Transcription

It is the 22nd of the 1st 2021 9/16 and I'm going to phone Enfield Council's new whistleblowing policy with Jeremy Chambers. Jeremy.chambers@enfield.gov.uk 0208 379 4799 and see if we can get anywhere with him from there. About getting a transfer and getting out of here. I can't get a first standard of life living here anymore.

379 4799 First time I've rung this number. Whatever it was just hanged up the phone. I'll try again on the same call again.

3794799 Just cut straight off. I've done that twice now. I'm on Chaosborne again.

1476. Does exactly the same thing. My number's on hidden, so... It's gone straight to voicemail. I don't know. We'll see what happens.

Counter-fraud manager. Sweetie Bob Tundik, I spoke to him before. And Faye Hammond, I don't think I spoke to her, I think she's quite new in Germany, young. Ring the full blind line again. 379, 4799. I think it was a Saturday but it's Friday. No answer from the machine or nothing. I'll put the phone straight up. It's only been three minutes. We'll try K again. K Osborne is currently unavailable. We'll phone Ian Davis, Chief Executive Office. The original number, which is 0208 379 3901, which I was ringing Heather Littler on all of them times.

02083793901 I'm gonna get a secretary on this line barred straight away from ringing it they've turned the number off I think oh it's ringing May I ask who I'm speaking to please? It's Christina speaking, how can I help you today? My name is Mr. Cordell and I've been trying to go through multiple different issues that I've been having with Enfield Civic Centre and the way that I've been treated by them and the way that their staff have done lots of fraud to harm me and basically People were saying that I wasn't providing evidence. I explained I was going to build a website, horrificcorruption.com, and that I'll be hosting all my evidence inside of that. I've been hosting a lot of evidence inside of it. I've still got a lot more that I'm going to load up. But with the amount that's in there, surely Enfield Council can do their own investigation in regards to these issues. I was phoning this number 3793901 throughout the years of them illegally holding me in my house by an application that they created fraudulently, while forcibly... Processing lots more applications on top of me. I just wanted someone to be able to go through it and because I'm still being forced to live in the same house, I'm still being treated by my neighbours the same way, I'm being attacked by them and not as bad as before but the memories and the torture of what I've been through in this house through them days, I was promised a transfer, a housing transfer and the council, it was all in agreement, the paperwork got signed by Michael in the Neighbourhood Office team and was all going through, it was supposed to go to a boardroom meeting, it was under a judge's orders, a judge ordered that, basically they had created an ASBO which was fraudulent and put me on an eight year curfew, which had multiple different issues which I can prove was wrong with it. And then they...

My full name is Mr. Simon. My Christian name is Paul. And my last name is Cordell, C-O-R-D-E-L-L. And my address is 109... Simon Cordell. Yeah, my address is 109 Burncroft Avenue, Enfield, EN37JQ. EN37JQ. 7 Juliette Q Beck. 109 Burncroft Avenue. Burncroft Avenue. In my website, Horrific Corruption, I've been building it for a while now. Under Simon's Cases, there's my diary, which is in there. And in my diary, I've took all the correspondence that Enfield Council created throughout the last eight years in doing what they've done in my name while I've been in my house and not left my house. And I've put all of them documentation up. So, like, a lot of emails from it, with Ian Davis, also I'm with Ian Davis, and Jeremy Chambers, and everybody else is all inside of there. I would like something, I'd like the company to actually stand for what it was actually supposed to represent, and that's the people. I'd like for it to do its own investigations. I've supplied the evidence and hosted the evidence, and I have to pay the cost for this, pay cash, like, pay cash and everything just to have the servers and to be able to keep everything up just so that everything can be shown and displayed in a fair way where it can be managed and I was promised a house in transfer. A judge ordered that. They created an ASBO, forged the ASBO, held me in my house for eight years, started using the TV and the rest of it to try and pushing that media stuff trying to scare me out of the country and away from looking into the application and realising all the fraud that had taken place and what they had actually done to me. Enfield Council was highly responsible. They acted in joint enterprise with the Metropolitan Police in creating the ASBO, which can clearly be proved. While holding me in my house and torturing me, trying to harm me, they've forced a possession order and I wasn't in my house for the dates that they've made up 31 dates then they've lost that possession order where they didn't go to court with it the second stage of it because I was requesting the signatures of the people of so-called victims and there was no victims at that stage and there still is none throughout it but they lost the procession, they didn't file the complete thing for the procession order, took all the claims out of that went and met all of the people that me and my mother had been writing about for 16 months who were actually attacking me and they met all of these people behind my back and my mum's back without ever meeting me or taking a statement off me even though we were complaining for for all these months prior and they basically took statements off them and turned me into the into into like the perpetrator as they label it and then they've gone for us to for for gone for They've lost the injunction order. They've took the 31 claims they made up in the processional order, put them into the first injunction order, lost that, took them out of that once they had lost that and was struck out, never allowed to go back into court. I phoned an officer, Lemmy, in South Mulsar, B Block. Civic Centre, who had just been employed, and Lemmy was one of the people that forged the 31 claims. After losing two cases with him, and the judge striking him out, he refiled them again. But what he done is, I phoned him and he said that I threatened him down the phone. I got the recording on the phone and he actually tells me down the phone that he's going to kill me and my mother. And I'd never done nothing wrong in the recording because I knew I was recording him without him realising. And basically from that there he phoned the police, got the police to come to my house and arrest me and he went back to the court and refiled the case just for himself because he had just lost the first procession order and lost the first injunction order. So the second injunction order was based on Lemmy alone and me making a phone call to Lemmy which I have that recording. And then what he done is he's gone and took the people that he took the statements off and that he had turned into the so-called victims that were really attacking me while forcing me to live beside them still and letting them still attack me daily. And he has took one of them back to the courts and done an affidavit of service under the 1911 Act which causes perjury and he reinstated back in everything that they had lost and had been struck at that was never allowed to be reinstated

again under the judge's orders. Now the judge realised what had happened and he forced Fuller folder to be indexed, the second injunction was to be indexed. The council itself, even though they had forged all these things and I'd been phoning them, talking to them about it down the phone, asking them to stop Lemmy being the case handler and to put him under investigation for what I could prove, the council decided... Do you know his full name at all? Lemmy Newerbush was his name. Lemmy Newerbush. And basically, Lemmy no longer is an employee... Well, the ASBO started eight years ago and it basically, and it got, and I've just come off the ASBO say three months ago. What the ASBO was for is for supposedly throwing parties. These parties weren't my parties and the council knew that they weren't my parties, that I'd been set up for it. The evidence is in the horrificcorruption.com that will prove that under Simon's case is, What they've actually done is they've kept me in the house for the eight years but tried to scare me out of the country and threaten my human, breached all of my human rights and let my neighbours absolutely violate me, which I have on recordings. I've got a camera system in my house which recorded them on most days attacking me. And basically they've gone and met them lot because they filed for processional order and didn't have statements of them. Went for the first injunction order. Go on. I've had the council and the police maliciously attacking me, which is targeted malice. Targeted malice. Malfeces of public office, they call it. Targeted malice, malicious process, malicious prosecution, hate crime, harassment. They've physically attempted to take my good health away from me, rob me of my home and my belongings, knowing that I was an innocent person throughout everything to cover up the first ASBO. It says the organisation of illegal raves, if something's illegal you must be arrested for it. I was never arrested for the organisation of illegal raves. Me and my barrister went to court because that's what the application was called that the council made and basically I went to defend myself for the organisation of illegal raves which is a six months maximum sentence if you did get found guilty somehow I've been put on an eight year curfew without even being arrested or allowed to even explain myself yeah or what's actually happened so and the council is largely responsible for that and it was their staff in B block that done that a community safety officer done it now Stephen Ellsmore who is in B block as well Lemmy's block before Lemmy worked there Stephen Ellsmore A community police officer is not allowed to investigate crime by law, they're not a detective constable and they're not allowed to strip search somebody for instance on road or anything like that. Community safety officers are limited to what they're allowed to do. And the council have allowed them to go into the computer take a load of cases that the police have shut down i've won every single one of them and then he's opened up all of the cases edited them all while being an employee and based in the b block his office was based in b block and they've let him do all this, create the application for the organisation of illegal raids. Me and my barrister went to court, said I've never got interviewed or arrested by the police, so I never managed to say a defence to anybody. When I went to court every single time, 35 times, I was told I'm not allowed to speak, so I was never allowed to explain myself in all of the court cases until a prosecutor was questioning me, questioning, trying to make me sound like I was... Yeah, I had a good solicitor. All my solicitors, I've got all notes of them and they were disgraced by the way that I was treated. They're not happy with it. I've put in my diary, under Simon's cases and horrific corruption, all of the emails. Every single every every book every if you just go to horrificcorruption.com maybe um and just have a look on there if you look at simon's i've built like a company off the back of it just so that i can support myself again but if you just go past the company side of it and go straight to simon's cases if you all of the applications that the council served me i've in brand new PDF books that you can open. Plus there's a thing under Simon's Court case called Simon's Diary. And in Simon's Diary, I've took every email that my mum sent to Enfield Council, to all of my solicitors and that I sent to everybody. Simon, it's the...

Yeah, because I've been barred from phoning the Civic Centre by Jeremy Chambers after what he's, like, I could go deep into it and explain it all, but I don't think it's fair to put so much onto yourself. Give me one second, and what I'm going to do is just go into my phone and get my phone number up for you. Basically, I can prove that, under my diary, everything's in there now, all of the years and everything. The council can do their own investigations, it's not going to take them too long. Like Dawn Allen and all that was forging, who works for the council, but she's a neighboured office team. Geoffrey O'Manley, I think there's about 1,500 officials in there now. I warned Ian Davis. Have you asked... There's been so many, there's lots of formal complaints and the way that they've all been handled, the way that people are persecuting me and saying that different, the list of things that they've cancelled or responsible and they're negative. I've reported it to Ian Davis, I've reported it to Jeremy Chamberlain, the list goes on. In my diary, like I'm saying, there's like 1,500 officials. Dawn Allen, Geoffrey Oman, Louise Brand, Laminia Lemmy, Michael, some Michael who's now in charge of Neighbourhood Office, the list goes on for them all. All of them, every single one of them, I don't think there's anyone that's evaded me. I've made like 500 phone calls, recorded them, and most of them weren't as polite as yourself. They didn't realise I was recording them, and they're telling me down the phone, you're dead, you're dead, you've been robbed, there's nothing you can do. And they're telling me that happened. Out of the 300 phone calls, at least 100, when I transcribed them all out, say like, I've managed to transcribe up 150 of them. At least 80 of them have that I'm dead in it by staff telling me that down the phone. At least 20 times, eight times, six times, all the case handlers telling me it because they never realised that I was obviously building something. No, I've never put it before any, I've never been, no one's ever taken a statement off of me, no one's ever met me, none of them have met me. The only thing that they've done is every time my mum emailed that Civic Centre and said, "Oh, please protect my son," the Civic Centre's never met me, but they had messaged all of the doctors and I've got all the referrals, because I put an FOA into the council's computers and took all of my personal data. I've done the same to the police and I've done the same to the doctors because I wasn't known to the doctors and the doctors have never been able to prove that I've got a mental illness but at the end of it I've got all the notes of the council messaging the doctors asking the doctors to come and get me and everything all the doctors and everyone they've all gave me the evidence in it if someone was just to go do a fair investigation just go over the over my diary and even if you write a transfer like house in transfer you see that i had i'd after lemmy had done the second injunction order um he he reinstated what was what was struck out in the first injunction order but what he done is he went and opened up the case for himself saying that I phoned him and barred me from phoning the Civic Centre and that, then what he's gone and done is he's gone and met the true perpetrators, took them to court again and done an affidavit of service, let them and reinstated everything that they had said before that had been struck out that I'd already won at the court. Then the judge knew that I was onto it and the cause and what the council's done is because they knew I was saying well I can prove you've done it you've frauded all of this they've told the judge look can we call for another doctor for another assessment the judge has said he's not willing to do that in his name because he knew how much trouble he was going to get into, the judge did. But the judge said if the council's requesting it, who's made all of this paperwork, he will order for an assessment to take place. So they've sent an assessment woman out to me, and I've shown her all the videos and everything, because I was recording her as well when they all come here. And I'm showing them all of my diary and everything and all the evidence. She couldn't really do the assessment the way she wanted it. It didn't swing the way they wanted it where they could write bad stuff about me because she knew I'd

recorded the true ongoings of what happened. So when we went back to call, the judge had said basically to them in so many words, that he's a bit too smart for us even she's saying it in the assessment um what user are forced because then that was plain intended judge that they forged all this paper the judges let the assessment go through saying that Enfield council were requesting it and they're the ones that made the paperwork then once they had lost it late but the judge but when we went back after doing the assessment the judge has said to Lemmy and that look I order for you now to give him another home and an emergency transfer must take place right now now my mum was in communicado with Lemmy and everybody and all the solicitors and that and she was in communicado with the with the MPs and at the same time they're all messaging the MPs to each other yeah now what's actually happened is I'm supposed to go up with it. My mum and me got told we've got to go to the neighbour office team fill out the applications and put that to the Civic Centre and it'll be it'll be treated as an emergency application as where it is. When we phoned up the council, the council didn't want to give me the new home that was ordered two-bedroom house like for like in the local vicinity and fresh standard of life, you know, fair standard and what they've done is The judge did, the judge did. Lemmy kept serving in Edmonton Lower Court. And when he went to Edmonton Lower Court for the second injunction order, they've realised that he's reinstated all that. He basically... Put the case open for himself for phoning him, and then he told me down the phone that he's going to kill me and my mother, and then basically he's gone to the police, phoned the police up, told the police that I threatened him down the phone. The police come to my house, arrested me. He's run down to the... Lemmy went straight down to the courthouse while I'm in the police station and he reopened up a new application with the company credit card but they had been in the court after losing the first injunction order Lemmy and I didn't know I've won the first injunction order and Lemmy and Laminia and all that are going to the courthouse every day I've got all the notes and release notes off the courts and they're in the courts begging for the application to be reopened, the judge is saying this application is not getting reopened, it is struck out and can never, because he knew how badly frauded it was and the things I was pointing at. So what's happening is because I phoned Lemmy, Lemmy's gone and opened up a second injunction order to get himself out of trouble and basically what he's gone and done is... Because I won the first one and I won the procession order and then I was going to get onto the ASBO which was holding me in my house illegally and they knew they had cretined and they were all going to get in trouble. So he made a line and said I threatened him when he threatened me. He's... And through the case, he's gone and grabbed the people from the first injunction order that got struck out at the court and he's took them back down to the court, made them do an affidavit of service. Me and my mum had been complaining about these people like from a year prior to them ever meeting Lemmy or anyone ever meeting them. And what he's done with them is made them do an affidavit of service and he's took all the original paperwork from the first injunctional that they lost the 31 and put it over his telephone, the telephone call to him now the judge has seen it, well I'm freaking out at the judge like saying this is unfair, this is illegal what's happened and the judge has ordered for the file to be indexed by Lemmy Lemmy and I have indexed it and on one of the reappearances the judge knew that they had completely had it. So the council had come with a swing around and they said they want another assessment done on me. They never realised I was going to strip the computers with the FOI, the council never, and the doctors and everyone, get all the referrals to council. Every time my mum messaged them saying please protect my son, they refer me to the doctors. And all that and I've got all the referrals of the doctors of what the council was doing behind my back with never meeting me or nothing. Yeah and then basically what's happened is they've gone for the, the judge has ordered for an assessment because the council was asked for it. I've recorded the assessment when they've come here She couldn't write the assessment hash they

needed to write it to dismiss, undermine me and belittle me. And basically, so what's happened is, we've gone back to the court, the judge has said, listen, I've had enough of this. Because he knew I wasn't going to have it. The judge has just said, well, listen, Lemmy. You've got to give Mr. Cordell a new flat. Lemmy stood up and said, I'm not doing that. We're not doing that. And then the judge has stood up to Lemmy and said, I've ordered for loads of people to have new houses by the council. And when I say this, it's an order of the court. This must happen. Now, obviously, I've come back home again thinking I'm going to get a new home. My partner sold her house and everything because I had a partner. She sold her house and she's living in. The judge ordered this on the second injunction order and that came to an end about 2017. And it still hasn't been done. They went for another procession order. They took the same claims from all of the other applications that had been struck out and put them in another procession order, which is highly illegal, yeah? So they've kept me trapped in a malicious process on top of the ASBO for four years through the extra procession order, the extra injunction order, the extra injunction order, then the other procession order on top of the ASBO while letting all of my neighbours attack me every day. And not giving me no support, none of them ever meeting me anywhere other than in a courthouse when I'm defending myself. None of that, so... Hello? Yeah, I'm with you. And basically, what's happened is, once Lemmy was... Once the judge has ordered for Lemmy to give me the new home and told Lemmy that this must happen, we've all come back home. My mum's wrote to the council and the council said, The council said my mum needs to speak to Michael who's the new team leader that took over Jeffrey Mann from the Neighbourhood Office team. Michael's agreed with my mum and they're all in emails now. My mum's gone and got some forms, filled in the forms under the council's request and that. Now we gave that back to the council and it says an emergency application but I said the council said well you've got to wait till the end of the month. For us to have our next annual meeting, board meeting, which was a bit of a... So I've got upset. We're writing, well, this is a bit out of order sort of thing. I'm still sitting in here getting tortured. It comes to the end of that month and the council said, oh, we could... In the emails after loads of stuff, my mum asking, can we attend the meeting? The council saying, you're not allowed to attend the boardroom meeting and all of that. And then basically what's happened is... They've said you're going to have to wait until the end of the next month. So this is unfair. Now this went on for three months. Then this woman Laminia who got hired in as a solicitor to help Lemmy on top of this other Michael. There's two Michaels. Michael at the neighbourhood office team and there was a Michael solicitor that come from Haringey. Civic Centre. At first Lemmy was in trouble and I said to Lemmy are you illegally solicited to do this? Jeremy didn't want to get involved because obviously Jeremy's been done for misconduct, sexual misconduct and all that with women and all that in his previous offices and the court and the Civic Centre had to pay out a court fees and all that for him and all that. I don't know about court fees but they're an out of court settlement it says in the newspapers. So Jeremy Chambers didn't want to deal with me. They've hired in Laminia, who come from the Pizza Hut just in Enfield Town. There's a firm there. They took her in. What's her name? Sorry? Laminia. Laminia. Laminia. The Minya, they've hired her in. We've gone through the second procession. She's really tried to slew me. I'm talking to her, saying to her what Lemmy's done from the first procession, how he forged these things and I weren't even in my house and the rest of it. And she's just kept forcing the process against me but basically it comes to the third month and the Minya has gone and somehow took one of these people who were attacking me again took a statement off them phoned up the police on the third month of me waiting for the flat and sent them to my house when they've sent them to my house The police put the letter through my letterbox. I've gone to my letterbox and looked at the letter and it said another harassment letter. So I was like, I've gone outside to the coppers to put it through my letterbox. And I

said, what are yous up doing? Why are yous up putting this through my door again? Have you not been listening to the recordings and what I've been explaining to you? Like, this is unfair. You're setting me up here. And then the police officer said, ah, There's nothing we can do about it. So I made a sound like I had a spark, like that at the paper. That's what I think of your paperwork and I ripped the harassment letter up. Now by doing that, as I've turned my back to head back into my flat, the male officers have said, "He sparked me, he sparked me!" or something like that. The next thing I, I never really, I've never done that because they had body cams on and everything like that, yeah. So basically the police officers have tried to jump me when I've turned my back to go back into my flat after ripping the paperwork up. They've come into my house, finally come and nicked me for it, took me to the police station. I've made the custody officer get all their body cams, take all their clothes and all that so that they can do forensics and everything because my DNA is on record. And they dropped the case there and then that day but at the same time they sent me to the doctors again and I got taken to Chase Farm Hospital even though I'd done nothing wrong here while I'm in Chase Farm Hospital Laminia who works for the council now starts writing to all the doctors she manages to get into Rio into like the doctor's notes and her and Lemmy and all that are talking to all the doctors in Rio all planning how they're going to basically ruin my life Yeah, and they wrote, and just not giving me, they have no fair process. Yeah, and... Yeah, I'm sorry to hear all this, Simon. What do you want us to do? What do you want to go for with this? I'm going through Kay Osborne and I've got the insurance companies for the Civic Centre and for the rest of it. I'm trying to make the process a faster process as it says in the bottom of their letters, they deal with things within 21 days and they've refused to come and take a statement off of me, the council have, or to sit down, even though I've had the evidence, there's so much of it. In 2014 when this started I wasn't known to no doctors, there was nothing in my name. Dawn Allen wrote to the doctors and Dawn Allen, the Neighbourhood Office team, she wrote to the doctors because my mum had been messaging her for like 15, 16 months or something like that and my mum had been asking her, none of them would answer to the emails, Dawn Allen or nothing, because they knew what they were letting my neighbours do to me. So eventually... Yeah, Kay Osborne's the insurance lady. I've not had a...

Yeah, all the recordings between me and Kay are up on the website. You can go to audio under the website and you can see, listen to all the...

I've been phoning her and speaking to her directly because I had learning difficulties with reading and writing sort of thing and the council know that it's on their notes. Because of what's happened, my relationship with my parents have got really bad, you know, I don't talk to my family no more because of all of this and so now my support I once had or support network, it's still there if I get into trouble but it's just, it's not the same as before. You know sort of thing so i've had to sit there and do all this myself and i've had to it's like documenting everything down throughout or and basically i've suffered because of that so i prefer to have a phone conversation with someone or sit down and have a meet i have a meeting with them i have got the evidence i've got the videos but no one would chaos born saying they will not meet me no one will come out and never meet me because of coverage as well i don't think that's possible either through email or send us a letter I think it would be better than having a phone call because then that way you've got evidence as well I will transcribe this conversation I'm going to transcribe more but before Covid, KL's saying they will never meet me that it doesn't no, there's 30 million words just alone in the applications that the council

have made when did you speak to I spoke to Kaye less than seven, about eight days ago, maybe a bit longer than that now, just a little bit longer, maybe two weeks. Did she give you a time frame when she's going to get back to you? Kaye won't get back to me, she's just trying to wash it away. If you go to audio in Horrific Corruption and go to the bottom of it, you see there's like 50 phone calls to Kaye Osbourne. I've managed to speak to her at least 15 times, but more times she just won't pick up the phone. And she says that it doesn't matter what's going on if I can't read or write. It doesn't matter. They're never going to send anybody out. Even if I do many, because the files are so big, which them lot have sent me, 30 million words that they've created, they're saying that I can't email that to anybody because it's too much paperwork. The paperwork is taller than me and I'm six foot, you know. Maybe just pick up the main point because you've already spoken to her 15 times. She said so. Just to have right hand main point that you've talked about. I've took every conversation I've had. So she will have to respond. Yeah I've took every conversation I've had and she knows it's all transcribed up in the website so and she knows where that is. The internet, you're allowed to use the internet now and you're saying send it in emails. Emails are a digital form of information And since 1996, we've been allowed to use that as evidence in the court of law since the investigatory powers of act come into place. Now, I'm allowed to use a website, for instance, because it's the same as an email. So I'm putting all this information in there. Yeah, I've got to. I understand that. If you see the amount of document, the amount of emails that have gone through this, 4,500 emails in total have already been sent. Yeah, the recordings they often don't listen to in court, so it's easier for them.

Yeah, but I've got the transcribers. I've transcribed all the recordings up, made a PDF book out of them. So there's a book, and it's indexed. I've took all of the 4,500 emails that got forwarded to them already. Because it's so lengthy, probably the court doesn't have time or authority to listen to all of those long hours of recordings.

Do you want to give me your email address or phone number that we can...

Ari Ari Ari underscore R for Romeo E for echo underscore Wired W I R E D W I R E D E D Wired Yep At Ymail.com Sorry what mail? At Y Normal Y on it's own and then mail.com so it's just Y-M-A-I-L dot com dot com yeah that's correct okay Yeah, that's correct madam. Basically, I would just like, right now, the transfer, if you just go to that, if someone went to the website and to the diary itself and you press control F, you can put keywords into there, so you can put transfer into there. And then you see how many times, you can scroll through and see the transfers in all the different years and who was talking about it. You mean the website itself? I don't know if I'm allowed to do that but what I need to do is I need to take this up with someone and I just want to clarify that your main issue is basically the way you've been treated and the house transfer that still yeah yeah yeah and I'm still what you want me to raise with I can't have a fair standard of life in this house ever again after what's been allowed to happen to me in it. You know, if I go to sleep, I've got a black woman that lives in 117, she attacks me, starts hitting the floor every day because she knows I've built a case against her and the same for a lot of the other neighbours and they can see what I'm writing about them and the evidence that I've got in the website and obviously they know that there's a higher chance of them going to prison for it. And now they're continuously attacking me even though I'm an innocent person throughout. I've been locked in my house for eight years and I had to go through all of this. And I just want Enfield Council to at least go along

to the website, get me out of this house like the judge ordered and I can start to put my life back together. In some form or way. Right now I can't even get sleep in my own house. Every place in this front room, every place in my whole house I've walked around a thousand times over the last eight years and I have finally been attacked. I've got at least 25 friends who have stayed here through the period who have also all been attacked with me and they're all willing to go to court and I've took statements of them all. I've got statements of all my friends that have stayed here and they're willing to go to court and prosecute as well for what's happened, you know. Like, I've got a Wiresnet camera system in my house so I've got a camera in my front room. Simon, sorry to cut you. Can I just... Hello? I don't know what's happened there. Hello? Hello? Oh, I think we got cut off for a... We got cut off. I was just clarifying that we got the right address for you. 109 Burncroft Avenue, EM7, F No, Echo November 3. Echo November 3? 7 Juliet Q Beck. 7 Juliet Q. Yeah, 7JQ. EN3 7JQ. Okay, and do you mind giving us a phone number? Yeah, I'm happy to give you my phone number. Of course, sorry. Can we once... My telephone number is 07 864... 217 519. All right Simon thanks for calling us today and I will take this up with the Okay, and have a good day. It's very hard to have a good day. I don't stop having bad dreams because of it. I wake up screaming because of what's been done to me in this flat. If you watch the videos of what they've actually done to me in here and what this council has supported and the rest of it, my name has gone completely viral. And if I even try to use any of it, if I even say my name, the council sent the doctors and everyone to me to grab me. So I've got to sit in fear for the rest of my life. It ain't just my, they're saying I'm Simon's mentally ill, they're trying to put me under the Mental Capacity Act as well as the Mental Health Act because they know I'm good at law, so what they're trying to say is, nah, the government is going to become my legal guardians, they're taking me off my mother and off my father, my dad's an ambulance driver and everything, saying there's never been nothing wrong with me. They're trying to take my my legal rights so now i've got to live in a house with a care worker they're gonna put drugs into my body every day so that i'm doped at so i don't so i can see because there's no significant signatures on things and the time stamps go backwards in the aspo and those they're saying because i'm saying these things they're going to put me on medication for the rest of my life they want to give me this stuff called ect treatment electronic compulsive treatment where they fry my brain so I can't remember things and all that and you know like the medical charts and the list of drugs that they tried to get me on even though I've never been assessed as mentally ill just because of the council referring them like every time my mum writes them and says please can you protect my son do you know like they've left me in fear from when I won't ever walk down my own hometown street and feel safe ever again you know and with what the police have done and been allowed just the time duration to which every all these officials have been left to get away with all of this what's the chance what what chance do I have of living a fair life again you know my own partner once the judge ordered for us to have this house I had a woman that I've been with for like 25 years on and off that sort of thing and like she had another partner she her and her other partner wasn't getting along and she was selling her she decided to sell her house we was both gonna go the judge said I'm allowed a two-bedroom house she was gonna come and live with me with the child because she won't bring the child to this house because she's scared of what happened to the kid and to her sort of thing which is more than fair she's made the right decisions like we've been together since 2013 and I trust her fully with all my heart like sort of thing like and we speak all the time on the phone because the judge had ordered everything my mum's showing her the paperwork, we've been given a new house, she's going to be able to move a bedroom for Mason and for us, and now she's going to have sold the house, now she's living in a caravan, paying £5,000 to live in the caravan, on maintenance fees, and then she's paying the mortgage on top of that, what they've done to me, I'm not allowed no job, When Jeremy Chambers got accepted for

that Civic Centre and they're torturing me with the TV, they're dropping adverts like, "Some people are Aladdin, some people ain't Aladdin." And they're letting Jeremy in who's being really accusative. I've never even argued with my other partner, which was Shannon, throughout this. We've never had an argument today and I've never done nothing to her. And you know, whatever happened to it, we were getting along in the Asbo, the council made the mistake with the Asbo, because when they've let Stephen Ellsmore make the Asbo, the day I met my partner Shannon, it's called 4-20, an event that was on at 4-20, Stephen Ellsmore's picked that day up, and put that in the Asbo, then after, me and Shannon have obviously been told, because she had a spot on the top of her arse, or something like that, yeah, like, I think, just, I think that's, The clinic were just playing love makers with us and set us both up with each other, you know? Because of her, I think that's what happened, yeah? And, because I never done that.

- That's very unfortunate, I'm really sorry.

- And do you know what's happened? It sounds like you've been through a lot. Do you know what's happened? After 4/20, Stephen Ellsworth put that date in there, but me and Shannon knew about this problem that we were being told about. We had to wait for two weeks just for the medical reports to come back about this herpes or whatever it is. And you know, in that time we never argued because we can't blame each other. Because we don't even know if she's got it or whatever, do you know? They've just found a spot on her arse and said they want to do a swab on her arse sort of thing. And they said it might be herpes. And so we're waiting. So we can't blame it on each other. We don't even know if she's really got it. So we never argue just because of the way that the system's set up. Like you have to wait for the results. We decided to go back out, we met at 4:20pm which Stephen Ellsmore put in it. Then we've gone to pass by and seen a couple of friends at so-called other events and as we're turning up the police were at the gates. Stephen Ellsmore's picked up them dates and put them in. Me and her never had no arguments and we never had no problems. Stephen Ellsmore has clearly proved that by the dates he selected and put in the ASBO. Allow us to take this up, what you've reported today. And I'm really sorry you've been through all of this, but I need to go now. Let me raise this with someone. Okay. What you've reported. I'm really sorry for all your troubles. Okay. I've got, like you're saying this, I'm going to be short as well, I've built a website and in the website I get 5,000 emails a month, yeah, plus I've got a massive network of friends and the rest of it, I've got a big network. Yeah. Now I'm going to use them, I've got 1,500 officials that are, they've all been called red-handed for some of the worst corruption you'd ever see in your life, yeah? And I've built this diary. I've got, I've took that whole mailing list of 1,500 officials, plus my personal mailing list, And what I'm going to do is I'm going to start to email all the Civic Centre and everybody and I've built a new news paper and start pushing this out to the whole wide world in a minute. I'm going to open up all the Facebook pages and Twitter accounts and I'm going to mass send to everybody because no one can deal with this. When I'm asking for this to be dealt with internally, with inside, they're telling me, no, deal with it externally, we don't care, there's nothing you can do about it. That's what they're telling me down the phone, sort of thing, in the past recordings. So, just like... Everyone's saying email us. If I do start to email, things really will become formal and it will be an official formal complaint and I want that dealt with with the relevance and the specifics to what it deserves. So I think that someone actually phoning me and actually, because I'm a reasonable person and I'm negotiable. And my whole principle is, for the job that I wanted was to have minimal impact on society or be able to make sure that if there is a

problem I can cause minimal impact and I can rectify the issue so it is there. And everyone wants us to go to the next, I shouldn't have to publish what's been done to me online and suffer even more because of people won't deal with things that they're being paid to deal with. So if someone did call me and actually spoke to me and sorted it out properly, like I am negotiable, I just want things to be as they would want it to be if they had been through what I've been through. So I think that everyone forcing me down the email line is going to have a massive negative, because I will smash it out to everybody, and I'm upset that I'm going to have to do that, and I'm being forced to do that after what's already happened in my name, do you know? So if someone really does call me back, I'd appreciate it. Thanks for calling us today, Simon. Allow me to take this up with someone, and we'll try to resolve it. All right, thank you. And try to have a nice day. All right, thank you. And you too, madam. Goodbye. Bye-bye.
