'speak with the organiser'.
There I spoke with a man who I recognised as Simon Cordell, from previous illegal rave events on Enfield Borough. I would describe him as a light skinned black male, AA35 and at the time he was wearing a white long-sleeved T shirt and Grey bottoms, he is approximately f509 tall and of medium build. He refused to provide his details to the council representatives in order that a noise abatement order could be served, however he was provided with a copy. Approximately 10 minutes later we left the scene having risk assessed the incident.;
I returned to the venue approximately two hours later, I again asked to speak with the organiser however none came forward. I asked the two men on the door, who appeared to be party goers to let me in to have a look around. I walked around and there was extremely loud drum and bass music playing, with approximately 100 people dancing. Party goers observed me in Police uniform and ran away into the large open area, presumably because of drug misuse matters - there was significant evidence to suggest illegal drugs were being used such as discarded self-seal bags, and empty canisters consistent with 'laughing gas' use.
At approximately 0630Hrs we received a call to nearby WOODGRANGE Gardens, to reports of a male assaulted. Following an initial investigation this individual matched the description of a male earlier observed on the warehouse roof. It appeared that he had fallen off of the roof and into some bushes and his injuries were consistent with a fall from height. He was heavily under the influence of alcohol and quite probably illegal drugs. He went to North Middlesex Hospital with the London Ambulance Service.

On Friday 6th June **2014** I on duty in full uniform working as the Duty Officer for the Borough of Enfield. My working hours for this evening were 2200hrs to 0700hrs. During the early hours of the 7th June, I was made aware of a potential Rave that was in progress in a discussed Industrial Building on Progress Way. I have had a CAD created reference 1047/7June and dispatched officers to the location to access numbers, crowd dynamics and gather information around times the vent is likely to run until and also to make contact or identify the potential organiser. Officers have reported back that Tyrone Benjamin and Simon Cordell where at location and the believed the event organisers. There were approximately 200 people in attendance, the event was covered by security officers who had stated that they were volunteers and not licences through S1A. Officers have spoken with staff to confirm that all fire escapes where clear, that there were sufficient fire extinguishers in place and that there were first aid kits available. The event was also being powered by generators. Staff were forthcoming with information but refused to allow offices inside the venue. Due to call demand during the shift and low policing numbers it was inappropriate to enter the premises to seize the equipment and close the event, but deployed officers to conduct regular visits to the venue, where number at their peak where 500 but reported to be quiet and peaceful. Local authority noise team were contacted reference T548832. The event was expected to run until 07001irs on Saturday 7th June with plans for the event to continue again later in the evening on the 7th June. During the course of the shift, we received a total of calls from local residence complaining about the noise of the rave. On Saturday 7th June **2014** I was again on duty in full uniform working as the Borough's Duty Officer for the hours of 2200hrs to 0700hrs. As with the previous evening I was made aware again of a Rave at an empty Warehouse of Progress Way. As with the previous evening, I have posted officers to make regular visits to the venue to access numbers, crowd dynamics and general intelligence around the event. During the course of the number numbers at the event around 300. At 0200hrs 1 have attended the venue with A/PS Miles and two environmental officers. Were located to the venue that was located off progress way, down the side off "Tops Tiles" the warehouse was at the bottom of this side road behind a metal gate. The gate padlock had been removed and a

security officer was opening the gate to allow access. As myself and A/PS Miles and the EO have approached the gate they have closed the gate preventing us access. I have introduced myself and asked to speak with the event organisers, to which a member of staff has disappeared into the venue and returned with a male who I would describe as light skinned black male, Approximate age of 35, wearing a white long-sleeved t-shirt, grey bottoms. I recognised this male as Simon Cordell. I have introduced myself and asked if we could speak at the bottom of the road where the noise levels would allow us to talk. We have all moved to the bottom of Progress Way where I have introduced myself and explained the purpose of the visit and asked "It's Simon isn't it?" to which he has replied "Yes" I have then further asked "Simon Cordell" to which he has indicted that it was but not verbally confirmed the answer. I have introduced the two EO's the Simon who have explained the purpose of their visit and the fact that they were going to severe a noise abatement order, they have produced the paperwork and asked tire male for his name to which he has refused to provide his details. It was explained that without the name of a person from the venue the EO's are unable to serve the paperwork. As we have been unable to progress this line of action, I have made the request to Simon Cordell to turn the music down. During the course of the 8th June, we had approximately 40 calls complaining about the noise. During the course of the shift police had contact with several groups that had been attendance at the Rave, all of which were extremely intoxicated and by their behaviour had clearly been using drugs, which they confirmed they had used, but on police contact did not have any drugs on them. As officers where not permitted access into the venue it is unknown the extent of drug and alcohol abuse which may or may not have taken place within., however, a call from a member of public CAD 2410 of 8th June received at 0535hrs stated that drugs were openly being sold. In relation to any additional calls and increase in demand as the result of this illegal event taking place, at 0310hrs on the 8th June PS 92YE noticed a male from the roof of an adjourning building to the venue. The venue backs onto that of the Police parade site which meant as officers enter and left the premises, they had a full and unobstructed view of the rear of the Rave premises, officers have attended the venue, however, the male had already come down from the roof. Staff where given advise as to ensuring that people do not get onto thereof again. At 0504hrs CAD 2290 8th June police were called to a male assaulted in the street. Officers and LAS have attended the location of WOODGRANGE Avenue where the male had injuries of suspected broken wrists and a bloody mouth, he initially stated that he had been attacked from behind but on investigation it transpired that this male had been one of the people seen on the roof earlier and had fallen whilst getting down

Thank you so much for your email about organising an international music festival in aid of Mind next year. It sounds like a wonderful idea. We're absolutely thrilled to have your support and would love to help in any way we can with your fundraising. If you could let me know your postal address, I'll pop a fundraising pack in the post to you which should arrive in 10-14 days. There'll be lots of information in the pack by way of a starting point, but we can provide materials for on the day, and advice and support regarding fundraising and help from our media team with publicizing the event if appropriate. It would be great to hear more about the festival and how it will run when you have a minute. Thank you once again for your support and I look forward to hearing from you.

1 Asbo Si Note: Mill Marsh Lane - "It is further alleged to have got involved in the organization of and/or supplied equipment for and or attended an illegal rave on the 9th to 10th August 2014 at Mill marsh Lane, I dispute this, I did not get involved in organisation of any rave, and I did not supply equipment. The police have alleged that this event got run by Every Decibel Matters, I can confirm that I am not an employee of this organization, or a shareholder, or a director and have no controlling interest in this company, I exhibit a letter sent from Every Decibel Matters Ltd "to whom it may concern" verifying this, I exhibit this as exhibit SC/19. On this day I planned to go to a birthday dinner, but I was not present at an illegal rave. Police came and requested that people leave and so I left, a conversation did occur with the police concerning three empty C02 gas canisters that I carried in my vehicle, VR****. I displayed knowledge of nitrous oxide, but this was just in a general conversation with the police as it is information I had to learn when carrying C02 cylinders for welding and I also remember talking to a police officer about an occupier I met called Jena having passed her first aid test, this was general conversation. It is correct that it disputes encouraging any crowd behind a gate to come in and I did not incite others to breach the peace, and I did not put anyone in danger. I deny behaving in an anti-social manner on this date, and I caused no Anti-Social Behaviour."

On arrival at MILLMARSH Lane there were numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs Factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation.
Simon Cordell was at the gate and immediately shut it on police arrival. Eventually, Mr Cordell agreed to let me and APS Ames onto the property to confirm there was no damage or theft offences being committed.
Simon Cordell's car a silver ford focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably regulate it.
There was about 30 people in so in discussion Mr Cordell was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr Cordell began to pack away his equipment stating it was a birthday party only, but he was going.
Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating, they were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with police started.
The group then completely moved off but returned about twenty minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards police, luckily dogs were on hand and the crowd was dispersed after numerous missiles were thrown at police and a number of arrests were made. The group then hung around and got on trains only to try and enter Progress Way and the

Statement of…. Steve ELSMORE.....

This statement (consisting of: ... 12 .... pages each signed by me) is true to the best of my knowledge and belief and I make it knowing that, if it is tendered in evidence, I shall be liable to prosecution if I have wilfully stated anything in it which I know to be false, or do not believe to be true.

I am a police officer attached to the Anti-Social Behaviour Team as part of the Community Safety Unit based at Enfield Civic Centre.

This is a statement of hearsay evidence compiled from police records to be relied upon in regards to an application as allowed by Section l(c) of the Crime and Disorder Act 1998 as

amended by the Anti-Social Behaviour Act 2003 against Simon CORDELL born 21st January 1981, of 109 Burncroft Avenue, Enfield. EN3.
I have looked at the following police databases, Police National Computer (PNC), Crime Reporting and Information System (CRIS) and Criminal Intelligence (CRIMINT). The PNC holds information concerning arrests, case progression and previous convictions; it also holds information about vehicle ownership. CRIS is the database police use to record crime and document the investigation. The CRIMINT database holds intelligence provided by Members of the Metropolitan Police Service or information they have been told by members of the public.
This statement aims to show supporting evidence of the course of behaviour by Simon CORDELL I will be providing the hearsay evidence obtained from these police indices as this information has either been witnessed first-hand by the officers themselves or passed on by independent witnesses. There is an operational need to protect the identity of some witnesses who, for example are too frightened due to fear of reprisal by the Defendant to give evidence. Those witnesses who names are known and were content for their identity to be disclosed are given in the statement. In the case of the information obtained from these police indices coming from named Members of the Police Service it is felt that it is neither practicable nor proportionate to require each witness to be called individually to give evidence in court.

Illegal Raves
Illegal raves are a strain on society; they break down communities and cause residents and members of the public harassment, alarm, and distress due to noise nuisance and the number of individuals that come into the area. These raves are usually poorly run and cause damage not only to the buildings being used but to the environment. The properties being used for such events are commonly disused buildings; the organisers have no idea as to whether these buildings are safe. Recently there have been a number of deaths at raves; the most recent was a young 15-year-old male who died at a **Rave in Croydon** which was believed to be attended by around 2000 revellers. Raves are notorious for drugs being present. These illegal events have a huge impact on Police. Officers are called to the venues and also there are a huge number of calls from members of the public and residents

complaining. This type of illegal event cannot be tolerated, and action must be taken to disrupt these events and if a court order is not granted then Simon CORDELL is free to continue to organise such events. Simon CORDELL has openly admitted to officers that he runs such events and has even bragged about it to Police.

Reports involving Simon CORDELL:

1. On 10th August **2014**, Officers arrived at MILLMARSH Lane, there was numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation. Simon CORDELL was at the gate and immediately shut it on Police arrival. Eventually, Mr CORDELL agreed to let me and A/PS AMES onto the property to confirm there was no damage or theft offences being committed. Simon CORDELL'S silver Ford Focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably

regulate it. There was about 30 people in so in discussion Mr CORDELL was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr CORDELL began to pack away his equipment stating it was a birthday party only, but he was going. Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating there were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with Police started. The group the completely moved off but returned about 20 minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards Police. Luckily dogs were on hand and the crowd was dispersed after numerous missiles were thrown at Police and a number of arrests were made. The group then hung around and got on trains only to try and enter Progress Way and the previous rave site. It was only large numbers of TSG that prevented the group forcing their way in. Again, Simon CORDELL and his silver Focus were present. Eventually, the group began to move off. The net result was at least 4 arrested for various public order and one officer injured why may require a stitch or two to his arm. Simon CORDELL's attitude is that he is a modern-day businessman and the actions of the group had nothing to do with him. It was fortunate more officers were not injured.

2. On 27th July **2014**, Police drove down MILLMARSH LANE, ENFIELD, because information had

been received that a rave would be taking place that evening. Police drove down and found the rave, which was on a piece of land between Greggs and Pugh Charles Glass. This appeared to be a driveway that was overgrown, but had a gate on it, which people at the rave had the key for. Police spoke to the people inside and they did not know if they had any first aiders there and they said that they had one fire extinguisher on the site. The people there let police in and there was no alcohol there, but they had water to drink. The rave was outside on open land. There was a big stack of speakers which was being powered by a van belonging to Simon CORDELL. Police saw the van drive out with Simon CORDELL driving it. The rave was a 20th birthday party for one of the people there. The rave was organised by Simon CORDELL and was connected to another rave on ALMA ROAD.

3. On Thursday 24th July **2014** at around 1625 hours, plain clothes officers from YE Gangs Unit had cause to stop the following male on ALMA ROAD EN3. Simon CORDELL. He was driving a silver Ford Focus VRM MA57LDY on which he is insured but is not the registered keeper. He was stopped as he was driving about

1" from the bumper of the car in front of him and his driving was erratic. He claimed to know the other
driver: this male however approached officers saying he had been driving like that behind him since YR. CORDELL was obstructive as usual, refusing to get out of his vehicle etc. He stated that his solicitor has a big case going where all his criminal records will be wiped as Police have unlawfully picked on him for years etc.
Of interest he stated that he has 4 brand new speaker systems at home which he is happy to loan people for
raves etc and that he is inundated with requests to run raves. He stated that he has 20,000 followers on one social media network and 70,000 in another. He says that he could organize a rave and get 20,000 people at it without any problems whatsoever, and that he

gets lots of requests from anarchist type groups etc to run raves for them. Of note he claims Occupy London, Black Block and other anarchist groups have been asking him to organize one for Notting Hill Carnival so that they can "Cause carnage and mayhem".

4. On 19th July **2014** at 2205 hours Police were called to the Carpet Right show room on the A10 Great Cambridge Road Enfield regarding a possible rave in the empty premises. There was about 20 people inside the premises with sound equipment which they were about to set up. When officers arrived, they blocked the front of the venue to stop anyone else getting in. The main organiser was spoken to by Police. This male was Simon CORDELL. He admitted to organising the party and said he was expecting several hundred people. Whilst dealing with CORDELL Police were told that crowds were gathering outside Southbury Road train station waiting to be told where the rave was. After a long conversation with CORDELL, he was arrested to prevent a breach of the peace and taken to Edmonton Police Station C/N 01YE3597/14 refers. As a result of his arrest the people inside the venue all left. The music system was loaded into a white van VRM PE52UHW. The owner and driver of this vehicle was Elliot LAIDLER. He stated it was the first time he had worked for CORDELL. The van could not leave the car park as the key for the padlocked gate could not be found. However, after two hours the vehicle was able to leave by driving over the pavement. CORDELL was released at 0400 as a breach of the peace was no longer likely to take place. Clearly CORDELL makes a living by organising raves in North London. Of note is when officers searched the car park after everyone had left, they found a set of keys by the electronic steel shutters. These keys opened the shutters to the premises and on the key fob attached to the keys was a PIN number for the alarm system. This is how youths gained entry to the premises. It is possible that CORDELL has obtained them via the security company or an ex-employee.

4. On 25th May **2014** at 23:21 hours, Police were called to Unit 5 St Georges Industrial Estate, White Hart Lane N17 by the security guard at the venue stating, 'suspects were on premises'. Police attended the venue and a large group of approx. 20 young males and females, between 18-35 years of age and of mixed origins ran out of the rear of the industrial estate through an alleyway leading to Thetford Close N13. Several males were still inside the premises claiming to be squatters. The remote viewing CCTV at the venue was contacted and the alarms had just been activated and it had footage of several suspects causing damage to the security cameras and door locks at the venue upon opening the premises. After several minutes and upon hearing Police organising entry to the premises in order to search for suspects concerned in Criminal Damage the remaining occupants ran out of the rear doors to the venue. The front shutter then opened and a White Ford Transit vehicle VRM CX52JPZ attempted to exit the premises. The driver an IC3 male gave the particulars of Simon CORDELL. He stated that he had just attended the venue to give his friends some food as they were squatting. The rear of the Transit van contained a set of large speakers and music equipment, but CORDELL insisted he used the equipment for festival work and was not setting up for a Rave. Vehicle had been driven onto park roads within Hyde Park and was asked to leave prior to large numbers attending the event. He did so but will be one to watch out for next year should this vehicle return to the park for next year's event.

Simon CORDELL was seen exiting an alleyway to the side of the Police station at the rear of the Kinder Garden Centre. In the car park to the rear of the premises was a Silver Ford Focus MA57LDY. Whilst waiting to gain access Joshua HOLLY-FIELD popped his head over the boarding to the premises and climbed over on Police request. He was detained and searched with nothing found on his person. When asked why he was in the ground of the premises he stated "'Squatters rights', I have not done anything wrong, you can speak to my lawyer who is with your colleagues round the front". This lawyer turned out to be Simon CORDELL. Whilst officers checked for signs of break-ins it was established through HOLLY-FIELD that they were looking for a place to set up rave over the bank holiday period. The Focus was searched in the presence of CORDELL as it smelt strongly of cannabis with a negative result. CORDELL stated that when he sets up rave is he attracts in excess of 500 people over a 3-day period. CORDELL is planning to set up a rave and actively looking for the premises.

opened the car door to speak to the driver and he said, "What the fuck do you want, you can't stop me". We identified ourselves as Police Officers by displaying my warrant card and he continued to say you have no power to stop me what are your powers. It was explained why we were there and why we had stopped him. He remained aggressive saying that we did not know how to do our job and that we had no powers to search him. The other males in the van were telling the male to calm down and let us get on with it. He was still aggressive saying that he was all legit saying that we had no reason to be there. He then turned off the engine and jumped out the van and walked toward the pavement. We explained he was detained for the search and he continued to shout, "Don't you fucking touch me, I can walk around". He continued to question our grounds and I again explained them to him. An elderly member of the public was walking past, and he shouted at him "Oi mate the fucking Police want to search your coz they think you may be a burglar". The male turned around looked in disgust and walked off again. CORDELL continued to walk around by our vehicle, and it was again explained he was detained for search as he was walking away from him Police took hold of his right arm. As this happened, he shouted "Don't fucking touch me". He was continually aggressive. He was shouting "Get the fuck off me" and members of the public were at their windows trying to see what was going on. PC ASTON was trying to take out his left arm while PC SCOTT was trying to take out his right. He was shouting "Get the fuck off me" continually and another unit arrived. Handcuffs were applied in the rear stack position as he was still being aggressive and uncooperative. As he calmed down it was again explained why he was being searched and he said, "you can't fucking touch me". He was searched under section 1 of pace and nothing was found. The van was searched and again nothing was found. The other males were searched under the same powers and nothing was found. PC ASTON did check on the van and the PNC stated that it had no insurance. CORDELL stated he had traders which could not be proved so the van was seized. He said, "you are not fucking taking my van". At 1446 he was arrested for no insurance and section 5 of the public order act as he could not provide a valid name or address. CORDELL was later charged with no insurance and Section 5 public order.

I am a police officer attached to the Anti-Social Behaviour Team as part of the Community Safety Unit based at Enfield Civic Centre.

This is a statement of hearsay evidence compiled from police records to be relied upon in regards to an application as allowed by Section l(c) of the Crime and Disorder Act 1998 as amended by the Anti-Social Behaviour Act 2003 against Simon CORDELL born 21st January 1981, of 109 Burncroft Avenue, Enfield. EN3.

I have looked at the following police databases, Police National Computer (PNC), Crime Reporting and Information System (CRIS) and Criminal Intelligence (CRIMINT). The PNC holds information concerning arrests, case progression and previous convictions; it also holds information about vehicle ownership. CRIS is the database police use to record crime and document the investigation. The CRIMINT database holds intelligence provided by Members of the Metropolitan Police Service or information they have been told by members of the public.

This statement aims to show supporting evidence of the course of behaviour by Simon CORDELL I will be providing the hearsay evidence obtained from these police indices as this information has either been witnessed first-hand by the officers themselves or passed on by independent witnesses. There is an operational need to protect the identity of some witnesses who, for example are too frightened due to fear of reprisal by the Defendant to give evidence. Those witnesses who names are known and were content for their identity to be disclosed are given in the statement. In the case of the information obtained from these police indices coming from named Members of the Police Service it is felt that it is neither practicable nor proportionate to require each witness to be called individually to give evidence in court.

Illegal Raves

Illegal raves are a strain on society; they break down communities and cause residents and members of the public harassment, alarm and distress due to noise nuisance and the number of individuals that come into the area. These raves are usually poorly run and cause damage not only to the buildings being used but to the environment. The properties being used for such events are commonly disused buildings; the organisers have no idea as to whether these buildings are safe. Recently there have been a number of deaths at raves; the most recent was a young 15-year-old male who died at a **Rave in Croydon** which was believed to be attended by around 2000 revellers. Raves are notorious for drugs being present. These illegal events have a huge impact on Police. Officers are called to the venues and also there are a huge number of calls from members of the public and residents complaining. This type of illegal event cannot be tolerated, and action must be taken to disrupt these events and if a court order is not granted then Simon CORDELL is free to continue to organise such events. Simon CORDELL has openly admitted to officers that he runs such events and has even bragged about it to Police.

Reports involving Simon CORDELL:

1. On 10th August **2014**, Officers arrived at MILLMARSH Lane, there was numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation. Simon CORDELL was at the gate and immediately shut it on Police arrival. Eventually, Mr CORDELL agreed to let me and A/PS AMES onto the property to confirm there was no damage or theft offences being committed. Simon CORDELL'S silver Ford Focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably

regulate it. There was about 30 people in so in discussion Mr CORDELL was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr CORDELL began to pack away his equipment stating it was a birthday party only, but he was going. Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating there were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with Police started. The group the completely moved off but returned about 20 minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards Police. Luckily dogs were on hand and the crowd was dispersed after numerous missiles were thrown at Police and a number of arrests were made. The group then hung around and got on trains only to try and enter Progress Way and the previous rave site. It was only large numbers of TSG that prevented the group forcing their way in. Again, Simon CORDELL and his silver Focus were present. Eventually, the group began to move off. The net result was at least 4 arrested for various public order and one officer injured why may require a stitch or two to his arm. Simon CORDELL's attitude is that he is a modern-day businessman and the actions of the group had nothing to do with him. It was fortunate more officers were not injured.

2. On 27th July **2014**, Police drove down MILLMARSH LANE, ENFIELD, because information had

been received that a rave would be taking place that evening. Police drove down and found the rave, which was on a piece of land between Greggs and Pugh Charles Glass. This appeared to be a driveway that was overgrown, but had a gate on it, which people at the rave had the key for. Police spoke to the people inside and they did not know if they had any first aiders there and they said that they had one fire extinguisher on the site. The people there let police in and there was no alcohol there, but they had water to drink. The rave was outside on open land. There was a big stack of speakers which was being powered by a van belonging to Simon CORDELL. Police saw the van drive out with Simon CORDELL driving it. The rave was a 20th birthday party for one of the people there. The rave was organised by Simon CORDELL and was connected to another rave on ALMA ROAD.

3. On Thursday 24th July **2014** at around 1625 hours, plain clothes officers from YE Gangs Unit had cause to stop the following male on ALMA ROAD EN3. Simon CORDELL. He was driving a silver Ford Focus VRM MA57LDY on which he is insured but is not the registered keeper. He was stopped as he was driving about

1" from the bumper of the car in front of him and his driving was erratic. He claimed to know the other
driver: this male however approached officers saying he had been driving like that behind him since YR. CORDELL was obstructive as usual, refusing to get out of his vehicle etc. He stated that his solicitor has a big case going where all his criminal records will be wiped as Police have unlawfully picked on him for years etc.
Of interest he stated that he has 4 brand new speaker systems at home which he is happy to loan people for
raves etc and that he is inundated with requests to run raves. He stated that he has 20,000 followers on one social media network and 70,000 in another. He says that he could organize a rave and get 20,000 people at it without any problems whatsoever, and that he gets lots of requests from anarchist type groups etc to run raves for them. Of note he claims Occupy London, Black Block and other anarchist groups have been asking him to organize one for Notting Hill Carnival so that they can "Cause carnage and mayhem".

4. On 19th July **2014** at 2205 hours Police were called to the Carpet Right show room on the A10 Great Cambridge Road Enfield regarding a possible rave in the empty premises. There was about 20 people inside the premises with sound equipment which they were about to set up. When officers arrived, they blocked the front of the venue to stop anyone else getting in. The main organiser was spoken to by Police. This male was Simon CORDELL. He admitted to organising the party and said he was expecting several hundred people. Whilst dealing with CORDELL Police were told that crowds were gathering outside Southbury Road train station waiting to be told where the rave was. After a long conversation with CORDELL, he was arrested to prevent a breach of the peace and taken to Edmonton Police Station C/N 01YE3597/14 refers. As a result of his arrest the people inside the venue all left. The music system was loaded into a white van VRM PE52UHW. The owner and driver of this vehicle was Elliot LAIDLER. He stated it was the first time he had worked for CORDELL. The van could not leave the car park as the key for the padlocked gate could not be found. However, after two hours the vehicle was able to leave by driving over the pavement. CORDELL was released at 0400 as a breach of the peace was no longer likely to take place. Clearly CORDELL makes a living by organising raves in North London. Of note is when officers searched the car park after everyone had left, they found a set of keys by the electronic steel shutters. These keys opened the shutters to the premises and on the key fob attached to the keys was a PIN number for the alarm system. This is how youths gained entry to the premises. It is possible that CORDELL has obtained them via the security company or an ex-employee.

5. C/N 01YE/3597/14 relates to the arrest of Simon CORDELL as above. He was arrested to prevent a breach of the peace due to setting up a rave. He was later released from custody.

6. CRIS1914855/14 - CAD 11854 20th June **2014**. Police discovered a Rave being set up at 1 Falcon Park, Neasden Lane NW10
and closed the rave down on the authority of Chief Superintendent Gideon SPRINGER. All persons at the rave left the venue upon Police advice to leave. However, under S64 CJPO the vehicle and sound system were seized from the DJ again under authority of Chief Superintendent Gideon SPRINGER. The vehicle VRM CX52JRZ a white Ford transit was removed from the property and taken to Wembley Police Station. The owner of the vehicle is Mr Simon Paul CORDELL. The vehicle was later restored.

7. On 7th June **2014**, it came to Police notice that a rave was
taking place in an empty Warehouse in Progress Way, Enfield EN1.
Simon CORDELL and Tyrone BENJAMIN have set up a rave in the
empty warehouse. Officers attended firefighting equipment/escape exits seen.
Approximately 200 people in attendance all well natured. YE1N A/Insp HAMILL aware and unable to close down due to insufficient units available. Rave is due to finish at 0700 but start up again at 2200hrs.

8. On 25th May **2014** at 23:21 hours, Police were called to
Unit 5 St Georges Industrial Estate, White Hart Lane N17
by the security guard at the venue stating, 'suspects were on premises'. Police attended the venue and a large group of approx. 20 young males
and females, between 18-35 years of age and of mixed origins ran out of the rear of the industrial estate through an alleyway leading to Thetford Close N13. Several males were still inside the premises claiming to be squatters. The remote viewing CCTV at the venue was contacted and the alarms had just been activated and it had footage of several suspects causing damage to the security cameras and door locks at the venue upon opening the premises. After several minutes and upon hearing Police organising entry to the premises in order to search for suspects concerned in Criminal Damage the remaining occupants ran out of the rear doors to the venue. The front shutter then opened and a White Ford Transit vehicle VRM CX52JPZ attempted to exit the premises. The driver an IC3 male gave the particulars of Simon CORDELL. He stated that he had just attended the venue to give his friends some food as they were squatting. The rear of the Transit van contained a set of

large speakers and music equipment, but CORDELL insisted he used the equipment for festival
work and was not setting up for a Rave. Several young males and

9. On Sunday 20th April **2014** Cannabis 420 day was being held in Hyde Park W2. Police noticed a white Ford Transit Van CX52JRZ with a trailer on "TOW" and a large generator on the trailer. The driver admitted that he was asked to attend to supply support to a band that was going to attend the event. The driver gave his details as Simon CORDELL. Vehicle had been driven onto park roads within Hyde Park and was asked to leave prior to large numbers attending the event. He did so but will be one to watch out for next year should this vehicle return to the park for next year's event.

10. On 24th May **2013** at about 2030 hours Police responded to reports of a suspect on at the Old Ponders End Police Station. On Arrival Police contained the area. Simon CORDELL was seen exiting an alleyway to the side of the Police station at the rear of the Kinder Garden Centre. In the car park to the rear of the premises was a Silver Ford Focus MA57LDY. Whilst waiting to gain access Joshua HOLLY-FIELD popped his head over the boarding to the premises and climbed over on Police request. He was detained and searched with nothing found on his person. When asked why he was in the ground of the premises he stated "'Squatters rights', I haven't done anything wrong, you can speak to my lawyer who is with your colleagues round the front". This lawyer turned out to be Simon CORDELL. Whilst officers checked for signs of break-ins it was established through

HOLLY-FIELD that they were looking for a place to set up rave over the bank holiday period. The Focus was searched in the presence of CORDELL as it smelt strongly of cannabis with a negative result. CORDELL stated that when he sets up rave's he attracts in excess of 500 people over a 3-day period. CORDELL is planning to set up a rave and actively looking for the premises.

11. Criss 4208625/13 - Relates to a public order matter. On 7th April **2013**, Police were called to Ellesmere Street E14 where an informant had seen a group of males load a flat screen TV into the rear of a white Ford Transit panel van VRM CX52JRX. The informant was a local resident and was particularly concerned as her neighbour had been recently burgled. The vehicle was in Ellesmere Street junction of Upper North Street there could see there were 4 males sat in the front cab. The person in the driving seat was a light skinned IC3 male. Police parked behind the van and PC ASTON got out of the car to get around to the van. **PC SCOTT**

opened the car door to speak to the driver and he said "What the fuck do you want, you can't stop me". We identified ourselves as Police Officers by displaying my warrant card and he continued to say you have no power to stop me what are your powers. It was explained why we were there and why we had stopped him. He remained aggressive saying that we did not know how to do our job and that we had no powers to search him. The other males in the van were telling the male to calm down and let us get on with it. He was still aggressive saying that he was all legit saying that we had no reason to be there. He then turned off the engine and jumped out the van and walked toward the pavement. We explained he was detained for the search and he continued to shout, "Don't you fucking touch me, I can walk around". He continued to question our grounds and I again explained them to him. An elderly member of the public was walking past, and he shouted at him "Oi mate the fucking Police want to search your coz they think you may be a burglar". The male turned around looked in disgust and walked off again. CORDELL continued to walk around by our vehicle, and it was again explained he was detained for search as he was walking away from him Police took hold of his right arm. As this happened, he shouted "Don't fucking touch me". He was continually aggressive. He was shouting "Get the fuck off me" and members of the public were at their windows trying to see what was going on. PC ASTON was trying to take out his left arm while PC SCOTT was trying to take out his right. He was shouting "Get the fuck off me" continually and another unit arrived. Handcuffs were applied in the rear stack position as he was still being aggressive and uncooperative. As he calmed down it was again explained why he was being searched and

he said, "you can't fucking touch me". He was searched under section 1 of pace and nothing was found. The van was searched and again nothing was found. The other males were searched under the same powers and nothing was found. PC ASTON did check on the van and the PNC stated that it had no insurance. CORDELL stated he had traders which could not be proved so the van was seized. He said, "you are not fucking taking my van". At 1446 he was arrested for no insurance and section 5 of the public order act as he could not provide a valid name or address. CORDELL was later charged with no insurance and Section 5 public order.

VRM YK60XJM, registered to GEOPOST Birmingham and VRM MA57LDY registered to Simon CORDELL. He is known for drugs Class A, supply of drugs, possession of weapons and violence. I am Steve Elsmore, a Police officer attached to the Anti-Social Behaviour Team within the London Borough of Enfield. I make this further statement regarding an ASBO matter in relation to Simon CORDELL. On **16th May 2016,** I was asked to check timings in relation to the schedule that is due to be served on the court. Whilst searching for timings for CRIMINT HTRT00376798, I found an incident log attached to this CRIMINT. I do not recall previously seeing this log. Usually, the inputting officer would put an indicator on the CRIMINT to say that there is an attachment. On this occasion there is no indicator referring to this attachment. It is possible that I may have previously missed this attachment due to the volume of incidents that I was searching through. The attachment itself is an incident report from Canary Wharf Group and the incident summary states -Trespassers on site - illegal rave - forced entry shed 4 - Police tasked - no action - group left site. This is dated 12 January **2013**. The incident log details what action was taken by Canary Wharf Group during this particular incident. It also provides detail on the impact to the residents. On page 5 of the incident log there is an entry that states "P BOUZON (CW178) informs the ECC that the vehicle registrations that he gave me are actually the 2 vehicles that gained access through the fence and arc located within the Shed 4 area". One of the vehicles is MA57LDY. This vehicle was registered to Simon CORDELL as per the CRIMINT Report.

Information

On arrival at MILLMARSH Lane there were numerous young people milling around trying to locate the rave which was eventually found on the North footway just by the Greggs Factory. It was a small strip of concrete completely open to the air with a large amplified sound system at the far end obstructed from view of the street by vegetation.
Simon Cordell was at the gate and immediately shut it on police arrival. Eventually, Mr Cordell agreed to let me and APS Ames onto the property to confirm there was no damage or theft offences being committed.
Simon Cordell's car a silver ford focus VRM MA57LDY was present and contained at least three massive nitrous oxide tanks. When queried he admitted he had seen the news article about the dangerous effects of this and how the Government would probably regulate it.
There was about 30 people in so in discussion Mr Cordell was told it was an illegal rave and I would be seeking Supt authority to seize the sound equipment. Mr Cordell began to pack away his equipment stating it was a birthday party only, but he was going.
Whilst stood waiting for him to leave a group of about 100 teenagers turned up on mass and immediately became confrontational stating, they were going to storm the rave. As we had good numbers the group initially dispersed but tried to go via a back entrance to the venue which led to arrests when scuffles with police started.
The group then completely moved off but returned about twenty minutes later in even bigger numbers. The situation quickly escalated as the group started throwing cones and general road furniture towards police, luckily dogs were on hand and the crowd was

Simon Cordell
Hi Martin
Please see the list of emails that I sent to the insurance company that put the claim in for the 15/09/**2014** the ref for this claim for accident exchange was ref: A27/190530 AX REF

403050(11) they were sent from Simon email address. Also please see the attached document that was sent over to KGM so the claim could be taken off of Simon insurance from Chris Garvin from accident exchange. I was the one that had to deal with this to sort this out as you will see as KGM was not doing anything to sort this claim out which was against Simon name. This was cleared from Simon insurance in May **2014** so I cannot understand why it is still on Simon insurance. I have sent this over before to you when it was sorted but it seems to still be on there and KGM did say to me that they would send you the details so it could be taken off. Can this please be addressed, and this taken off Simon insurance so that his insurance is not so high and his no claims can come back into force.
Regards
Lorraine

Days and Times:
Date of event: 8/11/**2014**?
Time of event: same as before?
Space**:**
How much bigger is the hall in Tottenham?
Can you get pictures or a link to their site?
How does this benefit you and the event?
Rental: How much cheaper is the hall to hire or how much of a better deal is it?

Funding: How much do you need and have already and what are your expected outgoings for the event, including your expenses and other outgoings that you may occur even over the next 13/14 weeks of the re launch.
Approval: I am sure you got this sorted:]
Security: Now this depends on how many tickets get sold. I say we set a time scale and time will tell.
Equipment: What do you need and what have you already resourced?
Management: I believe a management tree is the way forward controlling all avenues of income and delegation.
Marketing: A fresh flyer and remarketing all involved more may help the event.
I also have a friend in mind he might help as a voice to overlay you and help promote the event.
The same person also makes flyers who I hope to be in contact with, over the next following days and I can keep you updated regarding this.

On Saturday the 19th July **2014** 1 was on duty employed as the Duty Officer for Enfield Borough. At about 2210hrs a call came in stating that there were about 20 persons pulling into an estate and the informant thought they were trying to set up a rave. The crowd were by an empty building called Carpet Right and had actually gained entry to the rear of the premises. I instructed officers to go to the venue and try to stop anyone else gaining entry to the premises. I made my way to the scene. There was a metal gate across the entry to the car park, but tins had a thick chain and a padlock around it so that it could not be opened. 1 walked to the rear of the premises where there were several vehicles and about 15 persons. I saw large black boxes which had speakers and sound systems inside them. I received a call from our control room stating they believed up to 100 persons were going to arrive at Southbury Road train station to attend a rave at this location. As a result of this intelligence 1 believed that the premises were going to be used for a rave.
I saw a male I knew to be Simon Cordell who came out of the building. I have known Cordell for over 20 years. I had previously dealt with him at a rave on the 7th of June which he organised in Progress Way Enfield which lasted for several says. 1 spoke to him at that "Rave" during the morning as police had received numerous complaints re the noise over a twenty-four-hour period. Groups of youths from this rave were also committing mass shoplifting offences from the petrol station opposite, as a result of these offences the petrol station had to close its shop. Several buildings on the industrial estate were also damaged and thousands of pounds of damage were caused.

Outside Carpel Right 1 spoke to Cordell. He admitted that he was just organising a party for some friends and that was all. 1 explained to him that we were expecting 100 plus people to turn up at Southbury Road and to be told where the rave was happening. 1 explained to him that as the organiser of this rave I was holding him responsible.
I then received a call stating that large number of youths were arriving in Southbury Road.

These youths would be trying to find the location of the rave. Due to this and to prevent disorder in the area 1 requested the Commissioners Reserve of TSG be called out to deploy to Enfield Borough and patrol the area. I also informed Cordell that as the organiser of the rave it was my opinion that his actions would result in breaching the peace in the surrounding area. This could result in damage to property, both the premises and surrounding, area and violence breaking out. As a result of this to prevent of breach of the peace 1 arrested Cordell. He was taken to Edmonton Police Station and released al 0400hrs when 1 was satisfied a breach of the peace would be unlikely to now occur.
By removing Cordell (the organiser) the other people present left the premises and eventually drifted away from I Southbury Road. The music equipment was loaded into a van at the scene. However, it could not leave the car! park as the gate was chained and padlocked. At about 0200hrs the van was able to leave by driving over the pavement between the barriers. No further raves happened oil the borough that night:

On Saturday 09th August **2014** I was on duty in full Police uniform driving a marked police vehicle in the company of A/ Insp King when at 2221 hours we were informed of **CAD 9717** which related to some intelligence received that stated there was likely to an illegal open-air rave in the region of MILLMARSH Lane, Enfield, EN3. As this was very new information, we attended the location as quickly as possible so that we could assess whether, there was a possibility of ending the rave before it began.
We arrived in MILLMARSH Lane at 2232 hours and straight away 1 could see a number of small pockets of young people walking east along MILLMARSH Lane. These groups particularly stood out as the area is an industrial estate and is usually very quiet at time of night.
We worked out these youths were making their way to an open-air area next to the Greggs Bakery. This area appeared to be the ground on which a building used to stand. It was fenced off and the front gates were chained shut with a motorcycle chain and a padlock. I could hear music coming from the venue and I could see small numbers inside and a couple of tents.
We exited our vehicle and approached the gates in order to speak with the organiser. Manning the gate was a mixed race, IC3 male 1 known as Simon CORDELL. I was aware of a lot of intelligence on our indices that suggests Cordell is known to be the organiser of most of the raves that have been happening in the Enfield area.

We asked if we could come into the venue and speak with him. Cordell refused initially stating that there was no rave. He stated that it was a private 'conference.' He stated that there have been a few people camping on the land as they had nowhere else to go. He stated that they are having a few friends over for a private party. After persuasion Cordell allowed A/LNSP King and I entry to survey the area.
Inside I could see around 20 - 30 people milling around, 2 small camping tents, a large set of speakers and sound system and a supply of bottled water.
Cordell was informed that the rave was going to be closed down and despite a slight resistance to this by him

trying to quote legislation at us he agreed to pack up and leave. He was reluctant but co-operative at this stage.
We restricted access to any newcomers to the venue and asked for a few more units to come to the location to help with dispersal of the small numbers that were in attendance and deter any new arrivals.
The venue had more or less emptied, but the organisers were still packing their equipment away. As this was happening a crowd of approximately 100 people arrived in MILLMARSH Lane at the same time. This appeared odd to me that so many people turned up all at once. The crowd appeared to be angry at the fact that Police had interrupted their evening and were shouting and advancing on officers. One of the group shouted, "Let's just storm it." Cordell appeared to have realised that this crowd was in attendance and half emerged from the venue and appeared to be encouraging the crowd to act up and try to force their way into the site. After a short time however, the crowd started to disappear. They moved back towards the junction of MILLMARSH Lane and Mollison Avenue. A/Insp KING asked some the officers present to follow them up to the junction and restrict access to MILLMARSH Lane.
Once this had happened, reports came over the radio that more numbers were arriving and that more officers were going to be needed in order to control the group. There were also reports of missiles being thrown at officers. A/Insp King and I went to the junction of Mollison Avenue. I could see a large crowd of 200 - 250. Crowd was very verbal and on the whole were advancing towards officers. There were a number of members of the crowd that were throwing traffic cones, traffic beacons and bottles at officers. 1 ordered the officers to form a cordon across the road and a number of officers also drew and racked their batons as a show of force and a deterrent. I did this also. A/LNSP KING had asked for a dog van to attend the scene and the dog and handler assisted in driving the crowd back. TSG commissioners reserve was also on route.
There were two members of this crowd, a male and a female, that persisted and did not back down and leave. These two were detained and subsequently arrested by officers. The male had to be restrained on the floor. Following this exchange, the crowd started to move back towards the "Brimsdown-British-Rail-Station." This is where they stayed for the

remainder of the incident. The odd one or two members of the crowd came forward and was verbal but otherwise they slowly dispersed on to the trains and left the area.
A/LNSP King instructed 2 Police units to remain at the junction of MILLMARSH Lane and Mollison Avenue in order to keep revellers away from the location.
This incident caused major disruption to the public by temporarily closing Mollison Avenue which is a major artery into North East London. It drew response team officers away from their core business which not only impacted on Enfield Borough but also on surrounding boroughs who had to relinquish resources to assist Enfield.

On Saturday 9th August **2014** 1 was on duty in full uniform posted as Acting Inspector. Shortly before 2230hrs I was informed via our GPC that Intel had been received via social media that there was going to be a large illegal rave somewhere in the region of MILLMARSH Lane, Enfield, EN3. I was advised that this was being advertised on Facebook by "Every Decibel Matters" who am unlicensed events. At this time l was in company with Ps Ames 123YB and we made our way to the location. On route I informed the control room of what was potentially occurring and accepted the offer from some units to attend the location to assist me. On arrival in MILLMARSH Lane it was obvious that something was about to happen. There were a number of groups of teenagers who were mil ling around clearly looking for something. MILLMARSH Lane is an industrial road with two major 24hr factories but borders residential areas which are divided apart by Mollison Road. At this time on a Saturday the streets were very quiet, so these groups stuck out. After a brief search 3 noticed two metal gates next to the Greggs Factory which suddenly closed as we passed them. We stopped and I got out and approached the gates. Although dark, street lighting was on and I could see a male was using a chain and lock to secure the gates. I could hear music coming from further inside. Stood by the gate 1 immediately noticed an IC3 male who I know to be Simon CORDELL. I recognised Mr Cordell as I have previously spoken to him recently at illegal raves where I have seen him setting up sound equipment and subsequently taking it away when confronted by Police. I explained to Mr Cordell why we were there, but he immediately denied it was a rave. Mr Cordell stated first it was a private conference but then said it was a birthday party. When asked about permission to be there he stated friends were squatting on the land and they had said he could stay. I explained to Mr Cordell that I needed to come onto the site to see what was going on as for all I knew he could be damaging it or stealing from it. Eventually after promising I would not remove anyone squatting and only myself and Pc Ames would come in, Mr Cordell agreed that we could come in. Near to the gate was a silver Ford Focus index MA57LDY which I knew was Mr Cordell's. The boot was open, and I noticed it contained three large thin industrial gas bottles. From experience I knew this was likely to contain nitrous oxide which is currently used on the rave scene as a

legal high. As we passed the car Mr Cordell quickly lowered the boot. I queried Mr Cordell about the gas and pointed out that it was on the news earlier how Nitrous oxide was dangerous and Mr Cordell stated that the Government would probably ban it soon like everything else. Mr Cordell was polite and showed us around the site which appeared to be a large concreted area that was completely open to the air, there was a large sound system to the rear which was amplified though 1 could not see any power source. There was a number of people wearing yellow hi-vis jackets who Mr Cordell stated were first aiders and there was a pallet of water near to the sound system as well as a couple of tents closer to the gates. I could see no obvious Toilet facilities nor shelter from what had been forecast as a stormy night. Inside the venue mostly just stood around in small groups were about 30 people, mostly teenagers. Mr Cordell stated he was an entrepreneur and was awaiting licences from the council so that he would soon be legitimate. When 1 explained all the "ingredients" for a rave where present Mr Cordell began to try and argue his point that it was not a rave and that it was a private party. I spoke at length with Mr Cordell explaining the legal situation and how by definition this was a rave and that ultimately there were loo few people present at the time to stop police and so on this occasion I could act and close the rave. Whilst on an industrial estate it was my opinion that such was the proximity to local housing and my knowledge of the volume music is played and the duration it is played for, often throughout the weekend that a rave would constitute serious disruption. Mr Cordell was dearly not happy but did not want his equipment seized so agreed to start packing up the sound equipment. Whilst talking with Mr Cordell there were small groups of teenagers arriving at the site and entering via a break in the fence, (the gates still being shut at this time). I got Ps Ames to get units to us to prevent further people trespassing on the land and to discourage people from attending the location and exited the venue to await Mr Cordell's exit with the sound equipment. Whilst waiting I radioed for the on-call Superintendent so 1 could get the various Rave legislation approved so that I could seize the sound equipment and enforce a rave cordon on MILLMARSH Lane to prevent people entering. Whilst stood by the venue a number of people began leaving, most were laughing but the odd one was blaming police for stopping the event. Suddenly there was a huge number of mainly teenagers walking towards me from the direction of Mollison Avenue. Apparently, this group had all arrived together from the nearby railway station. Straight away some of this group headed straight towards us saying they were going to storm the place. 1 had been joined by a few team officers and we advised them that the rave had been closed down and they would not be allowed to enter. There was some verbal confrontation but the large group which was up to 100 strong moved off round the comer with some overheard saying they would break in around the corner. As they began to move off Mr Cordell stood by the break in the fence and shouted words to the effect of, "Come on, there is more of you". 1 quickly went up to Mr Cordell and told him to stop or 1 would arrest him to prevent a breach of the peace. At this Mr Cordell went back and stayed away. The large group did indeed try to get into adjoining premises that they thought led to the rave venue but were slopped by officers and moved off back into MILLMARSH lane, although one officer Pc Wale was injured during a struggle. I requested the attendance of as many units as possible including dogs and TSG as the

group were becoming more hostile towards officers despite there being no music now and being informed of the closure. A short while later officers I had positioned at the junction radioed that there was now an even bigger crowd advancing on them. 1 arrived at the junction to see a very large number of people, now up to 200 walking with purpose towards officers stood in the road, suddenly objects began to get thrown from the crowd towards police. 1 saw traffic cones, cone lights, bottles and stones begin to land near Officers so that they had to quickly move out of the way. I again heard phrases similar to "storm them". Fearing imminent violence, I drew and extended my baton as did my colleagues. 1 could hear shouts of "get back" but the crowd continued to throw items, some of which were landing on cars that had been temporarily stopped due to the group. We had been joined by two dog units who took the lead in dispersing the crowd. At this point there were two arrests to my left and along with the dogs this seemed to make the crowd withdraw. I told my officers and the dogs not to follow the crowd as they were now by the train station with nowhere to go as the barriers were down. There was a tense standoff for some time, but the group eventually got onto trains and left the area. 1 was informed by another unit that Mr Cordell had also left, with his equipment. 1 tasked arriving TSG with local reassurance patrols but shortly after they started, I was advised that most of the group were wandering around near to Ponders End. I tasked TSG with following this group and was informed by their Inspector that their unmarked unit had overheard talk that the rave was now going to be South West of the original location. I was aware that TSG subsequently saw Simon Cordell by the Crown lane Industrial Estate where he has held a rave before and had stopped the group from forcibly breaking into this location. Finally, after close to three hours later, the group dispersed, and I was informed that social media was indicating the rave would now be Epping Forest. The whole incident took a vast number of resources to police and there were two arrests for drugs possession and two for drunk and disorderly behaviour. One officer was injured with a deep cut to his elbow requiring first aid by the Police FME and emergency calls whilst answered were subject to delay.

On Saturday the 19th July **2014** 1 was on duty employed as the Duty Officer for Enfield Borough. At about 2210hrs a call came in stating that there were about 20 persons pulling into an estate and the informant thought they were trying to set up a rave. The crowd were by an empty building called Carpet Right and had actually gained entry to the rear of the premises. I instructed officers to go to the venue and try to stop anyone else gaining entry to the premises. I made my way to the scene. There was a metal gate across the entry to the car park, but tins had a thick chain and a padlock around it so that it could not be opened. 1 walked to the rear of the premises where there were several vehicles and about 15 persons. I saw large black boxes which had speakers and sound systems inside them. I received a call from our control room stating they believed up to 100 persons were going to arrive at Southbury Road train station to attend a rave at this location. As a result of this intelligence 1 believed that the premises were going to be used for a rave.
I saw a male I knew to be Simon Cordell who came out of the building. I have known Cordell for over 20 years. I had previously dealt with him at a rave on the 7th of June which he organised in Progress Way Enfield which lasted for several says. 1 spoke to him at that "Rave" during the morning as police had received numerous complaints re the noise over a twenty-four-hour period. Groups of youths from this rave were also committing mass shoplifting offences from the petrol station opposite, as a result of these offences the petrol station had to close its shop. Several buildings on the industrial estate were also damaged and thousands of pounds of damage were caused.
Outside Carpel Right 1 spoke to Cordell. He admitted that he was just organising a party for some friends and that was all. 1 explained to him that we were expecting 100 plus people to turn up at Southbury Road and to be told where the rave was happening. 1 explained to him that as the organiser of this rave I was holding him responsible.
I then received a call stating that large number of youths were arriving in Southbury Road.

These youths would be trying to find the location of the rave. Due to this and to prevent disorder in the area 1 requested the Commissioners Reserve of TSG be called out to deploy to Enfield Borough and patrol the area. I also informed Cordell that as the organiser of the rave it was my opinion that his actions would result in breaching the peace in the surrounding area. This could result in damage to property, both the premises and surrounding, area and violence breaking out. As a result of this to prevent of breach of the peace 1 arrested Cordell. He was taken to Edmonton Police Station and released al 0400hrs when 1 was satisfied a breach of the peace would be unlikely to now occur.
By removing Cordell (the organiser) the other people present left the premises and eventually drifted away from I Southbury Road. The music equipment was loaded into a van at the scene. However, it could not leave the car! park as the gate was chained and padlocked. At about 0200hrs the van was able to leave by driving over the pavement between the barriers. No further raves happened oil the borough that night:

Suddenly there was a huge number of mainly teenagers walking towards me from the direction of Mollison Avenue. Apparently, this group had all arrived together from the nearby railway station. Straight away some of this group headed straight towards us saying they were going to storm the place. 1 had been joined by a few team officers and we advised them that the rave had been closed down and they would not be allowed to enter. There was some verbal confrontation but the large group which was up to 100 strong moved off round the comer with some overheard saying they would break in around the corner. As they began to move off Mr Cordell stood by the break in the fence and shouted words to the effect of, "Come on, there is more of you". 1 quickly went up to Mr Cordell and told him to stop or 1 would arrest him to prevent a breach of the peace. At this Mr Cordell went back and stayed away. The large group did indeed try to get into adjoining premises that they thought led to the rave venue but were slopped by officers and moved off back into MILLMARSH lane, although one officer Pc Wale was injured during a struggle. I requested the attendance of as many units as possible including dogs and TSG as the

group were becoming more hostile towards officers despite there being no music now and being informed of the closure. A short while later officers I had positioned at the junction radioed that there was now an even bigger crowd advancing on them. 1 arrived at the junction to see a very large number of people, now up to 200 walking with purpose towards officers stood in the road, suddenly objects began to get thrown from the crowd towards police. 1 saw traffic cones, cone lights, bottles and stones begin to land near Officers so that they had to quickly move out of the way. I again heard phrases similar to "storm them". Fearing imminent violence, I drew and extended my baton as did my colleagues. 1 could hear shouts of "get back" but the crowd continued to throw items, some of which were landing on cars that had been temporarily stopped due to the group. We had been joined by two dog units who took the lead in dispersing the crowd. At this point there were two arrests to my left and along with the dogs this seemed to make the crowd withdraw. I told my officers and the dogs not to follow the crowd as they were now by the train station with nowhere to go as the barriers were down. There was a tense standoff for some time, but the group eventually got onto trains and left the area. 1 was informed by another unit that Mr Cordell had also left, with his equipment. 1 tasked arriving TSG with local reassurance patrols but shortly after they started, I was advised that most of the group were wandering around near to Ponders End. I tasked TSG with following this group and was informed by their Inspector that their unmarked unit had overheard talk that the rave was now going to be South West of the original location. I was aware that TSG subsequently saw Simon Cordell by the Crown lane Industrial Estate where he has held a rave before and had stopped the group from forcibly breaking into this location. Finally, after close to three hours later, the group dispersed, and I was informed that social media was indicating the rave would now be Epping Forest. The whole incident took a vast number of resources to police and there were two arrests for drugs possession and two for drunk and disorderly behaviour. One officer was injured with a deep cut to his elbow requiring first aid by the Police FME and emergency calls whilst answered were subject to delay.

WOODGRANGE Gardens and have lived at this address for 28 years
I'm retired and live with my wife who suffers from dimension
as a result of the rave which took place at the warehouse my wife and I have suffered a lot
as a result of my wife's condition, it is hard for me to get her to sleep and the noise from the party has made it 100 times worse
The party normally goes on from about 8 p.m. until the next day
is so extreme that even though my house is double glazed the noise penetrates through the wall
on the last duration we had people spilling out from the warehouse into our road and they are very noisy
this is a lovely area, but things change when the party is on

I am a police officer in the London Borough of Enfield and have been tasked to contact residents of the borough who had called police to inform them of an illegal rave that took place over the FRIDAY 7th JUNE 2014 and SATURDAY 8th JUNE 2014, in a warehouse in PROGRESS WAY, ENFIELD
On TUESDAY 19th AUGUST 2014 I contacted the caller of CAD 10471/07JUN2014 by telephone, who was happy to give an impact statement regarding how the illegal rave affected her and her husband over the above dates mentioned.
The caller wishes to remain anonymous. I will refer to her as Complainant "A". The original notes taken for the below statement are present in my pocketbook serial 370/14, page 1.
Complainant "A" said "It was a warm evening and we had to keep the windows shut because of the noise. The next day we could not even go out into the garden because of the noise. It kept me and my husband up all night and made us very' anxious the next day. The illegal rave totally ruined our weekend".
This concluded what complainant "A" said regarding this matter

I am a police officer in the London Borough of Enfield and have been tasked to contact residents of the borough who had called police to inform them of an illegal rave that took place over the FRIDAY 7th JUNE **2014** and SATURDAY 8th JUNE **2014**, in a warehouse in PROGRESS WAY, ENFIELD On TUESDAY 19th AUGUST **2014** I contacted the caller of CAD 10471/07JUN**2014** by telephone, who was happy to give an impact statement regarding how the illegal rave affected her and her husband over the above dates mentioned.

The caller wishes to remain anonymous. I will refer to her as Complainant "A". The original notes taken for the below statement are present in my pocketbook serial 370/14, page 1.

Complainant "A" said "It was a warm evening and we had to keep the windows shut because of the noise. The next day we could not even go out into the garden because of the noise. It kept me and my husband up all night and made us very anxious the next day. The illegal rave totally ruined our weekend".

This concluded what complainant "A" said regarding this matter

1 Asbo Si Note: Noting Hill: I and my partner got told prior! - "I continued to sleep over at my new partners a lot more in the summer and the date had come up to the 23 August 2014, this date is easy to remember because Notting Hill carnival took place. Me and my partner got told by the clinic of the news and stayed in over the weekend together. In the background of all these things taking place, I arranged for two other events to occur. The first being that my father asked if he could use my flat to stay in over the weekend as he always took my Neisse to the carnival, and he was in the middle of transferring, from where he prior been living at the time and in me letting them stay at my flat for the weekend this would help him, I agreed by saying yes to his request of me. The second reason being is that, I arranged for a friend to collect an amount of nitrous oxide of me that I had been selling. I gave the keys to my flat and half of the agreed stock on bail to the relevant people a couple of days in advance of the carnival taking place. Then at the same time I also agreed that I could deliver more stock to the person who had taken the nitrous oxide of me on his payment that would take place at the day of the advised adult's part of the carnival, taking place, as he told me that he would be there. Due to the issues in my relationship, I decide not to avoid answering the phone to people from the day prior to the carnival starting, as we both decided together to relax indoors, at her home. After a multitude of missed calls, I answered my mobile phone messages, on the adult's day of the carnival starting, when I read a text saying I am going to your house to get the stock from the day before, in knowing that I had not been at home but my dad had I gave him a phone call. He picked the phone up to me and after the normal hello to each other I asked him did anyone come to my home while he was there. The answer was, Yes; and then I asked the next question to him; did they take anything; he replied yes; Next to come was the last of the questions that I ask my father; did they leave any money; I heard the reply of; no, so I took a deep breath and carried on, absolutely, mad in silence; My dad got upset with me and told me that it had been my friend who he sees me with all the time and that he thought that this would help me by being what he thought I requested to happen. The second the mobile phone got put down, I spoke with my partner and explained what just happened, while I tried to call my friend/ client, who never picked up the phone, calls that I continued to make and consecutively, I and my partner both together put our coats on and I

grabbed the car keys, we were off to the carnival. We took a little while to get there even with me travelling within the legal speed limit, but we still soon arrived as close as possible to the carnival. I and my partner both started our search for our friends/ clients at that moment in time on our feet together; this got done once we could not drive any closer, towards the event due to the crowds. The truth, what can I say apart from, well me and my partner where good at tracking our friends down together, and we both done this as a team in a superb time frame. Upset as most people would be, I requested the stock back and payment for the first package and what had gotten used out of the extra taken from my home. By this time, I got a lot more upset than needed and found myself in the middle of the carnival with my partner and a load of stock. In looking around for a way of carriage I noticed a wheelie dustbin that had been lying on its side and checked the condition that it got left in. It got left clean, and it was available for our use. We filled up and covered the lid the best that we could. Travelling back towards the car, we enjoyed the carnival, but still with the concern of carry a black wheelie bin around the streets, I cannot remember who noticed them first I bet her; but anyway, we bumped into some friends of ours, I can't remember what happened for a little while because when I looked at my watch the time had disappeared. The streets were slowly starting to empty, and I still had a big black wheelie bin with me, so I see officers that I met before and approached them and asked what the best way back to the car was. After working everything out with the police I turned around at the group of friends waiting and it had grown, I knew that it would be best to get out of there and head back home with my partner and that is what we did. Now this day is also being wrongfully used in the Anti-Social Behaviour Order Application case against me and I question why? **1. 2."**

1 Si Note: My Nan passed away! - "On the 29/08/2014 a Family meeting had to take place with the doctor looking after my Nan regarding her health. Soon after my mother had to leave the hospital, and this took place at around 19:15 hours, she left with my sister. My mum went back to the hospital with my sister at 21:20 my Nan health got worse, and she notably was having problems breathing. My mum called the family, so I attended with other close members of the family. In the early hours of the 30/08/2014, I got left alone while the rest of the family had gone to get well needed rest; I took a seat beside the bed that she was getting taken care in. At the time I can remember myself; feeling her fall to sleep and deciding that it would be best for us all, who knew her; for me to keep on tingling her arm, as it seemed to make her smile while she kept drifting away, so that she never went into a deep coma. I felt this working as I looked at the clock up on the wall in the hospital room that she got placed in being at the time of 1:00 hours. The time ticked on till I last remember seeing the clock handles strike 5:47 and then I recollect a woman's voice who was a nurse or doctor, saying to me Simon, Simon, Simon. While still sitting in the chair with my hand on my Nan's hand, I jumped up without taking a stand and went to analyse what had changed in the room, I look at the nurse or doctor woman then the clock in a quick swift glaze and straight at my Nan. The women had let her voice pronounces the out aloud from her mouth to me at the same time as my brain told me that it was 06:02 hour and I realised that I had dropped off to sleep for 14 minutes. She said that Simon your Nan has passed away. Fuller of upset I held back the tears as I did not want to believe her at first, but I understood that what she had said, must be correct."

My Nan passed away!

On the **29/08/2014** a Family meeting had to take place with the doctor looking after my Nan regarding her health. Soon after my mother had to leave the hospital, and this took place at around 19:15 hours, she left with my sister. My mum went back to the hospital with my sister at 21:20 my Nan health got worse, and she notably was having problems breathing. My mum called the family, so I attended with other close members of the family. In the early hours of the **30/08/2014,** I got left alone while the rest of the family had gone to get well needed rest; I took a seat beside the bed that she was getting taken care in. On THURSDAY 24th JULY **2014** I was on duty in plain clothes as operator of an unmarked police vehicle in company with APS 212YE MARTIN, PC 151 YE ROBERTSON, and PC 229YE O'NEILL. At around 1625 hours on Alma Road EN3 we had cause to stop a silver Ford Focus VRM MA57LDY due to the manner of its driving. The driver was a male I know to be Simon CORDELL dob21/01/1981.1 know him as I have dealt with on a number of previous occasions. He was initially hostile about having been stopped, but once he had calmed down, he engaged in conversation with us. He stated that he is staying out of trouble now, and he does not get involved in any of the things he used to. He stated that he has 4 brand new speakers at home which are suitable for use at raves, but he does not use them and has offered to lend them to any "'youngsters" to use. He went on to say that they are not interested though as these days they just want to steal everything. He said he gets inundated with requests to run raves all the time, but he doesn't get involved now. He claims to have 20,000 followers on one social media site, and 70,000 on another. He said he could organise a rave and get 20,000 people at it with no problems whatsoever, and he gets requests from anarchist type groups to run raves for them. He went on to say that he had been asked by Occupy London, Black Block and other anarchist type groups to run a rave at Notting Hill Carnival for them so that they could cause carnage and mayhem, but he had refused. Whilst on public order duty at Notting Hill Carnival I saw Mr CORDELL walking through the area I was deployed around TAVISTOCK ROAD. He was pushing a wheelie bin, and he was approached by members of a group of around 10-20 people who had been waiting at a junction near our location. This group had been playing drum and bass music and had told officers they were heading to an event but were awaiting the location. It was somewhere between 2200 - 2300 hours when I had seen the group, and Mr Cordell.

Lou Demseventmanagement, Sep 03 19:50:
Hello there!
I am enquiring as to how I can gain access to the full administration of my fundraising page. I hate how the Enfield Council and the Enfield Homes have treated myself as to the disrepair issues within my home not being taken by them as an important reverence as they still lack to provide me with a subsidiary home and in a timely manner.

what I expect off the Enfield Council and the Enfield homes, when requesting for my health to get taken into consideration, is a replication that does not make me wait for months in an

emergency situation of disrepair and with an expeditious outcome of a constructive impact that resolves the quandaries, but this has not transpired as of yet!

Further to my statement dated 15/08/**2014** regarding an illegal rave on Saturday 9th August **2014** I have been asked to clarify the role that Mr Simon CORDELL had during the incident.

On the night I first noticed the location of the rave as a male quickly locked the gates upon apparently seeing my marked police vehicle. This male was Mr Simon CORDELL and it was him that initially said I could not enter, and it was him who was very much in charge of deciding if Police were going to be let in. Indeed, having been let into the venue by Mr Cordell I had a number of conversations with him about whether what I saw constituted a rave and part of Mr Cordell's argument to stop me closing it down included telling me that it was a private party but that ultimately it didn't matter because he was applying for licences from the council and soon his events would be legitimate and could not be closed. The conversation was very much that this was his event and he would keep running them no matter where he had to go. It was Mr Cordell who showed me around the venue pointing out first aiders and piles of bottled water in an attempt to convince me this was a legitimate party. Having explained that I was going to order the rave closed or seize the sound equipment it was Mr Cordell who passionately argued against this whilst maintaining he did not want his sound equipment seized. Eventually, it was Mr Cordell who told other persons present that the event was closing and told people in yellow jackets to start packing up the equipment. Aaron King Ps 91 YE

DIRECTIONS ORDER

5. I make this Witness Statement in support of the Claimant's application for committal as the Defendant is in breach of the Injunction Order with Power of Arrest made against him In the County Court at Edmonton on **9th August 2017.**

6. The Defendant's abusive behaviour towards my family and I stopped for some time after the Claimant obtained the injunction against him although he continued to make general comments towards us whenever he sees me or my wife entering or leaving the block.

7. On **11th November 2017** between 11:30am and 12pm, my wife was at home when the Defendant came up to our front door, opened the letterbox and peeped through it to see who was inside our flat. He started swearing and shouting abuse and banging on the door as soon as he saw my wife. He then ran downstairs when my wife went to get her mobile phone to record the incident. My wife telephoned the police and reported the incident, CAD No. 3230 of 11/11/17. The police attended about two hours later, went and spoke to the Defendant and came informed my wife that he denied coming to our front door,

8. On **2nd January 2018** at 6:30pm, my wife was inside our flat trying to assemble a cupboard that we bought from Ikea. Our three-year-old daughter and my cousin who was asleep at the time were also in the flat. Suddenly my wife heard someone banging on our front door and she went to the door with her phone and overheard the Defendant shouting that there was noise coming from our flat. My wife told him that she was trying to assemble a cupboard, but he called her a liar and accused her of deliberately banging on the floor. The Defendant then stood outside our front door for more than twenty minutes swearing and shouting abuse at my wife.

DIRECTIONS ORDER

9. The Defendant went away and returned half an hour later, he lifted our letterbox flap, stuck his mobile phone through the letterbox and started to record my family while swearing and shouting abuse. This went on for about ten to fifteen minutes. The matter was reported to the police, **CAD No. 5121 of 2/1/18.**

10. On **3rd January at 9:30am,** I was inside our flat with my wife and daughter when the Defendant came and started banging on our front door. I went and asked him what the problem was, and he stated that my wife was banging on the floor yesterday for about an hour. I told him that my wife was not banging on the floor, that she was trying to assemble a cupboard, but he called me a liar and continued to shout and swear at us. He threatened to kill us and burn down our property and stated that we will not be safe no matter where we are. The Defendant then forced his way into our fiat, but my wife managed to push him out and double-locked the door. I called the police and they came and advised us to report the matter to the council, **CAD No. 2098 of 3/1/18**. The officers refused to listen to the audio recording of the incident and advised that we should ask the council to rehouse us.

11. The recent abuse and threats to kill from the Defendant have made it difficult for us to live in our own home. My wife is afraid to stay in our flat alone with our daughter or leave the flat alone without me or my cousin accompanying her. The Defendant's behaviour is also causing a Jot of distress and anxiety not only to me and my wife but also to our three-year- old daughter.

Statement of Truth

I believe the facts in this Witness Statement are true.

INDEX

2. I make this Witness Statement in support of the Claimant's application for an injunction to. stop the Defendant from causing intimidation, harassment to me and other residents.

BACKGROUND

3. The problem with the Defendant started a few months after we moved into the property, after the Defendant approached me asking me to write a letter of support in relation to a problem, he was having with the lady that used to live at Flat 113 BUMCROFT Avenue. I refused to write the letter and told the Defendant that I do not want to get involved as I did not have any problems with the lady. Since then, the Defendant has made living in this block difficult for me and my family. He has been very aggressive to my family and I and has continuously intimidated, threatened and harassed my wife, cousin and me.

4. The Defendant have repeatedly accused us of making noise inside our flat even though our flat is situated two floors above his and the person living directly below us have never complained to us about noise. He has shouted abuse at us, damaged our properties and aggressively demanded money from me. My family and I are constantly living in fear and my wife are frightened to stay at home and has had to accompany me to work on several occasions and stayed in the car with our young daughter until I finish work.

5. The Defendant has slashed my car tires, damaged my fuse box and has physically threatened to hit me with a piece of wood. He has a big dog that he brings out with him without a lead when he approaches us, and he has used the dog to intimidate us. He also allows the dog to bark and run freely inside the communal hallway and staircase without a lead. I have reported

all the issues to the police and Waltham Forest, the local authority that placed me in the property but each time the police attends, the Defendant will lock himself inside his flat and will refuse to answer his door.

1. I make this Witness Statement in support of the Claimant's application for an injunction to stop the Defendant from causing Intimidation, harassment to me and other residents.

BACKGROUND

2. The problem with the Defendant started a few months after we moved into the property, after the Defendant approached me asking me to write a letter of support in relation to a problem, he was having with the lady that used to live at Flat 113 BUMCROFT Avenue. Since then, the Defendant has made living in this block difficult for me and my family. He has been very aggressive to my family and I and has continuously intimidated, threatened and harassed my wife, cousin and me.
3. The Defendant have repeatedly accused us of making noise inside our flat even though our flat is situated two floors above his and the person living directly below us have never complained to us about noise. He has shouted abuse at us, damaged our properties and aggressively demanded money from me. My family and I are constantly living in fear and my wife are frightened to stay at home and has had to accompany me to work on several occasions and stayed in the car with our young daughter until I finish work.
4. The Defendant has slashed my car tyres, damaged my fuse box and has physically threatened to hit me with a piece of wood. He has a big dog that he brings out with him without a lead when he approaches us, and he has used the dog to intimidate us. He also allows the dog to bark and run freely inside the communal hallway and staircase without a lead. I have reported

was happening, the Defendant went back into his flat. We then called the police, they attended, and we explained what happened. The police then went and knocked on the Defendant's door, but he refused to let them in.

23. On **28th June 2017 at 11:45am,** the Defendant confronted my wife outside the main entrance door as she was going to pick up our daughter from school and demanded to talk to her. My wife told him that she cannot stop to speak with him as she was on her way to collect her daughter from school, but the Defendant ran after my wife, stood in front of her and started to shout at her. The Defendant told my wife that he knows all our personal details including our full names, date of birth and bank details. and bank details and that I must pay him to have them back. I told him that I will not pay him and to do whatever he likes with the details.

26. The constant verbal abuse, swearing, intimidation and aggressive behaviour from the Defendant towards my family and I have made it difficult for us to live in our own home. The fear of not knowing when we will be confronted with vile and aggressive behaviour as my wife, and I go out or return to our home has caused us severe stress and anxiety. My wife is afraid of leaving our flat on her own due to fear that the Defendant will confront and shout abuse at her. We are having to tip-toe inside our flat for fear of being accused of making noise even though we live two floors above the Defendant. The Defendant has caused us immense hardship by vandalising my property and although I cannot prove it, I am certain that the Defendant was responsible for slashing my car tyres, damaging my meter cupboard and removing my electricity fuse several times and restricting water flow to my flat, Also, I no longer park my car outside my block in BUMCROFT Avenue because of the car being vandalized. I now park a few streets away, about ten or fifteen minutes from my home instead of outside my block which is about a minute from my flat. I do not see why we should have to live this way.

Statement of Truth

I believe the facts in this Witness Statement are true.

On Friday 12th September **2014** I attended the address of Simon Cordell in BUMCROFT Avenue EN3 with A/PS 556YE PETRUCCI, PCSO NASSEER and PCSO TILLEY.
1 knocked on Simon Cordell's front door at 1230 hours and he opened the door and asked what we wanted; I asked him if he was Simon Cordell, to which he replied, "Yeah." I stated to him that I was here to issue him with a summons to attend Highbury Corner Magistrates Court on 6th October **2014** at 1:30pm. Mr. Cordell stated, "What is this for?" I informed him that it was for an ASBO; I showed him the summons and the folder and as I went to hand him the folder and the summons Cordell stated, "I'm not accepting that, I'm not having that." Cordell then placed the folder on the floor, outside his door, in the hallway. I stated to him that he does not have to accept it and that I have already informed him of the date, time and where to go. Mr. Cordell then shut the door before I could hand him the summons, so I posted it through his letter box. Mr. Cordell was also told to inform his solicitor of this.
Mr. Cordell was a light skinned, mixed race male, with short black hair and was of medium build.

I never received any summons in relation to this matter and I only became aware that the case had been dealt with in my absence when I received a letter from the DVLA advising me that I had to send in my driving licence. I disputed with the DVLA the points, but I was given an ultimatum that if I did not send in my licence it would be revoked. The offence of no insurance was allegedly committed on 01/01/**2014**. I had a valid policy of insurance from 23/02/**2013** and this policy was valid until 22/02/**2014** The company insuring me was KGM, and my broker was Broadsure direct I am the named policy holder, Mr. Simon Cordell and my policy number is MT3574694. I have points on my licence which I should not have. Can you please as a matter of urgency email me back on this matter so that I can have a date so that the conviction can be set aside and my case heard in order that I can show the court my insurance and the PLO can make the necessary enquiries. I would be grateful if you can inform DVLA that this matter and the points that have been added to my licence is being disputed so this can be put on hold as I do not see why I should suffer when I have done nothing wrong and I was insured to drive. This is in fact have a big effect on my life when I have done nothing wrong and would like this addressed as a matter of urgency. This matter is urgent. I cannot resolve this matter until the case is listed before either a District Judge or Magistrates so I would appreciate your cooperation. I am very disappointed that you have ignored all my emails. This is causing me stress. Can you now please resolve this legal mater by listing the case for an application to set aside the conviction?
I can then forward my documents to the relevant prosecuting authority. Please see attached my insurance documents for this offence in fact showing I was in fact insured. I await hearing from you in relation to this matter and I thank you in advance for your anticipated co-operation in

I have tried to call the court on a number of occasions regarding my conviction and sentence for no insurance but the phone just rings when I press the number given to ask about this case the telephone number, I am calling is 0208 955 0555. I have now found out the information to the case but pressing number 7 the lady I spoke to did in fact try and put me to a manager but that also just ring then cut me off. So, I called back again and asked her if she could give me the information which she did. I am making this request to have my case listed in order that I can do the following: -

I never received any summons in relation to this matter and I only became aware that the case had been dealt with in my absence when I received a letter from the DVLA advising me that I had to send in my driving licence. 6 **Asbo Si Note:** The start of the Anti-Social Behaviour Order case proceeding for me! - “It turned from summer to winter without me even going outside to realise; and in this change of seasons a bundle got said to have got served onto me; "Mr. Simon Cordell," at Burncroft Avenue, to which I dispute to be true at all. This Bundle was in the Anti-Social Behaviour Order Case. Being locked up by the police and the local council made life harder for me, in just looking after myself, so how am I supposed to look after another man’s child like this or have my own. I refer to: Friday 12th September 2014, what is the date of the start of the Anti-Social behaviour case, which never got served in accordance with the law; this was for a multitude of reasons, the first being that the application was too big to fit into my letter box, so I did not accept it and also because of this, I disputed that I ever got served the Anti-Social Behaviour Order folder correctly, as it never got handed. What really happened next is, I was

in at my home and I was alone, I had got upset because of everything that had been going wrong in my life, but the truth is that on this day, I woke up as normal, so for me to continue with making my plans for a positive future be able to come true. I was doing this by working hard on the right things and by this time I was well into the daily routine of the constructive work towards the development off my company and my future life. I had been drafting a proposal, and all the other noble, little bits of remnants towards the documents I was working on. When I noticed a sound, this sound was coming from outside of my front door; this was a surprise to me because I had not been expecting any visitors. This sound was a sound that I had heard many times before, I knew it to be a police radio and so before they could knock on my front door, I tried to get to the front door spy hole without getting detected, by the police officers. I heard them knock on my front door; So, with this all explained, I was couscous to open the front door, so because of this reason, I approached the door with caution, so to meet the unexpected visitors. I looked into the keyhole and could see what looked like the police through the keyhole. I asked the people outside a question without opening the door what was: what you want of me, they said they needed to talk. At this point of time, I knew that I should have nothing to hide, I opened the door just a little, just so that I could see them in the hallway through the small gap in between the door and the door frame and then I used my foot to keep it ready to get locked as fast as possible in the shortest time scale practical of any problems arising. I wanted to see what the police wanted to talk about, once the door got opened a little the police officer then said to me that they wanted to serve documents with me, at which point I then replied that I was not willing to accept anything and closed the door. Upon closing the front door closed, I told the police that I was not rude, but was not willing to accept receipt of any documents, with this being said I noticed through the spy hole, that the police officers had both spoken to each other, so I could hear what was being said between them both clearly, I then moved my ears closer to the gap on the edge of the front door. I listened closer and once I had done this, I could hear what was being said, I then heard the lady police officer say through the closed door: — what the Lady police office said was: — what should we do, to the man police officer and the man police officer said in reply: just put it on the floor in front of the door, and he took letters from the lady police officer and then posted them in my letter box. Straight away I continued to look through the keyhole again and watched what the police officers was doing, I then noticed the Man police officer posting four pages of papers into my letter box and the lady police officer put a large blue file in plain vision outside of my front door on the doorstep. I then made a phone call to my mother, as fast as I could do, I done this so that she could also know what had happened and in doing so asking her to attend my flat. But due to a death in the family, she could not attend, to my home address until the next day, dated the: - on the 13/09/2014. When my mother did finally get to my home address, she found out that the folder got placed outside of the front door, in the communal hallway and got left alone, with nobody present; it got left in plain view of everyone."

She also gave me her email wish I can't seem to find, but I been sorting out funerals for my Late mum and also a close friend of the family died also so at this time it's been a really hard time for us as a family.

Disrepair!

The sound issues within the block of flats denote that I cannot get any reprisals or delectation when I am in my rented home of the Enfield Council and the Enfield Homes teams as the noise from the other flat keeps me aroused!

Time Spent Building.

In the background of everything going on I continued working on creating a new up to date Temporary Food Stall and policies inclusive of other possible outlets databases for the Too Smooth Entertainment company and I continued to Study and finish at the Time Start: 07:00Am and Time End: 03:00 PM!

My mother also continues to work on building my company website for me with others at the Time Start: 09:00 and Time End: 14:00!

Hello Martin
I have spent all weekend trying to get hold of the two Charlton Car Pound as that is where the police have said there will hold a list of what was in the van. The police have told me that the compound has to make a list of every vehicle that is impounded so it covers them also so they

will have a list. I have sent 2 emails over the weekend which I do know they have read as I had tracking on them.
I have spoken to Kelly today and she has asked me to make sure you have the information for the compound and can you pass it over to her asap. Also, can you find out from Kelly Tiller if Simon will be covered after 12.00 today while she gets hold of the compound please and let us know as soon as possible.

Kelly from KGM has just called and said that they will keep the cover till Monday at 12.00 for us to have time to get information from the police that there was in fact no tools in the van. Simon has already been on the phone to the police and been told to contract the compound 6the van was taken to as they have to check every vehicle that is taken there, he is at this time on the phone to the compound in order to try and get the information that KGM needs.
The Compound it was taken to is
Charlton vehicle pound 8 Bramshot Avenue,

Hi Lorraine,
Please find response from your insurers
I have listened to the call that took place between the police and my colleague Jessica advising that Mr Simon Cordell was carrying tools in his vehicle so unfortunately, we have no other opportunity but to continue with the cancellation of the policy.
Unfortunately, the policy will cease as of tomorrow as per the letter from KGM.
The only way to stop this is to either get the Police officer to contact KGM, or to get a signed statement from him before 1700hrs today.
Regards
Martin

Hello Martin

After the call you made today and talked to myself Miss Lorraine Cordell, I am sending over the information you asked for. I do feel also that KMG asking to speak to the police office is in breach of my data protection, but I will be willing to write and allow them to do this. As I said to KMG yesterday on a phone that was made to them when I talked to Kelly Tilley, I have not been found guilty at a court of law for not having no insurance and it is for a court of law to find me guilty not a police officer who thinks I done something when I have not. Even if KGM does speak to the police office he will still say what he feels and that is not a fact that I am guilty of anything. To be found guilty it would have to be done in front of a judge.
Also, Martin as you said on the phone today when you in fact talked to the police on that day not once did they say I had anything in my van that would void my insurance, and in fact I believe at this stage if the police did in fact have proof they would have said to you that my van was full of things which is not the case.
I would like to also know if my insurance is going to carry on while this matter is addressed or if it will be closed down on the 27/11/2013 as the letter says that KGM have sent me. And if KMG is going to close down my policy I would like full written conditions of what part of my policy I have broken.
As for the letter of complain that will be going to the police Simon still has not fully read over it to make sure there is no errors or anything else that needs adding but it does go into details as to what went on, it is only for use by yourself and KGM to read only.
Also, as I said on the phone to you today the police are also telling me that the 3 times that my vehicles were seized and I had to pay for them to be taken out of the compound, I will need to claim this back from my insurance company as they had not done their job and put them on the database so they are at fault not the police.
You said to me today that KGM are looking into this as they are on the database and it should show up to the police that I am in fact insured. This has not been the case for me and I have suffered badly due to this and this is the reason I have to carry my insurance policy at all times so when I get pulled over by the police I can show them my documents, as the police say it does not show up as I am insured, this is also the reason the insurance company have had so many calls from the police to asked if I am insured or not since my policy started.
Could you please send me proof that the vehicles where on the database so I can put the claim in to the police to get my money back for the times my vehicles were seized. As at this stage I do not want to have to put a freedom of information act into yourselves or the police to the amount of times that the police have in fact had to call my insurance company to see if I was insured due to the police saying I was not insured.
I have always been very happy with Broadsure Direct that is why I have still use them and would like my insurance to carry on under them.

Dear Martin
Today the 15/11/13 I made a call to be able to speak to you with regard to what happened yesterday the 14/11/2013 with the police. I have talked to Oilly today and he asked me to write this email to you as they are thinking of closing my insurance policy.
Yesterday I went for a meeting with the owner of a night club for a future job position the meeting was set for 14.00 hours.
I drove down for my meeting and got there at around 13.00 hours there were some police at the road side doing stops on cars etc, as I drove pass and pulled over to park by the night club, my friend who was with me got out of the van to get some drinks and food while I waited in the van, as I got to the club early for my meeting.
The police that were doing the stops came up to me, they told me they wanted to do some checks on the van I was sitting in, I asked why, and they told me under the road traffic act.
I then passed the police my insurance policy for them to go over, the police officer also asked me why I had stopped there.
I explained to him I had a meeting in the night club that we were outside, as it was due to open to the public in 1-month time to secure my future position there. While I was there, I was also planning on asking if there were any painting jobs, I explained all this to the police officer I was talking to.
The police looked inside the van and clearly saw it was empty and that there were also no signs on the van showing it to be a company van. But the police officer was still unhappy. He talked to yourselves as the insurance company on the phone and was told I was not insured, at what point I called you myself as my insurance company as I knew I was insured. I explained the situation to yourselves to be told I was covered for commuting to work, social and domestic, as well as motor trade, but not for carriage of goods for a company, which did not matter as my van was empty and still is whilst being in the police impound.

I am putting in a complaint to the independent complaints commission in regard to the unlawful seizure of my vehicle.
Further to this would it please be possible to find out the status of my insurance policy and the reasons as to why I have been told you are in the process of closing my policy.
Yours sincerely
Mr Simon Cordell

Hello Martin,
Thank you for the phone call today to tell me I was still insured.
Could you please pass on the attached documents to Kelly Tiller at KGM one is a Subject access request under the Data Protection Act 1998.
The other letter is just to get Kelly Tiller to confirm by email I am in fact still insured so I have this in writing and also to found out why my van is still not showing up on the database.
And also, about the logbooks which I am still waiting for them from DVLA I called DVLA today when I got back from the compound and was told it can take 8 weeks for me to get the new logbooks, I will therefore send then right over to you by email as soon as I get them.
Many Thanks

I have still not had a reply from KGM about the data protection or an email from them to say he is in fact still insured. And on the Mid database the van is still showing as not insured, due

to this Simon is not driving the van as he does not want to get pulled again by the police which I don't think is right as he has in fact paid his insurance to be able to drive it if he needs to can this please be sorted out as he really does not want any more problems with getting pulled over due to it not showing up as insured. I also have called DVLA again about the logbook and have been told that they should be with us soon.

Dear Miss Brown
My son was due to attend court today at 2pm but he is very unwell as I said on the phone to you his Nan has just died and he also has Crohn's disease and depression, due to his Nan passing away this has made his Crohn's disease come on very bad.
We have tried to leave today to come to the court and had to turn round due to my son needing to change his things again.
Please can this email be passed to the judge to show why my son cannot attend court today.
In addition, please show the judge my son's insurance documents and all the emails that went back and forward to the insurance company.
Can you please ask the Officer that checks the documents to call KGM which will show he was insured and ask him to talk to Kelly Tiller who direct number is in the emails.
Can you please get back to me with an update to this matter and if the judge will set a new date or deal with this matter today as he will have all the documents needed to show my son was in fact insured.

244,

Dear Miss Brown
My son was due to attend court today at 2pm but he is very unwell as I said on the phone to you his Nan has just died and he also has Crohn's disease and depression, due to his Nan passing away this has made his Crohn's disease come on very bad.
We have tried to leave today to come to the court and had to turn round due to my son needing to change his things again.
Please can this email be passed to the judge to show why my son cannot attend court today.
In addition, please show the judge my son's insurance documents and all the emails that went back and forward to the insurance company.
Can you please ask the Officer that checks the documents to call KGM which will show he was insured and ask him to talk to Kelly Tiller who direct number is in the emails.
Can you please get back to me with an update to this matter and if the judge will set a new date or deal with this matter today as he will have all the documents needed to show my son was in fact insured.
Regards
Lorraine Cordell

1 My Company Too Smooth: https://toosmooth.co.uk The website got given to me by my mother / 00/ 10th /14! – "The website is made with a backend with WordPress the website was at 1st going to be only Too smooth hire company for Entertainment He then wanted a section added that included a trade section which would have allowed a user to sign up for an account under a payment method there was going to be 3 payment options which give the user more option for the higher account. With this he wanted them to be able to get their own page and be able to include their form of business. There would have been option that would have included DJs then once for MCs, then one for PA system hire etc. Each section would be under area of location for the hire. This is the section I had problems with as it was in fact like a yellow page for Entertainment but allowing the option for the user to input their company data, so the website needed min input and maintenance. Coding this within the

website was where I had issues as I had to make it also work with the WordPress backend database."

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/**2014** saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to Broadsure and many problems over the last 2 years. Even to the fact from April **2014** when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made. Please can you say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made. Can you also send him over his no claims bonus?
Regards
Lorraine

1 **Asbo Si Note:** The day had turned into the day of the Asbo? - "On the; 06/10/2014 I had to attend to court for the first instance of the Anti-Social Behaviour Order, interim order proceeding to take place; It had got meant for me by the police officer's having a court hearing for the interim Order to get put into place against me, but when I arrived at court legal aid had not gotten granted for me, so Michael Carroll the director of my acting solicitor firm came to court to explain this fact, the judge overturned and granted legal aid, in my favor. In the start of the application for the Interim hearing, the judge would not hear due to my solicitors not having time to go over the case files, as legal aid did not get granted in time, I could remember the CPS and the police did not seem to be thrilled about the decision made by the judge. The court case proceedings were then put off to get reheard at a Hearing on the 22/10/2014." "**Attachments Inside**"

01:36 Hang up.
01:36 Metropolitan Police. What's the reason for your call?
01:38 Hello? I'm trying to get somebody to go through a load of evidence with me in regard to a load of complaints that I have and um, crimes that have been committed against me. Is it possible that you might be able to do that?
01:53 What do you mean go throw it with you? What is it you, you want from us sorry?
01:57 I want the police to act efficiently within, within regards to their policies. I have a website here now that I've created, and I can turn that on public right this second. And I would like to show you where the police officers' recordings that are being phoning in them telling me that I have been robbed down the phone and all the transcribed. I'd like to show you how I'm illegally being detained by police officers who caused fraud, misconduct under the police the police force that they represent, and they've caused negligence towards my life. How they keep, I have been threatened multiple times by officers. I've had incoming calls that they're threatening me, and I've recorded them, and I'll put them up on my website I am being held.
02:39 Right.
02:39 illegally in my, I phoned yourselves loads of times in regards to sorting things. My neighbours have been allowed to attack me and a sex scandal, was created in my name when there was nothing wrong with me medically wrong and no one had any rights and

never served an Asbo and scribbled all over in the Asbo that I'm a black boy on the block and that's why this is happening to me and I don't think want somebody to deal with it. I'm being held in my house today illegally against my will. And
03:04 who has held you in your house.
03:05 the metropolitan at woman called Sally Gilchrist.
03:07 ok.
03:07 There is a Sir Hogan Howell himself, um, authorized it and Jane Johnson the borough commander for Edmonton, she authorised it and they've let another gentleman called Lemmy now who works for the council come in whose fraudulently put a possession order against me.
03:26 Okay. Okay. Okay, well you've obviously got a lot going on there. Can I just take a few details? Can I take your name?
03:30 My name? Mr. Simon Paul Cordell. My Christian name is Paul. I'm not Christian anymore low, now I don't really believe in Christianity.
03:38 So you're known as Paul Cordell?
03:40 Simon Paul Simon. Middle name is Paul. My first name. Simon.
03:44 Okay, and your address for me?
03:46 That's 109 Burncroft Avenue.
03:49 Sorry, what Avenue?
03:50 109 Burncroft Avenue. B U R N Croft Avenue. Who am I speaking to?
03:57 My name is Allison Addison.
03:58 And what borough, what scent? Where am I actually speaking to you from? Where are you based?
04:02 Communications command in Bow
04:05 communications in Bow, Okay, thank you. Who's in charge in charge of you at the moment? Who's in charge of both at the moment? Who's the senior officer there?
04:14 Well, it'd be a duty officer.
04:14 Oh, ok, is it ok if
04:17 I know that one.
04:17 You have access to.
04:18 Yes go on.
04:18 You have access to Google, is that correct?
04:21 No, not while I'm working. No. There'd be no need for me to use Google while I'm working.
04:25 AR, so.
04:25 Would it not be best. Just go if you've got all this evidence, would it not be best to take it all into a police station.
04:32 I, I'm, I'm in fear of reimbursables of walking into the police station. Every time I walk into a police station I get viciously attacked or, and I've, I've, I've, I've had to lock myself in my house. I've had to block my letter box so that nothing can be put in my house. I've got, I've built a website called Horrific corruption.com I've got all the recordings of the nine, nine, nine call centres that I've ever made, there is 220 phone calls asking for your assistance. I've got all the videos of what my neighbours were doing to me, banging on all the walls, attempting to murder me, taking my right to life. Article 2 and Article 13 I've got all of me explaining then the phones, what they were doing to me, they, they, they.
05:09 falsified paperwork.
05:10 Ok but is it's complaints against police,
05:12 it's not just.
05:14 And you are not happy.

05:14 it's against civilians as well they attempted to murder me and it's attempted murder. It's more a knock a banging noise starts with something called Christie V Davey, which is a tort law, which is okay. Two people started, a woman started banging a block once a long time ago and they created the law, the tort law, the Christie V Davey. Then after that become hate crime. When somebody continues doing that hate crime is an actual crime. It's in a criminal offense than after hate crime. When someone continues to do something for a duration, like five years torturing you while you're inside your house being illegally held and they banging on the walls and an I am phoning the police that becomes attempted manslaughter and it's above section 18 with intent even though it's still does hold a tenant and have spoken to the Supreme courts and I spoke to the European committees and that and I'm building my, I built an official report. I've got loads of police officers that I've let into my house and had dictators in my pockets. I've gone, going through the report with them in my front room. They've not known that on recording,
06:12 Simon, Simon, I'm going to have to stop you there.
06:14 For what reason.
06:14 Okay. I don't think, I don't think this is something I can deal with over the phone.
06:18 why.
06:18 Okay.
06:18 So, can you send a police officer to my house.
06:18 Have you spoken to the Independent complaints commission.
06:23 Yes, I have spoken. I've, I've had dealings with the independence complaint commission, and I've had dealings.
06:26 Right.
06:26 and I've had dealings with guy. I went through this case through the appeal stage for JR and the plea, the metropolitan police in your course and as a lot of the people that I have on recording from your call centres who's about to most recently lose their jobs because their voice are on there and the names and everything, they've signed that said and done, every single one of them is all say that I have been robbed. your black boy on the block. You dead. Do you listen to the recordings now online? Yeah, before I publish it.
06:53 I, I, I am not going to do that yeah. Yeah. I'm not going to actually do that. I can't do that
06:56 before I publish.
06:57 ok.
06:57 them to everybody. Yeah. But you can get a police officer, a police station that can take my case on and deal with it efficiently how it is supposed to be dealt with. You have whistle-blowing policies and procedures. One of them is called the Codes of efficiency, the Act 1999 and 2003 and now I call you and your name and I tell you what that efficiency Act 1999 does and 2003, it says if I tell you what another police officer is doing or another servant who assigned the Alliance of oath and you do not act a formatively and call and interview between you and that person you are as bad as that person if not worse. Now I've informed you that Steve Ellis has fraudulently made an Asbo application. You can go to that Asbo application because you are working for that company and you can see that each police officer falsified four statements in them, four statements. They never got victims. They never got no victims to sign for them. The statements, yeah, they falsified the paperwork. All the timestamps to your Cads, the CRIMITS that are come out. Yeah, they made them all up for progress way which is one area because no one really went there.
08:06 Simon, Simon,. I'm going to have to stop you. This is nothing I can deal with other the phone.
08:11 You can do connect efficiently. I'm telling you what they're doing.

08:14 Please.
08:14 I'm going to put your record.
08:15 Simon.
08:15 in online in a second and.
08:17 please.
08:17 you're going to be famous as well for not protecting me.
08:20 Please listen to me. I want to help you, you need to listen to me
08:20 My human rights are important,
08:21 so listen to me. Okay? This is not something I can deal with over phone at the moment. Okay.
08:29 You can send a police officer under the police reforms at 2003 which or 1999 which is,
08:34 ok, Simon
08:35 Simon I am going to advice you for the first time. This is not something I can deal with over the phone,
08:40 so you consider.
08:41 ok if you want an officer, if you want an officer.
08:41 use people do, you have resources that you have available to you.
08:44 Go down to a police station.
08:44 Can you look at, can you look at complaints now and please, can you, can you look a complaint and send it? Can you log a complaint right now for me? Please?
08:52 I am now advising you for the twice.
08:52 Can you, can you please look a complaint from you? I'd like to make an official complaint to you right now in regard for the offices that I'm putting you in receipt of the evidence of, and I want you to log that onto the computers, now in front of you as somebody to deal with that with the duty of your care that you are supposed to
09:06 Lower your voice then. Lower your voice Simon. Okay.
09:09 Yeah.
09:09 You need to lower your voice So the idea is always, if you wish for me to help you,
09:11 I'm tongue tied madam, I' am, tongue tied and I have pressured speech. I went to speech therapy as a kid and everything. I don't ever mean to be like that or be any way. It's just lisps when I'm trying to speak. That's what happens sometimes.
09:25 Okay. So, which what is your new complaints you wish to make?
09:28 My complaint is that metropolitan police force are illegal.
09:32 Right. Can you speak slowly as well? Because I do have to type. Okay, so you wish to complain that the met police. Yeah.
09:38 Yeah. Have promised that once the case, the ASCO case had finished in court that they will, and I've got the recording of this.
09:46 Can you slow down for me. Yeah.
09:46 have promised in the recordings. That I have online that once the Asbo,
09:53 sorry, sorry, sorry, the Asbo case once it is finished in court.
09:57 Yeah. That Steve, Tom, Sergeant Thomas on phone me on an incoming call as well as many of our offices did throughout the four years, of its ongoing. And they promised me that the second that the case is over the second iPhone use lot again in regards to putting an official complaint in that you will act efficiently and that you will, you will stop them police officers from working and do whatever has to be done. If the evidence,
10:21 I'll write slow down slow down because I have no idea what you're talking about. The slowdown. So, they promised you that once the case was over, they would efficiently, and the police officers would do what?

10:31 Take an investigation in regards to the negligence and misconduct that I claim that their officers have pursued in against my free will against me.
10:41 Okay. Okay. So, they would investigate. Yeah.
10:44 The negligence and misconduct.
10:47 Against you.
10:47 that the police officers have falsified against me under the Fraudulent companies Act 2006
10:55 The officers have falsified information. Yeah.
10:57 They falsified under the companies Act 2006 falsified fraud under the fraud company Act 2006.
11:02 ok.
11:02 and I would, and I've got recordings of loads of the sergeants phoning me telling me that the second I have, I can do this, that they're going to investigate the timestamps that go backwards in your call centres. They are going to investigate the, I'm not the right colour skin to fit the crime in the beginning. And an IC1 has committed the crimes not an IC3.
11:25 Ok you need to slow down.
11:25 I am sorry Madam,
11:29 It's just me typing.
11:29 I am sorry Madam. Sorry.
11:31 If you want me to help you.
11:31 Sorry, I can type fast. That's what it is. I, I, I'm not even trained. I'm not even trained or in a call centre and used to see how fast I can type.
11:40 Good for me.
11:40 Good for me. That's good for all of us. because I wrote paperwork and policies for all of us, I wrote a model constitution to protect your children, my children and everyone and use and your company discriminated me and scribbled my black boy on the block. They called me a black boy down the phone and I'm going to go public. And then hopefully when the coppers come into work tomorrow, if you look at the website when you go home, if I leave it on overnight, you're going to say to them, why did you come into work? Are you all going to be looking at each other, put in handcuffs on each other? How have your friends in that call centre that I've got on recordings are in so much trouble? It's unreal.
12:16 You don't need to start taking this very seriously. Cause I want to do an inner body claim and sort this out in a body and you all keep on Boying me and telling me to go out and go out of body and go to a solicitor. I am ready to send my paperwork to solicitor and that's what I'm trying to show you through that website now. Yeah. Yeah. I want somebody to deal with this inner body and what my proposal is to use lot.
12:36 Simon lower the voice,
12:38 Sorry, sorry. What my proposal was to use lot what has been in all the recordings. I knew that use lot fraudulently defrauded me from that the company done that to me, but what I'm saying is they never proved, I never really threw the parties. The Facebook parts. The people that really throw the parties. I copied their Facebook profiles and I've put them on Facebook so you can see that I never really throw the parties.
12:57 There dead
13:00 Simon, I've got to tell you now, I'm not going to be looking at any Facebook. I'm not going to be looking into anything that is in relation to this.
13:04 It's not Facebook. It's not Facebook, is its.
13:06 Or Google, I am not going to be looking.
13:06

13:06 Yes but a police officer, a police officer above you who is supposed to be who is supposed to be acting under the codes of conduct that he did. We worked efficiently and we'll deal with this and you will act under the whistleblowing policies and you will work to efficiently under your, under your cabinets policies.
13:22 Ok Simon.
13:22 Do you have what you, you are governed under the equality to Rights year. Do you know what the equality work to equality to rights is?
13:28 Simon please stop, I am going to.
13:28 non-Auditable
13:28 If you do not stop shouting,
13:30 I'm not shouting I'm tongue tied. It's a disability. I get getting money for it.
13:34 I do apologize to you.
13:34 I said disability. You are having a go at me because I've got a disability because I'm disabled.
13:38 I'm not.
13:39 Yeah you are. You are. I'm you are. I'm sorry I can't help be in pressured speech. You are. I can't help being like this is the way I was born. I've got, I've got a finger under my tongue and it hasn't been cut so I, that's why I had to go to on the blue bus at school and go and talk and they have to teach my speech therapy my whole life. I've been like, okay
14:02 Simon. Okay, I understand. Okay, I'm postural plate down for you. Would you like a reference number for your calls?
14:08 I would appreciate it and I would like to know if somebody's going to call me back and who's going to call me back?
14:13 I don't know the name of the officer who is going to call you back but it hasn't been passed through to them ok.
14:16 Can I take the number then please and the Cad number two this call and the rest of it.
14:20 The CHS reference, I am on CHS and the reference is three zero, zero, zero nine all right.
14:30 30009 and then what got today's date at the end of it?
14:36 You put the dates.
14:40 And what is todays date again.
14:40 Sorry, let me finish speaking. Today's date is the 6th of October **2014**
14:45 Ok, well, do you know what you've listened to this year. If you check on Google mobile phone. Yeah, mobile phone doesn’t show of the case files and all the coppers names and everything. Yeah. I'm going to turn the website on for an hour because I believe that some are used. I've got a PC and then you can actually see what's actually happening. I haven't even loaded up half of the audio and the video evidence software yet and I haven't even started on it. I'm about to start on it in a minute. That's why I'm trying to phone you and sort this inner body rather than just going to, I've got barristers and solicitors begging, have you worked at seven years holding me hostage?
15:15 Simon I am clearing the line.
15:15 Can I just say, well, can I just say one thing to you?
15:17 Yeah.
15:17 Now listen to this. This is important for all of you.
15:19 Yeah. Seven years. Yeah. Holding me hostage here. If you work out the hours in seven years, that's one and a half million hours. Yeah. If you take away, then $500,000 say I was asleep. That's 1 million hours. Yeah. The I've been up studying, doing my

defence phoning use lot. Yeah. If I get one pound that means every pound, I get in compensation every hour. Yeah. I'll get 1 million pounds for the seven. It's seven years I've been phone use lot and explaining to you everything that's been going on. Yeah. I want I'm; I want to get what's rightfully mine and what you knew from the beginning. I've got recordings of them doctors in this house and the police in his house going through the Asbo in **2014** with me and always saying I'm not the right colour. Notice in the missing signatures in the report in **2014**, going through my medical notes in **2014** knowing that there's nothing wrong with me, and then use that. Continue spreading all these rumours and this sex scandal.

16:10 Simon I am clearing the line.
16:10 An endangered Hyde's life Shannon's life and the rest of us.
16:13 Simon I am going to have to clear the line good bye.
16:13 Yeah, we'll use, I have a good day then. Oh, good evening. Sleep. Well.

Hi Simon,
at the moment you have all the paperwork relating to the Hall. We have got a meeting with Monica on Monday about training; and not sure what else. You would know from going through the paperwork, what we are missing?
It's a matter I think of let's see what happens then. In the paperwork is there minutes or notes from the last AGM as she would like a copy. We as the committee have got to put together an Asset Register in the hall. Did you call Mark at F.E.C.A about our paperwork down there?
Thanks

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/**2014** saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to Broadsure and many problems over the last 2 years. Even to the fact from April **2014** when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made. Please can you say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made. Can you also send him over his no claims bonus?
Regards
Lorraine

Date: 01/10/2014

Dear Mr Cordell

Offence of used a motor vehicle without insurance on 01/01/2014
Date of conviction 28/07/2014

Thank you for your email received on 12/09/2014. You state you did not know about the court hearing until after the court had started to hear the case. You may be able to make a statutory declaration that you were unaware of court proceedings.

You have **21 days** from the date on which you became aware of the case to make a declaration. If the court decides that it was not reasonable to expect you to make the declaration within this period, it may accept a late declaration made out of time.

You can make a declaration at your local magistrates' court and must attend in person to make the declaration. It can not be done in your absence.

If you make a declaration which you know or believe to be untrue, you could be convicted of perjury, a criminal offence punished with imprisonment of up to two years. Any financial impositions and penalty points remain valid and enforcement of financial impositions will continue until a declaration has been made.

Following the making of a declaration, the prosecution may decide to restart proceedings and the summons may be reissued. You could be given another court date when the matter will be heard.

Yours sincerely,

N Williams-Burton
Administration Officer

Above is a picture of the reply where you say I have 21 days to file a statutory declaration due to me being unaware of the court processing.

Dear Sir or Madam
I have tried to call the court on a number of occasions regarding my conviction and sentence for no insurance but the phone just rings when I press the number given to ask about this case the telephone number, I am calling is 0208 955 0555. I have now found out the information to the case but pressing number 7 the lady I spoke to did in fact try and put me to a manager but that also just ring then cut me off. So, I called back again and asked her if she could give me the information which she did.
I am making this request to have my case listed in order that I can do the following.
Application to set aside the conviction
Re-open the case

Application to set aside the conviction: -
On **01/01/2014** I was stopped by the police as they did not believe that I held a valid policy of insurance. Due to this being a holiday my insurance company was closed so the police could not check if I was in fact was insured, I was insured and asked the police to check their records due to the number of problems I had had with my insurance not showing on the MID database and being stopped do many times they did this and could in fact see many times but still impounded my van reg CX52 JRZ.
After the holidays I went to the compound and had to again pay for my Van to be taken out of the compound.
I never received any summons in relation to this matter and I only became aware that the case had been dealt with in my absence when I received a letter from the DVLA advising me that I had to send in my driving licence. I disputed with the DVLA the points, but I was
261,
given an ultimatum that if I did not send in my licence it would be revoked.

me was KGM, and my broker was Broadsure direct I am the named policy holder, Mr. Simon Cordell and my policy number is MT3574694.

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/**2014** saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to

Broadsure and many problems over the last 2 years. Even to the fact from April **2014** when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made. Please can you say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made. Can you also send him over his no claims bonus?
Regards
Lorraine

Thank you for your recent enquiry with regards to UNECOL House. I am writing to advise you that the Council do not hold presently current blue print plans for this asset.
1032,
I can advise you however that the site is c 30,000 sq. ft in size and the Council maybe seeking to market it in the Autumn for a tenancy. If you may have an interest in this, please by all means send me details of your business and your outline proposal for utilising this premise. (if applicable) I hope this helps for now.

Hi Patsy
1039,
Thank you for your email. In terms of policies there are quite a few required e.g. Health & Safety Policy, Equality & Diversity Policy, Safeguarding Policy, Data Protection Policy, Financial policy etc. We have some good practice guidance of the roles of a management committee which I can bring along next Monday, however the trainer that I will be bringing along will be able to provide advice, guidance and also deliver training to yourselves on both the role of a management committee and your responsibilities of managing a hall, including all the policies. Pricing of the hall needs to be consistent, there is no difference if you are a member or non- member. The current pricing of our halls is £13 per hour for voluntary groups and £23 per hour for commercial/private companies to use. For parties from 11am to 11pm the rate is £230. When you provide the booking to your hirers you should be getting them to sign a hire agreement so that they have something showing their responsibilities and also this is there receipt of payment. We can build on this as part of the training with the committee. Once you have confirmed if 13th October is good for you all, at this meeting, could you provide me with a copy of the minutes of your AGM and your accounts please. Any questions then please let me know.

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/**2014** saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to Broadsure and many problems over the last 2 years. Even to the fact from April **2014** when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made. Please can you say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made. Can you also send him over his no claims bonus?

1 Si Note: I have heard people say their hair is falling out and now so is mine! - "I can say with a smile on my face that even with the problems that I got faced with, that summer seemed to last forever and in the middle of that summer, I can remember being at my new living partner home address, when I was painting the young Child's bedroom, this was due to the child sleeping down stairs in the front room between us and this was as no other man accomplished this for the pair of them already. While decorating and painting the bedroom; my new living partner at the time had gone for a routine check-up at a sexual clinic in her own area, at the time this was of no concern to me and I went happy for this to go ahead. In the middle of me fixing the bedroom up to a nice standard, my new living partner arrived back home, she asked me to sit down with her, as she had something important to explain to me. We walked into her hallway, this was at the top of her staircase and was outside of the bedroom, that I plastered and decorated, then my new living partner started to explained to me what happened, she said that while she was at the clinic, she got in their medical chair to get her check-up, when the woman looking after her welfare, said to her that she had noticed a spot on the top of her ass cheek and that as the clinician she wanted to test it. My new living partner explained to me that she allowed this to happen and was now waiting for the test to confirm the results, as a result of this; we were both then waiting to find out if this was of any concern to us both. After explaining this to me, she took a seat at the top of her staircase and pulled her trouser bottoms down, pulling her leg right up into the air showing me the top of her ass, this revealed to me what seemed to be a normal spot in my eyes, that any other person's may see on any other person, that is to explain. With myself being me and what just

got told to myself, I never really managed to contemplate on the full understanding of what had just happened to me and how much that moment would change the rest of my life, what got said had yet to sink into my mind. I remember smiling at her and telling her that nothing will matter as I will be there for our family and things will be OK."

In layman terms, his so called flat, got said to be in the same block but on the other side to me and not directly above mine, but months later I found out he was a liar. He used to befriend me, when we would meet in the corridor or outside of the block of flats, whenever I bumped into him as he would go up the stairs, to try to kill me. I never knew it was him at first, who had been attacking me, with his stepfather and mother, I saw him so many times throughout the years of being violated with no help of the police or council and never believed in their being anywhere next to the amount of evil in him and because of this I continued to say hello to him whenever I would see him, as a response to me, believing that he never followed suit with the rest of the involved members of neighbors, I always would be polite and courteous towards him for that portrayed reason. He would display himself as well-mannered and seemed to be trustworthy, throughout this time. So, when the Mathiyalagan Markandu family had acted ignorant towards my wellbeing I sought further assists of other people and the Mr. Mathiyalagan, elder stepson had become one of them people. I understood for him to live on the same floor as the Mathiyalagan Markandu family, and he was also of the same ethnicity as they; of an Indian culture, so I trusted in him of fixing the issues going on, with his good honest help. In seeing Mr. Mathiyalagan, elder stepson, on a sunny day I then had good reason to believe that moment in time would be a good opportunity for me to start reasonable discussions with him and away to further express; how I had prior helped the Matthews in the start of them moving into the flats and in doing so asking him to talk to them, he agreed to do so. I continued our conversation by saying to him it was wrong for his next-door neighbors, to be doing the things they do towards me and further asked him for his help in him approaching them, as he was still their friend and he could act as a neutral person who could do a good deed by helping us all to rectifying the problems, after we had finished chatting all had gotten agreed to get accomplished, so I concluded in him and hoped soon after I would get privacy in my home again."

I am writing this email after a call that was made to the **City of London Magistrate Court** on the **10/02/2014** about a list that is on my PNC that is incorrect. I was told to write this email including as much information as I could to get this updated. I have contacted you a few times before about this Error on my PCN and was told that you would get it updated but as of now this has never been done. I was told on the **10/02/2014** when I called due to the date that it would be down to the police to update this. You would have only forwarded the information to the police to get this updated. The Error is for a case that was heard on the **03/03/2008** at the City of London Magistrate Court, for failing to surrender to custody at appointed time, on the **25/01/08**. The error is that I did not go to go but my mum called the court and a sick note was handed to the court and the case was dismissed, so should not be on my record This has caused me problems with bail on a few times and this is why calls have been made before to the court, at this time it has been causing me problems again with a case I am at Woolwich Crown court for.
1051,
I have attached the page for the PNC print out the police did for the case at Woolwich crown court that I am on bail now for. This print out was done by the police on or around the **26 June 2013** for the Woolwich case. I do feel this is causing me problems with my bail and I am therefore asking for this to be dealt with as fast as possible in order that I can show the court this should in fact not be on my record. I was told on the **10/02/2014** when I called that if I ask for a court transcript that this could be done faster than updating the PNC records and I would be able to show the Judge at Woolwich crown court the court transcript for the case that is on my file in error and that should be enough to prove that it should not be on my record. I am there for asking for the court transcript to be sent to me if there are costs for this please email me back with the cost for this to be sent to me and I will get this paid to the court. Please see attached file for the page in my PNC record which is there in error I have highlighted the case. If this can be done as a matter of urgency due to the impact this is having on my life.
Many Thanks
Mr Simon Cordell

After your email dated the 21/02/**2014** I was thinking that you would be searching for the data from the week of the **24/02/2014** as this is what it said in the email. As I said in my 1st email when asking for the information, I have a case that is at Woolwich crown court and I am having problems with my bail due to the records on me PNC, I am due in court maybe tomorrow or this week as my solicitor is putting into court to have a hearing and I wanted to have any errors on the PNC addressed at court.

Dear Mr Cordell,
Further to the conversation between Mrs Cordell and a member of staff yesterday, please specify which dates and offences you wish us to check. Almost all the offences are archived and not immediately accessible using the computer; specific dates and offences would help reduce the delay in providing this information.

To Whom It May Concern:
I am writing this email as I have an ongoing case at Woolwich Crown Court, and I have noticed some errors in my PNC record which the police printed of at around 25/06/2013. I would be very grateful if you can pull up the following records so I can check them with the PNC the police printed off for the case that is ongoing at Woolwich Crown Court, I have been told I will need a Memorandum of conviction or the transcript for the case. I do know there are some errors on the cases that was heard at Enfield Magistrates and can see them clearly, but due to how far they go back cannot remember some of the cases. I do also know some are correct but due to some dates being wrong on some of the ones I can see errors in I would like to check all the cases on the PNC that was heard at Enfield Magistrates. If this can be done as a matter of urgency due to the impact this is having on my life with the case that is ongoing at Woolwich Crown Court and my bail and other issues. If the information could be emailed to me, I would be grateful as I am next in court on March **2014** and would like this information of any errors so I can show the judge. Please see below the lists of cases I would like information on.
1102,1103,1104,

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/2014 saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not

know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to Broadsure and many problems over the last 2 years. Even to the fact from April 2014 when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made.
1143,
Please can you say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made. Can you also send him over his no claims bonus?
Regards
Lorraine

Hello Martin
After Simon has just got off the phone to you and you saying to him that the full amount would need to be paid to keep the insurance in place or 2 payments at £700 to keep it in place. I fill that this is way too much to ask I have a letter here dated the 26/09/**2014** saying that he has 7 days from that date before the insurance is closed. There have been so many errors with his insurance even to the fact we never got any documents for ages as they were left in the fill and forgot to be sent out. So, for ages we never had any documents so did not know when any payments were due. As you are also aware my mother passed away and the family has been dealing with that also. There have been many emails that have been sent to Broadsure and many problems over the last 2 years. Even to the fact from April 2014 when Simon started a next insurance policy that all went wrong also by no fact of his own, and you making a payment to the said company I fill should never have been made. Please can you

say what is going on with the insurance policy and if instalments can be made and by how much as ATM there is no way after paying for a funeral that 2 payments of £700 can be made.
Can you also send him over his no claims bonus?
Regards
Lorraine

Likewise, I got worried afterwards of what had got explained to me, by my new partner about her test results, so I trusted in a close friend, Stan, this was about my problems, the conversation was polite as always and got held in his own front room, this was while over a drop of whiskey, that he had offered to me, at no point of time, did I leave him any concern regarding any intent of a negative attitude about myself and I surely, raised no concerns of a verbal disrespect, towards my second living new civil partner. In this time, I only spoke to Stain, about the problems I was having, this was as I looked at him like a father figure by this stage of our friendship. I believed, and therefore trusted in Stain, partly, as I knew that he was already a father figure, so with this full understanding in mind, I thought he would support me, this being while I was looking after another man's child, or partly, as I had always been there for him causing him no problems of concern."

Likewise, I got worried afterwards of what had got explained to me, by my new partner about her test results, so I trusted in a close friend, Stan, this was about my problems, the conversation was polite as always and got held in his own front room, this was while over a drop of whiskey, that he had offered to me, at no point of time, did I leave him any concern regarding any intent of a negative attitude about myself and I surely, raised no concerns of a verbal disrespect, towards my second living new civil partner.

In this time, I only spoke to Stain, about the problems I was having, this was as I looked at him like a father figure by this stage of our friendship. I believed, and therefore trusted in Stain, partly, as I knew that he was already a father figure, so with this full understanding in mind, I thought he would support me, this being while I was looking after another man's child, or partly, as I had always been there for him causing him no problems of concern.

Disrepair!

I treat the council officials with reverence in the believe that they must act in a natural manner when dealing with incident relating to their clients but they act Inferior with bios decisions against me, resulting in no logic or fair gain at the conclusion of incidents, once put in receipt of true official evidence and this is at my loss of life without any erroneous doings from myself!

1 **Asbo Si Note:** Going, to the court for the Anti-Social Behavior Order. - "Going, to the court for the Anti-Social Behaviour Order case for the second time meant that when I eventually, arrived at the courthouse, so for the prosecution to apply to place an interim order conditions on me I got upset, as this would allow the police too also apply for conditions of bail, against my liberties and legal rights, I understood this would be until the application got proven or not, the district judge allowed for the interim order to get granted but without the conditions of bail. If I try to recollect what actually, happened next, I would remember; the prosecution on this day were organising their case and trying to continue to apply for the conditions to get instated on me, I found no judge would grant them. It was peculiar, as the judge, walked out of the court room until another judge took their place and also would not hear this case; this proceeded to happen in the first few of the courtroom hearing instances. Check to put together same day! The Asbo interim order got granted against me without conditions. On the 05/11/2014 I had to attend to court yet again for the Interim order hearing and the order got granted. My Acting Barrister could not attend due to the flood in his home; a next Barrister came to court, but had no paperwork for the case I understood this is why the

interim got granted as nothing got said in my defence, when I attended to court and the interim order proceeded to get granted by a funny judge and her name is Xxxx, after the hearing finished, the trial date got set. The atmosphere in the courtroom continues to get wired as somebody had kept on controlling the additional light switch for the courtroom from outside and kept turning the lights on and off, this got done so no person could see each other because of the darkness, this happened in most of the case, right until the judge herself shouted out aloud; for whoever had foreseen this to proceed, to stop, she encouraged this out aloud, so all could hear her voice saying her words. Afterwards she said she would be the judge on the day of my trial. I felt, violated by the justice system, and understood if my own prior arranged barrister could attend who had studied the case files, this should not ever have happened. My barrister could not attend due to a water flood, what took place in his own home; another Barrister, who I had never met beforehand, came to court to defend me, but he had no paperwork for the case files and seemed to do not understand what had gone on so far, in the case proceeding, I am sure this is why the interim order got granted incorrectly, too me, as nothing correct got said in my defence. So, in despair, I headed home and got upset being the judge had allowed this application to happen and started too further look for the right answers to the laws, that should be in place, governing my case, I then took a look at Google for correct answers; I came across the judge's details, who said she would handle the case and granted the order. In reading her online statistics, I noticed a few wired worries, things, weird to me, at least which are: - "Notes Inside."

Debra has gone made chasing me around my flat, doing her best to attack me and I could prove this got done with stain at this stage, but not with the Mathiyalagan Markandu family and Co, So I contacted the police by way of calling the police 999 call centre and recording the conversations with my own personal dictator about my findings, these are two things that I complained about: --

The Metropolitan Police that I recorded!
And now this is a true copy of the first recording between me and the Metropolitan Police; --
Tape recording one z0000010; --
Welcome to the Metropolitan police introduction; —
Police Officer; Police operator your reason for calling.
Simon: I was just wondering if you could give me some general, help.
Police Officer; Go on.
Simon; All right basically, in **2014** an application got put against myself for an Anti-Social Behaviour Order, that was for the organisation of illegal raves the respondent's case was, I attended to court and I proved my innocence against the respondent's case under section 63 of the crime and disorder act 1998.
Police Officer: OK before you start, you need not give me all the Acts and sections just basically tell me what has happened.
Simon: Alright, since then I have been to court and proved my innocent's and I got found not guilty (Further Amendment 15/05/**2017** "under the respondent's case.)
Simon: What I have worked out since then is that the developer of the application is a Steve Elsmore, and he has done that under a Jane Johnson's Command who is the borough commanding officer for North London, I believe this.
Simon; Now what I understand is that the Urn numbers which are information reports means that every police officer has a special logging when logging into the police national computer and I understand in that development of what the police done 15 police officers sat down at a table and logged in one after the other creating unique urn numbers that run consecutively, one straight after the other, and they changed the created dates on them information logs and what they done was then spread them out other a whole year at the same time they made loads of 999 calls in the actual system and in creating the 999 calls they managed to, the time stamps were wrong in all the 999 calls they are back dating each other now I continually, try to get a police officer a manager of Steve Elsmore to oversee the information I proved that beyond reasonable doubt, I sent them copies of it, the actually, 999 calls when they were being created year.
Police Officer: are you saying the police have been making 999 calls?
Simon: Year, Well I proved I got the evidence I have got a folder here right now I got a bundle and what happened is.

Police Officer; Hang on, hang on, hang on, let me finish.
Simon: yes, sir, go on.
Police Officer: Hang on let me finish so you also say that police are changing reports on the police National computer is that correct.
Simon: Yes, yes that is correct, and I have got evidence of that.
Police Officer: Oh hang, o hangs on, hang on, let me stop you their police can't do that.
Simon: Sir may I say something to you.
Police Officer; Hang on let me finish, let me finish, let me finish OK, police can access the police PNC as you know well, must know, year all right, they can access the PNC, but they only the only people that can change the reports and change the information on the PNC are the people, who; actuary work for the PNC burro who are people employed by the government who are not part of the police and don't even work in a police building.
Simon; Yes, um so OK for this information I have listened to you I sort of believed I had that I had that same belief myself, so what I have done Is write to their; is met cc there is storm and there is; arms, I actually write to the developers of the software.
Police Officer: you wrote, you wrote, (Clearly voiced Mutter "there fucked.")
Simon; Pardon.
Police Officer: you wrote to the development.
Simon: Year I wrote to them and what I have of them is what they gave me a thing saying, members of the police gold command and the same for fire and ambulance can change the created dates now what the problem was.
Police Officer: (Clear background mutter "You was robbed")
Simon: What, the problem was, what the issue is when I, my actual folder here now, I have like ten information, reports of the police where the police have logged into the police computer and done that.
Police Officer: where did you get that from?
Simon: I got served an application an Asbo.
Police Officer: Year where did you get them ten information reports
Simon: Steve Elsmore made them under his own development, now
Police Officer: Yes, but how did you get them?
Simon; Because my solicitor handed them to me, because the application off my case, but now normally, in most instances, this is my issue year, in most instances if this was one criminal case against somebody no one could prove their innocence in this, but what the mistake here that got made here is the police put ten cases, incident on different dates all in one folder, now in doing that the dates all referred to different dates thought an annual, yearly, period, now when I was looking at the information report, which I have in front of me ten different ones with ten different police officers names, they start with Urn numbers and the Urn number is Yert00376227 for instances on this one here, with Steve Elermore's login name, what happens is you go to the next information report which is another date and it has the same Urn number but with just one number above a police officer logged straight in and changed the created dates and I got another one here that does actually, the same it goes up one number and then another one here that goes up another number 798 and they're all unique Urn numbers but the created dates were changed thought.
Police Officer: what is your name?
Simon: my name is Mr Simon Cordell, these police.
Police Officer, where are you calling from tonight then Simon?
Simon: I am calling from my home address where I am being held. Police Office; But why!
Police Officer: but what is your home Address?
Simon: my home address is Burncroft Avenue.

Police Officer: and why are you calling tonight, other than to recite all of this information to me?
Simon: because right, now, I understand.
Police Officer: what is your reason?
Simon; becaus**e:** I understand my Human rights and what you as an original police officer.
Police Officer: Simon I am going to give you some advice now as a police officer, I am a Police officer, if you got a problem or a complaint to make against some police you need to log that you are not getting fairly, treated.
Simon; sir, sir.
Police Officer: hang on let me finish, let me finish it's my turn to talk.
Simon; yes, OK.
Police Officer: you believe that there is corruption in the police, you need to go to your solicitor and log a complaint with your solicitor or professionally, log a complaint with the police.
Simon: I have.
Police Officer: or you need to go to the Ipecac.
Simon; Sir, Sir.
Simon; OK! Carry on then sir.
Police Officer: if you have already done that if you already done that then you must let them do their job, all right.
Simon; Sir can I just say something, OK I respect what you said to me, but I am asking for the better judgement of yourself, which I understand that you are already trying to give to me, but what my other issue is I have got lots of issues here that this case clearly said that it was illegal the organisation of illegal raves yes therefore if it was illegal then I should have got arrested under that pretence yes because there is; criminal and civil law because I never got arrested for something that is illegal, now what I done was I logged three complaints in, official complaints in through the police procedures and I done that under the Ipecac advice to do that, now they told me, I got a letter here where the complaint got suspended until further, until the case is over because it can cause produce towards the case, the on goings of the case
Police Officer; "A mutter that not auditable."
Simon; know what has been going on is these police understand, no matter what; the second I get to court I will prove a section 63 should have never got imposed onto me, as for it is only for outdoor events, and implying.
Police Officer: and when you got to go back to court.
Simon: they keep postponing the case until September.
Police Officer; "A mutter that not auditable."
Simon: But the issue is I have been waiting since **2013** to prove, I am innocent, now what I done to go even further
Police Officer: what you just when you first called was that you were organically, not first found guilty.
Simon: Yes, that is what it was, and I have the transcripts right here to prove that.
Police Officer: what is wrong with you not being found guilty then?
Simon; year but when I got found not guilty what the judge did was wrong under the applicant's case is, I got found not guilty but what they done, I got the transcripts' saying that he wasn't found guilty for the organisation of illegal raves, what she done was she in the court she goes well in **2014** you swore at a police officer, I got it in the transcripts, she goes, so I will give you the Anti-Social Behaviour Order for that, but that is a section four or five under the riot act and I should have got arrested then for that or I should have had a member of the public bring a civil case and no one done that.

Police Officer: and who gave you that a judge?
Simon: yes, and she has done that incorrect and I am waiting.
Police Officer: she, she, have you complained against the judge?
Simon; Yes, yes I wrote two articles six's and handed them in and I proved that all the 999 calls go backwards in time, yes, yes, from the previous one's yes, it happens in about, because I got, they accused me of ninety-three incident numbers yes, but they only gave me the paperwork to thirty of them yes, for one day, now in them thirty days they have blocked out grid hum location numbers yes and forgot to block out all the grid numbers, now when I check the grid numbers, now I am being accused of one place being in Progress Way but the grid numbers show that they are all across the country, Yes I could not be in one hundred places at the same time.
Police Officer; Simon! Simon! Simon! Simon! Simon! Simon! "Bull" why is you actually, calling tonight.
Simon: Because, I am stuck in my house and I am therefore being held hostage, and I get scared to walk down my hometown street!
Police Officer: no, you are not, you can walk down.
Simon; no, I can't.
Police Officer: hold on, hold on, hold on, let me finish, your court case is not until September.
Simon; yes.
Police Officer: you are innocent until you get proven guilty you can walk wherever you want.
Simon: I have got fifteen of the highest-ranking officers, yes, that have sat there at a table and manufactured the evidence and fabricated it together yes, they, under the article.
Police Officer: who would go and do that?
Simon: under article three of my Human Rights, it states that it is inhuman.
Police Officer: why would they do that?
Police Officer: why would they do that why would they do that?
Police Officer: would fifteen high level police officers be interested in you?
Simon: I got the paperwork here to prove that has happened yes and to prove.
Police Officer: what you need to do is bring it to court in September and prove it, they're talking to me, on the phone is not going to change anything
Simon: but I would like to know who oversees, I would like to see who oversees PC Steve Elmore's work, because he clearly.
Polices Officer, where does PC Elsmore work?
Simon: PC Elsmore is attached, to the Edmonton police station.
Police Officer: OK then that would be the commanding borough commander of the Edmonton then won't it.
Simon; yes.
Simon: Only the commanding borough of Edmonton?
Simon: now I have written an article six in, which is about the rights to a fair trial yes.
Police Officer; Absolutely.
Simon: I proved in that article six: — the time stamps, I time stamped everything I time stamped every time stamp that went backwards every geological location; I proved all the things.
Police Officer; so why are you telling me this?
Simon: because you signed up to protect us, the people!
Police Officer; why did I?
Simon: your wages are there to protect me and my friends and.

Police Officer; no, no listen, I don't understand why you are ringing me, it's going to court you have got your evidence, you have got your solicitor, and you have been to the Pip, you just want to argue.
Simon; because I want a police officer to, I want a police officer, because this police officer has now gotten told to go away and UN retracts everything in the book's that he forged alongside with the other officer's and to hand it in.
Police Officer: how do you know that?
Simon: the judge has told them that is their orders right this second.
Police Officer: well, you are not going to court right up and till September.
Simon: yes, again, I have been to court already nine times sir.
Police Officer: but you got found not guilty.
Simon: yes, but I have now been to court nine time still trying to get my freedom, right now section 63 is wrongfully, being imposed.
Police Officer: Simon, Simon I will go right now, you have to take it up with your solicitor.
Police Officer: hang on, hang on, I got to go.
Simon: what is your name, sir?
Police Officer: my name is PC Lean, thank you very much.
Simon: PC Lean I have been recording this conversation I hope you would like to know that and if you would like me to play.

a nice way in the past and I didn't know them or their names, other than that. We spoke politely, to each other and they maintained that it was Deborah Andrews who was doing the assaults against me, when I spoke with them, I asked Mr. Mathiyalagan Markandu whether he would write a letter in regards about Deborah Andrews negative actions and the concern for him having his new born child in the flat around her because of the continuing loud banging noises that got left to happen 24 hours a day, he agreed to write a letter and hand deliver it to my front door, I then asked him whether he would shake my hand in an agreement given his word, he held his hand out and we shock hands, afterwards we both went along in our own days, ways."

"I am forwarding the court note from the interim ASBO application. As I indicated to yourself and Simon the restrictions imposed in the ASBO are imposed to prevent anti-social behaviour and do not curtail Simon's legitimate business interests. The cross-examination of the police witnesses is best left until the full ASBO application. With regards to the witnesses that we required; we did ask for all police officers to be in attendance as they were for the initial hearing when there was a flood at the barrister's house. The restrictions imposed in the ASBO appear on first reading to be fair and the District Judge has taken into consideration Simon's human rights. We return to court in 15th March 2014 when the case is set down for two days. You will no doubt note all the other directions made but we have time to comply with these. Any questions please do not hesitate to contact me."

Go upstairs to help me or Debra by taking control in a positive aspect!
On this day I asked Stan if he would go upstairs to debris and try to resolve the problems he said: no. When I asked why he explained to me, that one day not so long ago at this time of relevance, he had been in his own back garden when Debra had been upstairs drunk in her flat.

2 **Si Note:** I Received a Phone Call - "On this day I received a phone call of my new living partner and got asked to attend her mothers and fathers' home as her mother and father had fallen ill, I attended and done my best for them all and because of this event her father and mother ended up ill in the hospital. I picked my new living partner up from the other side of London from her own house, and we soon both arrived at the hospital. At the time I felt it was best to give them all some additional space for myself, as of what had happened in the accident. I always missed my new living partner and ended up going to meet her in my car whenever I could. If I could drive outside of her home and visit her, regularly, with her consent. At times, we would go out together and afterwards maybe end up driving around for hours; we basically, enjoyed each other's company. The reason that we never went back to

my own flat, like we done prior, was partly because of what members of my neighbours had already done to me: their attack on me that is to explain, since I entrusted in stain and them."

1 Si Note: I received a phone call from the Clinic Evergreen - "At the same time, I had already been to the clinic and requested to have my blood test taken, when I received a phone call of the clinic of a woman a few weeks later about my results, she explained to me, that I tested positive in my results for HSV1, when on the phone to the woman I asked her the line of questioning such as: can I still have a healthy sex life, she told me no and that I from now on should not kiss another person or have sexual intercourse. When asked why she continued by saying: - as fluid could come out of any contraception that may get used and it could get passed on to any other partner, being told this information I got left feeling heart broken, I remember putting the phone down and wishing that I was not alive anymore with the thought of it being possible that I hurt a woman and being a man. I left my mums soon after this and travelled back home; without talking to her about the phone call or problem yet. After I had received the phone call, I ended up looking to Google for answers and being left even more confused, I read articles about other people who gotten diagnosed with the same problem and wanted out of their life's. A few months later, I was to realise that when I was on the phone to the colimitation I never got asked to attend the clinic for any advice or contraception, leaving me searching for my own answers and understanding of what was taking place. I remember arriving at my mother's house because of members of my neighbor's cruel treatment and I further contemplate on the fact that I had to walk rather than drive, the reason for this was because I had been placed on nine times the amount of driving bans, this was at no fault of my own, totaling to 46 driver points, there is more about what happened to them occasion later on in this book. On arriving at my mother home, I went upstairs one day and I remember this day to be on a Sunday evening. I was still upset as if in I was down in the dumps, so I went up stair to speak to my mother and sat down at the bottom of her bed. In talking to her I shared my problems with her and explained the problems I was facing, during our conversation I remember feeling like a little child the reason being for this was due to not sitting at the bottom of my mother's bed talking about troubled problems of mine since I was the youngest child for many years prior to this date. During the talk with my mother, she asked me what happened when I got called back in to evergreen clinic after the phone call, I had received from them, that was in reference towards my test results. I explained to her that I did not get called back and this is why I never understood the situation that I was in. She got surprised to understand that I never got called back into their offices and spoken to and was for surely, flabbergasted to understand that I never got given any further guidance or contraception."

Telephone call received from Simon's Mother to say that he is really unwell. He is extremely paranoid towards her; he thinks the television is talking to him and is having quite a lot of trouble with the police. He is very paranoid towards them also. I have given her the number for the Hub to make a referral for her son. He is currently staying with his Father as he is so paranoid towards his mother. She said that his father would help as much as he could, but he doesn't know how Simon will react if he hears his father talking about him.

3 **Mental Health Referral:** The Lead Up - "Not being able to bear the sound problems with my flat anymore; I knew what was getting done to me, is; "wrong and illegal." This was when I was to realise how inadequate the sound proofing in my flat really, was. Because Ozzie had wanted his friend to live with him, he kept pretense that he could not hear me and my first partner over the first five years. I was to find out how much this was a lie. I was angry with Ozzie because he caused a lot of unneeded stress on my relationship, for so many years prior and he kept breaking promises to fix the problem. So, when the police arrested me in the burglary case and I got put on the bail conditions I had gone to Ozzie house and spoke to him, I took a seat in his flat with him, so to sort out the problems in mine and my partner's life's, I did this so to address Ozzie with the issue. I explained myself in full and how this was having an effect on us. After coming home, I had been upset due to what had got explained to me, by my new partner at that point in time. What I was to find out later was that Ozzie had been listening through the walls of my upset. I still to date cannot believe what he has done to me, and my loved ones, he had made an emergency 999 phone call to the police about overhearing me in my own home and then the police called the doctors to arrive for the first time in my life and this was not be the only time the doctors would visit me. Allegations state that I became paranoid about my mother to whom I and my mother disputed, the home treatment team attended my home address on this date and made a call to my mother. When the home treatment team turned up to my flat the police was already there, the home treatment team phoned and spoke to my mother asking her, if she understood why the police was there, which she replied to them no, she also explained to the home treatment team that the police kept coming into my flat for no reason. The Home treatment team then talked to the police and left my mother on hold. My mother heard what got said by the police to the home treatment team as too why they were at my address again. The police said they got a phone call: stating that I was shouting, they gave the home treatment team 3 different door numbers to my entrance door, which were all wrong. Not one person admitted that they understood who made the 999 calls to the police. The Home treatment team told the police to leave. On this day I was fine until the police turned up at my flat once again. I was not shouting or upset, so do not really, believe someone called the police, worried about me or if they did, they were setting me up. Due to how the police are with me, I got upset and would not open the door, so I sometimes shout to the police in these situations, through the door, as I feel safer, the police do not leave me alone, so why would I open my door when I am on my own, I always feel safer waiting until someone I have contacted gets to my flat, so they can see what is going on. Home treatment team told my mother I seemed to upset for them to talk to and she told them it was no wonder the police are going to his flat all the time when he has done nothing wrong.

Update: 19/11/2014

Update: 03/06/2022

The Lead Up
Not being able to bear the sound problems with my flat anymore;
I knew what was getting done to me, is; "wrong and illegal."

This was when I was to realise how inadequate the sound proofing in my flat really, was. Because Ozzie had wanted his friend to live with him, he kept pretence that he could not hear me and my first partner over the first five years.

I was to find out how much this was a lie.
I was angry with Ozzie because he caused a lot of unneeded stress on my relationship, for so many years prior and he kept breaking promises to fix the problem.

So, when the police arrested me in the burglary case and I got put on the bail conditions I had gone to Ozzie house and spoke to him, I took a seat in his flat with him, so to sort out the problems in mine and my partner's life's, I did this so to address Ozzie with the issue. 3 **NHS:** Colin Clancy Nursing / CRHT / **Time** 19:12 - "Mother, Lorraine: 020. Father, Ben: 0741. We spoke initially with mother on phone. She reiterated that Simon has suffered years of harassment by the police for past offences. Not all true. She has spoken with him today and he has been extremely angry with her and the father. We stated to mother that we will be tactful and say only that the family were concerned. We attended the flat around 17.30. There were police outside. They had been attempting to enter as they had received complaints from neighbours due to Simon screaming out in distress. We spoke with the officers and explained that we were from the mental health services. They stated that they had not properly spoken with him and observed him to be holding a small gas cannister, possibly sniffing nitrous oxide for recreational purposes. We all jointly spoke with his mother and she requested that CRHT do not attempt to see him following this as it will antagonise the situation.19.30: Spoke with Lorraine. She stated that a friend is currently with him and he is calmer. The coincidental timing of the police attending has caused him to blame Lorraine for calling police. He is convinced that she is also conspiring against her. he has stated to her that he is feeling persecuted, he is paranoid and suffering ideas of reference from the TV constantly. Lorraine explained that he has had an ASBO put on him due to being aggressive when in court, he has been bailed to his own address c/o a burglary accusation in June 2014. Lorraine spoke of her own mother who has been treated for BPAD and was prescribed clozaril with good effect. Mother is now deceased c/o cancer complications. Lorraine states that Simon has suffered sexual abuse as part of a paedophile ring when younger. This is the source of his anger and subsequent treatment under CAMHS. He has refused to talk about it for years and has declined any therapy / counselling for this so far. Lorraine states that she does not want him to be asked about any sexual abuse. I informed mother of the remit of HTT and that he may be potentially prescribed an antipsychotic for his emerging paranoid psychosis. She reiterates that he will most likely refuse all medicine interventions. He has been prescribed medicine for Crohn's disease. He does not take. We have mutually agreed to plan **CRHT** to call mother tomorrow am to negotiate another visit to assess

Due to KGM and all the time Simon vehicles was sized due to then showing as not insured Simon cannot even drive as his license has been revoked for no insurance. Which, as you are aware, he was in fact insured. As I said, no summons came for 2 of the seizers so we did not know about them going to court and they found him guilty of no insurance when in fact he was insured the reason we found out was DVLA wrote to us asking for Simon License to be sent to them to add the points, these 2 cases I am asking the court to set them aside, and reopen the cases in the email to the court I have sent a copy of Simon insurance. But the 2 courts are taking their time about it to do anything or set a new date. We got one summons out of the 3 cases that I am trying to deal with and sent that off saying not guilty I done this by email also and sent a copy of insurance

but this is the case where the police officer spoke to KGM and Martin to which both said he was in fact insured then the police officer said Simon had tools in his van which he did not and KGM was going to void his insurance due to this Martin is well aware of this one and so is Kelly Tiller at KGM I have asked both KGM doe data about this and also Martin to write an email about this but none has done this as I have had not repose to what I asked. There is also the fact no letter come from the court with a date this was going to be heard, this case is listed to be heard at court on the 26/11/2014 Therefore, as you can see due to KGM and Simon insurance not showing on the MID database this has had a huge impact on Simon if I could apply for a new License I would but due to it being revoked I cannot get this. Therefore, the counterpart you need cannot be dealt with until all of this goes to court and is sorted, and this is no fault of Simon's. Simon license at this time due to the no insurance will have points on it due to the no insurance this is a mess due to what KGM done with Simon insurance, I have kept asking for things to send the court but have had nothing, so ATM Simon has insurance and cannot even drive. Which in itself is totally wrong. I am also at this time writing a letter to the insurance ombudsman as it has gone too far Simon losing his license when in fact he did have insurance and it did not matter how many times we called Martin and KGM the MID database was not corrected, until the compound noticed what was wrong and then we forwarded this information over to Martin and KGM, at this point KGM did in fact sort his car out on the database but not his van this did not happen for some months after due to us keeping on about it to KGM. And it was all due to a space being placed in the database within the reg of the vehicles. Simon ATN is out of packet by a lot of money due to the sizers and also due to paying for insurance that he cannot even use now due to this mess which is not right. I do not know how this is going to be dealt with as I cannot send you the document you are asking for Broadsure knows my son has a license as Simon has been using Broadsure for the past 3 or 4 years can you please get back to me about this matter as you said you would talk to Martin after our last call and I have heard nothing."

Dear Rachel and Martin

I am writing this email as I said on the phone the other day to you there is big problems with Simon Licence due to KGM I do not have counterpart issue 21 Simon lost it ages ago. Due to KGM and all the time Simon vehicles was sized due to then showing as not insured Simon cannot even drive as his licence has been revoked for no insurance. Which as you are aware, he was in fact insured. As I said, no summons came for 2 of the seizers so we did not know about them going to court and they found him guilty of no insurance when in fact he was insured the reason we found out was DVLA wrote to us asking for Simon Licence to be sent to them to add the points, these 2 cases I am asking the court to set them aside, and reopen the cases in the email to the court I have sent a copy of Simon insurance. But the 2 courts are taking their time about it to do anything or set a new date. We got one summons out of the 3 cases that I am trying to deal with and sent that off saying not guilty I done this by email also and sent a copy of insurance but this is the case where the police officer spoke to KGM and Martin to which both said he was in fact insured then the police officer said Simon had tools

On consultation with my friend to what had just happened on the phone, we both walked towards my mother's home and got done as for our own belief in our safety. Before walking towards my mother's home, we phoned the emergency services, so to ask if there was any record on the police computers, what would have been of a police officer that had made the phone call, which I had received. The reply given by the police civilian's while on the phone was a simple, blunt answer of, "No. The next decision me and my friend made was to make another phone call, this was to call my mother, so for all to explain the version of events to each other regarding what had happened and also in doing so to make sure that we had highlighted our concerns of our own safety to her, while still on the phone we all together made the agreement for me and my friend to make our way to her home. After the phone call had finished me and my friend chose to statically, plan our chosen route and then made our way on foot. By this time both of our resources of available capital had become low, for me this was due to the police restrictions I had gotten placed on the bail conditions that get compiled together with the additional, driving bans had taken the role on me. We started our mission to get to our location when while on route we were both compromised in our plan for a peace full walk; this got managed by members of the met police force, as we had foreseen may have happened prior, I remember knowing that this was to our own dissatisfaction. This incident got added latter into the on goings of the Anti-Social Behaviour Order. In the full search for the true incident of occurrences that happened on this night: a person will find out that this is what really occurred; On this night we were latter to understand what happened the reason being is:- my mother made a phone call to the police, this was once me and my friend had got off the phone to her, she done this so that she could understand what had truly, happened and why it had, It got explained to her after calling the emergency 999 number from her mobile phone, that police officers attended my home address earlier, the reason that the officer done this got said to have been because they claimed to have received a phone call from myself earlier in the day, to which I dispute as this was not true. The police officers who said that they had come to my house where the officers who latter pulled me over with my friend and were the same officer to then later update an Anti-Social Behaviour Order application with this incident. When we got pulled over on this incident we got stopped, we got searched and after the event, we got let to go free pretty soon after, this problem occurred with the police alongside a roadside and this road was the same as any other road, it had adjoining roads that lead to other destinations, on this occasion roads leading off the road to where we all got pulled over, was towards industrial estates, to which my Anti-Social Behaviour Order conditions will condemn me to

prison for, if ever found guilty and would mean up to the time of five years in prison and if this was to happen, then it would also mean, that I would gain a mark on my criminal record, as an Anti-Social Behaviour Order is not a criminal offence on its own, but once found guilty for what it probates, the Anti-Social Behaviour Order conditions of any proven breach become a criminal offence. At present, I do not have a criminal record that I have to declare to any person, as they were minor offences when I was a young man known as "Time Spent." Completed an MHA assessment today as planned. He talked about his current situation in a more eloquent manner. No medical recommendation from both the doctors. There is no need for any involvement from the mental health service at present. He was given information about how to contact the service if he required in the future. He seemed to be aware of the process and said that he had used crisis service in the past. AMHP report will be uploaded shortly and the bed manager was told about the decision.

1 Si Note: Harassed by the doctors, again, for the second time! - "I got again harassed by the doctors on the 25/11/2014 yet again and this had not got done of any wrong doings of my own, they came to my home address with no prior warnings, I found out that their intentions were to do a MHA assessment on my person, even low there clearly found nothing wrong with me in the past, but I still allowed this assessment to take place, so for it to happen to me,

and once the doctors finished doing their further checks on me, they all together stated, after they finished testing me out, that I seemed to be acting much calmer than the last time that they attempted to visit my home, after we all spoke to each other I knew that something did not seem official about why they kept doing too me, when the kept attending unannounced at my home and then intimidating me with their mental health acts, I remember closing the door on them as they left and feeling like I could tell that they would be back again."

Enfield CRHT

Summary of assessment

Patient's name Simon Cordell
Date of assessment 25/11/2014

1. Referral details and any other precipitating factors

Mr Cordell was referred to the Enfield CRHT by his mother on 19/11/2014 as she was concerned that he was mentally distressed, paranoid towards her and thinking that the television was talking to him. According to his mother, he has had several incidents with the police recently and they were also worried about his well-being. Mr Cordell's mother was concerned that he was not willing to accept any help from the family. Mr Cordell's father had tried to help him on 19/11/2014 and went to his flat but Mr Cordell had asked his father to leave his house after seen his father talking to professionals from the mental health service (HUB). According to his mother, Mr Cordell had suffered years of harassment from the police due to his past offences. The police had attended the property as Mr Cordell's neighbour had complained that Mr Cordell was screaming in distress. The police had observed him holding a gas canister, which is usually used for recreation purpose and spoke with the CRHT colleague about his current situation. Mr Cordell's mother had requested the ECRHT colleagues not to see him on that day as she had feared that it might antagonise him. When the ECRHT colleague went to see Mr Cordell on 20/11/2014, they observed him being abusive towards his father and did not want to meet with the CRHT colleagues. Mr Cordell was subsequently referred for a MHA as he had refused to engage with the ECRHT.

2. Relevant social and medical history

Mr Cordell is living in a council flat on his own. He was in a long-term relationship, but his girlfriend had broken up with him 2 years ago. He was a victim of a large paedophile gang as a young child and was seen by CAMH and has a history of violent suicide attempts in the past. He has had many incidents from the police since in his late teens. According to his medical records, he was put in a Young Offender's Institution at the age of 16 for repeated driving offences, mainly driving without a license. Mr Cordell has an ASBO put on him due to him being aggressive when he was in the court for burglary in June **2014**. The case at that time was dismissed. He has reported his ASBO is affecting his ability to do anything constructive in his life. He said that has tried to set up a business for providing party entertainment, but he has not been able to do anything due to the restrictions of his bail. He was attending a youth centre in Enfield up and fought hard to keep it open with petitions etc. He is suffering from Crohn's disease and according to his mother, he has not been taking medication for this disease.

3. Record of interview with patient (Include where it was conducted who was present and use of police if required during process)

The interview took place at Mr Cordell's home address. Those attended - M G, AMHP, I A, AMHP trainee, Dr M and Dr A S12 doctor. Mr Cordell put his dog in the back yard. The reason for the visit was explained to Mr Cordell and he was interviewed appropriately. He was very calm throughout the interview. He said he has been stressed with the fact that he had not been able to do anything in his life due to the previous bail conditions. The ASBO is affecting his business opportunities. He said he would like to build up his business and get on with his life, but he is not being able to do this. He said he is spending most of the time indoors and occasionally taking his dog for a walk. He said he is working on his computer, trying to fix his website. He stated that he is getting sleep but found it being difficult for few days as he was working on his computer late at night. He denied drinking alcohol or taking any illicit drugs recently. When asked about the support he would require from the mental health service, he said that he would like to get some advice and move on with his life. He said he has not thought of harming himself or others. He was optimistic that he would go

through this difficult situation and recognised that his grandmother's recent death had also contributed to his problems. He has agreed that he would contact the mental health crisis service if he needs help or he would go to the North Middx A&E if he felt bad in the future. He said that he had contacted the crisis service in the past and he knows how to access services.

4. Assessment of risk to patient and/or to others

Mr Cordell had told the mental health professional in March 2014 that he had suicidal thoughts and he had been E-searching the ways to kill himself on YouTube. However, he said today that he is a strong person and he has no intention of harming himself or others. As he has not had any thought of harming himself recently, the risk remains low at present. He said that he knows how to get help if he needs any support in the future and he was given contact information about the ECRHT.

Risk of social isolation: He has stopped attending youth centre and not going out as he used to do in the past. He was advised to go out at least for a walk with his dog daily and he has agreed for this plan.

5. Consultation with Nearest Relative and process of identifying the Nearest Relative

Mr Cordell is not married and living on his own. He has no children aged over 18 years of age. His parents are ordinarily residents in the UK. His father is the eldest of the two. However, his mother is providing significant and substantial care for him on daily basis. His father does not see him regularly and or provide any substantial care for him as his mother. Therefore, his mother is the Nearest Relative according to S26 (4) of the MHA. She described a complicated relationship with the police since he was 14 and guilty of driving stolen and other cars without a licence. More recently he has grown up and she still feels he is repeatedly targeted by the police. They often stop him to ask about his welfare and then use this to search him. She denies that he used any street drugs but then admitted he used to do this, and the last assessment had been after he had attended a festival and gave in to peer pressure taking lots of drugs. She claimed he is not using drugs now but then admitted he does use (laughing gas) from time to time

6. Consultation with Assessing Doctors

Both the assessing doctors had agreed that his problems are mostly related to his early history and losses of significant others over the past 2 years. **Dr Moorey** was of the opinion that counselling could make matters worse and that he should be encouraged to continue to work towards his long-term goals. The doctors felt that Mr Cordell is managing his difficult situation well and said that he can call crisis service if he requires support in the future.

7. Views of others consulted

Mr Cordell is reported to saying that he did his best to help but, on the whole, left the caring to Simon's mother his ex-partner who is heavily involved.

8. Mental Capacity Act 2005 Mr Cordell has capacity to decide on his present crisis situation. He has agreed to call the mental health service if he requires support in the future.
9. Reason for the decision to make the Application (including choice of section It was decided there were no grounds to admit him to hospital as the doctors who attended the Mental Health Act assessment agreed that Mr Cordell is not suffering from a mental disorder that would require a hospital admission either voluntary or compulsory.

Hi Martin

Definition of an 'admissible witness statement' To be admissible (allowed) in court section 9 of the Criminal Justice Act (CJA) 1967 states for a witness statement to be used as evidence in any criminal proceeding, other than committal proceedings, it must:

Dear Miss S E Leslie
Thank you for the reply to my email, I did in fact speak to someone at the court yesterday Mr Mark Dredge as I explained my son was due in court yesterday on a next matter of no insurance when he was insured. After speaking to that court, they told me to ask the CPS dealing with that case to deal with the other 2 matters of no insurance which my son never got a summons for.
Mark Dredge told me the case at Bromley was in fact a date of 20/05/2014 so I attended court with my son yesterday with my son's insurance papers for that date.
I did ask the CPS yesterday to deal with these other 2 matters, but she said she could not, and I would have to contract the court which I had told her I had already done.
Please see attached file of my son's insurance.
You can contact me on 07961 8.
Regards
Miss Lorraine Cordell

To Whom It May Concern:
I am writing this email due to a letter from the court that my son Simon Cordell DOB 26/01/2014 had a case on the 06/11/2014 in Bromley Magistrates Court
It says on the letter it was for a case of no insurance the case number is 011402647845

The problem is we did not know he was due to come to court on this date we have had no summons and my son is insured he always has insurance and would not drive without it. There has been a number of issues with his insurance and this is due to it not showing up on the MID database. There has been a number of Seizers to his vehicles for no insurance when he was in fact insured.
Could you please send me details of what date this offence of no insurance happened? This way I can send the correct insurance policy by email. and can work forward to clearing this matter up.
281,
Regards Lorraine Cordell

Welcome to the Metropolitan police introduction: --
Police Officer: Hello this is a police officer, what is your reason for calling, today.

Simon: hello I would like to put a complaint in, and I was just wondering if you could help me do this, please.
Police Officer; yes, is it a complaint against police.
Simon: yes, that is correct.
Police Officer: yes, I can take the complaint.
Simon: I would like to; can you forward an email to Jane Johnson please.
Police Officer; Jane Johnson.
Simon; yes, superintendent for Edmonton police station the commissioner.
Police Officer; let me just have a look, just one second.
Police Officer; Jane Johnson yep chief superintendent.
Simon: yes, that is correct.
Police Officer: yes, that is ok, is this complaint that has already got made or is it that you need to make a first one.
Simon: this is just a fresh e**mail to** herself it is more of a request than a complaint at the present time, but it may turn into an official complaint depending on how she disciplines her officers that she represents.
Police Officer; OK
Police Officer: and that is too Jane Johnson ok go ahead with the continence and I will get the email sent to you.
Simon: my name is a Mr Simon Paul Cordell.
Police Officer; Paul Cordell.
Police Officer; Cordell.
Simon: yes, that is correct madam.
Simon; and.
Police Officer; and your contact number 0208-245.
Simon: yes, that is correct.
Police Officer; right go ahead.
Simon; and the issue is of concern that I have her signature at the bottom of an Asbo Order a standalone Asbo Order and there has been a lot of corruption represented in side of it, that she has instructed, a Steve Elsmore too complete an application for an Anti-Social Behaviour Order for the organisation of illegal raves and in that application there is lots of police corruption and foul play where the evidence has gotten manufactured, now I am asking her to oversee her officers that she has instructed to make such an application and then to cheek the time stamps relating to the Cad's and to check the Urn numbers that run consecutively, over an annual year period when they should not, I am asking her to oversee this and to inform me of my case being manufactured and for this it will get dropped or I am calling her, herself to the court as a witness and I will investigate myself against her also for her actions and decisions.
Police Officer; OK
Simon; to what is allowed to happen, she is basically, the boss of all the police and she is charge of Steve Elsmore, she has told Steve Elsmore to make the application and either she told Steve Elsmore to manufacture the application in such a way and or to falsify information contained within it or she does not know that Steve Elsmore has done that and I would like her to know that Stave has done that and I would like her to decide to whether she is going to suspended him right now and give the case to somebody else to handle or what she will do and I would like her to contact me back at
Re_wired@ymail.com
as soon as practically, possible.
Simon: I know I was going fast, but did you manage to get the full gist of what I am explaining to you madam.

Police Officer: yes, I got the jest I made the points for you.
Simon: so, she will contact me back at
Re_wired@ymail.com
as soon as practically, possible regarding how she will represent this case, because at the present time I am being held captive within my own home because she is not doing her job, correct.
Simon; I have handed in an article six twice now sine this case started at the courts with a complete copy, if she would like to get a copy of the court case she can and contained within this is a copy of the Article six with all the drafted corruption inside it and also, I have handed in three complaints, three official complaints that get now issued on the police PNC computer this will also show this information.
Police Officer; OK
Simon: and if she would like to hold a meeting with me and I would be happy to come to the police station and show her the evidence I have
Simon: either she is a part of the corruption or she is separate from the corruption and for her to be separate she must do her job correctly, and this must mean that I am not being held captive in my own home
Police Officer; OK
Simon: to law's that do not even exist.
Police Officer; right; OK, then
Police Officer: what I will do for you right now Simon is getting this email sent over to her right now, please can you just confirm your email address again
Re_wired@ymail.com
Simon; thank you.
Police Officer; ok good buy.
Simon: you have a good day

1 **Si Note:** Going to the shop and seeing Debra! / 113 Burncroft Avenue - "Shortly, after this day, I had gone to my local shops, when walking into the shop I looked at the display chillier, which holds the alcoholic drinks in it. On looking at this feature, I noticed Debra picking up a large bottle of cider I knew this to be so that she could get ready to pay for it. I also was sure that she would then come home and get drunk and start with me and also understood that she would do this while she was attacking me, I understood this would happen to me, because it was a normal, daily, routine, of my life, by this stage. While still in the shop, I decided not to let her know that I was there and watched her for a minute or so, this got completed for me not to get noticed, I had to slip up the other side of the ale that was in the shop. On doing this, I pick up what I came for in the start. Then I hurried and in one quick, swift movement, I had successfully completed my goal so far, I then sneaked back down the other ale to where I first seen her standing once she had moved. Then from myself being in the right position, to where she had originally, been standing, I could now see here paying at the till. I felt my heart beating out of my chest. More than ever right there and then I wanted to understand why she had been treating me the way in which, she had been doing, with the others. I also wanted to find out what I done wrong to her, for it all to have started in the first place. **Catching up with Debra after seeing her in the Local shop**; -- I do not believe in people bleaching the color of their skin, just to get let into society by others as they seem to want to make many people feel. If I knew this, I might have been able to stop it from happening to me; I wanted to know these things, so that I could consider the circumstances of what she was doing to me, all over the nice different valuable good things that I done for her, in the past. It was simple: I wanted for her to reply about what I had done wrong to her and now this was my first opportunity to talk to her outside of the block of flats since it had all taken place against me. I waited and not approach her as I knew this would be the best action to take, I have done this, and she still did not know that I was in the shop, as soon as she left, I quickly, paid for what I wanted and then hurried to the front door, I looked to the right as I knew this to be how she would walk back home to our block of flats, but I had not anticipated seeing her with friend's, like she was then, so I had to re contemplate on my method of approach and hurried towards her and her associates. Seconds passed by and I was behind them both, I had to keep my footsteps quiet, within the last two feet I found myself: — saying in a reasonably, loud voice, why are you doing this to me. I noticed them jump towards me it was a surprise to them, as too me, this was a woman that I had known for years and even picked up from the roadside in the rain in my vehicle to take back home safe on other accountable days in the past, who I was now talking to about assaulting me. She never explained and she seemed to make a screaming sound for around two seconds, so I felt remorse for her and walked away. When I got home, I kept absolutely, quiet as I could hear her deliberate loud footsteps and her banging get louder and louder while she got drunk, nothing had changed the banging continued and I was right about her intentions on this day, as she had started again. In being Free, for the eight week's that I was free after the burglary case had finished, I had met my new second living partner, as explained and had our own so-called problems and I was continuing with the exceptional work, that I had been creating, right until the moment off

noticing members of the government officials were creating a true concern towards my well-being and now this is the beginning of the Anti-Social Behaviour proceedings."

RE: Council Tax 55508596

I am writing this letter due to you saying I owe council tax for **2013/2014** And **2014/2015**
I believe this is due to the new changes that came into force on **April 2013**
I believe a mistake has been made and I do not feel I come under the team for the 19.5% council tax that came into force in **April 2013**
The reason I believe this is because I feel I am exempted from this payment the reason why is I am on support rate of sickness benefit and have been for many years due to ill health. I feel the issue has not been seen by the council due to the reason I will write below.

- I am still on the old payment method I get Incapacity Benefit but due to not paying enough contributions I get income support; this was a lifetime award.
- When the new DWP system came into force, which is now called ESA. The problem I have is under the new ESA system I will be classed as in the support group for my illnesses.
- There are still many people that are on the old system of Incapacity Benefit but due to not paying enough contributions get income support, And the DWP changing the deadline for moving everyone over to the new system has meant these people are not getting the right

council tax award.

- These people have not yet been moved over to the new system and this is at no fault of their own, this is down to how long the DWP are taking to move every one of the old systems onto the new one.
- I would ask you to look into this issue and address it and until then any action that has been taken against me be put on hold until this matter is addressed. As I have had a letter from EQUITA saying I owe a lot of money which I would never be able to afford to pay and that they are coming to my home, this is making my heath worse.

1194,

- I do have reading and writing issue and over the past year have had more problems within my life that has made my heath even worse and a breakdown with the people that help me. This has just been resolved and I am getting help with writing this letter to yourselves to address the payment you say that I owe.
- Can you please get back to me as soon as possible about the above issue as all this money that you say I owe is making my heath worse and I cannot take no more I just need to try and get all the matters that have build-up of the last years addressed.

Yours sincerely
Mr Simon Cordell

8 Driving: To Broadsure Direct / KGM / **Time** 14:47 – "Thank you for getting back to me about this matter, and for you contacting KGM and getting this addressed, please see the below information that will be needed. We will also still need the section 9 witness statement from you. The below section is what will be needed from KGM. Section 9 witness statement from Jessica about the call that she took, from the police officer who called KGM after Simon Cordell was stopped on the 14/11/2013 This statement will include what was said on the phone call by the police officer and what Jessica said to the police officer this would also include what sort of tools the police officer said there was in the van. Any other information as to the date of the 14/11/2013 and after this date as to any dealing Jessica had with the stop on the 14/11/2013. Copy of all phone recordings between the police officer, and Jessica on the date of 14/11/2013. All phone recordings of any calls that were made, to KGM from Simon Cordell or Lorraine Cordell to try to stop his insurance policy being cancelled and to address the stop that was made on the 14/11/2013. The phone recording of when Kelly Tiller had asked Simon Cordell to go to the police compound, and get someone from the compound to call Kelly Tiller about the list of tools that was meant to have been in the van when the police stopped Mr. |Simon Cordell on the 14/11/2013 I believe Simon Cordell went to the police compound on the 26/11/2013 and this is where the manager of the compound and Simon Cordell spoke to called Kelly Tiller and confirmed there was in fact no tools in the van. Copies of all emails that were sent from KGM to Broadsure and Broadsure to KGM with regard to the police stop of Simon Cordell on the 14/11/2013. This would include all emails of dates after the 14/11/2014 when Simon Cordell was trying to stop his insurance policy from being cancelled and was trying to address this matter of what the police had said about there being tools in his Van which was why the insurance policy was going to be cancelled. Section 9 witness statement from Kelly Tiller as to any dealing she had with the police stop on Simon Cordell on the 14/11/2013 This would include all dealing with Broadsure about this matter and any calls that was made to her by Simon Cordell and Lorraine Cordell, and any calls Kelly Tiller made about this matter about the cancellation of the policy and the stop by the police on the 14/11/2014 until this issue was addressed. This would also include all details of the call that was made by the police compound to Kelly Tiller on the 26/11/2013 to prove there were no tools in the van. Which in turn stopped the cancelation of the insurance policy as I believe the reason for the cancellation was due to Kelly Tiller saying he had voided his insurance due to there being tools in the van. Full details as to why the insurance policy was going to be cancelled and what Mr. Simon Cordell was meant to have done wrong which would have in fact made his insurance policy void. Full details as to why in the end the insurance policy was not cancelled and the reasons for not cancelling which was due to Mr. Simon Cordell going to the police compound and the police compound confirming to Kelly Tiller over the phone there was in fact no tools in the van. The reason why until Jan 2014 that Mr. Simon Cordell's insurance did not show up on the MID database. Confirmation Simon Cordell did have insurance to drive on the 14/11/2014 and did not void his insurance in any way. Why Kelly Tiller did not deal with all the data protection requests that had been submitted to KGM, under the data protection act 1998 subject access request, as if this had been done Simon Cordell would not be in the court system for this case."

I am writing this email due to a letter from the court that my son Simon Cordell DOB **26/01/2014** had a case on the **06/11/2014** in Bromley Magistrates Court It says on the letter it was for a case of no insurance the case number is 011402647845 The problem is we did not know he was due to come to court on this date we have had no summons and my son is insured he always has insurance and would not drive without it. There has been a number of issues with his insurance and this is due to it not showing up on the MID database. There has been a number of Seizers to his vehicles for no insurance when he was in fact insured. Could you please send me details of what date this offence of no insurance happened? This way I can send the correct insurance policy by email. and can work forward to clearing this matter up.

Dear Miss S E Leslie
Thank you for the reply to my email, I did in fact speak to someone at the court yesterday Mr Mark Dredge as I explained my son was due in court yesterday on a next matter of no insurance when he was insured. After speaking to that court, they told me to ask the CPS dealing with that case to deal with the other 2 matters of no insurance which my son never got a summons for.
Mark Dredge told me the case at Bromley was in fact a date of 20/05/2014 so I attended court with my son yesterday with my son's insurance papers for that date.
I did ask the CPS yesterday to deal with these other 2 matters, but she said she could not, and I would have to contract the court which I had told her I had already done.
Please see attached file of my son's insurance.
You can contact me on 07961.

Regards
Miss Lorraine Cordell

To Whom It May Concern:
I am writing this email due to a letter from the court that my son Simon Cordell DOB 26/01/2014 had a case on the 06/11/2014 in Bromley Magistrates Court
It says on the letter it was for a case of no insurance the case number is 011402647845
The problem is we did not know he was due to come to court on this date we have had no summons and my son is insured he always has insurance and would not drive without it.
There has been a number of issues with his insurance and this is due to it not showing up on the MID database. There has been a number of Seizers to his vehicles for no insurance when he was in fact insured.
Could you please send me details of what date this offence of no insurance happened? This way I can send the correct insurance policy by email. and can work forward to clearing this matter up.
Regards
Lorraine Cordell

When I got back home, I continued to get attacked by the occupiers of 117 and 113 and 111: they all continued to be victimizing me with their neglects for my life!
I tried to do my work studies but kept getting brutally victimised whenever Debra 113 could hear me typing on my computer keyboard then the Mathiyalagan 117 would join in and also Stain 111.
The Enfield Council and the Enfield Homes employees aloud the occupiers of 117 and 113 and 111 Continued to victimizing me by these problems and leave me every day and night doubtful of the right resolution occurring from the relevant persons, as they continue to breach and neglect their conditional responsibilities, towards me!
Stain has now banged on the kitchen wall for weeks at a time with intent of victimising me on a full 24-hour assault!
117 Burncroft Avenue and 113 keep on continually, repeating to flushing the toilet when I am in the bathtub!
I stay eager to have the problem repaired as another day goes past all I want and deserve is a decent home and my freedom reinstated

Dear Lorraine,

Thank you for your email as it appears that your attempt to deal with the prosecution in one go was not a success. This will mean that your son will have to complete a Statutory Declaration at Bromley Magistrates Court. I would suggest that you either ring the court or email to confirm when your son heard about the case. Often this easiest dealt with over the phone and we can book your son in a Statutory Declaration in one of Bromley's Traffic Courts.

Dear Miss S E Leslie
Thank you for the reply to my email, I did in fact speak to someone at the court yesterday Mr Mark Dredge as I explained my son was due in court yesterday on a next matter of no insurance when he was insured. After speaking to that court, they told me to ask the CPS dealing with that case to deal with the other 2 matters of no insurance which my son never got a summons for. Mark Dredge told me the case at Bromley was in fact a date of **20/05/2014** so I attended court with my son yesterday with my son's insurance papers for that date. I did ask the CPS yesterday to deal with these other 2 matters, but she said she could not, and I would have to contract the court which I had told her I had already done. Please see attached file of my son's insurance. You can contact me on 0796.

To Whom It May Concern:
I am writing this email due to a letter from the court that my son Simon Cordell DOB 26/01/**2014** had a case on the 06/11/**2014** in Bromley Magistrates Court It says on the letter it was for a case of no insurance the case number is 011402647845 The problem is we did not know he was due to come to court on this date we have had no summons and my son is insured he always has insurance and would not drive without it. There has been a number of issues with his insurance and this is due to it not showing up on the MID database. There has been a number of Seizers to his vehicles for no insurance when he was in fact insured. Could you please send me details of what date this offence of no insurance happened? This way I can send the
1216,
correct insurance policy by email. and can work forward to clearing this matter up.

The banging Started!
This Morning the same happened again when I went to get into my Bathtub 117 and 113 started to slam the taps on and off above my head at a fast rate none stop making the pipes in my flat shake so loud that everyone else on my estate would have been able to hear the problems I explain about and at the same time flushing the toilet when I am being sick in it: I cannot even take my clothes of in any room in my flat because they stand above me jumping on the floor so to assault me. I left and went to the community hall to get away from them including stain. Police Officers attended my local community hall I was helping manage and strip searched me in front of all persons for no reason.
I am not known for drugs or other serious offences to ever get searched like I was when working in the community hall in front of the children. For the Asbo proceedings!

Summary!
When I arrived back at home, I got Attacked again they all mentioned in the addresses of 113 and 117 Burncroft Avenue keep Dropping articles on to their own wooden flooring to make loud banging noises!

  The Metropolitan Police's Constabulary police office of the law inclusive of the Enfield Council employees act in joint circular in the disregard for my fundamental human right and by doing this in danger my life while leaving me with intentional infliction of emotional distress. I keep recording the conversations with my dictator phone in regards to the evidence I acclaim in proving my Innocence that I put the Metropolitan Police and the Enfield Council in responsive of without any official responses, the recordings show neglect and reckless behaviour and bios decisions from the staff inclusive of rude comments of racial hatred and criminal intent of actions towards my life and well-being
  Employers breaking their statutory duties towards me in turn those staff are holding me captive within my own rented home by covering up their own errors towards me when

fraudulently creating the Anti-Social Behaviour order that they deceived the judge in granting!

Summary!

The Enfield Council and Metropolitan Police force created an anti-social behaviour order and fulfilled it with wrongful corrupted evidence, that is within side its context in completing this folder and serving it under a false pretence of law the staff achieved my dissatisfaction with dishonour, so to hold me captive within my own home with a 10pm curfew for 7 years. Once I noticed the corruption and filed the evidence of this fail play, I had no option other than to pass the intelligence I hold back to the same creators of the Anti-Social Behaviour order who in development never wanted to get caught for their crimes against me. The refused to do the right thing by law once in receipt of such overwhelming evidence and now I get left in fear of walking within London's boroughs due to the official persons further having more negative effects on my life by stopping me on my travels before the hours of my curfew due to the police and councils official staff not facing disciplinary action for the corruption they took part into when creating the Anti-Social Behaviour Order application, after I highlighted their fraudulent errors and now this is causing me the risk of re perusals of them staff protecting their jobs by even further criminal intent of setting me up even more than they have once again!

I feel a sleep to 113 and 117 banging at me by using the floor and the taps to torture me with battery victimizing me over and over again with intent of using the same repeated items of the building fixtures to have tortures effects in my rented living circumstances!

When awake 113 and 117 attacked me while being sick in my toilet and because of what they get away with doing to me in my home like today's event flushing their own toilets above mine when I am using it causes my heart to hurt me and is making my health desperate!
6:00 Am
This attack against me continues once I get in to my Barth and while I am taking my clothes of and even when I am putting my close back on!
Today I got followed into my front room and victimised by 113 and 117 tents even low I have never been of any negative concern to them, once sitting down in my front room thought the rest of the day they kept banging on the floor above my head!

05:02 C. O. L. I.N
05:04 C. O. L.I.N
05:05 yeah, I have P.A.R.F.O.N.S.
05:10 P.A.R.F.O.N.S.
05:13 Yes
05:16 I'm sorry I was going to say, is there any way that you got a direct telephone number for him please?
05:20 Uh, we don't give out private numbers.
05:22 Did you have an email for him in please?
05:23 Yeah. it is his, first name, last name "Colinparfons@. Enfield.gov.uk"
05:29 Enfield.gov.uk. Okay. Is there any way that you can transfer me through to the ASB team department please because I have a few concerns I'm trying to resolve right now? I've been placed under an Asbo an Asbo by Enfield council and this Asbo is for the organization of illegal raves, it States illegal and I was never, I've never been arrested for something that was illegal. I looked into the case obviously that they put onto me that Enfield Council was in support of this application and basically for something that the maximum sentence is six

months. do, um, do six months in prison, do, three months inside. I've seemed to have got seven years for it. Yeah. I never committed the offences in the beginning, so basically, I was accused of being 10 different people that I don't that um, three of them are close friends and the rest of them, I don't know.
06:14 They're younger kids to me, while I was on curfew or throwing events now these people done what they done on their own. I didn't hire them, no equipment. It wasn't nothing to do with me. Yeah. But the police somehow changed all their pictures and set me up for being these people trying to turn me into a super grass in a sense. Now what I've done is I copied all these people's Facebook profiles now from copying their Facebook profiles. I can prove that I never done it, but I've never gave the police these people's Facebook profiles because I don't want to do their line of investigations for them. Yeah. Then I know I went, I went to court under the grounds that I, I wasn't going to be a grass and I noticed that a section was on all of these doors.
06:56 Now if a section is on somebody's front door that gives them the right to live in that building. You can't defer somebody because they're rich and own a company. You can't defer the difference. Everyone that's living in a premise in the United Kingdom is entitled to have their own parties. Now it's for the police. Once something's proved to be a private residential place, it's for the police to prove commercial gain or that someone was doing something for commercial reason and the place never proved none of this. They never went there. I never got arrested for legal, so I went to Cole and I basically won the application, proved I've got the transcripts of the court proven. I was never found guilty under the applicant's case because there was no illegal concept to it, and the police admitted that these buildings were sectioned in the beginning.
07:37 They never went to none of the landlords, none of the building owners or nothing. So, I went and I noticed all the timestamps were wrong in in the, in the case papers once I noticed that the timestamps were wrong, I noticed that there was 16 members of the public witness statements, but none of them had been signed by the police or by the witnesses themselves. Now that's been fully admitted that no, no one would sign. No one that was supposed to have got keep up overnight signed these things. Now all the timestamps were wrong. The in the case papers they're saying, because it wasn't me. I'm a mixed-race male. IC3 the police call it. Yeah. Now I noticed that all of the, in the case papers when they were setting me up, these people were white people and it says, all white, when the nine, nine, nine callers phoned up for one of the events for instance, he said it's all white males and females and they went there and arrested all these white people.
08:26 They held them hostage for eight hours. Then I went there to go and see these people. I couldn't gain access to the premises or anything. It was all surrounded the police DE-arrested all the people in the building, eight hours later and arrested me and set me up for what these so-called white people done as the nine, nine, nine, caller would say, now I've been trying to prove all this. Yeah. Ever since then they got my personal life and twisted my personal life around in the public view to darken my name. Yeah, and started pushing out different stories about myself so I went and got all the recordings and everything. I needed all my medical evidence of that and proving that I was of good healthy and had a full bill of health and everything throughout and I've got all the recordings of that. Like I'm recording this conversation between us now for instance.
09:07 And I've been doing that.
09:08 yep.
09:08 from the beginning. Yeah. And I'm just basically would like to get this resolved because I feel that I can't walk down my own home town street right now because of what Steve Ellis has done, who's under Colin Pearson's control has been in support of, I've got loads of phone calls on me phoning up and asking the Council now I can show this evidence

to yourselves. Yeah. Is there any way that you won't be in support? Cause you know, truthfully, I'm an innocent person that the Council have refuse to acknowledge this from the first point of time. that I've told them, and they refused to come and look at it or call me in for a meeting, but they've somehow, I'm ridding eight years for something I haven't done. Everyone knows that I am correct, and no one would deal with everything correctly. So now I would just like to speak to anybody that may be able to help me with this problem because I understand that maybe that might not be yourself.
09:55 year.
09:55 and that you have just come in.
09:56 year, year.
09:56 for a simple days work. Somebody in that building should be able to deal with my problem right now on the phone and I'm not too sure who.
10:05 Yeah. Were just a customer services and secondly, I'm, were not placed in that building where the other, you know the staff people are placed so
10:14 Oh I see.
10:14 So what I advise you to do is to put the query through email. Somebody would actually pick that up and deal with it and you should hear from them obviously hopefully before Friday.
10:25 ok.
10:25 um seen as it is such a big query. I don't know the ins and outs on you.
10:29 Yeah, my case. Yeah.
10:30 year.
10:30 I'm ready to sit there with the paperwork in front of anybody and prove to them what they've done to me. That they used, they've used my name, they've entangled, everything. I've got all the evidence I could ever want; I just don't want to cause a massive riot. All I wanted to do was hold an event in my local community and support my local community members and be a valid citizen. They turned that completely around for me, do you know like So right now I'm just trying to clean my name up and get everything straight with as minimal damage on impacting in society as possible.
10:56 I understand it.
10:56 So I'm trying to speak to the correct people.
10:59 Yeah. Yeah. I mean, you know, outside contact, that person, Colin, Colin persons and see whether or not he can push, push the case for you or you know, try to find out what was the best thing for you to do.
11:15 Year and what the best way forward is.
11:15 after you've, you've done, you know, some, some sometimes I think haven't been, you know, all shady. But yeah, just pop it through E-mail and He should be able to deal with it.
11:25 Alright.
11:25 If you don't hear anything by Friday, give us a call back and we'll just chase it up to here. What's going on.
11:32 Alright Thank you, sir. You have a good day here,
11:34 okay? Okay. you to
11:35 God bless. God bless him.
11:36 Okay, bye.

2 An Email to my solicitor: Asbo Case - "I hope you have had a great Christmas and a great new year for you and the family. Can you let me know when you will be free so we can start to go over the papers for the Asbo there is a lot of data I would like to ask for and the case is listed for 10/03/15 so we only have 11 weeks to get all the information that will be needed. I am going to start putting data requests in, but I think you will need to get the information that the police hold on their systems about the dates they are saying Simon set these events up. The police know full well who setup these party's up as they had contact with said people and sent police to their homes and was making calls to them and sent helicopters out looking for the said locations. I know you are busy but we have done nothing on the Asbo since it was last in court and I am getting worried due to the information that will be needed, and due to how long it took the CPS the last time, which held the case up for so long. I know Simon statement will need to be redone due to when your computers crashed at the office as a lot of what was said is missing also Simon was not great at doing so much over the 2 days in your office. I have information also that should be helpful in doing the statement of the events but Simon is not really willing to hand over people's names, but the police already have this information so it will be that data I think Simon would like to run this case on. We will just need to get the team at Scotland Yard that was doing all the investigation into these events, and making all the calls and going to their homes and other things. I do have information that will help with this. Simon is still not great so trying to go over everything in a few days will not be possible I do not think as he gets upset and it is too much for him. I have texted you

but have had no replies, I know this is due to how busy you are but can you please get back to me with an update as to when you will be free."

I asked for a lot of this information when Simon attended the office last week. I have had four hours sleep last night. I am attaching Simon's proof of evidence that I am sending on to the barrister. We will be challenging on each and every aspect from definition of rave to whether anti-social behaviour occurred, distances, locations from residential areas etc, lack of CADs etc. Email over what you can, and I will somehow get it to court tomorrow in the afternoon.

To Whom It May Concern:
I am writing this email after a call that was made to the City of London Magistrate Court on the 10/02/**2014** about a list that is on my PNC that is incorrect. I was told to write this email including as much information as I could to get this updated. I have contacted you a few times before about this Error on my PCN and was told that you would get it updated but as of now this has never been done. I was told on the 10/02/**2014** when I called due to the date that it would be down to the police to update this. You would have only forwarded the information to the police to get this updated. The Error is for a case that was heard on the 03/03/2008 at the City of London Magistrate Court, for failing to surrender to custody at appointed time, on the 25/01/08.
1228,
The error is that I did not go to go but my mum called the court and a sick note was handed to the court and the case was dismissed, so should not be on my record This has caused me problems with bail on a few times and this is why calls have been made before to the court, at this time it has been causing me problems again with a case I am at Woolwich Crown court for. I have attached the page for the PNC print out the police did for the case at Woolwich crown court that I am on bail now for. This print out was done by the police on or around the 26 June **2013** for the Woolwich case. I do feel this is causing me problems with my bail and I am therefore asking for this to be dealt with as fast as possible in order that I can show the court this should in fact not be on my record. I was told on the 10/02/**2014** when I called that if I ask for a court transcript that this could be done faster than updating the PNC records and I would be able to show the Judge at Woolwich crown court the court transcript for the case that is on my file in error and that should be enough to prove that it should not be on my record. I am there for asking for the court transcript to be sent to me if there are costs for this, please email me back with the cost for this to be sent to me and I will get this paid to the court. Please see attached file for the page in my PNC record which is there in error I have highlighted the case. If this can be done as a matter of urgency due to the impact this is having on my life.
Many Thanks Mr Simon Cordell DOB 26/01/1981
