Transcription

Oh, seems straight, you ringing my phone back? Good afternoon, you're through to the safe cabin, Tim.

Hello, are you Kevin, by any chance? Who am I actually speaking to? I know. You are Kevin? Yes, I am. And did you just try to phone me back or get a member to phone me back on a private number? Yeah, OK. Yes, OK. Hello, how are you doing? You OK? Yes, I'm all right, thanks. Yourself? I'm concerned. I'm concerned for my own safety and for yous, like, acting in joint circle, which is a breach of your codes and ethnics, in regards to... When you take... Your team members, you, your team, any person that's been a case handler or been involved in my case or in any professional manner representing any government institution against me, which I believe, I've got your signature signed here and correspondence that you've been spent from the police and you've been asking and requesting. Yeah, well, you're angry at your signature, but it's got your... It's you talking to the Metropolitan Police in my name, referring for information out of my personal records, which is a breach of my GPDR and data protection act. Hold on, hold on. You're mixing up too many things. You're mixing up too many things. I'm requesting for information from the police. Yes, that is correct. I don't understand. Okay, Kevin Kamaz, yeah, Kevin Kamaz, K-A-M-E-S-E, yeah, FWA Impact COA, on the 13th of April 2018 at 12.08, the MASH team, the MASH team at Enfield.gov, subject reference 188, P8CO87493 you have spoke to the Metropolitan Police attached into my Merlin profile medical records otherwise known as Rio you've asked a Metropolitan Police PNC officer for my personal information and he has sent across to you my personal information and you had that in two attachments form 87F-7198036 PDF and J2 form and I've got lots of your names stamped all over it now the information I've sent you says the 13th of April 2010 and it also says Enfield Triangular Team so you're acting in Triangular Joint Circular it's now called and you're working in a motion to build a profile against me for some reason Now you're acting biased in your decisions by what you're doing. What you are doing is malice of public office, which is a 12 to 25 year sentence for any public servants that acts in accordance to the statute of the company's rights. What you are doing is breaching my personal data. I have told my...

In Lemmy's correspondence of himself and of the vineyard, it is said that I refuse to use your access to my personal information and I told my solicitor to tell you that as well and I have the correspondence to prove that I have told you that I do not want you in my personal data. You have no legal right. I've had the doctors come to my house 125 times now, which I've accounted for. I've got 50 of them on recordings, yeah, which I've recorded the assessments and everything. You have referred them every single time, referring me, referring me, referring me, attacking me, rather than taking on board what I'm explaining to you. Explaining to you the moral wrongs that other members of your teams have done to me and are holding me illegally. I am absolutely fuming in regards to what you are doing and what you are able to do on them computers to any person or member of the public. It's illegal what you are doing. It's with criminal intentions that you are what you are doing. It's not for the better of the public or for the better of the community. You are doing it for your personal self gains and I am not happy that you are trying to help one of your colleagues evade justice. Evasion of justice is illegal to help a person get away with disciplinary action in regards to something that they should be reprimanded for. I am fuming that you have access to my...

I'll ask you a simple question. How can I help you? What did you take out of my... What did you request and what information have you read about my personal life that I have not seen myself?

What are you asking, Merlon? I told you I requested information. Who told you I requested information? I've got all of your paperwork and all your correspondence. I put a freedom of information request in. I'm going to answer your question. I put a freedom of information request in. I will terminate the telephone conversation. You called me because you want to know what that document is about, right or wrong? I want to know more than... That's part of the reason. The other part of the reason... Okay, now, hold on, hold on, hold on. Number one, I'm a safeguarding officer. I'm not ranting. And I'm gonna put your paperwork online and I'm gonna call for them other...

I reckon you've got a graveyard of people that you treat incorrectly and I'm gonna request, I'm gonna show everyone and I'm gonna ask for all them other residents to come forward and anyone that's upset about you also, yeah? And the way that you've handled their cases. I think there's more people like me about you and you should see the amount of data I've got of what you've been requesting. What... What I would like to know, I don't want your help, what I would like to know and what I have the right to know is why you have been in my personal data when I've refused for anyone in Enfield Council to be allowed access to it. Why are you allowed to do that? Is that documented? I have, okay, I'm gonna answer that for you right now, and it's short. What I've just done is on the 25th of the 10th, 2018, I went into, I just requested, in a subject access request, a new GDPR for all of my medical notes on Rio, all my medical notes on Merlin, I just stripped Silver Street computer systems with the subject access request and I also done Chase Farm Hospital and I done things so I've got all of my medical notes here I also asked for any correspondence sent to the doctors in regards from Enfield Council so all your emails that you and all of Lavinia and Lemmy and everyone and all the illegal meetings just being held in my name on the 19th and that and yous what's happening to my doctors I just got every note of the whole lot given to me yeah On top of me having all the recordings explaining what Lemmy knew a bastard done in the beginning and frauding the initial claims and doing the rest of it. What you have done is attempted manslaughter. Yeah? And you have now just become a part of that ring and I'm informing you... You're now going off on a... I'm going to terminate this conversation. I'm recording this conversation. I'm recording this conversation. You need to go... I do feel... I have nothing to hide. You have nothing to hide. You are reacting in joint circle with your partners. You're... You called me for a specific reason. You did not call me to tell me about all the data requests you've made. No, I'm recalling you about the stuff that your name, you put your name to. That you put your name to and that you have done. Yeah, in your company's name. Yeah, it's called abuse of position and unfair processing. You, unfair processing and abuse of position. Excuse me. Excuse me. Let's go back to that document of the 13th of April 2018. Yes, okay. No it does not, what it says, what it says, no it doesn't, what it says, what it says is that Enfield Assessment, Barnet, Haringey, NHS Trust Assessment, Enfield, two attachments form, clarification, dear police, see attached for your attention, regards, Kevin, MASH team, health, mental health team, yeah, up for you. Now if you listen to the recordings that I've got of your directors, and me, I've got loads of recordings before this speaking to your bosses and superiors, and I've explained to them, if they went to a website, Yeah, the council's in the middle of doing that request at the present. Okay, when you've dealt with the council, then maybe you can call me back, because all I did was forward on a police document, which is a requirement that we're supposed to do, okay? No, okay, well, I'm going to go through the rest of the council. Now, you need to... They're passing you information. They're passing you

information. They're passing you my medical records. No. Police doesn't hold your medical records. Merlin holds my... Merlin holds information. Merlin does. You tapped into Merlin. Yes, it doesn't hold your... It doesn't hold your medical records. Rio does. Rio... Rio does. No, no, no. Merlin is a police record. Yeah, Merlin's the police one and Rio's the doctors. Yes. And that is what I sent to the mental health team.

How did you get my personal data in the beginning? How have you got anything to do with me? Pardon? I have explained to you, I have explained to you, I am a safeguarding, I work for the safeguarding team. No, you are acting in joint circle for your colleagues. Listen, when we get any referrals, we refer them to the appropriate team. Okay? So you're one of the... We got a referral... Faro from the police following an incident in April 2018 and I passed the document on to the mental health team. That's the way it works. Everything comes via me in social services and I pass it on to the appropriate team. You seem like a professional person. I'd rather believe in you than not believe in you. Now, what you're trying to do is you're trying to shoot the gatekeeper or the postman, if I may call it Your job title allows you to be an innocent person, but in realistically you are a killer. That's what you are. You are designed to send official information to people and it has an effect on people's lives. Let me ask you a question. We have so many residents in Enfield who need our help. It is not for me to go into the records, but for the professionals. If you are unhappy with what the professionals are doing, then you take it up with them. Me, my job is to sign papers I've never had a mental illness. So you should question with them what they're doing with your records. I ask of you, I just ask of you, if any person gives you my name again, you look into that documentation and make sure that it's worthwhile sending. Because I don't have a... That is not, unfortunately, that is not within my remit. I'm not that, I'm not that. We all, we all have different purposes. Mine is to signpost your stuff to the right teams. Okay, I'm going to come off this line. And then what they, You can question. I understand the process and I'm going through it right now. I'm through it with what's being done to me. You have a good day, sir. It's been a pleasure speaking to you. He, the assessment team, Barnet Assessment, two attachments form. Clarification, please see the attached for your attention. What the fuck is he sending? And it's stamped 2010. He's lying somewhere down. He's obviously covering his ass, which is very easy for him to do because his position allows him to be protected to a degree. And he speaks the talk. You can't really do fuck all when he's like that. He is involved, heavily involved. I'm getting a copy of all of the documents of what they're up to. I want to see what he actually fucking sent. Because he's saying he sent it, but in that it's saying that he received it. They're lying. I deal with better things. He's lying somewhere. They received information in my name and it's a file in regards to it. Kevin Kershaw and the MASH team. Friday's are two Enfield assessments, Barnet and Haringey Mental Health NHS Trust assessment team. He's the one trying to kill me. MASH OSD for health and health and adult social care. He's basically like leave me alone. I'm telling him you better leave me alone. He's like I think I'm going to leave you. I know who he is, he's that gateway, he's the access Is that you're trying to shoot the messenger, but I don't act so innocent. He's got to tell them that they're in trouble.
