Dear Team, Camden Coroner's Office,

Hello, I hope you are all keeping well, and I would first like to thank you for your assistance so far.

I've been advised that it is best to register my mum's death in Camden, as this is where she passed away at the Royal Free Hospital. When I spoke with Camden Registrars, they explained that her details have not yet been added to the system, and that I should contact your office to request that the coroner updates the case so the registration can go ahead.

It has been explained to me that I cannot currently proceed with booking a registration for my mother, or for my family and myself to obtain the full death certificate, until the coroner's information is entered into the registration system.

Could you please update the record, or let me know if you need anything further from me to complete this. I would also be most grateful if you could contact me back by email with an update regarding this request.

Thank you very much for your assistance in my time of need. I wish your whole team well.

Kind regards, **Simon Cordell**
