[00:00:30] I have a case that seems to be ongoing since 2016. They keep putting claims in against me I'm not once in the lower court. It's been like 3 4 claims put in against me claim numbers. Not every single one of these claims. I've had two of them strike out and I look to have the third one now strikes out the fourth one strike out as well. Yeah but the judges decided to play in favor of misconduct. She's acting in target malice which is a 12 year sentence for any judge. I've already got the previous judges from other cases that are already going up for disciplinary action and I don't think we need a judge from the lower court from down in your ends going up for disciplinary action.
