Hello, who am I speaking to? My name is Alice. How can I help? How are you doing, Alice? It's Mr. Cordell from 109 Burncroft Avenue phoning.

Hello. I've been told that someone's going to contact me back directly in regards to my case from your department and nobody has yet. And I've got told... We've been waiting for a response. Yeah, that's from last Thursday. And... What's happening with me is emergency issues and my life is at risk article two of my human rights. When I ring 999 I'm being told that I've been robbed down the phone I'm a black bastard and there's nothing I can do about what they're doing to me. They all falsified paperwork they're missing their signatures. For me you've not spoke to me though madam. I don't want the council arrested, yeah? I don't want another house off the council. I would like to get the employee... Can you just do one thing for me, please, yeah, madam? For one second, without being rude. No, we haven't... OK, OK, OK, if you go to Horrific... OK, OK, OK, thank you for that. I appreciate your two minutes, yeah? If you go to horrificcorruption.com, which is my website, you can see all the ASBO and the missing signatures and the backwards timestamps. But if you go to the diary and you just check the 4th of October 2015... What you will know the 4th of October 2015 what you will notice is that I am I was put on bowel conditions to live at my mum's house now the Matthew Yilligan family you live up 117 who had been attacking me my mum was writing to you asking you to protect me they they Sarah Fletcher phoned them on the 17th for the 11th I wasn't living in my house from the 4th of October 2015 till the 3rd of December 2015 yeah and all of all of that if you go to the first in John It's a dysfunctional book and you look at page number 43 and look at the council's history. If you look at the dates, all of the fake claims, all of the claims that they made against me, my neighbours, I weren't even living in my house. They made the whole lot of this up. Now they've got me put in mental hospitals because of it. They're banging above my head every single day and they're temporary accommodation. The first thing the council should do when they're having things put to them. It's moved the temporary accommodation out and given me the right to live in my house. Because I'm writing this info and writing my defence and putting this stuff on the internet, it's making them worse. I'm a secure tenant. I can't bang up at them. I've knocked on their front door 11 times in the last 5 years asking them to stop attacking me, yeah? I've had over 30 friends in with victims and everything. If you just go to the web, if you also just went to like on the, if you, another thing that if you look at, yeah, if you went to the 23rd of September 2015, you'll see Dawn Allen in the diary, if you actually click on the main bit of my diary and horrific corruption. If you actually go to the possession order and look at the blue index, if you look at number 32, you will see when me and my mum were messaging yous lot asking to protect me, stop my neighbours from doing this, my mum also messaged Dawn Allen from the neighbourhood team office. Now Dawn Allen, you can see when my mum's messaging her, what she's doing, she's going and writing in her release notes to get a Debra Andrews 113 out. And she's scribbling I'm a perpetrator and everything. She hadn't even took, no one has ever taken a statement off me. All I want is the police to take a statement off me and prosecution brought against the people that I can prove what they've done. Yeah? After Sarah Fletcher falsified that paperwork when I weren't living in my house with the Mafia, let me start it.

- Simon, Simon, you know that you told us all this before.

- No, I haven't. I've never said that to you before in my life. I've never said that to you before.

- It's all in letters and it's, we--

- No, hey, my mum's wrote letters. I've never even seen the letters my mum's writing to you. I've never even seen them. My mum don't show me nothing. If you don't have permission, I'll let you... I've gave permission for my mum to do it, but I haven't been showing the email. So I've gave permission for my mum to write my name. Yeah? Yeah? Okay. How can you be giving the council when I can prove to you like what I'm saying to you now what the council's done? How can they not be getting a... They're being given more time to falsify more paperwork. From the criminals? You must have the power to... Can I ask a quick question then? I'm going to go. I read the laws and I understand them quite well. It says even the European Convention is a mechanism in between the public and the reason you are there is because of our Magna Carta and because we have the rights to liberties. You can go to the police. The police are a public service and I can show you that they've frauded their timestamps and they're missing signatures and you won't get the public servants arrested. I'm showing you... We are not the police. If the police are refusing to do their job and telling me I've been robbed, yeah? The police are telling me I've been robbed. Yeah, and they won't do their jobs. So why won't you make sure they do their job? You're the mechanism in between them and them between the European Convention. So make sure the police do their jobs. They're missing their signatures. Each police officer falsified four statements, each public statement. Why can you write to the council? The council that proved this. I've got to put this online.
