Kay Osborn is currently unavailable. Please leave a message after the tone. When you have finished, please hang up or press the pound key for more options.

Hello Kate, it's Mr Cordell. It's 3.46 on the 20th of the 1st 2021 and I'm calling in regards to our previous conversations about a claim that I want to put through with the Enfield Council's insurance company. Like I said, I was building my website and putting the information that I've got and all the evidence that I've got inside of it. I have come a long way since our last conversation. I've been working around the clock on it as I have been all the way through what's been going on. I was wondering if you can give me a call back. I'm hoping that you've got your problems sorted out receiving your messages, as you said, with your IT guys and all that in there because... The sensitivity of what's going on and other people trying to make calls as well to yourself and the importance of us being able to contact you.

Basically, can you contact me back as soon as possible? I will be forwarding you information because you're saying you're having issues with seeing the website and that seems to be a continuous thing that you're saying but Nobody else is having these problems and I can check in my time logs with Wix and prove when the website's live and when it's not live and you can see that everyone else ain't having a problem. It just seems to be yous that have a problem with seeing it. So to get around this problem is, like I've explained, I can send 5,000 emails a month. From the website so I'm gonna once I've just finished getting the last bits up which everyone else can see and I can see because I've been speaking to a lot of people about the website and getting a lot of feedback and things on it now what I intend to do is use them emails to pick specific parts like the 23rd, I think it's the 23rd of the 10th 2015 when Dawn Allen and that picked up the case and she starts talking behind my mum's back being two-faced in one sense telling my mum she's sorting out something but really she's messaging the doctors and arranging for them to come and get me Things that you could have done your own investigation into because you sent me this paperwork in the beginning and I've told you the points so you could have gone to the specific people like Dawn Allen's information and you could have checked the emails and you could have done your own investigation and you would have come to the same conclusion if the investigation was done fairly. I think that yous have failed me in multiple ways. I feel that I'm still being forced to live beside the people that are attacking me and I'm still getting attacked on a daily basis. For instance, I was just getting attacked less than 10 minutes ago standing in my corridor in my hallway by the neighbour 117 who's upstairs who seems to have two flats. And used a little happy fur to bounce in between these two flats and everything and that's happened with every other person that's been put into 117. Raviti owns over 50 houses as I explained and I can prove because her dad's an accountant who were the previous occupant, not the previous to that but the original occupiers who've done majority of this to me and everyone that seems to have been put in there seems to have another flat somewhere let's buy the account and they're trying to nick a flat off the council it's like I feel like it's like I'm moving people in there intentionally knowing that they've got other flats and that if they want to get the second council flat that they're trying to steal which they should be handing the keys in them because they've got one flat for to suit their needs you know and they're living partners you know like as I can prove on my cameras and stuff the people coming in and them living together that sort of thing I feel that Once is a possibility, twice, three times, three different lots of people and they've all got separate flats and I know where they are and I can prove the majority of where them other houses are. I feel it's a bit funny but back to the point is I will be emailing you direct evidence very shortly so that there is no problems with you through the website. Grab specific parts

and I'm going to just start sending them all to your email and I'm going to do the same to everybody every there's like 1500 other officials emails plus I'm going to do all the courts I'm going to do Scotland Yard I'm going to grab a massive mailing list and I'm going to throw in all the other lists that I've got on my own and I'm going to start mailing to the whole lot and I'm and I'm going to aim majority of that towards your department as you are saying you need the evidence sent to you because you can't seem to do your own investigations. Well, I'm just giving you an update to where I'm at. If you can't go see it, which I believe you can, you can go to the website and you can see where it's at right now and you can see where I'm at. I've just finished, I'm just finishing 2021, the main diary.
