Transcription

Oh hello. I spoke to you quite a few times and what's confused me is that I understand that when I check online, in short, when I check online for Enfield Council's whistleblowing policy, I can download a copy of the policy and I can check the phone numbers in it. There's five numbers given and this is one of the numbers given. Oh is it? It shouldn't be, it shouldn't be. This is Enfield Council's whistle blowing line and it's publicised on the internet and then what also upsets me is that when my mum was messaging you, warning you what the staff in Enfield Council were doing to me, you was forwarding it. What does it mean? - Yeah, she was 100%, she was emailing you and to get to speak to Rob Leak at one stage and speak to Ian Davis. Because Rob's not been here for a couple of years. Yeah, Rob hasn't been there for a while, since about just after 15. Then Ian Davis got it at 16. My mum was messaging you through 14 and Rob Leak was involved. Then after in 16, she was messaging you at the beginning when Ian Davis started. She continued messaging you throughout up until the 3rd of 2019 was, I think, the last email that Ian Davis got and you got. And you reply back to my mother a lot.

Regards to what's going on and I've took the phone number and I noticed that the phone number was the same in the whistleblowing policy so I started phoning you up before my birthday and I was phoning you up at Christmas and I was explaining to you where all the fraud was let your companies not just last year, the year before, but the second I get off the phone to you, you seem, I don't know if you speak to somebody or somebody else, but I've got all of the council's history for my personal data. I've put an FOI and I've done the same to Rio, which is the NHS's and I've done the same to the police's. Now I can see all of the messages, referrals coming out of Enfield Council the second I'm speaking to you and everyone planning how they're going to get me on medication in Rio and they're going to cover up everything that I'm saying. To me, that's attempted manslaughter. And to know that I'm locked in here and I'm telling you what employees are doing. What you seem to always do when you're spoke to or you're asked to do something is you will try to pass it below your secretary for the chief executives. I'm not actually. I'm not. Or you was at one stage and when I was speaking to you and what was happening is rather than I've been through the complaints and Daniel Ellis and the rest of it and I've got all the emails to prove that and how they handled my case and they showed me neglect and so forth and gross misconduct and I was speaking to you and asking you to push it up higher and every time you're you're undermining me and telling me i need to pass it back to the same people i'm telling you were frauded all of this leaving me in a trap 22 to the extent where i'm still in here 2019 on the 11th 29th of the 11th 2019 locked in my house on a curfew a seven-year curfew because of the enfield civic center has made it in the in in there and they thought they changed all the police officers names to names like a devil in and all that you know you miss certain names you're not allowed to have as a Christian registering a baby in the coppers names what all the little coppers have changed all of the names in it they've got no signatures to none of the victim's statements that they've caught that I was I was didn't throw none of the parties I think I've got has got me this seven years I'm not being arrested for it if you did get arrested for throwing parties the maximum sentence you could do is six months three months in prison and you'd most of you get a tag and do two months in prison a month on tag and three months on licensing somehow without even arresting me i'm riding seven years because of this enfield civic center and on top of that to cover that up now they've gone and hired in lemmy and lemmy forged 58 different incidents it started off with 12 to my mother that he forged he used criminal cases that i had one in a criminal court The Witness Care Prosecution, Jean Burton, messaged Kenichiwa, which is Lemmy's line manager, and she told Lemmy's line

manager, Simon's won the cases and is allowed to go back home. Kenichiwa told Lemmy, who had just started the company on the 10th month of 2016, to come to the so-called victims who they had tried to cover up for. And I can basically prove what I'm saying, and I'm innocent and this is not down to me and I don't see why I should be right. There's a possession order against me at the moment right now. There's 58 claims incidents now inside of that. When I was speaking to you there was 12, then it went up to 31, then up to 48, now up to 58. And I partly hold you responsible because I spoke to you and told you what they was doing. That they were that they used dead cases that i've won in a criminal court they could they thought they were trying to force me to a meeting in the civic center which is entrapment yeah knowing that they're using dead cases to do that then what they've done is they've called the mafia guns down to the civic center that then make up a load of information back dating it nine months six months and the rest of it They didn't realise that I was on bowel conditions at my mum's house. They'd done this on the 11th of the 11th 2016, had to meet with the Mafia Illigons and Sarah Fletcher herself and the neighbour team officers checked, when they do meet the Mafia Illigons for the first time, they check with Walthamstow because the Mafia Illigons are temporary accommodation above me. And they're really Walthamstow tenants, they check with Walthamstow whether they've ever made any complaints about me before, and she says, "Now, there's no complaints beforehand at Walthamstow, and they've never made a complaint to Enfield Civic Centre." Now, Sarah Fletcher lets them make all this history, nine, eight offences up, sorry, backdating them all times. Now, some of them dates, I'm on bowel conditions not to come back to my house. Now to top that off, let me start sending my mother 12 things, using the 3 dead cases, using the 8 things that Sarah Fletcher forged, plus on top of that, one of my other neighbours, who didn't realise I wasn't here, made a malicious phone call when I was on bowel conditions, and she made up 2 dates. Now all of these dates are made up from the beginning, the initial 12, all of them, they didn't realise I wasn't in my house. Yeah, and I was on bowel conditions not to come to mass. Then they've used the same 12. Yeah, to get me to a meeting at the civics. I refused to go to the meeting because of the first ASBO was forged by them. And now that I knew that they were doing this, then after speaking to you, they've updated that to 31. Now the rest of it ain't in the council's history because they've had to make the rest up after using the 12 that were forged in the history. Then after that, they've gone and updated that to 48. They've made continuous referrals. I I'd like just to be able to have a meeting with somebody and show them my evidence and stop being treated equally. The Enfield Council seems to be happy to take statements of all of these people. I've not had one person take a statement of me in all of these years. And as you agree, I spoke to you already prior. Hello? Is there anything that can be arranged for this? If I can even phone back on Monday and someone actually will pick up this phone rather than leave me just sitting there ringing a phone that ain't getting picked up on purpose and be able to arrange a meeting with me and be able to go through things. And be able to put some of this down and take both sides of it and do a fair investigation, as Enfield Council should be doing, and not persecuting against me, when they know that there's no chance of any prospect of a guilty conviction, because I'm an innocent person. I want them to take the first ASBO with me and let me be released. And I want the...

Really, you probably do need to speak to... And a few of the others, Lemmy's line manager still seems to be in it. Jeremy Chambers, Laminia, when she was forging everything, she's covered it all inside of it. Jeremy Chambers got accused of stuff in his last company and I never done this and now he's happy to prosecute me and victimise me because of what, I'm a different colour. They can't be changing people. I've just checked the last name that they've just used to do this procession order now, Paul Baccarage, he doesn't exist in none of the civic centres computers, He doesn't exist anywhere, Paul Buckridge, who's emailing my mum

at the moment. And there is a Paul Buckridge who is, one Paul Buckridge in this country who's been signed as a solicitor. I've got his email, I'm trying to get through to him at the moment and he doesn't live anywhere close to us. So I don't see him being the real... I think they're using false names, I think I can prove it as well, that they're using false names at the moment to fulfil a processional to steal my home and my belongings off me. They keep labelling me mentally ill. In all these seven years I've had the doctors come in and say 76 times, more than that, in my actual notes, in Rio notes, where I put it into a diary every day, they're planning to kill me. They're planning how they're going to get me on medication, they're going to do this to me and they're going to do that to me and this is all because Lemmy decided to forge a load of paperwork and I'm telling you what Lemmy's done and no one will do what's correct for the company or for me or for anything else. Ultimately, the ultimate thing for any person to be doing is to have public, to have public and none of this seems to be happening when I'm asking for it to be the measurements to be met to. So, it's the only way that I can phone, you can maybe have a word with somebody else, on Monday I can phone again and we can try to go through this in a more formal procedure and where things are being dealt with efficiently. I've got Jeremy Chambers' phone number already and I understand what you're saying. Who is Jane that is supposed to be the same as Jeremy Chambers for the Enfield Council? From my understanding this Civic Centre is one of 32, is that correct? Or 33 in London Borough. How do I get in contact with the commissioning group for the Civic Centres?

Yeah, what normally would happen is you would have a commissioning group. So like one way to sign a charity up, there's one commissioner who's in charge of all of the charities. And it's a very similar thing with this. There'll be one person that what they do is they will instate these policies. They will meet people like Ian Davis. Ian Davis will go through a model constitution which is set out to protect the people and what his director's roles are to perform. And then what they would do is they will sign that at the bottom of it. Now that company becomes a constitution. Now, Jeremy Chambers is just a solicitor and he's not a good solicitor at that. He wasn't worth his money after they took him off the table because we're all having these problems right now. And my estate is suffering continuously even though we're all paying rent here. And there's landlords going to work to pay for their homes. And these are using this as a playground and using us as like gerbils rather than doing something... Of the articles of association property. There's like 12,000 properties alone just in civic centres that they own, let alone the solicited ratings and the rest of it. These people are accountable to somebody. Who is Ian Davis accountable to as a person of title? It's a top of the chain for this one building. But as a group, if this Civic Centre decides to end up falling in deficit, like you've got 250 million policies right now on the table, yeah? One with QB that covers you for the first lot. Ian Davis ruins the first policy because as we were saying, Ian Davis coming to it in 2016. So Ian Davis has been messaged all the way through this problem and he's been messaged right at the end in 19 as well and he's getting direct emails. As of you have had phone calls going through it and all of the higher chain command people have and the rest of it and emails have gone through. Now you've all failed in your obligations towards me as a citizen, as a UK citizen and achieve for the people and they don't just say oh well you're in charge of this but someone oversees all the civic service because if this civic centre if I take the 50 million from the first one the second one clearly falls as well so Like this Civic Centre, it's just one building here, like we're saying, at the end of the day, if this Civic Centre fell into deficit because of it, in its constitution, where it says it's allowed to borrow off the other borrower's Civic Centre, so they can all share their tables, this Civic my understanding of how it works. I just want to know who is in charge of them all and whoever sees Ian Davis.

- Well, I mean, as far as I know, Ian Davis is the top of the chain. So unless you speak to Jeremy Chase, he may know. One's an association, one's a limited company, there's six structures that anyone can be in total. This one here now is under a model of constitution. If you go to my website, horrificcorruption.com, and you went over to the last month or whatever, and you scroll down to more, you can see I've done a cabinet of policy You can see Enfield Homes model constitution which is published online as it should be but you can't see the constitution for Enfield Civic Centre because people are not meeting the requirements and they clearly don't understand in-house to what they should really be doing or maintaining. I'd say Jeremy Chains would be the one, he would know all about that. Is there any public meetings that Ian Davies actually holds with the actual communities that he represents where we can all go along and we can sit down and we can actually talk to him and present something? Or is he an invisible person that no one can catch? I haven't worked in there for six months. What is the direct number for the PA office? I can give you one of the numbers. Let me see. What is this desk number? 0208. 0208. 379. 379. 3989, what does that number do? That goes to Katie.

Katie, and who is Katie? She works in the Chief Exec's office.

Okay, and see this number here, like I was explaining, it was designated as the whistle-blown policy, and it was also designated... That's not right. It's in the policy, is it?

Yeah, if you write Enfield Council whistle-blown policy on Google, yeah, and then once you go to... You download the PDF of it, then you see the number inside of it. What is it designated? What do you say this number is for now? Because before I thought it was for chief admin, now it's not admin, it's some... What is it? No, it's not. I work in a different department. I mean, I kept my same number, but I mean, I now work in the resources department. In resources. So, resources, which is the Department of Resources and Finance, HM, yeah? So, basically, what you are classed as is the receipt holders for the company now. So, anything that... No, we don't... Is the person who deals with the company. - The guy ain't got a clue what he's doing. And his history, it wouldn't be so bad if he was a decent person and knew how to look after people that were innocent in the beginning. He's allowed all of these jobs and everything like this after he's actually been banged guilty. He's supposed to be one of the best solicitors out there, worth his money in gold, like they're saying. And the women in the last company have managed to prove something against him. And then he's still being hired by this company like he's still worth his penny load and what's not. And then he's managed this case like that. And there's me, I'm an innocent person, I've never argued with my partner, never done nothing. They've put this smoke screen up that's damaged me, which is exactly the same as what Jeremy Chambers really done. And then he's come along and he's done this to me and allowed this to happen to me and all of the employees below him. I'm not impressed with what he's done. And the way that this company had fought. They need new staff inside and a company that actually know what they're doing and represent it for the right reasons. I'm sorry to say, this is wrong what's happened here and what they've allowed to happen to me and my partner. I'm going to let you continue with your day, madam, and I suppose I'm going to struggle to the top one way or another. That's how we'll do. All right, thank you. Okay, thank you. Bye.
