Hello, may I ask who's speaking please?

Hi, speaking to Keneza, how may I help? How are you doing?

I spoke to a lady yesterday in regards to an official complaint that I'm trying to put through and it's more than just an official complaint, I'm actually being held in my house on an eight year sentence because a load of Enfield Council staff wanted to scribble that I'm a brown boy on the block in an application and serve it through a legal call. Every time I phone up and I go to explain exactly where the application has all of its hard errors, where it's been forged and so forth, or I speak to anyone or ask to speak to someone like Jeremy Chambers, Head of Law and Governance for the whole of North London, They seem to be rude and refuse to talk to me. They keep holding me in my house like last night was another night I've had to sleep in here. I can't go out today. I can't feel safe in my own borough. They've sat there and they've not just forged an ASBO and scribbled, oh he's a brown boy on the block. They've put like nine cases in there from the past. All the nine cases are cases that are won prior in a criminal court then these i've put them into a civil case they've checked edited them all edited all of the cats and from which i can prove because i've took the real files out of the police computers now and i can compare them all the all the copper's names for the other boroughs were changed they changed all of the cad numbers they forged all signatures then the actual victims themselves are police officers making 999 calls 2999 and setting me up PC Shinnecon Duty making a 999 call and they're actually the one the police officers are the ones that actually set me up and I can prove it it's crystal clear I keep getting told I need to speak to a Dionne Grant she's my new case handler but a lot of the emails I've put like I've compiled like 4,500 emails here like and basically A lot of them emails involved Dion Grant through a set period of time and I don't think it would be fair for Dion Grant to be my case handler. I keep getting pushed aside no matter what. I've been stuck in my house for an extra six months again just since I last spoke trying to get hold of Jeremy and hold the rest of them and they basically kept saying you've got to speak to Dion Grant. I phoned Dion Grant and I recorded the conversation and I was excited. Speaking maybe a bit of how I'm speaking to yourself, I wasn't rude or incourteous to her, and what she's saying down to me to the phone after she treated my mother in such a cruel and unprofessional manner is, you're as both hysterical, Simon, you're as both hysterical, We can't talk about your asthma anymore, it's hysterical. Well, what about the procession order that the council forged afterwards to cover up everything when I wasn't even in my house? It was lucky for me I was on bowel condition. That's hysterical, we can't talk about it. Well, can we talk about the next injunction order that the council served on me? and that they forged and used the same claims and malicious... I mean that's hysterical, we can't talk about... She is such a horrible woman to record and to have on the phone. I don't think it would be fair for...

I spoke to another woman yesterday. I've been thrown in the whistle-blowing policy. I've got about 500 phone calls. In total to the neighborhood office team, to Enfield Council, and unlike yourself, like our conversation right now, you're listening to me and you're taking time for a second. All the other staff are like, oh, I've got other calls coming in, we can't deal with it. I've got the other staff in the background going, oh, you've been robbed, there's nothing you can do, all laughing in the background. I've actually got the staff that's on the phone to me going, you've been robbed, you're black this, you're black that, all in Enfield Council, because they didn't realize I was recording them all. And the rest of it when I was trying to resolve these issues. They let my neighbours fully assault me and I've stripped the doctors

computers and I've got all the referrals from in-council. Every time we send them an email they message the doctors "ah go and get Simon he thinks there's a conspiracy" And they've been trying to diagnose, I've been assessed in Rio, they're talking every single day, like six different doctors are logging in that have never met me, all saying he's delusional, he's crazy and bam, bam, bam and all that really bad stuff about me. None of them have ever met me and they're doing that because the council's messaging them, because I'm emailing the council saying that this is illegal what you're doing to me. And I can prove the forgery and I would like it rectified. They've put me through, in the last four years, they've put me through a procession order, two injunction orders, another procession order, and another procession order. All the same claims that Lemmy made up, but he worked for the ASB team when I wasn't ASB team. When I was on bowel conditions at my mum's, they never realised I was at my mum's. They wanted to get away with the ASBO, so they made 31 fake claims up. Yeah and I'm not in the address for none of them then after I've heard it let me up by basically explain to them I know what you've done I wasn't in my house then they've gone and got another they've gone and put all the same claims that I won and the judge refused to allow back into court because he knew what happened put them into use the company credit card again created a new case number at the lower court and put the same claims back in it all he she he she he she And if I'm saying, oh, he done this and she done that and he done that from that address, you can't question the stability of these statement makers because it's all he, she and hearsay. That would mean like a third perspective or somebody that wasn't actually there. It's completely illegal what they're doing to me. I'm suffering again today. And I'm trying to find out where I stand. I can hear Jeremy in the background yesterday of a phone call me speaking and he's advising the other woman just to put the phone down on me. This is law and governance, they're on the highest paying wages in the, pretty much it says in the independent, in this country, £285,000, £50,000 more than Theresa May. And the way that they're treating me, I don't think they deserve that Jeremy was given another chance after sexually assaulting two girls in his last company and they tried accusing me of doing something to my missus it was a complete cover over, I've got all my medical notes from the hospital and everything they've endangered my life by trying to scare me out of my own country and get me away from my family and my mother and the rest of it I have a white mother, I'm mixed race myself and I have a black father and it's a complete breach of all my human my name has gone completely viral because of their negligence and gross misconduct and them tapping into my personal data files telling my doctors and stuff that they're allowed into my files when I've clearly I really wrote to them prior which I've got the email saying I refuse access to any of my personal data. They're sharing my data and not realising that I'm gonna strip the computers. I've stripped the council's computers with an FOI. I've done the police's computers, done the neighbour's offices' computers, and done the council's computers. I've done each computer about five times. Over a period of time so I've got the different files that my name wasn't known before Lemmy started on any of the computers, councils, police or anything then they've all decided on the 23rd of September, Dawn Allen and that we need to make some history for Mr Cordell because he's not known and the next day they've logged into the computer and now he can see things now he can do that now I've never been diagnosed with a mental illness I've had about 30 assessments of them not trying to get me assessed they even asked a court in the middle of the fraudulent claims that they were trying to process to allow them to have another mental health assessment on me which I allowed to continue and I passed as well then they filed for pursuit with the same dead claims again. Do you know, I know it's a bit lot to take on for yourself but I'm looking for someone to be able to manage this fairly and effectively in a fair time process where I'm not suffering for a longer duration than what is necessary. Otherwise I'm going to have to start playing some of these recordings online now at the 500 and them all shouting "You're being robbed,

you're not allowed out, ha ha" and all the staff and the rest of them going "Shhh" to all the rest of them. The last 50 phone calls I've I spoke to her lady, she was quite, she was a new lady, I don't think I spoke to her before, I think her name might have begun with a K or something on this number. She was, I felt a bit sorry that she was even getting wrapped into it, sort of thing. Because it used to be heralit that you used to pick up this phone number. This is Enfield Council's whistleblowing policy number. When you phone up Enfield, check on the line. And it says our Enfield Council whistleblowing policy, write that into Google. This is the phone number, I've been phoning this phone number every Christmas for the last three years, explaining I know what Lemmy's done and I can prove it and I know what, the police officer that was supposed to have forged all of this ASBO, I thought it was a police officer, it's not a police officer, it's Stephen Ellsmore that's based in Enfield Civic Centre and is also part of the, and I've got all this from their own admissions. Enfield Council forged all of that paperwork They knew that there was two parties on on the same day, nothing to do with me, I'd been on curfew for a year so I couldn't even have done anything. While I'm on curfew, someone else that I know, an associate of mine has moved to a party to Lincoln Road and prior to that they've got loads of people in the old man building which is on Southbury Road, the council have squat in the old man building. I didn't know none of this because I'm on curfew in my house and basically that Stephen Ellsmore had been very upset prior because he'd been getting a lot of calls about the old man building and couldn't do nothing with it that old man building actually belongs to Enfield Council or it did belong because I've got all the newspaper presses with them saying this belongs to Enfield Council took all of the Crown Road party numbers because that's where everyone went and put them into Lincoln Road and they all say Crown Road Crown Road and forgot to take the grid reference numbers out and tried to set me up for the building while I was on curfew and they've all forged the paperwork in there, they're missing all their victim signatures on all of it, each police officer done. The list goes on with what I can prove and I'd just like someone that's fair that will sit down with me and go out and stop this from, because what the police officers' job is to do and the council's is to protect life and to protect property in the local facilities. If I put my information that I've got on the internet, I don't think they're doing their job correctly because this sort of information that I have, less paperwork could cause World War III. And I think the Enfield Council's been very irresponsible in the way that they're managing this and putting the phone down on me and not dealing with things.

Can I ask for your number please? A contact number?

Yeah, I can give you a contact number for myself, if you give me two seconds. I'm sorry to put this on to you, but someone's going to have to do the right thing before something bad does happen. Because there's a lot of... I'm trying to get up the information in regards to, because it says a letter was sent out to you in December of last year, stating that you should get in contact by email to the...

I've already been through the complaints team and I can prove they frauded paperwork. Like I'm saying, I've done five years of process. I've been on curfew for eight years since they forged this. And everyone can see how bad my name is. You've just got to turn the TV on and see how bad they're doing this science, trying to drive me or make me look crazy in front of the public when there's actually nothing wrong with me. I never even, they've spread around that I'm like the black boy with the disease and all of this in the general public, the council. I'm not even, I'm not even, my medical notes are in Evergreen Sexual Clinic. There's never been nothing wrong with me. And I've never even had an argument with my partner. Me and her never even ever argued to this day now. Otherwise everyone would hear her screaming

her mouth off throughout this all as well. Me and her have never even, I can mostly go and pick her up now and we don't have a problem. And what these council officers have done is used my partner and used me to get me out of this country. The evidence is very, it's wide, I can list the evidence where they've tried to drive me crazy and belittle my name and damage my definition of the defamation of my character. These things are highly illegal. They're taking rent off me, Enfield Councillor, while they're holding me hostage in my house and forcing this stuff down my head and letting my name go viral. It's been 2,800 days now that this council's held me illegally. And what I try to explain, no one will come and have a meeting with me. They will run to any of my neighbours and write statements with my neighbours. I've got, like... 15,000 pages in applications of them taking statements off my neighbours while I've done nothing wrong just sat in my flat I've got cameras in every room so I couldn't do nothing wrong in my own front room because I'd be setting myself up with my own security equipment you know I've sat here throughout it all I've got videos of everyone banging on the walls of me I've took about 30 friends statements that have stayed here and have viciously been attacked as well. They're all willing to attend the court with me. And I don't think, Enfield Council's taking this money like I'm saying for my own, I just need someone to come and meet me and to go over this. Even if it takes three of them to come out to me. I just need a date and I have my solicitor waiting because my brother's paid for a solicitor for me so now I've just got to go and meet the solicitor or pick my solicitor and it'll be paid privately and then we can all sort this out. I've got the insurance details for Enfield Council now and I spoke to the insurance company. Enfield Council's underinsured at £50 million a year. I've took the insurance policies off the Neighbourhood Watch as well and I've got them all on record. Neighbourhood Watch is unlimited insurance. I took the doctor's insurance... I have problems reading and writing, I don't want to be dealt with by email, I want to be dealt with in person, with the way I've been treated, I want a worker that will come and meet me and sit down in their own house, because this is their house, not my house, I just rent it off them. And I want my landlords to come here and my local council to come here and I would like to go over the fraudulent application that they have forged to hold me in this house while they darken my name I'm being released in two months for the first time in eight years in two months now I think they're sending me to a death sentence by doing all of this in my name everywhere and they're telling me I've got to go back out to everybody they're not willing to give me they've all been paid money to forge all of this paperwork Ian Davis, Jeremy Chambers is getting paid today, all of them are getting paid money and they've all forged all of this, they're on their highest wages like I explained and I'm not even allowed one pound for what they've done to my life off of them. I'm not happy for this. They've damaged all of my property by holding me in my house for eight years. Normally, it says the organisation of illegal raves here. I never got arrested for something that was illegal. I've never been arrested for this. I've never been interviewed. I've never been allowed to explain myself to anybody. When I went to court, somehow the police and the Enfield Council have paid for a civil case. The police don't pay for civil cases against the people. The police only pay for criminal cases. They paid for a civil case against me, called it the organisation of illegal rapes, forgot to arrest me for something that's illegal, never let me, and then they've gone and gave me eight years. I don't even ride half of the eight years. I've had to ride the whole eight years. I've seen men, I've been in my family, flat on this curfew. I've seen people stab, I've heard of people stabbing people up and they're getting four years, five years, they're doing half that sentence, two years and getting released early on the tag. Do you know? Like people, you can stab someone and get a year and a half. I've had to write a whole eight years because of this forged paperwork, yeah, and I'm not happy about what they've done and I've not even been arrested, you know. The list continues to go on with the forgery of what this what that office has done to hold me in here and the damage records like i'm saying there's

only six months left for this to be resolved and my personal opinion is let me run to i oh let me run to that call and everyone run to that call every day trying to set me up while they're letting my neighbors attack me and i'm recording the video and that's what my neighbors were doing to me what i'm proposing now Yeah, you'd have to take this phone number from now and they'd have to ask for my new mobile number. 0208, that's my mother's phone number, she'll give you my new mobile. 0208 245. 7454, I've gave this number pretty much in every phone call for God knows how long. I'm not saying that you're gonna do the same, or you might do your job that I'm speaking to you, but the official people that's being paid this money to phone me back or to do whatever, no one seems to get back to me. Do you know? Like I'm saying, I'm getting released in two months time and I've got to go out to all these people thinking I've got a disease and thinking all this stuff that this government spread about me when there's nothing wrong with me. I'm in fear for my life. I've been locked in here for a whole eight years, not even had half that split without being arrested. I took copies of my police criminal record and because the ASBO is not a criminal case, it's a civil case here. And what they're saying is, it's not even on my criminal record this ASBO isn't. And ASBO is not allowed to be a form, a standalone ASBO is not allowed to be a form of punishment. But they've put a curfew inside of it, which is, a curfew, you'd get punished, if you get an early release from prison, they give you a curfew. It's a form of punishment. My ASBO is not a CB ASBO, CBO, a criminal ASBO. It's a civil ASBO. And I'm not allowed to be punished. I'm not allowed to have a curfew placed inside of this ASBO because I've not been arrested. All they're allowed to do is use it as a prevention. And if I don't listen to the prevention, then what they can do is then it becomes a criminal offence. What they've done putting this curfew in there and twisting all this, it's unfair the torture that they're putting me through. Do you know? Like my... I appreciate your time and I'm sorry that I've racked on them to you. I'm sorry madam. Thank you for your call and I will pass this on through because you did say that you were told to speak to Dion. Dion has now left so there will be someone else taking over. Dion's left the company. I'm sure she's no longer in the complaint team anymore so I'm going to have to pass it on to whoever now is taking over and what I'll do is I will double check with them to make sure that Can Jeremy himself call me Batman? You ask Jeremy himself directly to call me. They gave him another job afterwards, after he sexually...

I never even done nothing to Shannon, like these have all spread to scare me out of the country or away from my parents or how they've made me look crazy. Me and Shannon have never argued. Shannon will come to court with me right now if I go and get Shannon, yeah? And we will go against these people for what they've done to us. They've endangered Heidi's life by doing what they've done. Because because they all wanted to the police wanted to make fake phone calls themselves phoning up setting me up then all went for council wanted to use their own building that they know where i wasn't squatting because i was on curfew use all of them crime reference reports to set me up that's a lot man i feel council should be more responsible than that okay so thank you for your call today i'm gonna have to turn it If Jeremy has the guts to phone me back and to speak to me, I can explain a plausible way for all this to be resolved with minimal impact where no one, not even the cops, none of them will lose their jobs and all of us will be happy. And it's not as simple as me just going to take money. I can prove I've got the evidence here where I've compiled everything. I'm not prepared to go over it without actually speaking to him. I'm negotiable. And I'm not out to just cause myself a load of problems in the long run. I'm trying to resolve problems here with minimal impact on society, which is what their job is set out to achieve. And they're failing in their obligations to do so. I'm going to let you go then, madam. Tell him to have some guts and to phone my phone. It's Karen Hill that is now going to be taking over, so I'll put it through to her. Now you have her name as well. Can you give me a contact telephone number

for her, please? I have to just give you her email address, but you said you prefer to call, so what I'll do is pass on your number to her. Okay, what is her email address, just so I do have that as well then, if it's the only form of contact I have towards her?

Well I'm going to leave it at that. Remember I've put my website up and I've already held a lot of evidence in there and that's time set when I put my evidence in there and this council's failed and I've directed that council to my website loads of times as it sat in its first draft mode. I've worked on all of my new paperwork and I've made all brand new covers, brand new digital books. I've put every single piece of paperwork that council sent me in a brand new diary, all in brand new digital, and I've turned all of the image paperwork into brand new paper. I've done the same for all the ASBOs, I've done everything, every email they sent to my mother, every email they sent to me, I can see everything that they've done. If you just scroll down my diary, it says, "Our brand boy on the block, brand boy on the block, "C brand boy, E brand boy, B brand boy." This is where they've changed all the coppers' names to "brand boy" and everything. Listen, what I can prove that council done with that ASBO to do all of this to mine and Shannon and I, this life is unfair. He needs to phone me and there he does because otherwise I'm going to go public and a conversation like this doesn't help them because I transcribe all of these conversations up, put them in there as well. So I've got over 500 transcribed conversations on top of that, on top of all my mum's emails. They need to phone me. They need to phone me and treat me like a person before I start to lose my temper. I'll pass on that message today and thank you for your call and someone will get back to you. Alright, I'm... Oh you too madam, thank you for your time. The 24th of the 6th, 2020, 9.35 in the morning.
