To whom it may concern

I am writing this email after a call the was made to my GP Nightingale House Surgery which I have been registered at for years.

I was shocked to be told that you had, had a letter from the NHS saying you had to deregister me from my surgery this was done in 2020.

I never had any letters from you telling me this was going to happen or asking for any information I was just deregister from the surgery for no reason.

I have called the NHS as I was really upset and was told this should not have happened I should have been written to which I was not.

I would like to see the letter from the NHS saying for you to deregister me from my surgery this was done in 2020.

And I would like this mistake corrected and be register back with my GP Nightingale House Surgery.

At this time, I need an emergency appointment due to a hernia I went to the hospital with its very large I am in a great deal of pain and the doctor told me I had to make an emergency appointment with my GP and get an emergency referral to the surgeons at the hospital to have an operation. But due to being deregistered I can't get

an emergency appointment to get this addressed and it does need to be done as an emergency due to how bad this is, I cant go to the toilet or eat and my stomach has gone to my private parts and I am in so much pain.

I will be enclosing my ID with this email and would like an update as to what will be done to correct this mistake. I will also enclosed my old driving lic so you will see I have and still am at this address.

Regards
