Transcription

Hello, Gina. It's Mr. Cordell speaking.

Hiya. I'm just running up to find out if there's been any updates in regards to my case. Hang on, what's your address? 109 Burncroft Avenue. Burncroft. Hang on one sec, I'll just check on the system.

Alright, thank you. - Which case, I've got two for you. - What are the two, may I ask, that you have? - One was something to do with your mum, and the other one was, what's this one? Yeah, my mother's been writing in regards to my behalf. She's been acting as my appropriate adult or supportive person. And basically, she's putting complaints in regards to the way that I've been treated by public and government officials, namely the Edmonton Police, the Enfield Council, Metropolitan Police and the Enfield Council. Right. I can prove that they've acted fraudulently and they've tried to steal my home with a processional order creating fraudulent paperwork. They've darkened my name, had to put me in hospital and that false in paperwork. I can prove all these things because I've took copies of their timestamps and their histories from their computers and I can prove the days I can't being accused of things. I weren't even living in my house. My number one aim is to get prosecution brought against these people and that's why I'm trying. I've gone through their complaints procedures but they've failed me. So now I've gone to the MPs, yourself and my mum has, because you're the mechanism in between who should be able to control these civil servants. I don't think they should be at work. The number one thing I think that should have happened is I think they should have all been suspended for impending further investigations. I thought that would have been one of the first things that the MPs actually make happen once I put them in...

No, we can't make that happen. Each individual company, whatever, you know, body, yes, sorry, thank you, they have their own processes that we can't be sure that happens. I'm just having a look. OK. Attaching the letter of complaint from your mum. That was only on the 10th, so that was three days ago.

- She's only just sent that off on the 10th because, what actually happened, in 2014, me and my mum must have messaged the council, was going through their procedures and that, because they've put an eight year curfew on me. The eight year curfew is for the organisation of illegal raves. They never arrested me. They forgot to arrest me. Even if I did get arrested for the organisation of illegal raves, say you did or I did, The maximum sentence would be 6 months and a £20,000 fine. Somehow they've given me this thing called civil cases where they can do a stand-alone ASBO, which is the key word, or a CBO ASBO. What a CBO ASBO means is if you get arrested for a criminal case, something that's illegal, the police or the council could put a CBO ASBO on you after criminal conviction. Now, if they don't arrest somebody, they can put a standalone ASBO on you for, like, kicking a football up the wall. Now, they've put a standalone ASBO on me, yeah? So it's not even a criminal conviction. It don't go on my criminal record. I should never be able to get punished for it. It's against the law to be punished. It's just a deterrent, a standalone ASBO is, yeah? Now, they've put a standalone ASBO on me, called it the organisation of a legal race, forgot to arrest me, gave me an eight-year... Two years for the injunction, five years for the ASBO. That's seven-year curfew. Plus, I read a year for a curfew for another case. That's eight years of my life. I've been locked in my house since I was 32 years old till I'm 40 years old. I've got another two years to go till I'm allowed out of my house. Now, the police officers that done all this to me forged all the paperwork. All their timestamps are backwards. I'm not the right colour skin to fit the crime, yeah? They said that white people committed it. I'm an IC3,

yeah? So, on top of that, each... I see threes, they class that as a black person, I see ones a white person, I see threes a black person. I'm an IC3, I'm classed as a black person. I'm trying to prove to them, I'm not even the right kind of skin. Now they're telling me I've got to ride another two year curfew, I'm scared to walk outside of my house. Before 10 o'clock, because the coppers are still working in the area. No one will discipline them, so now I can't even walk out my house before 10, because they're all sending their mates to my house every day to get me, to cover all this up, and I don't think it's fair. I want prosecution brought against them, and I don't want to write them... But if you're talking about prosecution, they have to do a proper investigation to gather facts.

I agree with that. Which means you're going to have to go and see a solicitor to take civil proceedings if that's at all possible. What I can assure you is that when I say Aleph sent it off, this is the last one. I'm looking through the case. There's been loads of emails going backwards and forwards from Aleph to the council, from Aleph to this, you know. So it's not that she's only just sent it off. This is the last one. Your mum sent one in and basically... That she'd said to Ian Davis, Sarah Carey, Jeremy Chambers, James Rolfe, Tony Sinclair.

- May I say something to you? See Jeremy Chambers, yeah? He's the legal law for governance for the Enfield Council.

- He's the director of governance, yeah.

- If you went into Google Jeremy Chambers and gross misconduct, it comes up all over the internet that he's been done for sexual assault in the last council that he worked for. Jeremy Chambers, then Enfield Council took him on. Because Enfield Council and the Metropolitan Police together have to make an ASBO application and normally have victims, they never had no victims so each police officer forged up four statements each, they all pretended to go to four people's houses each police officer. They wrote in a third perspective statement and none of them have got the signatures of the victims at the bottom of them. Now because they've all done that, the Metropolitan Police and the Council did, and gave me nine years, say like I'm saying a standalone ASBO is for kicking football up the wall. If you go to prison, you can get early release from prison on curfew, yeah? You can get a tag and that. A tag is a form of punishment, or a curfew is a form of punishment. A curfew should never be inside a standalone ASBO, let alone anything else. I should never be riding a curfew for something that's not even a criminal offence or unpunishable. I've had to ride since I was 32. I'm phoning the police up. When I'm phoning the police, I record them and they're telling me down the phone, you've been robbed, Simon. There's nothing you can do about this. I've made 220 phone calls to the police. They started spreading scandals in my name. I believe that's fair to say that now and to scare me at my own country and I don't think that this is fair that the government officials should be able to act like this and turn my neighbours and civil members of the public into people doing stuff like this. Me and my partner Shannon never ever argued to this date now yeah, we were seeing each other from 14 to 16 and they were doing this in our names yeah. And I don't think this is fair what's happened. All I've asked for is for someone to call an emergency application back to the court and to admit that trespass wasn't present. That's an error in law, yeah? Not negligence or misconduct. That way no one gets in trouble, none of the public servants, but I'd get an apology for the error in law at least, which means that I can maybe fix my life. Now, instead of doing that, they've called emergency applications the other way, put possession orders in, put another two injunction orders on me, forced me into hospital twice. I've had the doctors come out to me 125 days in the last five years. I've had to spend with the doctors, and every single time I've been told

there's nothing wrong with me, yeah, and throughout the whole of this. So there's 125 times through the last... In the first ASBO, the second I went to trial, I went to trial at the court after two years. When I went to trial at Highbury, 15 police officers turned up only, all the highest ranking officers. No witnesses would turn up even though I was requesting it. Now, we ripped them to pieces because they didn't have no witnesses. In the court, they're all getting off to stand going, oh, we're sorry and things like that to the judge. At the end of it, the judge still set me up and gave me the ASBO. When I left the courtroom, the judge and I have had to send the ASBO folders to my solicitor firm, Michael Carroll & Co., Now I've had to go and collect the folders from Michael Carroll's office myself. So now the court sent a hard copy to Michael Carroll. Now I didn't know, when I collected the folders, on the third page it threatens me, my bowel conditions, it says attend court and diss us and we're going to reman. Yeah, so they threatened, now I couldn't prove whether my solicitor Josie wrote that in there, because she was a bit upset with me at the time. Or whether Sally Gilchrist, the legal executive director who turned up every time for Renfield Council and the police to all the court cases, done it. Now, what's happened is since then Lemmy, who's a council official, Sally Gilchrist has sent the paperwork over to the council after I got found guilty supposedly. And i and i couldn't prove that i couldn't prove who put these these claims who put these threats in it my solicitor or sally now what's happening is lemmy's made this processional done he's lost his temper in the recording i tell let me can you go to the first as well your company made it and can you see the missing signatures now i've got that in recording now he goes to the in his offices he gets the first aspo he takes the threats out of it on the third page and then he puts it in his processional on page 258 if you go to Like he's injunctional on horrific corruption.

- I'm really sorry, you're going into loads of detail, right?

- Yeah, sorry. Yeah, my solicitor got threatened on the third page and I thought it might have been her. It says if anyone attends court again to help me, they're going to reman and they're going to reman and they're going to reman. And they've made proper threats, scribbled it out at the writing and made it out of my bowel conditions. But if that's unlawful, then your solicitor should be standing up against it. That's what I'm paying them for. You know what I mean? If I'm paying the solicitor... I agree with you. The threats were quite bad that Sally Gilchrist put in the folder. If you look at that, if you go... They're really bad. What my bail conditions are, if you attend a rave, attend an estate after 10 o'clock, now what they've done is they've scribbled out of all of my bail conditions and made the threats. Now, what happened is Lemmy, when he started the company in October, he's put all of them threats inside of his new possession order and injunction order and he emailed it to me and my mother. Now I've never had it emailed, I had to collect the copy from the solicitor firm. So now because Lemmy's emailed it to me, it proves that Sally Gilchrist made them threats. And she handed the folder over to Enfield Council. And Lemmy's been nasty after I've told him about the missing signatures. Took the threats out and put them in his injunction order. On page 248 or 58 it is, on Lemmy's indexed... If you go to Lemmy's indexed injunction and go to...

I've got a website where I put all brand new folders called horrificcorruption.com If you go to horrificcorruption.com I've got a full report for every day of what's happened to me. All the police's books are built brand new in digital format so you can go to the first day as well see the missing signatures. All the audios are going up. I've got like another 200, 300 recordings that I'm transcribing right now that are going up. Which proves everything that's happened, you can go to horrificcorruption.com, click on the index, Lemmy's index, under evidence, look at the book, the PDF book, and go to page 248 or 58, and you'll see... What is it, horrific

what? Because I won't be able to do it from here. Horrificcorruption.com. Corruption. .com is the website. .com, alright. If you went to, even if you went to www.rithwickcorruption.com and you went for instance to the 4th of October 2015 in my diary and in the 4th of October 2015 you see that I was put on bowel conditions not to live at my home but stay at my mother's. Now you can see if you open up another tab If you open up another website tab and you go to the first injunction order made by Lemmy, if you go to page 43 on the first injunction order as well, what you will see is the Matthew Yilligan's council history and you'll see all their first complaints that they have made to the council. You'll notice when you look at the 4th of October 2015, I wasn't living at my house so it was impossible for all these claims to be true, they were all made up when I wasn't even in my house. Yeah, and then the whole of this whole thing that they've all done is built up over that there. So... Well, to me, I mean, I don't know the ins and outs of this case. But to me, I would get a solicitor onto it, you know? I'll show solicitors and they're scared, I'm telling you. When I show them the paper... It's not about being scared. They are. They do the law. It's not about being scared. They get paid for this thing, you know? I'm not... I don't buy that, if you want my honest opinion. The reason they're not taking... - I'm really sorry to cut this short, I appreciate your time, thank you today. Can I have a meeting with somebody? Okay, what about the actual police and actually having the first ASBO taken off of me? have to discuss that with the caseworker but when she responds with the response from them with your mum's last email then you can discuss that at that time because I don't know if they I don't know that might have been it they may address it they may not address it so wait and see what that response says and then going forward If they do try to keep me on curfew till I'm 40 in here knowing that they've never arrested me and it's against the law, will you actually help me and stop that from happening? I don't know, that's what I'm trying to say. Does the MPs have the powers to stop that? I don't know what we can do. Not as far as I'm aware, no, because we're not trained in law. We're as solicitors are. This is what I'm trying to say. Yeah, I understand. Wait and see what comes back from them. Can I ask something? And then cry. I've been locked in my house for five years making phone calls. I understand that, but there's no point running before you can see what their response is. Yeah, I understand that. What was I going to say? Seeing that you say you're not trained in law and stuff, I can appreciate that. But do you know, what are my understanding of the MPs now? Before, the Queen could cut our heads off and our hands off and that if people were doing stuff in this country. So they put the Magna Carta in place here after the Statue of Merton. The Statue of Merton gave the people the right to live on the land, the first concrete thing. Then we had our Magna Carta, which gives us the rights to liberties, to a jury, and to our independence, to have an opinion on things. That's why Parliament was created. Now, that gives you that. Now, what we use that to do is you're a balancing between the mechanism in between all of the government bodies' buildings. When something... Yeah, but when you hear that there's fraud to this extent and someone's proven it to you and that they're being held hostage in their house and being tortured... The proof, this is what I'm saying, it needs an investigation. The police won't investigate themselves because the police have done this. But even someone else do an investigation into what you've produced... The Supreme Court Lady Howe.

The Supreme Court Lady Howe is the next stage after the courts, yeah?

Right, but which one?

I understand that, but they're threatening the legal representatives.

Right, well, they're threatening the legal representatives. If someone was threatening me and I knew it was against the law, and that is my job, that's what I'm getting paid for. Do you see what I mean? I'm not sure people are being entirely honest as to... I'm not saying it's not happening. Go to page 248 on the second, on Lemmy's index folder to page 248 of 58. You keep going back to these folders, I haven't seen them, I haven't got access, I told you, I can't even look at them from here. I appreciate that. Thank you for listening to me today. No, it's fine. Thank you, do you know? I'm really sorry you're in this position. But above you is the European Convention, yeah, and that's where I'm ready to go now. My paperwork's ready for the European Convention. Your quote is... I know that. We don't have that. You can pass a bill through Parliament and you can make sure that a new stipulation or regulation comes into the system, into society. You've got to maintain society, the mechanisms around society. Let me make a suggestion, my lovely. Put it in writing to Joan saying, this is what I would like you to do. Is it possible for you to do that? She'll have a look at it and she'll say, yes, it's something I'm able to do or no, it's not. If you put it in Without bringing everything in, you can give a, you know, I've got a case ongoing with you at the moment, but this is what I would like for you to do. Are you able to? Shall I have a look at it? Yes we can or no we can't. That way you're not. That's exactly what I'm looking for, some straightforward answers. But I think what isn't helping, bringing all, and I know it's frustrating, I know you shouldn't be going through what you're going through, Because it's joint circular. Joint circular means that they're acting as a group of people. But see what I mean? It's a bigger picture. Bringing everything into this conversation, you rang up to find out if there was a response. I shouldn't have, you know, I shouldn't have. So we need to direct that the right way. And the way, like I've just said, the way to do that is write a letter to Jo asking her, this is what I would like you to do. Is that something you can do? If it's the issue, say yes it is and I'll do whatever. Or no, I'm sorry, I can't. That's what I was trying to arrange a meeting the other day, the other day I phoned up and asked if I could have a meeting instead where I can bring the evidence down to you, sit down and go over everything because it's quite a big thing. We're not set up for that. You need to ask if that is something we can do first and foremost. If it's a yes, they'll say this is what needs to happen next, come in or whatever, yeah? But you need to put that request into writing so everyone's clear as to what it is you would like.

- 'Cause right now, we're going back and forwards with Lemmy's team, trying to find out different things.

- Lemmy's team forged the first ASBO, Pat and Steve inside it did together.

- I've heard, you told me about five times--

- And then Lemmy's team forged the possession order, then on top of the possession order, they enforced another injunction, then another injunction order.

- I am going to have to go.

- It's the same team.

- I understand. Well, I've just told you what you have to do. You have to--

- Yeah, I'm gonna do it, I'm gonna do it. I appreciate that. I'm going to let you go, madam. Thank you. You've been a great help. Bye.
