... ... Who's speaking may I ask? Yes Greg. Greg how are you doing?

Greg it's Mr Cordell. I'm just trying to find out some information. In 2016, yes I have the date here, on the 15th of April 2016, a load of people came to my home address. And that address is...

My name is Mr. Simon. My Christian name is Paul. My first name is Simon Cordell. My date of birth is the 26th of the 1st, 1981.

Og det jeg vil forstå er at jeg har en offisiell rapport av alle transkriptene og alt det, fordi doktoren har forstått at jeg kom inn i mitt hjem, og de har fyllt inn 135 i en legale, og de har fyllt det inn for en jødse til å grant tilgjengelighet, sier at jeg ikke vil gi dem tilgjengelighet. Når de kom inn i mitt hjem, I had a recording equipment and we questioned the doctors in my house and I have the audio and we questioned the council officers and they admitted that I had gave them access and that I was giving them access and that they had illegally detained the section 135 to get to my house. Now less than two months later after me filing an official complaint with the complaints advocate, Dei illegaly kom til mitt hus, polisen kom til mitt cell, refuset å intervjua mitt, og de samme doktorene som jeg kom til mitt cell, kom til mitt cell, dei aldri tok mitt ut av cellet, jeg har det på CCTV-kamera, dei aldri gav en assesment ut av mitt cell, med mitt doktoret og en ANP-arbeider, en av dem var Maggi Fuller, og dei forstilte mitt til å illegaly bli detinerat i St. Annes Hospital,

Nå har jeg skrevet en offisiell rapport, hver dag og hver sekund. Jeg har skrevet all audio og alt jeg har. Og jeg har snakket med NHS-advokatskapasjonen, og jeg har snakket med mye andre i forhold til disse. Det jeg faktisk er prøvd å oppnå i dag, er at jeg er åpne denne konferens.

Yes. The text is a mixture of Norwegian and English, but the Norwegian is quite broken and appears to be from an automatic transcription. Here's a clear English translation while preserving the meaning as closely as possible:

What I want to explain is that I have an official report containing all of the transcripts and everything else, because the doctor understood that they came into my home and they completed a Section 135 legal application, and they completed it for a judge to grant a warrant, stating that I would not give them access.

When they came into my home, I had recording equipment and we questioned the doctors in my house, and I have the audio recording. We questioned the council officers, and they admitted that I had given them access, that I was giving them access, and that they had unlawfully obtained the Section 135 in order to gain entry to my home.

Now, less than two months later, after I filed an official complaint with the complaints advocate, they illegally came to my house. The police took me to a cell, refused to interview me, and the same doctors who had previously come to my house came to my cell.

They never took me out of the cell. I have this on CCTV footage. They never carried out an assessment outside of my cell. My own doctor and an ANP worker were involved. One of them was Maggie Fuller.

They caused me to be unlawfully detained in St Ann's Hospital.

Now I have written an official report, documenting every day and every second. I have transcribed all of the audio and everything that I have. I have spoken with NHS advocacy services, and I have spoken with many other people regarding these matters.

What I am actually trying to achieve today is that I am opening this conference.

I am actually recording this conversation Greg, yeah? So, what you just said, anything that you just said I will be able to play back and I will be transcribing this up and putting it into my official report as well.

Yeah, so our conversation is going to be going into official documents, yes? Now, what I'm looking for is, who is Dr. Amin? Amin is one of the gentlemen that came into my house, A-M-I-N. And I'm also looking to find a Dr. Alibaz. L-A-L-B-A-Z-A-Z. I'm trying to find their first or second names and who these people are that gained access to my house illegally are.

Okay, so Paul, you said all of this happened and you were placed.

Yes, and then after sent to hospital, after section 2, I went to tribunal, and I proved my innocence at tribunal, I was found not to be well of mind and sanity, and then after that, they forced medical treatment on me, they forced for me to have home treatment under section 111, when they understood that this was illegal for them to force the medication, because I had only been put under section 2, and you do not have to have home treatment. I continue to express myself and record these at every meeting that every single person come to my home, and I took the names of all the workers who tried to force medication on me under the prescription medication act 2012. This is a breach of their statutory duties, and they was not acting as reasonable people, acting with neglect. They were breaching the right to life and the right to my family and private life, including security and liberty. Now I am asking you to follow your stationary duties and explain to me who these other people are employed by the company that you represent the company head who are.

Yeah, and I'm asking you, Greg, who is Dr. Admin? Can you tell me, Paul, can you tell me something? Yes? My address is 109 Burncroft Avenue, B-U-R-N-C-R-O-F-T, Avenue, Enfield, London, N9, E Echo, November 3, 7 Juliette, Quebec. My house is covered in cameras in every room. Echo November 3, 7 Juliette Quebec. My front room has cameras

online, so does my kitchen, so does my bathroom, and every room is on full record in my house. I do not leave the premises until this complaint is being dealt with. I intend to sue employees that work for your company for false imprisonment and falsifying documents, and not going through the correct procedures. There is multiple incidents, and I would like you to please help me. I got detained in St. Anne's for...

I'm asking you in regards to two doctors' names. The Judy Krynich...

Judy Krynich is the director of this... Julia Kvinic is the director of the company and I am suing St. Anne's Hospital as well as an infringement towards my human rights and I have the rest of them and I have video evidence continuously throughout every day. If you would like to send the people, these employees, to attack me again I will be recording and you will have no legs to stand on. This is at the end of your use of following the lead and now I'm in control and I'm controlling the reins And I intend to make sure that disciplinary action happens within your building to some of the employees. And I intend to make them public and make them famous so that they have a problem to get employment again because I do not think they deserve the position that they have because they abuse their positions. I'm sorry, I can't hear you properly. Well, please can you provide me with the doctors names that came into my house? I'm I am not under no team. I was forced, an application, an ASBO application got put against me for the organisation of a legal rage. I never got arrested for something that was illegal. At the time when they decided to serve me the application, I had prior just won a case that I was on curfew for one year for. I was in the house for a year on stringent bowel conditions, barred to go into London. en 8:00 curfew, og jeg måtte signere på polisestasjonen hver dag. Mens jeg var på disse curfew-kondisjoner, jeg jobbet i en kommunikationshall, en kjemphall, en kommunikationshall, og jeg var manager i en kommunikationshall, og hadde klippet til det. Jeg jobbet også med barn med celoposi i Winchmore Hill Park. Jeg jobbet i Enfield Towns Park Festival, Supply & Generator, Drawerns Park Festival, Edmonton Green Festival, og Lock2Lock Festival. I was building my own charity on twosmooth.co.uk, a CIC incorporated association. And in building this company, while I was on the bowel conditions, I won the case. As I walked out my front door, I met another partner because that had damaged my 13 year relationship. I meeting this partner I looked after the person and loved them with all of my heart. To this day now me and that partner have never had an argument. And we have never gave anybody the consent to use our names in any form or other way. So now me and my partner are still in contact. If I choose to contact her I will contact her. Yes, and there was a kid involved. Now, what the police done, was the police served another Rasbo outside my house, and it never had no signatures on the bottom of it. No victim signatures. Now, they gave me seven years curfew inside of my house, on top of that year curfew, which is an eight year curfew, for the organisation of illegal rapes and forgot to arrest me. Now, I looked at the stamps and I noticed they were saying all white people committed the crimes in the 999-cads, and that all the CAD numbers went backwards in the CAD center. I noticed that I knew the laws that I represented and I refused to be a grass to grass up these six people that I do not know that were put in the folder. So I went to the Facebook and copied everyone's Facebook profiles, the people that were organizing these events, and chose not to give them to the police because I'm not doing their line of investigation for them. I kept winding up the call center saying, how have I got some seven years now for a stand-alone ASBO when the maximum sentence if you are arrested is six months in prison? It's abuse of position and I never committed the crimes and I've got the Facebook accounts to prove it. Because I kept calling the call center, they called use.up and use.up come in as a tactical team and attacked me.

Ok, Paul, det du har spørt er for noen doktore. Det betyr at om du har blivit anmeldt til Shenton, det blir bedre om du kaller på Shenton Hospital og finner ut Yes, but it's your team here now. I've got everyone in your team's names now, and every one of their personal phone numbers from Maggie Fuller, South Islet and Mental Health Team, CIM, TRS, I've got every single one of them. And I've got most of them on recording audio and video evidence, and I've got what they've allowed to happen, and the proof that there is no signatures in the first application that's holding me, illegally detaining me, in my house now. I showed all of them, when all the doctors and the council officers came in my house to try to take me away, I had recording equipment in my house, and in that recording we go through everything. We explain... Hello? Vi uttrykker alle de firmaer jeg bygger, vi ser på alle mine systeme og folder som jeg gjør, vi går gjennom de ASBO-folder, og de kan se at det ikke er signaturer, og at timestampene gikk tilbake, og de forstod alt som jeg gjorde. Og de forstod at jeg var i kontraktene med loven, og ikke gjort ingenting feil, og ikke påverket meg i mitt eget hjem. Ok, Paul, jeg trenger å gi deg en kallback. Kan jeg bare...
