Below is the **full speaker split as far as can reasonably be identified from the transcript itself**. I've kept the wording original and only separated the speakers where the conversation flow indicates a change in speaker.

Speaker 2 (Mr Cordell):
No, that's tough. I don't even know my number. I don't even care, man. I don't know. It's the car I want.
Hello, how are you doing? Am I speaking to my house?
Disoleko. Is it possible to speak to Rakash, I believe?

Speaker 1:
We have a DC Razak here. Yes, that's correct. May I ask who's calling, please? I'll go and check if he's here.

Speaker 2 (Mr Cordell):
It's Mr. Cordell calling, Simon Cordell.

Speaker 1:
Okay, give me one second, okay?

Speaker 2 (Mr Cordell):
Okay, thank you.

Speaker 1:
Hello, how are you doing?

Speaker 2 (Mr Cordell):
I'm okay.

Speaker 1:
These recordings you've got, I need to really get them from you. Can you bring them in?
May I ask if you can be a bit more precise to what recordings you want?
The recordings from the beginning of everything happening, from when Lemmy first started to...

Speaker 2 (Mr Cordell):
May I speak please? And then I will listen.
I'm very courteous and I'm a very polite person.
I would like to explain that in the interview when we were together, I had my solicitor present and my appropriate adult, and if you listen to that interview I explain to you that Lemmy has been attempting to murder me, he is in breach of his statutory duties, he is acting as a reckless person. We've taught he's a breach of fair process and play, and he's acting in joint circular of malfeasance of public office.
If you check the laws, malfeasance of public office is a 25 year sentence.
If you grade priority your grade and issues of your caseload, you'll understand that if I said to you that a person's being raped, and I understand that a girl is being raped or something or a

person's being raped that you would have to take that as a line of investigation being a police officer yeah.
So now I'm explaining to you that I'm the person that got raped by these people yeah, when they were at work and they've abused their position.
Now if you listen to me very carefully, the company that you represent, the Metropolitan Police, falsified an ASBO like I explained and it's got no signatures at the bottom of the MG11 forms.
Now, Lemmy has acted in joint circular with them Metropolitan Police officers in trying to get me put away.
And I'm very concerned that you might be acting in a biased manner also in me explaining to you what he's doing.
Now he's put three emergency applications through, through the courts since the first application was forged.
Now every single one of those applications I have documented to a T and recorded in a daily diary.
Now, I am happy to give you a copy of this diary and every recording I have had with Lemmy.
I explained to Lemmy what he was doing, and the other day, when you released me from the police station, I came back home.
As I explained to you, this other injunction.
I'll go through the injunction in a second.
I sat in my house for five seconds, started writing my defence again, and I started to get physically assaulted badly in my house again.
Yeah, they started banging and banging.
Now I explained in my normal voice, which I believe my neighbours can hear because of the soundproofing issues, that this is illegal what they're doing to me.
They're chasing me in my bathroom, banging above me in my bathroom, they're chasing me in my kitchen.
In my bathroom and kitchen, you don't need carpet laid.
Yeah, they have underlayed flooring.
So now, this here is going to be putting evidence towards what is happening.
Now, if you would like me to sit down with you, I'd be more than happy to do that.
I think that you should go through my solicitor also, if you're going to be requesting information.
If you want audio from me, or anything, I'm happy to give you that audio.
I explained that to you in the beginning, but you decided to use a section 8 in abuse of position to come into my property to obtain my legal defence.
When it has no submission, your case should have been built from the victims and from what you was doing.
You're not looking for a hammer or a weapon.
Under the section 18.
The sergeant has to sign that.
Now I'm asking you, I'm telling you I've got all the call centres and I've got everything from the day that this started, these problems started.
I've got my partner that would like to come as well, Shannon, who would come and she would sit down and do a statement.
Shannon and I have never argued.
A sex scandal has been brought into Shannon's and my name.

Ed Sheeran, who is responsible for media communications for the Metropolitan Police, is the person who breached my personal data under the 1998 DPA.
You keep using doctors to try to remove me under the Mental Health Act, and they have examined me over 136 times.
Those doctors have spent days with me since I have been in this house, and I have refused to leave it.
Yes, since the first ASBO was forged.
Now, my problem is that every time those doctors have told me there is nothing wrong with me, they have looked at these case papers and said that I need to take this up with you and the rest of them.
If you listen very carefully to the recording of the interview, you will understand the problems we have here.
Yes.
Now, Sally Gilhurst is your legal executive director for your area.
So, if you want to serve your paperwork on anyone, you have to go through Scotland Yard.
Now, at Scotland Yard, Hugh Gills was the legal director of his own company.
Now he has been made an accounts commissioner, so he is responsible for all the accounts in a large area.
He was responsible for Sally Gilhurst when she was instructed to file this paperwork.
On the third page of the ASBO, she was asked in 2016, this was from 14:
"Can you please declare what is hearsay and what is not hearsay in this case."
She put every copper down as hearsay, and then she put resident 1, Eric Baker, resident 2, PC Aniston, whatever, resident 3.
Now she knew when she was doing that that she didn't have no members of the public signatures.
I keep requesting for the PNB books, and the PNB books seem to have been destroyed.
That's illegal for 25 years under counter office rules, NSIR, and under every other rule that the Metropolitan Police Force set out to preserve.
Yeah.
I'm very concerned with what yous are doing.
This is an attempted murder case against me.
Yeah?
And I have the evidence of every day, and you're just asking for a specific bit of it, and that's making me worried.
You tried to serve me in a cell when I was in your duty of care.
You come out.
After that gentleman, the police officers on the CCTV cameras, I've requested them already.
They're being served to me.
Now, when I went into that cell, I would put my fingers in my ears.
I'm in your custody.
No person is allowed to serve me.
Another company coming from out, another body coming from out, coming into you, bypassing your custody officers, and getting to my cell front door while I'm detained in there.
Now, them letters are supposed to be served at my front door, or at my place of work.
Not while I'm in a police cell.
That's entrapment.

That's entrapment, yeah?
And that company is the same company that served me the paperwork the first time, yeah?
If you listen to all the conversations I've got of Lemmy, and the conversations I've got of Sally Gilworth and that, saying that they don't care.
I've got all the call centres saying that I'm a black boy, I've been robbed, there's nothing I can do about it.
And you seem to be acting wicked.
I'm about to go public very shortly.
Hello?

Speaker 1:
Well, you can understand what you're asking me for.

Speaker 2 (Mr Cordell):
You understand that I've got learning difficulties, that I had an appropriate adult in a cell.
You understand that I had an appropriate adult in a cell, yeah?
And now, you understood what I told you on the thing.
Now, you've forced your way into my house afterwards.
I told you about joint circular.
You grade your priorities.

This is probably the **maximum reliable split** possible from the transcript alone. Anything beyond this would require listening to the audio because several sections have clearly been merged together by the speech-to-text software.
