Transcription

Is this Kay Osborne speaking? It is, yeah. How are you doing? My name is Mr Cordell. I've been trying to get hold of you for some time. I believe you're the policyholder for Enfield Council in regards to public liability insurance and employers' liability insurance. Is that correct?

I'm not really the policyholder. I'm the insurance manager. Insurance manager. Receiver. Receiver, they used to call it. And I arrange... I arranged the insurance for the council.

- Okay, my problem, I have a few issues I would just like to query if that's okay with yourself. - Sure. - I understand that there's a policy that's been put online for members of the public which is under the constitution. The information should be published for insurance companies and stuff like that. Basically by the directors and it should be done by the financial managers who you used to be called the receiver before like you write the receiver of the Metropolitan Police it'll show you now they say like the developer of resource developer of resources and finances maybe basically I've got a policy and the policy says Kay Osborne signed it Sally McTarran signed it at the bottom and No you've not signed it, it says that you feel... I want to sign the policy. Yeah it doesn't say that you've signed, it doesn't have your signature but it has your name at the top of the policy, Kay Osborne, it says that you're the financial manager and the policy... No, can you send that to me please? Okay I'll get that sent over, can I ask a question, is the public liability for the Enfield Council up to £1 million only? No. Is it unlimited cover? There's a £50 million limit. Is it possible I can get a copy of this because I'm making a claim against Enfield Council myself and I'm acting litigant on my own behalf. Is it possible I can get a copy of the insurance policy please so I can speak. I've been advised. You can have a copy of the confirmation that we have liability insurance but I'm not providing you a copy of the insurance policy I'm afraid.

Okay and what would that, the information that you're passing along to me, what would that pass, would you?

So it depends on when's the date of this loss because our insurance changed on the 1st of April.

When's the date of loss?

That's what I have on the policy. Basically from 2014 up till today's date, 19 is the year. So I'm going to, it's a seven year sentence. They gave me a seven year sentence and set me up and there's a lot of other issues. I've got lots of recordings of them saying that I'm... Cussing my ethnicity, telling me that I'm dead down the phone and stuff. I've got lots of recordings here that I've transcribed up. I've done a full diary. Basically, they all thought I was inside of my house and I wasn't. They went for an ASBO. They forged the ASBO with the Metropolitan Police. It takes the council and the police to make an ASBO together.

And victims. They forged all of the victim's statements, so none of the statements in the third perspective, the reason why I've got a nine year curfew, is signed at the bottom of them, and that is signed by any victims. So I questioned, I asked for all of the victims to attend court. Now, Enfield Council left a photo outside my front door, And what it's under is the Raves Bill 1994. Now, the Raves Bill is a criminal offence. I never got arrested for this offence till today. Now, I've got a copy of my criminal record, and my copy of my criminal record says

that I've never been arrested for this offence till today. If something's criminal, you have to be arrested for it. The maximum sentence if I did get arrested for the Raves Bill would be six months custodial due three months. Sorry, can I just stop you? What's that got to do with the claim with Raves Bill? I'm going to be claiming for targeted malice, yeah, which, malfeasance of public office, which I've been, and I'm going to be charging for malicious prosecution and malicious process. Now, the reason... Yes, the militia... That'd be the police. Pardon? That'd be the police only? I think so. No, I've been told malicious prosecution and malicious process is exactly what you do the directors for, the constitution. Mail feces of public office, harassment 1997. I've got all of the dates and all of the laws there. OK, so what I would need to give you then is I would need to give you details of our insurers from 2014 to date. Yeah, that's good. That's no problem and what that will give you is the name of the insurer, period of insurance, policy number and if you want to make a claim you would need to put that in writing to ourselves here and I'll give you those details as well in the email or the letter. Can I have both please if preferable? Do you know what they've actually done to me?

What it is, is they've made the ASBO and I kept asking for them to take the ASBO but it was fraudulently made. I'd never done what I was being accused of. When they've made it, they've changed all of the police officers' names. It says the council sign it and the police sign it. They say they had a meeting in Enfield Council, you can't have this ASBO without this meeting. They forced all of the cop, took all the real coppers' names out of them and called them Bran A, Bran B, Bran C, Harry Havit. So every copper's name in the whole asbo has been changed all of the numbers because i've got my real criminal record so i've got the real copper's names out my room then what then what these are done is to cover all of that up when i wasn't in my house yeah i was i was on bowel conditions at my mum's house a guy called lemmy started work for enfield council in october 16 yeah and what he done is he met he started sending my mum 12 hip sarah fletcher she's a neighborhood officer My mum was writing to Dawn Allen, who's a neighbourhood officer as well. She was writing to her for 16 months asking him to stop what my neighbours were doing to me, which I've got videotapes of, asking for the council to protect me. Dawn Allen went into the computers on the 23rd of September and what she'd done is, because she'd been ignoring my mum's complaints for 16 months, Yeah, formal complaints. She went in there and she labelled, "Simon's the perpetrator." Then on the 24th, she wrote to the... I've got all the release notes. She wrote to the doctors and she said, "I'm in trouble with Simon and all of that." They said, "Simon's not known to MHA. His name's never been known. He's never had no problems." Then they said, "He's the perpetrator. He can see things. He can do this." So on the 23rd and 24th of September 2015, dawned on them and that ruined my life. They ignored my mum's what she'd been saying for 16 months. Done that, then two months after that I got put on bowel conditions not to be in my flat. Sarah Fletcher, the neighbourhood officer, never knew that I wasn't in my house. She didn't know I was on bowel conditions. So she's called a meeting with some neighbours upstairs. They've completely forged all the dates saying that I had done stuff in my house. Eight dates they made up, yeah. Now them eight dates that they made up in the office, I weren't even in my house, yeah. Now on top of that, I won three criminal cases that I got arrested for in court, yeah. Three against my neighbours, I won them all in the criminal court. Got arrested, went criminal court, won them all. Then what happened is there was a witness care worker who sent Enfield Council all of the paperwork saying Simon's won all of these cases and he's allowed to go back to his home and that. So what Lemmy done is he went, Kenichi, while Lemmy's manager, told Lemmy to go and drop off some diaries to stands in everyone's houses saying Simon's won these cases. They done that, I come back and then I got arrested again, yeah, for somehow, yeah, they set me up again, made up some lies.

And while I was, none of them realised that I was actually in my mum's house. While I'm in my mum's house on bowel conditions, they made up an extra three dates on top of that.

Used the three cases that the witness care team told them that I'd already won, so I've already won them in criminal court, then used the eight cases that Sarah Fletcher made up, not knowing that I wasn't in the house, so all the dates I weren't even in the house, then made a possession order, I won that possession order, then they used the same claims again in an injunction order, I went court, won the injunction order, then they used the same claims again in another injunction order, I just won that again and they went and got the same claims again and just put the same claims again into another possession order. Now I'm sitting in my house till the 12th of December, I've not even been to a trial yet, in four years they've had me with the company credit card, not allowed to speak in court, never been to trial, never had a preliminary trial, not allowed to do nothing. And I'm always stuck in malicious process, yeah that's what they call it, malicious process where they've got the company card, they're abusing their rights, I've got loads of recordings of me telling Lemmy please come, I know that you frauded all of this stuff, when I showed Lemmy I know that you frauded it all, he changed it all, then he made it from 12 things up to 31 things, but I stripped the council's computers and none of it's inside of the council's computers, all of the new claim, the new 31, but then so all of the ones that were are in the council's computers i weren't even in the house and then the ones that after which he forced you can see it so clearly with what i've done and the recordings i'm ringing the whistle council's whistle blowing line which is the number online and i'm speaking to heaven litlow and she's saying she's i've been speaking to her for two three years she's telling me there's nothing that i think that they can do to help me They don't care if Lemmy's are doing fraudulent stuff in there and all the rest of it. The list goes on to what I can prove. I'm sorry for biting your ear off, sort of thing. No, no, no. I apologise. That's all right. What I need from you, then, is I need your name, address and email address, so at least I can send out the information to you. You will need to put your claim in writing. That's not a problem. And what you will need to do is send any supporting evidence that you have. I have loads. So where you've said that you've got a lot of information, You'll need to get back to us as well. I've built a website, Horrific Corruption, and it's in draft mode right now because these lot, where they were in so much trouble, they were writing to Silver Street, please go and get him, please go and get him. Now, all of the doctors have kept saying to Lemmy and all, have you done your risk assessments on Mr. Cordo? Because they know I'm quite fair up in my... In understanding the law, civil and criminal litigation. Lemmy's writing back, "We don't care, we don't care" and all that to them. Now they've all gone into a forum called Rio, out of Merlin and the rest of it, and they've been talking in there every single day. They've never diagnosed me with a mental illness. They're saying, "Yeah, we're going to get him on tablets." I said to them, "None of you allowed my personal data." They've been sharing all my personal data, getting it out of all these new people, solicitors. Jeremy Chambers and all that who works for this company who's in charge of this, he just got done for gross misconduct on sexual harassment. They're trying to do all this, a load of stuff which I can prove tarnish my name which is my definition of character. I've never even argued with my partner, me and Shannon. I've never even done nothing bad. I still go and pick Shannon up now. I've never done nothing bad to that girl in my life, yeah. I never gave her nothing. I swear on my mother's life. I loved her and looked after her and that child and I was going to live with them for the rest of my life until Enfield Council and the police done this to cover up the first ASBO in my name. I apologise for that. I can prove everything, I swear to God. Yeah, yeah, no, and what will happen is any claim that's made against the council, we have to notify that to our insurers. So your one from 2014 to date, that will cover, I think that covers two different insurers.

Yeah, I understand that. I'll have to have a look at Because you're premiuming out for three years at a time, is that correct in saying that?

Five years. Five years at a time. We have a policy for five years. What is your fiduity guarantee, for instance?

Because I just wanted to ask, what is the fiduity guarantee covered up to? Fidelity guarantee? Yeah. Fidelity guarantee isn't anything that a member of the public would need.

Yeah, I understand that. It's just that I was just questioning. If someone does fraud, it's fraud inside of the company. It's usually a financial loss.

Yeah, I understand that. It's just, you know, it was, it's just like I was watching Ian Davis and all that, and I was watching them getting £159 million and all that for Millennium Way and everything, and I was thinking, like, you have to be insured to hold £159 million, because Rob Leak's put him in that position. I've got Rob Leak in all the emails completely, loads of them, yeah, what they've all done to me, and Joanne Ryan, Joanne Ryan ran out of office because of all of this, yeah, I swear to God, yeah, I've got, I've got thousands of emails I've put into a diary. I've stripped all the police's computers, all the council's computers, all of the hospital's computers. I've done... I put a freedom of information request, gone into the computer, got all my personal data under the DPA 98 and GDPR, stripped the computers of everything that I want to know, put it all into order, into a diary, into a complete diary. I've made hundreds of phone calls trying to make people aware of what's going on. And in the recordings, they're going, like the doctors are going to me, you do know what we do to people that are sectioned, don't you? Yeah, we kill them, like that, down the phone to me. And I've got all the recordings of all this. That's how... Mental health HQ and sent and they're going on your brand where you've been robbed There's nothing you can do and all that down the phone to me. Honestly. I've been through a nightmare recently I just want to get over and done with My name is Simon Paul Cordell Cordell, yeah, that's correct D e double L. Yeah, that's correct 109 Burncroft Avenue Sorry, Burncroft Burn, B-U-R-N Burncroft Avenue Enfield Echo November 3 7JQ Sorry, 7JQ Sorry, I get bad signal in my house Yeah, I can't hear the last bit of the postcode 7JQ Juliet Cubic email address re underscore wired w-i-r-e-d w-i-r-e-d at yml.com it's just the at sign and a y on its own then mail.com lovely right okay what i'll also do um I think, no, there's probably not. What we normally do is we send a claim form out to people. So what I'll do, I will send that out. If you can send that back, all you have to do is sign the back of the last page, basically, because it's a declaration of truth. But I don't expect you to complete the form because this isn't sort of like your normal everyday claim. And it's going to be a bit tricky for you to complete the form because the form isn't really geared for a claim of this nature. I appreciate that. I've already made the paperwork behind the back end. I've made all brand new PDF books and InDesign for it all. I've built a website, Horrific Corruption. I've just done that in draft as I was building it. I've built all brand new paperwork off the back end ready to upload on there in case I have to call for the public support in what I'm doing and what I'm going through. I'd rather not have to do that, but I do have everything organised and ready to go. Okay. Because the information that our insurers will want is they'll want documentary evidence. So you have that. That will make the process hopefully a little quicker. But as I say, any claim that's made against the council does then get notified to our insurers and our insurers then will deal with the claim. So they may put it into the hands of their claims handlers, they may put it into the We don't deal with any claims of this nature in-house at all. I appreciate that. So it won't be my team that will

actually deal with it. It will be our insurers. But I'll get that information out to you by email and in the post. All right, thank you. And everything there will be that you'll need. And then we'll take you from there. All right, thank you. And then you can send the information through to us. All right, thank you, madam. Okay. All right, have a good day. All right, and you. Take care. Bye now. Bye.
