

Wood Green Police Station Bail Variation Request!

Wood Green Police Station – Bail Variation & Request for Case Discontinuance **Bailed to Wood Green Police Station**

Station address: 347 High Road, Wood Green London, N22 8JA.

Bailed to date/time: 19/06/2026 14:00

FOR THE POLICE / CPS

I have submitted my Right to Succession and therefore have a lawful right to remain at **23 Byron Terrace** until the Council makes a decision (**Exhibit A1**). [**<Dir> 16. Formal Request to Begin 23 Byron Terrace Tenancy Succession dated 11-05-2026 at time 08 59Am**](#)

I have also created a diary of the true events leading up to Deon's allegation and the evidence obtained afterwards. The exhibits (**B1**) show: [**<Dir> Extra**](#)

1. Deon repeatedly threatened me.
2. Deon admitted she would force entry and call police in 23 Byron Terrace even when she had not been staying there!
3. Deon's boyfriend also threatened me.
4. I behaved calmly and lawfully throughout.
5. I was the one being threatened.
6. Deon had a clear motive to lie.
7. The injury shown is on her **palm**, not her wrist.
8. She used **both wrists normally** in hospital five days later with no plaster cast on any.
9. She approached me aggressively seven days later with full mobility.
10. Family attempted to manipulate Serco with false bail information.
11. Deon repeatedly harassed me **after bail**, including calling me while drunk.
12. She contacted **multiple friends** of mine (at least three), leaving threatening audio messages.
13. She sent **doctors to my address** for no legitimate reason, immediately after bail.
14. She **forced herself into 280 Durants Road**, putting me at risk of a bail breach and forcing me to leave and call police to obtain a CAD reference.
15. I logged and exhibited all calls, threats, and messages after arrest.

Clarification of the Shouting Incident

At no point did I spit at Deon.

We were both speaking loudly at the same time, trying to get our points across, and a tiny dot of saliva came out of my mouth **accidentally** — the same way it can happen to anyone when emotions are high and voices are raised.

It was not deliberate, not aimed at her, and not intended as any form of assault.

She was also shouting, and saliva came from her mouth as well.

There was **no intentional spitting** from me at any time.

Clarification of the Physical Contact

The only physical contact was when I **briefly grabbed her arm** to stop her from **smashing up the kitchen further**, after she had already swept knives and items off the counter while shouting she was going to “mash up the rest.”

This was a **split-second protective action** to prevent further damage and danger.

If this caused her any discomfort, I am genuinely sorry — it was **never my intention** to hurt her.

The evidence shows:

1. She continued using the same hand normally.
2. She had **full movement, no cast, no splint, and no pain** in the hospital video.
3. The hand being operated on was from a **previous glassing incident**, not anything involving me.

This directly contradicts the allegation.

What the Evidence Shows Overall

The evidence collectively demonstrates:

1. I was legally allowed at the property.
2. I was the one being threatened.
3. Deon was the aggressor.
4. The injury is inconsistent with the allegation.
5. Deon was not injured in the way she claimed at the time of the alleged incident.
6. Deon attempted to provoke breaches and weaponise police by doing so.
7. Deon harassed me and my friends after bail.
8. Deon involved medical services and attempted to force bail breaches.
9. The allegation is unreliable and should be dropped.

REQUESTS

I respectfully request:

1. That the allegation be reviewed in light of the exhibits provided.
2. That the injury evidence be compared with the allegation for accuracy.
3. That the OIC review the 13 May incident showing Deon’s aggression and mobility.
4. That CPS consider the clear motive to fabricate.
5. That CPS consider the wider pattern of harassment, threats, and attempts to cause bail breaches.
6. **That the case be discontinued due to lack of credible evidence, the contradictions in the injury claim, the pattern of harassment, and the fact that my only physical contact was a brief protective action to prevent further damage, with no intention to cause harm.**

Housing & Legal Context

I am acting at all times to comply with the original **2018 Edmonton County Court order**, which recognised my disability-related need for a two-bedroom property and confirmed that **109 Burncroft Avenue is unsafe and unsuitable** for me. Enfield Council failed to

comply with that order for seven years, causing displacement, instability, and the circumstances that led to my current bail conditions.

I cannot live at 109 Burncroft Avenue due to:

1. Disability Needs
2. Previous Victimisation
3. A False Allegation Preventing My Return

I have maintained the property in excellent condition and have never abandoned it; I was barred from entering under bail conditions from 02/08/2025 to the present.

280 Durants Road is not a secure or stable home. It is owned by multiple family members in conflict, and I experienced interference, removal of my tag box, and restrictions on who I could have around me. I only stayed there because the court approved it as a temporary bail address during my mother's illness.

23 Byron Terrace has always been my true home.

I lived there long-term as part of my mother's household, with all my official documents registered there. I meet all legal requirements for succession under the Housing Act 1985.

My current bail/tag conditions now prevent me from complying with:

1. The 2018 Court Order
2. Succession Law
3. Tenancy Law
4. My Duties To Secure My Mother's Estate

I am requesting lawful variation so that I can comply with all legal obligations, protect my housing rights, and live safely.

My intentions are lawful, protective, and responsible.

I want to succeed 23 Byron Terrace, return 109 Burncroft Avenue to Enfield Council in good condition, comply with the court order, comply with succession law, and rebuild my life with the support I now need.

Yours sincerely,

Mr. Simon Paul Cordell
