Sent	23 Dec 2024 20:57:16	****07107	Aunt all I wanted to do was ask you lot the adults what this meant for us as I never been through it before nor did I go to the meetings when it was done. After everyone going mad because i asking uncle at some stage just now explained but not before all the bullshit happened because of it. There was no funny reason as to why it was asked other than that I am her child and love her.

Received	23 Dec 2024 20:50:18	****07107	And me i don't give a shit it's about my sisters health nothing else she's my sister had her in my life 60 yrs and for you to be sitting there chatting to ppl it's got fck all to do with has hurt me like I would not want the best for you kids feel like your taking me for a mug and to think you would think I'd want to take control and takeover you
