Hello, today's date is the day after my birthday, 27th for the 1st, 2021 and it's 11.33 in the morning. I'm about to phone DAC Beechcroft to speak to David Knapp even though he does not want to speak to me on the phone which is a form of communication to deal with my case. I'm going to give him an update on where I'm at with this written statement that he's requesting.

Hello, this is David Knight. I'm sorry I'm away from my desk at the moment. Please try and call me later or leave a voicemail. Or if you need to get hold of me urgently, please call my secretary, Kat Christie, via the switchboard. Thanks so much.

After the tone, please record your message. When you have finished recording, hang up or press the hash key from the phone.

Hello David, it's Mr Simon Paul Caudell and I'm just quickly giving you an update as to where I'm at after our last email on the 25th, which got 25th of this month, the first 2021. It got a bit late when I was writing the letter that you asked me to write, a letter of claim is what you're requesting I believe. I basically have started to write a letter of claim and at the present I'm hosting it on my server. I would like to be able to direct you to where that is so you can go to there at your own discretion. As I said I'm not too happy that you're not willing to talk to me on the telephone which is a form of communication for a reason why they're there. Or arrange a meeting with me and if you're not happy to deal with the case by telephone or by, or partly by telephone or by way of having a meeting or something, is there any, are there other 3,000 people that are in your company as Adam Nigel, Nigel Adams explained to me that you've got that work in there, 3,000 employees. Can you get somebody that is willing to do that please? Because I feel it's unfair that I'm the victim and the way that you are treating me and the way that you are forcing me to write on a computer. I've had learning difficulties, reading and writing always had care assistants, as you can tell in the paperwork.

On the horrific corruption website. I had a company called Tudit Floating Support that helped me do my reading and writing because I was tongue-tied and pressured and it caused me a lot of problems. I've been forced to do all of this writing this way so I have improved and come a long way since where I once was. But at the end of the day, my preferred method is to talk to you down the phone a bit and to do some correspondence, which lightens the weight up on my support network, like my mother and the rest of it, who would help me write these emails to you. Because there's so much of it, like I was explaining earlier. I've already said a lot in the emails about the size of Yahoo and email that can be sent to you, but the address that you can go to, because you were talking about the Time Limitation Act and stuff like that, you sounded like a person that clearly did not want to pay an innocent person the money that I'm entitled to for my sufferings and for what I've undergone due to... Corruption due to the mistreatment of your clients who you now represent. The login that you will go to, I've put up about a few points about the Time Limitation Period Act and where it applies and where it doesn't. I've started to schedule out the basis, the framework of my claim and I intend to put that online. I intend to load up the reports section which I was just finishing off on the 25th but I've now been stopped due to doing this and I intend to put my notes below my diary pages which are like a book that I've made which has a lot of witness statements in it and statements and stuff like my personal statements. And I'm going to get everyone to help me. I'm going to push that to the general public and get the general public to help me complete the rest of this form. Right now the form is in my server and not in my website, which is

hosted elsewhere. My server address, which will be relevant to this conversation and to the letter of claim, is server1. That's O-N-E, so S-E-R-V-E-R-O-N-E, and then .hopto, hopto is H-O-P-T-O, then .org, O-R-G, then you put forward slash, insurance percentage sign 22 zero letter percentage sign two zero claim so in hold that'd be server one dot hop two dot org forward slash insurance percentage sign two zero letter percentage sign two zero claim and the insurance letter and claim would all start with capitals and the rest lowercase i will say that one last time and i will just do it s e r v e r o n e dot h o p t o dot o r g forward slash insurance percentage sign 2-0 letter, percentage sign, 2-0 claim. And insurance letter and claim will start with capital 's lowercase. I started to put the basis of my claim there and the rest of it. You clearly ain't happy to do an out of court settlement even though I've won the cases already in court and I've had to undergo the sufferings no matter what. I have informed you of where my website is and you're happy to accept emails which is legal and law abiding. I'm now in a digital format. My website's the same as an email, a digital form of information, and you should have no problems going there in knowing that I'm an innocent person and I'm directing you to where my evidence is. As I said, if you're not willing to deal with this case correctly and you're acting in courteous towards the needs of my claim, then will you please get another member of staff who will act courteous towards me and curious. So, um... Please contact me back on my telephone number if you prefer, because you prefer to talk to me through email. Can you email me and tell me that you at least got this message and the last message please? I'm going to host these telephone conversations along with all our correspondents on horrificcorruption.com and I'm going to call in for the general public's help in regards to the way that I'm being treated and what I've undergone and I want criminal prosecution brought against everybody that I can prove has acted acted unhumane and unfairly towards giving me a fair standard of life. Please contact me back. Mr Simon Paul Cordell. Thank you. Have a good day.
