How you doing? I'm just trying to find out some general information. I was wondering if you could help me.

Okay. My name's Mr. Simon Cordell.

Yep. And I had a community support team come into my house on the 25th of the 1st 2016. Do you know? I'm writing an official complaint in regards to... Wait, what's the... Community support recovery team I have the list of all of them on recording and basically I'm upset with their stationary duties and the way that I was treated so I'm writing an official report in regards to these things. And basically, one of the people, I've got a list of names I know, Dr. Alibaz, they come in with a Sam, the Simon Clerk is supposed to be that was one of the directors, is that correct? My name's Simon Cordell. I've never been patient. They illegally came to my house and they illegally tried to force a section on me to cover up a load of missing statements that they had in a police case. And then they've basically allowed the DPA to basically, the police have pushed a scandal out in my and my partner's name. So I'm just basically going through it. They used the doctors to come to my house and they tried to breach the section on their mental health act 1963. They falsified a section 135 to gain access into my house. I was recording them when they come into my house and a woman called Elaine, she basically broke down in the recording and admitted that they had falsified the paperwork to be able to get access into my house. They continued attacking me. I've had now 126 different occasions that I've accounted for different days where the doctors have attacked me over the last four years while I've been locked in, while I've not been illegally detained in my house. I'm basically being illegally detained right now as I speak because the first ASBO application which the police made they're missing all of the victims out of it. There is no victim signatures and there never was no victims so they made up a false at-bate case and gave me seven years for it when the maximum sentence, even if I never got arrested for the case, the maximum sentence if you did get arrested for this case would be six months to the organisation of illegal rapes. They tried to get me to grass up seven people basically I didn't know while I was on curfew. So I went to the Facebook so these seven people that I was getting set up to be and copied their Facebook profiles, the event pages so I could prove that they weren't me. I refused to hand the Facebook profiles to them. And I basically went there saying well I know the laws that you didn't prove trespass on these six buildings anyway when I was on curfew. They couldn't prove a legality in the court. Somehow she gave me seven years. I looked at the ASBO folder when I come back home and noticed all the timestamps were wrong. I noticed they were missing all the signatures. They started getting on to the doctors and that. Them and the council because it takes the council and the police to make the application and a member of the public a victim. They didn't have the member of the public so the council started forcefully acquiring my personal data and my partner's. Me and my partner have never had an argument together, we've never had a problem together, like that is of anyone else's business. Now they've spread all these rumours, a sex scandal practically in my name and her name and we're suffering the consequences to what all these officials of the youth opposition are doing. They sent the doctors here, I recorded the doctors, Elaine and Dr. Alibaz and the rest of them, and I basically ended up getting forced into a hospital. I went to the tribunal, proved that there was nothing wrong with me, showed them my paperwork, and that the police were scribbling all in my paperwork, and my black boy on the block and the rest of it when they were making the application. And basically I didn't want to push it out in the public's view because I thought it would cause riots and I didn't want to be irresponsible like how they were being. But now I've just been undermined and

I've never let my neighbours attack me, people that I loved and looked after. I've been recording every single one of them and what they're doing. When I phone the call centres 999 and ask for their help they call me a black bastard down the phone, I've got recordings of it. They say they've been robbed, they don't care, they don't care. Now, the recordings, I've transcribed all this up, and I'm just trying to chase the last one or two, three people that are missing their last names, and a few of them are in this team. Okay, give me a second, because you've never been a patient here, I'm just going to have to quickly find out who these people are, and whether this is the right place for you to be calling in, Basically, I've got a when the police when they come here the doctors the doctors come in with that a doctor and doctor a Sam a gentleman called Sam came into my house I've got recording of him. I understand that I Sam yeah, I think his name is a doctor and I think the person that you work for now since you've come on his agile Allah Yeah, and she's at Luke. I love this McGann. I think she's the new boss of Simon Clark. Yeah Simon Clark Yeah, Oleg Jiga. Yeah, gentleman, sorry, possibly. He's the acting manager, the clinical practical physician. Now, I understand all the people above him and every single one of them, but right now he hasn't really been so much as informed into these problems, so they're not really his unless we really put him in receipt of an email or something, that Oleg Jiga. He ain't the problem. Simon Clarke, the person that was in the position before him, is the person that, who was the acting manager, is a person that I'm quite upset and have recordings of. Now, there was a gentleman called Adamina Goody. Adamina Goody is a clinical practitioner at Barnet and Enfield Haringey. He's a party early pension seems like okay sleep and see him HN and his party because helps as well another person I'm also upset making willa and the reason I'm upset is they when they come to my house with the section 135 yeah I be funny in the month weeks why I'm week prior to that basically district basically what is it we just to me just explain it to you and gentlemen could Yeah, I'm happy, I understand that, I can appreciate that. What initially happened is, because of these timestamps not missing, I started winding up the call centre, the 999 call centre, so I started recording them. So they left and the Enfield cancelled, because they're the two that need to make it. So they started calling Newstart, they sent your team, they got a gentleman called Goody to start phoning my mobile phone somehow. Now, I got on with Goody, I mean I never had a problem with him, but eventually Goody talked me around to having a meeting with him. So I said, okay, well I'll have a meeting with you Goody, and I'm happy to go through this, because this might be able to help me prospect in my life, and might be able to help my dreams. You're a powerful person in the position that you're in. So I allowed him access into my house, he'd come with a lady, Cassandra I believe, she was a... Well anyway, she was a lady and she basically came into my house, we sat down and I was showing them my management plan, I was building a model constitution in a new CRC company and I showed them the management system and everything I'd been building so I'd been trusted in Glastonbury's management system which is basically every person's folder, well it's another story anyway. And basically, we sat down for two minutes, showing Goody. In the meeting, the woman stood up and she took a phone call. She went out into my corridor, which I didn't take to mind. I ended up trying to show Goody the good side of what I'm trying to do and what's really happening, sort of thing. This lady walked in and she cut the meeting short, mine and Goody's conversation. I said, we've got to go, Goody. So I said, all right, okay, well, fair play. Next thing I know, Goody shook my hand and said, I'm going away for four weeks, Simon. And I'm glad that you've let me into your house. I'm going on annual leave. When I get back from annual leave, would it be okay to have another meeting with you? I said, yeah, I'd be happy for that, good sort of thing. I see you checked my fridge, see my house was clean, see everything was up to good specs, yeah? So he left. Now two days later, I'm in my house, I've got someone around my house, and a load of doctors turn up outside my front door. And I'm like, why are you outside my front door? They're like, we

want access to your house, and we want to come in. I said, I'm not giving you access to my house. Why do you want access to my house? They said, well, we're going to go and get a warrant and all this. I said, I just allowed Jack Goody in my house two days ago. Now, they didn't realise that there was a camera in my corridor that I put there myself and that I was recording them. But they come with the woman that, the woman that come with Goody in the first meeting was outside my front door as well. So I said to her, don't you remember that there was cameras in my house and I showed you the cameras? Then she went, oh yeah, on the camera. And she realised, oh yeah, duh, like she's on camera outside my front door and she's watched the cameras in my house two days prior before, like this, yeah. So now, I said to him, what you're doing is abuse of power. If you believe that there's something wrong with me, that you shouldn't be using your powers like this now, you should go back, have a general AGM meeting, or emergency general meeting, and then you should come back with the police and the police. You shouldn't pre-warn me if you can't gain access now. Yeah, I don't think you treat any other patients like this would be fair. They all backed off anyway. Now they phoned my mother and explained to my mother that they wanted to get a section 1 free file and that they were going to try and get access. So I'd been phoning Elaine and I'd been phoning up this centre and I'd been recording and I was explaining well I'm happy to arrange a meeting. You turned up and announced when could you arrange the meeting two days prior. I let him have access. I had a guest there and I felt uncomfortable at that time giving you access. Next thing I knew they come into my house and Sam come in, two doctors, Alibaz and Abadi come into my house and they come in with a council office us and the council office have understood the case and the missing signatures and the forgery that they have created under their company head. Already that was illegally detaining me in my house. I had my recording equipment in there, the same as what you get in a police station, but the newer one, you press the red button the same as DE, but you put CDs in it. And I had a family member here, and I had my partner here, my new partner. It was all in my house. And I asked Elaine, how did you get to section 135? If I granted goodie access, and now I've granted you access on a recording less than one day ago. Saying, well, if you want to meet me, you can come round. Do you want me to play the recording? She's like, yeah, you're correct. I'm sorry, I'm sorry, I'm sorry. I'm like to her, I'm like to her, so you falsified this paperwork saying I wouldn't give you access when I would, you went in front of a judge under oath, you made a judge sign this warrant, the warrant is valid but it's been validated under fraudulent process, yeah, you're supposed to have courtesy and due fair of processing, yeah, you filled this in saying I won't give you access which is the only reason you get it. And they forced it. Now they all ran out of my house, yeah? And ran out of my house basically after the conversation and couldn't detain me. Now, my neighbour set me up less than two months later. They said some allegations that I threatened them, which isn't true, yeah? On my mother's life, I never... Now when I was in the police cell at Woodgreen Police Station, the same doctors, two doctors, Alibaz and Anamazan, come up to my cell door. I'd been detained in the police cell for 48 hours without being interviewed. They didn't interview me for 48 hours and on top of that they didn't call a sergeant down to hold me for the extra 2 hours. Now I was in there, I was kept in a cell with cameras so I requested the camera cell so I got the camera evidence being given to me. Now while I was in the cell I had my blue blanket, I got left with my belt, my trainer laces in and everything. That's quite unusual anyway, they left me with it all in there so I was in a good state of mind. Yeah and i wasn't a problem i requested food and done everything now this woman maggie fuller and abby sam and abby the same doctors that were in my house when they come outside my cell door they unbundle the cell flap and they said to me through the cell flap you're going to send hands i said to them what do you mean i've done nothing wrong i've not even been interviewed i've been here for i've been asking to speak to my solicitor for 48 hours they they wrote i said oh i

know your face you're the bloke that got on cd from coming into my house Him and this other woman run off. This other woman was called Maggie Fuller, head of Angel, isn't it? Yeah, they run off. Then they come back five minutes later. They said, we don't change our decision. And they forced me to send Anne's hospital. So I never got legally assessed, taken out of my cell. It takes two doctors and an EMP worker to assess me out of my cell. They never assessed me and forced my detention to send Anne's. In St Anne's I had similar problems afterwards and I've documented every day of that as well in my official report. I can appreciate that very much but I'm trying to get information on my personal data. If you can't get that information, is it possible that you can get the manager or the director of the company to call me back? I'm happy to speak to any person that's happy to assist me in retrieving the information that I need with that, me having to put a subject matter request in when I put them in review. I just request two doctors' names and the people that come into my house and I walk away from their team, and I'm going to put a subject matter request in and then I request they look at that and review it. I'd appreciate it. I'd appreciate that very much.

Yes, and my Christian name is Paul. My first name is Simon.

Yes, that's correct. That's correct. That's correct. And, Mark, would you like an email to be able to forward any information to me?

Yeah, alright. Alright, well, I appreciate that.

R-E underscore Y-W-I-R-E-D I-R-

Yes, that's correct. And I'm 0208 245 745. Yes, and I gave a car for authority for my mother to be able to deal with my case in my heart as well. As well, yeah, as well. Thank you.
