Hello Heather, it's Mr. Cordell again. I'm trying to find out if you've been able to do anything in regards to these conversations that we keep having. I can't do anything in regards to these conversations. Like I said, you need to speak to someone through your lawyer. It's not me. I'm acting litigant. Madam, I'm acting litigant. I have no one going... I have nothing... You're my housing team. Under the housing... Under the... Under... What company do you work for? Enfield Council, yes? I do, but you need to go to the relevant person.

Yeah, and who is that? I'm telling you that the relevant people, I've got proof that your staff are acting fraudulently. And I'm telling you, I would like disciplinary action against your staff, and I'd like to show you, the executives, the fraudulent activity.

Now, if I look at all... Nei, nei under my human rights and under everything that your thing sets out to do. For instance, the Mathiiligans live upstairs that I've been explaining to you about. Now in Lemmy's paperwork that he keeps writing to me, he keeps accepting that they have an extra person living in that flat and that that person goes to work and stays in their flat. If you look at condition 24 and 25 of the conditions, it says any person that's living under the statue of Merton that ain't in a tenancy agreement with you, it's against the conditions for them to be in that flat, and it's a breach of tenancy. If you send that into the complaints team... Yes, but what I'm saying is your complaints team is Daniel Ellis, and Daniel Ellis has acted fraudulently... Ok, ok, this, this, this, that ain't, that ain't, I've already wrote to the manager, and I'm still trying to deal with my first subject access request that you told me in 2000 and so and so, to go and speak to the lower departments. Now I've spoke to them lower departments, and I keep getting sent round in circles, I've been to every neighbourhood team, I've got them all on recording, everybody acting in joint circular, And I would like someone to go through this with me. I've just got off the phone to the neighborhood team and asked them to have a meeting with me in regards to taking incidents. And they're refusing to send somebody out to take a statement off me. I've got the same when I call 999.

Og eg kallar deg "my housing officers" Under my housing conditions, her og nå, eg har alle reglene framme av meg. Lemmy gikk til Westminster og gikk med en læring i reglene om housing. Så eg bør forstå, når eg skriver til meg om denne personen oppe, at under condition 52 og 54 og 55, That they shouldn't have wooden flooring, that they are allowing them to drop things above their heads from me. And that they shouldn't be damaging the fixtures to the building. They are not secure tenants. You should be protecting me as a secure tenant. You get paid a higher salary than Lemmy does. Because you are the chief executive admin to the company. So you keep passing this down to me. And I'm telling you that Lemmy is fraudulently copying things out of the computer using my personal data under the personal

data at 1998. He's copying them and pasting them, pasting them, pasting them. And that's fiddle-y. Fiddle-y of duty of care. And it's causing me an economic loss and also causing me the restriction to my liability.

Now this is down to you. I can't actually help you. Can you put me on the phone to Ian Chandon please? Ian, what is it? Ian, what's his...

So who else is above you, who's above Lemmy and above all of these people, Daniel Welles, that I can prove, that you've put me through in a circle through before, and I can prove that they've all acted fraudulently and biased in their decisions, yeah, and that without...

I'm afraid they won't take the call, because they're the ones who've just bolted, that you have to go through your... I don't have a solution, I'm acting, I'm acting litigant by the law.

I'm going to end the call now, because it's a waste of time.

May I ask, what, is me being attacked in my home and asking you is a waste of time?
