What are you doing? What's going on? I'm sorry I can't take your call at the moment. Please leave a message and I'll get back to you. Thank you.

Begin speaking after the tone, then hang up when you're finished or press any key for further options.

Hello, is this, you're the assistant for what company may I ask? I'm a capstick solicitor.

Capstick solicitors and Hugh Gills is now a partner in this company, is that correct?

Who you give to Gills?

Oh, so could you just, oh so Hugh?

Yeah, Hugh Gills, H-U-G-H, Giles or Gills, G-I-L-E-S, I don't think I pronounced it right. I just attempted to speak to him and I had a, and he was very uncourteous towards me and towards the matter, a high graded issue of when he was the executive director of the Metropolitan Police. Together, his employee, Sally Gilhurst, fraudulently made an application and in the application they're holding me seven years in my house illegally, like for the organisation of illegal raves. If something's illegal, you must be arrested for it and I never got arrested for this offence Yeah, then when I looked in the application, I noticed all the timestamps went backwards in it, and I noticed that there was no victim signatures on the bottom of the MG11 forms. Yeah, I noticed that they had forged all the things. Now, I've been chasing this gentleman around, and he's left the other company to avoid disciplinary action, and they won't change what's right to be right. When they tried to accuse me of these cases in the beginning, I knew I never threw them. I was working in my community, I had the keys to my community hall, I was working in Bliss Charity, doing an event for charity and for unborn child, I was doing events for kids with Cellulopalsy, I had lots of good things I was doing in this community and I was doing nothing wrong. And then because of this they've gone and used my personal data and my partner's personal data, me and my partner have never ever argued, and they used Ed Sheehan who's in communication and media, and what they've done is they've pushed out a liar, me and my partner have never argued, we've never had a problem, and they've pushed out a big thing trying to scare me out of this country and deceive the general public, yeah, of the truth, yeah, they're still holding me hostage in my house. And this gentleman's working. I've requested under MG6E, in the right to a fair trial, for them to allow for me to understand anybody's disciplinary actions. Now if you may have a pen and pen for a second and just put this down for your own information. Bristol, all one word, spotlight, yeah, bristolspotlight.co.uk, you're seeing that another gentleman, the same as myself, being held hostage, or that he had problems with these people, and now... I'm sorry to interrupt, so I should just come through to the main switchboard. I just spoke to him and I'd like to speak to him again to see if we can clear this up between ourselves or I'm about to go public with everything and all the recordings that I have of all of his ex-employees and I've got a recording of him now. I've made a full official report and record it every single day. I've took every email that was sent in between us all and put them in it and I've done everything and I think that he deserves the opportunity to be able to address these issues responsibly and not in the public's eye because that's what I'm about to do. May I ask who the other partner is of the firm? Who he's partnered with in this firm? I've learnt to be too perfect. Thank you. Thank you, madam.

Hi there, I'm so sorry to keep you on hold for so long. His lines are swinging out at the moment. Would you like to give a voicemail for him at all? I basically, I just have a solution here to the problem. And that could make minimal impact for himself and for myself and possibly for the general public as well. And what that is, I've been requesting, in the application itself, it was the organisation of a legal race. I never got arrested for saying that it was illegal. Every one of these places that I got set up for six events while I was on curfew that I never really threw, yeah? And I copied the Facebooks and I've got them here proving that they're not my events, yeah? Three of them are children that I don't know. They could be your kids, anyone's kids. They're just younger generation below. And three of them are associates of mine that I no longer really have... That I didn't speak to while I was on curfew, if that makes any sense. Now, the police all accepted that there were sections on every single one of these doors of the six events. And of section one four four which means that there has to be a breach under licensing and section sixty three only apply for under the race bill nineteen ninety four only applies for outdoors twenty people and more outdoors unless trespass has taken place trespass was never proven Now all I'm asking for him to do is pull a few strings and get someone to call an EGM meeting or whatever they need to do, an AGM, whatever they need to do, and just get it called back in court because they've noticed an error in law, yeah, an error in law, and that trespass wasn't proven. Now this releases me from being held captive illegally in my house when everyone knows that they don't have no victims. And it means that if I wanted to continue a corruption case against the Met Police or anybody, I'd have to walk into the police station and continue a corruption case. I don't intend to do this. I intend to be able to get this resolved without no one losing their jobs unless I am forced to do another three years in my house because the ASBO does not stop until 2020, August. I've got to sit in my house illegally being detained and I'm scared to walk out my house before 10 o'clock. I've got a 10 o'clock curfew for seven years of my life. Who gives a...
