Hello, is that Jacqueline speaking? No, she's gone home. She's half day today. Who's calling? Mr. Cordell. May I ask who I'm speaking to, please? I'm the Director's Secretary. Can I help? And your name is? May I ask?

Sophie, how you doing Sophie?

Sophie, I'm Mr Cordell and I've had a long ongoing issue with the Metropolitan Police. I don't know if you know any of the details about it as of so far.

No, I wouldn't. That's perfect. In a nutshell, what it is, is basically in 2013, Miss Sally Gilchrist decided to accept an application. She was the Director of Legal Services and it was for an ASBO against me, the Organisation of Illegal Raves. Now, if something's illegal, you've got to be arrested for it. They never arrested me for this application. Now, my problem is I have lots of recordings of Janet Chet. Do you know the person you're just supposed to pick the phone up for? I've got about four recordings of her and I've got loads of recordings of Sally that I've never put on my website or nothing like that yet.

Here but I'm basically going to QBE insurance who you're insured with now and I'm trying to claim because the application that Sally let go through was missing all of the victim's signatures all the police's timestamps went back plus I've also noticed that Stephen Ellsmore and Sally changed a load of the coppers what they've done is basically in 2000 I never threw none of these parties I've got all the Facebook accounts Can I just explain this last bit to yourself madam, what they've done to me please. I think it's only fair that I can explain this to you. What they've done is the police have decided to go into an application Edmonton Police Station have, create an ASBO application with the council, fraudulently under the company at 2006 and then what they've done is they've used all good Krimmit reports that were on the computer about me saying I'm building a festival and they're pulling me over in my car on a Thursday normal days when you couldn't be throwing a party they've used them days there and they've edited them or opened and amended them all then what they've done is they've got loads of other CADs Krimmits from out of the boroughs and they've changed all of the URN numbers on them took them and changed the urns and changed all the police officers names now I've done a freedom of information request into the council's computers and I've got my real criminal records here and the real police officers that dealt me on them days they've changed all the names to names like Bran A, Bran B, Bran W and Bo Generate, a devil in me you're not even allowed to have a Christian name on the registry certificate name as a devil in me Now the maximum sentence if they did arrest somebody for the organisation of a legal race would be 6 months and that's if you did get to your interview. Somehow they gave me an 8 year curfew, I've never been arrested for this crime before or nothing like that, I've never had my right to interview. I was explaining to Sally I don't fit what the 999 callers say and all the rest of it. I was also explaining to this Jackie on the phone as well. And no one wanted to assist me in doing right and releasing me. They're detaining me in my house now. I'm scared to petrify to walk down the street. The police have continuously been attacking me in my house, trying to cover this over and spread that news and use my and my partner's name, said that we've had an argument when we've never had an argument. They've used the head of communications And the reason I know that this has happened is because it's saying to do with Boris and Boris's water cannons and the first part. I've got all the evidence here to prove what happened and people's MOs behind different things and the rest of it. But at the end of the day, Sally has caused malice of public office. She's trying to help other police

officers evade justice. There's malicious process, malicious prosecution. I've had the council who made the application with Sally because it takes the council and the police. Look, can I just, hold on. Can I just stop you there? You need to either speak to Sally. Sally won't speak to me or I can't get hold of Sally. Or send your request through our, you know, write an email. I've built a website called horrificcorruption.com and I've guided her to that website in the recordings and shown her this...

Michael is in reference to Sally Gilchrist using the Metropolitan Police force and her as a knife out of a drawer for her own self gain alongside other police officers then maliciously changing names and me telling her that I don't fit the colour skin to fit the crimes that she's setting me up for her refusing to listen to anything that I'm telling her down the phone and maliciously going for process and ruining my whole life. She's destroyed my life and she's destroyed a young kid's life. My name's Simon, my Christian name is Paul and my last surname is Cordell. C-O-R-D-E-L-L. Okay, can I take your number? My telephone number? It's the number that I'm calling off, funny enough. It's a brand new number. I don't know it off by heart, to be honest. And Jackie, because I've basically had to go to the police computers and I've had to put Freedom of Information Requests in and strip their computers. The same for the councils and the same for the police. The council never went to none of the 35 appointments. Alright, well I'll get Jackie to give you a call back. And when will I be expecting this call back? Hopefully tomorrow. I'll email her now. I'd appreciate that. She'll be back in the office tomorrow. Okay. Alright, thank you madam. Thank you, bye. Okay, goodbye.
