Good morning, Barnet Enfield and Haringey Mental Health Trust, how may I help you?

Hello, is it possible to speak to a line manager for Subbu Abbedili please?

Who are we speaking to please?

Mr Cordell, Simon Cordell.

Simon Cordell? Our manager is out at the moment I'm afraid. I can take a message and No, it would be in the best interest for me to speak to somebody. I've took everyone's records off of Rio for what they've been doing to me since 2014. And I've stripped them all and I've put them all with all my solicitors' emails, all of my doctors' emails, all of the voice recordings that I'm recording you right now. I reckon I've got about 400 phone calls to use, lot. Yeah, and to the rest of your doctors and all of your Jane Cushion, Jane Cushion and everyone who forged all of the psychiatric reports and the rest of it. The old lot, I can prove everything. And then forcing me, all this Medicaid trying to force me, all this medication down my throat and stuff like that when there was nothing wrong with me. I've never had to take medication. I'm just trying to... Because I just had super at my front door. I've had people at my front door, your team at my front door, over 125 times. I've got all the dates, I've got the recordings for every time that you've been in my house, I've recorded it, yeah? And what your team, what your colleague and team have tried to do is try to murder me. Yeah, it's malice. What it's called is public malice, yeah? Yeah, yeah. And what that is, that's a 25-year sentence. It's two life sentences. If someone can prove that you are acting in malice, or acting in joint malice, and in... Okay. My numbers should be already on the computer madam, is it possible that you can ask them just to contact me Mr. Caudell on the phone? Yeah if somebody wants to go through my paperwork and through the rest of everything that I've got that I can prove. Right so the number that you can be contacted on is 07878036034 That's correct. I'm about to go public on horrificcorruption.com. What I put on my website, horrificcorruption.com, so far, is really a draft. That's why it says draft, draft, draft, draft, draft, yeah? I've stripped all the courts of all their paperwork. I've stripped all of the Merlin, Rio. I've stripped everybody. I'm telling you, I've been running around stripping all the main offices' computers. There ain't many left. All Scotland Yards computers. I've done all Sally Gilchrist... All the first ASBO hours it was forged. I can prove what all my neighbours done to me. I've got all the... Do you know how many videos I've got that I haven't put up online yet? Yeah, I'm telling you. I've been building a case since 14 against these people and I don't think they're going to be able to... The trouble that they're all going to end up in at the end of it in a second for what they've been doing.

Right, OK, Mr Cordell. OK, thank you. Bye. Have a good day. Bye-bye.
